HERITAGE AUCTIONS

HA.com

Dear Bidder,

Welcome to San Francisco! On the heels of our record start to 2014, this week we are pleased to bring you this U.S. Coins Signature® Auction, and its excellent selection of more than 2,000 coins, as well as The Donald E. Bently Collection, exemplary both for its quality and its philanthropic purpose.

Both of these auctions afford collectors the opportunity to acquire rare specimens and high-grade examples seen in the very best private collections around the world. A few highlights to watch include:

Fresh-to-auction discoveries, such as an 1831 Capped Bust quarter, PR66, NGC, which was recently discovered in Europe as the only certified Small Letters B-1 proof. It was acquired by a European nobleman during his travels and passed down through his family where Heritage bidders now have the unique opportunity to claim it for their own.

Rare proofs, including an absolutely stunning, orange-gold 1898 double eagle, PR64 Deep Cameo, PCGS, and one of only 75 pieces struck, of which perhaps 35 to 40 examples in all grades survive.

High-grade rarities, led by an 1893 Isabella quarter, MS68, PCGS, the design of which traces its conception to Mrs. Potter Palmer, a Chicago socialite, patron of the arts, and grande dame of the World's Columbian Exposition. Designed as a special issue "souvenir" quarter dollar depicting Spain's Queen Isabella, the coin pays homage to the financier of the voyages to the New World as well as respecting Susan B. Anthony's insistence that women share representation in the administration of the Exposition.

Finest known specimens, chief among them an 1834 Bechtler five dollar K-17, MS63, NGC, which exists as the finest certified example at either of the leading grading services. An important coin to the history of gold mining in Georgia and North Carolina, the K-17 features well-struck design elements and a few highlights of green color add to the outstanding eye appeal.

These are just a few of the great coins available, and the full range of bidding methods is open to you. You can place pre-auction bids through HA.com, mail, fax, and e-mail. On the day of the auction, you can participate remotely via telephone and our award-winning online system, Heritage LIVE!™ Of course, if you can join us in San Francisco, we hope to see you here.

Happy bidding!

Sincerely,

Greg Rohan

President

Todd Imhof

Executive Vice President

SESSION ONE

COLONIALS

1652 Noe-1 Oak Tree Shilling
AU Sharpness

10001 1652 Oak Tree Shilling — Planchet Flaw — PCGS Genuine. AU Details. Noe-1, W-430, Salmon 1-A, R.3. 70.06 gn. A planchet flaw, shaped like a small slice of pie, is noted between 3 o'clock and 3:30. An alloy impurity at the Boston Mint is the likely cause. Nonetheless, a pleasing cream-gray representative that boasts glimmers of luster and a consistent strike. The reverse has ideal centering. The obverse is slightly misaligned toward 11:30. There are no visible marks, though faint hairlines are present near XII. Listed on page 39 of the 2014 *Guide Book*.

10002 1787 Fugio Cent, STATES UNITED, 4 Cinquefoils, Pointed Rays MS61 Brown NGC. N. 13-X, W-6855, R.2. A deep brown example of the famous Federally-authorized type. The strike is precise and flan imperfections are minor. Marks are absent except for a straight line on the obverse dentils at 5 o'clock. Likely from the Bank of New York holdings. Listed on page 87 of the 2014 *Guide Book*. PCGS# 883

10003 (1792-94) Kentucky Token, LANCASTER Edge MS64 Red and Brown NGC. Breen-1156, W-8810, R.5. The Lancaster variant is much rarer than the usual plain edge W-8800 variety. The present fully struck representative retains considerable orange-gold color, though each side has glimpses of gunmetal-gray. A blush of forest-green is noted near the base of the hand. Listed on page 75 of the 2014 *Guide Book*. PCGS# 624

HALF CENT

10004 1809/6 9 Over Inverted 9 AU58 PCGS. CAC. C-5, B-5, R.1. A nicely struck mahogany-brown near-Mint half cent. The surfaces display ample luster. One slender mark left of the O in OF. The Manley Die State is intermediate from 1.0 to 2.0 with upper dentilation absent. NGC ID# 222N, PCGS# 1126

LARGE CENTS

1793 Wreath Cent, XF Details
Vine and Bars Edge, S-9

10005 1793 Wreath Cent, Vine and Bars — Environmental Damage — PCGS Genuine. XF Details. S-9, B-12, R.2. Breen Die State VIII with an advanced crack through the final A in AMERICA. A lavender-gray example with clear legends and generally smooth surfaces. Only moderately granular. Abrasions are minimal, though we note a hair-thin mark near the jaw and a small obverse rim nick at 8:30. Our EAC grade Fine 15. NGC ID# 223H, PCGS# 1347

1794 Cent, XF40
S-57, 'Button on Cap' Variety

10006 1794 Head of 1794 XF40 PCGS. S-57, B-55, R.1. This attractive, medium Brown example of the S-57 variety displays a diagnostic die-lump "button" on the lower corner of the cap. The pole end almost touches a dentil, and two parallel depressions ("trenches") run from the lips and nose to the rim, caused by the defective die used to strike this variety. On the reverse, the lowest berry is embedded in the left bow. A bit of lustrous red appears in Liberty's hair strands. Although a few pinprick-size marks are present on the coin and some obverse rim weakness is seen (typical for the variety), this appealing large cent shows few distractions. Our EAC grade VF25. NGC ID# 223P, PCGS# 901374

10007 1794 Head of 1794 — Corrosion — NGC Details. AU. S-44, B-33, R.1. The heavy radial die crack from 1 o'clock on the reverse confirms the Sheldon pairing. This Liberty Cap cent has only slight wear and is devoid of marks, but the dark ebony-brown surfaces are evenly granular. Nonetheless, design details are bold. Our EAC grade Fine 15.

10008 1801 — Burnished — NGC Details. AU. S-224, B-13, R.1. The glossy deep medium brown surfaces are smooth and perhaps unnaturally prooflike. The portrait is well struck and shows only trivial wear. Moderately granular on the leaves southwest of the C in CENT. Our EAC grade VF25.

10009 1802 XF40 PCGS. S-237, B-10, R.2. A die crack through the N in UNITED helps attribute the Sheldon pairing. A medium brown and gunmetal-gray cent with consistent and pleasing sharpness. A lens reveals minor marks and occasional verdigris. Our EAC grade VF20. NGC ID# 224E, PCGS# 1470

10010 1804 Restrike MS65 Brown PCGS. Per Breen, this variety was privately struck circa 1858 from rusted dies sold by the Mint in 1833 as scrap metal. The obverse die of 1803 S-261 was altered to 1804, then muled with the reverse die of 1820 N-12. The usual lapped die state with weakened hair detail. As made aside from rich steel-blue and aquamarine toning. Our EAC grade AU58. PCGS# 45344

1814 Large Cent, AU58
Crosslet 4, S-294, B-1

10011 1814 Crosslet 4, AU58 PCGS. CAC. S-294, B-1, R.1. The economic hardships of the War of 1812 severely limited the Philadelphia Mint's coining activities in 1814. A nominal mintage of 357,830 large cents was accomplished, with just two die varieties known for the date. This coin represents the S-294 variety, identified by the Crosslet 4 in the date. The lightly abraded brown surfaces of this attractive near-Mint example retain significant amounts of mint luster and a few hints of original red color. Our EAC grade XF40. NGC ID# 224Y, PCGS# 1573

10012 1819 Small Date MS64 Brown NGC. N-9, R.1. The late die state with minimal dentilation. Faded mint red outlines design elements, but the majority of this lustrous near-Gem is medium brown. Nicely struck and only lightly abraded. A pleasing Matron cent type coin. Our EAC grade AU58. NGC ID# 2254, PCGS# 1606

**1822 N-14 Large Cent, Good Details
Rare Middle Date Variety**

10013 1822 — Damaged — NGC Details. Good. N-14, R.7. The 1822 N-14 is always an extremely challenging variety for middle date large cent collectors, with just nine pieces known at last count. A damaged and corroded VG example sold in our January, 2014 Orlando FUN Signature Auction of the Adam Mervis Large Cent Collection, lot 2088, which brought over \$5,000.00.

Rich brown patina covers both sides of this important R.7 variety. The damage on the coin is mostly confined to the reverse, where some sizeable dents exist accompanied by areas of spotty corrosion. The obverse shows a few digs and some surface roughness, as well as a bulge from one of the reverse dents. To date, the finest known example is the Wes Rasmussen coin with a grade of Fine 12 (2/14). Our EAC grade Fair 2.

10014 1823/2 — Burnished — NGC Details. AU. N-1, R.2. The two 1823-dated Mint varieties are the N-1 overdate and the N-2 normal date. The privately made scrap dies “restrike,” paired with an 1813 reverse, completes the very scarce three-coin set. This dark brown example has minimal wear, but the obverse displays a number of wispy marks and is glossy from an attempt to smooth out a field scratch near the chin. Our EAC grade VF25.

10015 1827 MS62 Brown NGC. N-5, R.2. The later die state with a vertical crack left of star 13. The obverse exhibits dark brown toning while the reverse shows lighter golden-brown shades. A sharply struck cent with mark-free surfaces. Our EAC grade AU55. NGC ID# 225H, PCGS# 1651

10016 1829 Large Letters MS61 Brown NGC. N-2, R.2. The later die state with cracks through the first four and last three stars. This satiny chocolate-brown and gunmetal-gray Matron Head cent has exemplary surfaces and good eye appeal. Our EAC grade AU50. NGC ID# 225K, PCGS# 1663

10017 1834 Large 8, Large Stars, Medium Letters — Improperly Cleaned — NGC Details. VF. N-5, High R.4. Only the very scarce Newcomb-5 combines the Large 8, Large Stars, and Medium Letters attributes, and thus becomes a coveted *Guide Book* variety. The walnut-brown surfaces are coated with fine pinscratches, and we note a few areas of moderate granularity. Our EAC grade VG8.

10018 1835 Small 8 and Stars — Improperly Cleaned — NGC Details. XF. N-11, High R.4. Far scarcer than the usually encountered N-6 die marriage of this *Guide Book* variety. A fairly late die state with a heavy crack on the lower reverse. The reverse die apparently shattered prematurely, which explains the relative rarity of N-11. An attractive olive-brown and steel-gray cent with a small lamination between the 35 in the date and a larger lamination near star 8. Our EAC grade VF35.

**1839/6 N-1 Large Cent, XF Details
Early Die State, Scarce Overdate**

10019 1839/6 — Environmental Damage — NGC Details. XF. N-1, R.3. An oddly shaped 9 was cut to obscure the underdigit 6 on an unused 1836 die, which features the Head of 1836 with Plain Hair Cords. This example has Environmental Damage, with dark, slightly granular surfaces. Deep brown toning covers the fields and devices, which offer nice detail despite the surface problems. There are no mentionable marks or other distractions other than a small dig beneath the 8 in the date. Our EAC grade Fine 12.

**1839 Large Cent, XF45
Unknown to Newcomb, Rare N-15 Variety**

10020 1839 Booby Head XF45 NGC. N-15, Low R.6. Although a recent discovery in the realm of large cent varieties, the N-15 die pairing is well-established as the rarest of the 1839 large cent varieties, and it is among the rarest of all large cents from 1816 to 1839. Our archives reveal just three appearances: the Heritage Auctions January, 2005 sale of the Helfenstein coin (Unc Details NCS) and two examples from our Jules Reiver Collection in January, 2006, the finer coin being an AU53 NGC example, which realized \$9,200.00. Goldberg's February, 2009 sale featured the apparently finest-known example graded MS 62 Brown PCGS.

This current representative is a well-detailed and attractive XF45 coin, with smooth, medium brown surfaces. The N-15 diagnostics are clear, with the expected reverse die cracks as described by Noyes and die wear evident on the outer leaves and berries. The obverse die is shared with N-11, and shows the shoulder exposed, long lips with the mouth closed (or nearly so), and star 9 recut at the lowest outer point. Few abrasions are seen for the assigned grade, with two small, identifying marks on Liberty's chin visible with a glass. This is a rare opportunity for an advanced collector to acquire a problem-free and appealing 1839 N-15 cent. Our EAC grade VF30. NGC ID# 225Z, PCGS# 1751

10021 1851 MS65+ Brown PCGS. N-13, R.1. Grellman Die State a, “scarce,” with “lines to right from dentils under 51.” Protected areas are mahogany-brown, and the portrait and open fields are chocolate-brown. Nearly void of marks. Minor mint-made strike-throughs near the denomination and a spot near the O in OF are all that limit the grade. Our EAC grade MS60. NGC ID# 226H, PCGS# 1892

FLYING EAGLE CENTS

1857 Flying Eagle Cent, MS65 Lustrous and Attractive

10022 1857 MS65 PCGS. A lustrous Gem example of this popular type, from one of just two regular-issue dates for the Flying Eagle cent. Light golden-tan toning is complemented by touches of russet patina on both sides. A carefully preserved representative with excellent visual appeal. NGC ID# 2276, PCGS# 2016

1857 Flying Eagle Cent, MS65 Sharply Detailed

10023 1857 MS65 NGC. Eagle Eye Photo Seal, card included. Snow-2 (which is the obverse style of 1856), confirmed on the card image. Luminous peach fields surround well-defined devices. Minimally spotted, with a dot of deep color near 4 o'clock on the reverse rim. This is an all-around pleasing representative of the first official Flying Eagle cent issue, with an especially bold strike on the eagle. NGC ID# 2276, PCGS# 2016

1858/7 Flying Eagle Cent, MS64 FS-301, Bold Variety Diagnostics

10024 1858/7 Large Letters MS64 NGC. Snow-1, FS-301. Eagle Eye Photo Seal, card not included. Within the short-lived Flying Eagle series, the 1858/7 is the sole overdate therein. The telltale diagnostics for the variety are bold on the present lot, both the sharp upper-right artifact of the corner of an underlying 7 on the second 8, and a prominent die dot in the field considerably above but about centered horizontally between the date and the eagle, as well as vertically between the first 8 and the 5. This near-Gem shows attractive, well-struck almond-brown surfaces with a great appearance and no mentionable distractions on either side. One of the keys to the Flying Eagle series. NGC ID# 2TYC, PCGS# 2022

10025 1858 Large Letters MS63 PCGS. High Leaves. Closed E in ONE. An unmarked and coruscating golden-brown example limited in grade only by occasional peripheral carbon and a minor retained lamination on the dentils near the date. NGC ID# 2277, PCGS# 2019

**1858 Small Letters Cent, MS65
Even, Original Copper-Nickel Color**

10026 1858 Small Letters MS65 PCGS. CAC. Eagle Eye Photo Seal, card included. The needle-sharp striking definition and fully lustrous surfaces are devoid of bothersome handling marks, placing this coin solidly at the Gem BU level. Modest, yet appreciable cartwheel visual effects are seen as the surfaces rotate under the light, and the eye appeal is further enhanced by original, evenly distributed color in golden-tan shades. Population: 71 in 65, 9 finer (2/14). Ex: *FUN Signature* (Heritage, 1/2003), lot 5266. NGC ID# 2279, PCGS# 2020

INDIAN CENTS

**1859 Indian Cent, MS65
One-Year Type**

10027 1859 MS65 PCGS. CAC. A highly lustrous example of this scarce, one-year type coin. The obverse is fully struck, and there is only slight softness of detail on the reverse. The surfaces of this piece are pale honey-gold and show little mellowing of the original light color. A couple of small, inconspicuous carbon spots are noted — one on a feather tip and another on the reverse rim at 4:30. Necessary for type collectors and certified in a green label holder. Just 22 pieces have been graded finer by PCGS (2/14). Ex: *Long Beach Signature* (Heritage, 6/2005), lot 5131; *FUN Signature* (Heritage, 7/2007), lot 71; *ANA Signature* (Heritage, 8/2010), lot 3874. NGC ID# 227E, PCGS# 2052

10028 1861 MS66 NGC. Aside from a tiny mark below OF on the obverse, the surfaces of this sharply struck piece are virtually pristine and display gorgeous golden apricot color. A tiny die crack appears near 7 o'clock on the reverse. Census: 45 in 66 (1 in 66+, 4 in 66 ★), 3 finer (2/14). NGC ID# 227G, PCGS# 2061

10029 1867 MS64 Red and Brown PCGS. The lustrous surfaces of this near-Gem also include tiny splashes of attractive toning, among them hues of mint-green and lavender. Areas of light clashing are present. The 1867 Indian cent is a better date in the series, adding to the appeal of this lovely piece. NGC ID# 227R, PCGS# 2089

10030 1870 MS66 Red and Brown NGC. Snow-25. Shallow N in ONE. ONE CENT is die doubled, strongest on the E in CENT and the right uprights of the Ns. Ruby-red high points contrast mildly with orange-gold and olive-green fields. NGC ID# 227U, PCGS# 2098

**1872 Indian Cent, MS65 Red and Brown
Abundant Orange-Red Color**

10031 1872 MS65 Red and Brown PCGS. CAC. Eagle Eye Photo Seal, card included. Bold N in ONE. According to Richard Snow in the *Guide Book of Flying Eagle and Indian Cents*, "Aside from the 1877, this is the toughest date to find today." Apparently, many of the date were melted and most survivors are in lower grades. This example displays a generous amount of orange the obverse and reverse fields, with the devices toned a purple-brown. The strike is strong for the issue on the portrait, headdress, and on the reverse wreath, although the numeral 2 in the date is a bit weak. An attractive, rare cent in this condition, housed in a first-generation "rattler" holder. Population: 68 in 65 (1 in 65+) Red and Brown, 6 finer (2/14). NGC ID# 227W, PCGS# 2104

10032 1873 Doubled LIBERTY, Closed 3 Fine 15 PCGS. CAC. Snow-1, FS-101. Among the most famous die varieties of the Indian cent series. LIBERTY is strongly die doubled, especially evident on the present coin at the L and Y. The steel-gray and mahogany surfaces are unmarked aside from a hair-thin line above the base of the shield. PCGS# 2115

**1873 Doubled LIBERTY Cent, Unc Details
A Classic Doubled Die**

10033 1873 Doubled LIBERTY, Closed 3 — Altered Color — NGC Details. Unc. Snow-1, FS-101. Unlike the many doubled dies that are most obvious at the margins and scarcely visible at the centers, the 1873 Doubled LIBERTY is most obvious at that central obverse device and on the profile to a lesser extent. This unworn example has excellent detail, though the color, which ranges from violet-brown to lemon-gold, is suspect.

10034 1877 VF20 PCGS. A pleasing mid-grade example of this key date. Each side is remarkably free from the abrasions one would expect, with bright surfaces exhibiting a two-toned color scheme between the recesses and high points. NGC ID# 2284, PCGS# 2127

10035 1877 VF20 NGC. A pleasing VF example of this important key, with even wear on the surfaces that leaves all letters in LIBERTY legible on close inspection, but not completely intact. The glossy brown surfaces are lightly abraded. NGC ID# 2284, PCGS# 2127

10036 1877 VF25 PCGS. Chocolate-brown color is present on both sides of this circulated example, with closer examination revealing hints of silver and blue-green color. Though scattered marks are present, none poses a serious distraction on this key date Indian Head cent. NGC ID# 2284, PCGS# 2127

10037 1877 XF40 PCGS. Most of LIBERTY remains sharp on this attractive XF specimen, but slight wear shows on the ribbon end. The pleasing medium brown surfaces are lightly abraded for the grade. NGC ID# 2284, PCGS# 2127

10038 1877 — Improperly Cleaned — NGC Details. XF. The lavender-brown toning is slightly off, and the portrait displays a few small to moderate marks, but many collectors would be delighted to own this nicely defined key date cent. NGC ID# 2284, PCGS# 2127

**1888/7 Indian Cent, Fine 15
Sought-After Overdate Issue**

10039 1888/7 Fine 15 PCGS. CAC. Snow-1, FS-301. Eagle Eye photo seal, card included. The remnants of an undertype 7 are barely visible below the final 8 in the date on this very rare overdate issue. Most of the letters in LIBERTY are still legible on close inspection and the pleasing medium brown surfaces are lightly abraded for the grade. Population: 2 in 15, 16 finer (12/13). NGC ID# 228G, PCGS# 2169

10040 1890 MS66 Red and Brown PCGS. CAC. A superior example, this Premium Gem reveals intermingled hues of orange, red, yellow, and green amid gorgeous luster. Tiny areas of darker color appear near the dentils. This is the sole MS66 Red and Brown example certified by PCGS, with none finer, while NGC has not awarded a grade higher than MS65 to a single Red and Brown piece (2/14). NGC ID# 228J, PCGS# 2176

10041 1894/1894 Doubled Date MS62 Brown PCGS. Snow-1, FS-301. The date is blatantly repunched northeast. The most prominent repunched date variety of the series. A satiny chocolate-brown representative with unabraded fields and a few hair-thin marks on the cheek. PCGS# 92187

10042 1895/895 MS65 Red NGC. Snow-1, FS-301. The 895 is repunched east. A predominantly orange-gold Gem with hints of lilac-red on the portrait and denomination. Lustrous and nicely struck. Carbon and contact appear absent. NGC ID# 228P, PCGS# 2192

10043 1903 MS66 Red PCGS. Eagle Eye Photo Seal, card included. The obverse is peach-gold. The reverse has a lemon-gold center and rose-red throughout the margin. Lustrous and nearly mark-free with minimal carbon. Population: 74 in 66 (3 in 66+) Red, 5 finer (2/14). NGC ID# 228Y, PCGS# 2216

10044 1905 MS66 Red PCGS. The well-preserved surfaces of this impressive Premium Gem show fiery original red color and vibrant mint luster with outstanding eye appeal. Population: 46 in 66 Red, 1 finer (2/14). NGC ID# 2292, PCGS# 2222

10045 1909 MS66 Red PCGS. Eagle Eye Photo Seal, card included. A magnificent olive-gold final-year type coin. Precisely struck and immaculate with vibrant cartwheel sheen.
Ex: Long Beach Signature (Heritage, 6/2006), lot 267, which realized \$1,380. NGC ID# 2297, PCGS# 2237

10046 1909-S — Questionable Color — PCGS Genuine. Unc. Details. Both sides display substantial fire-red, though streaks of steel-gray cross the obverse. Satiny and nearly devoid of contact. The feather tips and shoulder curl show minor inexactness of strike. Lowest mintage issue of the series. NGC ID# 2298, PCGS# 2238

10047 1909-S MS64 Red and Brown NGC. CAC. Wheat-gold color is predominant on this lovely near-Gem providing the coin with a nice appearance, along with pleasing splashes of orange-gold, primarily on the obverse. Areas of the rim, as seen near 7 o'clock on the reverse, lack a complete strike. NGC ID# 2298, PCGS# 2239

**1909-S Indian Cent, MS64 Red
An In-Demand Key Date**

10048 1909-S MS64 Red PCGS. CAC. The 1909-S has the lowest mintage (309,000 pieces) of the Indian Head cent series, but the survival rate is relatively high owing to it being the last year of issue. That said, it is still an important key date, and fully Red pieces in the better Mint State grades are in high demand. Orange luster envelops this near-Gem. The first couple of feather tips and the shield are somewhat soft as typically seen, but all four diamonds are sharp. A few light ticks preclude Gem classification. NGC ID# 2298, PCGS# 2240

PROOF INDIAN CENTS

**1859 Cent, PR66
Well-Struck Example of This One-Year Subtype**

10049 1859 PR66 PCGS. This Premium Gem representative displays rich luster and primarily apricot color. Sharply struck on the portrait and the laurel wreath, a reverse device used only in 1859. A few tiny as-made strike-throughs are present, but are not distracting. Population: 21 in 66, 1 finer (2/14).
Eagle Eye Photo Seal, card included. NGC ID# 2299, PCGS# 2247

10050 1862 PR65 Cameo PCGS. Ex: Eagle Eye Photo Seal, card included. A sharply struck caramel-gold Gem that boasts flashy fields and only inconsequential carbon. One hair-thin field line near 12 o'clock. Population: 21 in 65, 26 finer (2/14). PCGS# 82259

**1866 Gem Red Cameo Proof Indian Cent
Brightly Mirrored Fields, Great Color**

- 10051 1866 PR65 Red Cameo PCGS.** Eagle Eye Photo Seal, card included. Unbelievable depth of mirrored reflectivity flashes in the fields on each side. In fact, the depth of mirroring sets up such a strong contrast with the devices, we are of the opinion this coin might just as easily be called a Deep Cameo. Bright, original orange-red color covers each side, and there are virtually no blemishes present. This is a special coin for the Indian cent collector as so few early dates remain with intact mint color. Population: 9 in 65, 3 finer (2/14). PCGS# 82287

**1867 Cent, PR66 Red
Lustrous and Appealing**

- 10052 1867 PR66 Red NGC.** Pale copper-gold color overall with occasional variations toward sea-green and peach. Both sides have exquisite detail and ample eye appeal, though scattered tiny flyspecks of carbon are present. Census: 6 in 66 Red, 0 finer (2/14). Eagle Eye Photo Seal, card included. NGC ID# 229K, PCGS# 2290

**1877 Indian Cent, PR64 Red
Strong Date Pressure on Proof of This Date**

- 10053 1877 PR64 Red PCGS.** Because of the preeminence of the 1877 business strike as the key issue of the Indian cent series, proofs of this date are also very popular with specialists. The currently offered coin is an attractive near-Gem with original orange-red color. The fields are brightly reflective, with slightly deeper red color throughout. A few tiny, barely visible carbon flecks, and a small linear strike-through directly below the O in OF in the upper right obverse field, are seemingly all that separate this piece from a full Gem grade. Population: 40 in 64 Red, 32 finer (2/14). NGC ID# 229W, PCGS# 2320

- 10054 1900 PR65 Red NGC. CAC.** Rich cherry-red embraces the centers of this brightly mirrored and fully struck Gem. Sun-gold and orange shades are also evident. A pair of tiny flecks near the I in AMERICA. Certified in a prior generation holder. Census: 16 in 65 Red, 15 finer (2/14). NGC ID# 22AN, PCGS# 2389

- 10055 1903 PR66 Red PCGS.** Eagle Eye Photo Seal, card included. Beautiful peach-red, olive-green, and butter-gold shades endow this well struck and flashy high grade specimen. A few minute flecks on the central reverse deny perfection.
Ex: Dallas Signature (Heritage, 12/2004), lot 5133; St. Louis Central States (Heritage, 5/2007), lot 1201, which realized \$1,725. NGC ID# 22AS, PCGS# 2398

LINCOLN CENTS

- 10056 1909-S VDB XF40 PCGS. CAC.** Slight wear shows on the well-detailed design elements of this first-year key Lincoln cent but the designer's initials remain completely legible and the pleasing brown surfaces are lightly abraded. NGC ID# 22B2, PCGS# 2426

**1909-S VDB Lincoln Cent, MS65 Red and Brown
A Vibrant and Well-Preserved Example**

- 10057 1909-S VDB MS65 Red and Brown PCGS.** This is a particularly attractive example of the first-year 1909-S VDB Lincoln cent, a key issue that has remained near and dear to the hearts of collectors for more than a century. Sharply-struck and well-preserved, this vibrant example displays rich reddish-gold coloration and minimal flyspecks. Both sides of the coin are mark-free. NGC ID# 22B2, PCGS# 2427

**1909-S VDB Cent, MS65 Red and Brown
Above-Average Eye Appeal**

- 10058 1909-S VDB MS65 Red and Brown PCGS. CAC.** The ownership of a 1909-S VDB Lincoln cent is a badge of accomplishment in any grade. Mint State examples in full red or partially red color are especially desirable. Reddish-gold luster dominates this Red and Brown Gem, especially the obverse. Moreover, a sharp strike characterizes the design elements, including the lines and grains in the wheat stalks and the VDB initials, though the hair above Lincoln's ear is a touch soft. A couple of minuscule flecks on the obverse do not distract. The CAC sticker affirms the coin's above-average eye appeal. NGC ID# 22B2, PCGS# 2427

**1909-S Lincoln Cent, MS66 Red
Four Finer at PCGS**

10059 1909-S MS66 Red PCGS. Although by no means the overall rarity that its counterpart with the VDB initials is, the 1909-S Lincoln has actually seen fewer pieces certified in Gem and higher grades. This impressive Premium Gem Red example features bright golden-tan color to go along with virtually unabraded surfaces. PCGS has certified only four Red examples finer (2/14).
Ex: Long Beach Signature (Heritage, 2/2009), lot 388. NGC ID# 22B4, PCGS# 2434

10060 1909-S S Over Horizontal S MS65+ Red PCGS. FS-1502. Subtle olive-green shades enrich the centers, while the broad margins are apricot-gold. Fully struck and highly lustrous with infrequent carbon and minor field grazes. A popular *Guide Book* variety. PCGS# 92434

10061 1909-S S Over Horizontal S MS66 Red PCGS. CAC. FS-1502. Portions of the blundered mintmark are obvious when this sun-gold Premium Gem is inspected beneath a loupe. Lustrous and fully struck with a small streak of forest-green at 3 o'clock on the reverse.
Ex: Long Beach Signature (Heritage, 2/2009), lot 392, which realized \$3,220. PCGS# 92434

10062 1911-S MS65 Red and Brown PCGS. The fire-red obverse is paired with a sea-green and golden-brown reverse. This early branch mint Gem has dynamic luster and exemplary surfaces. Certified in a green label holder. NGC ID# 22B9, PCGS# 2448

10063 1912 MS66 Red PCGS. Fully brilliant and lustrous with scattered areas that exhibit a slightly greenish tint. The strike is nearly perfect and none of the few post-striking impairments are worthy of mention. Much scarcer in this condition than one might imagine. Population: 87 in 66 (2 in 66+) Red, 8 finer (2/14).
Ex: Long Beach Signature (Heritage, 6/2001), lot 8585. NGC ID# 22BA, PCGS# 2452

1912-S Cent, Sharply Struck MS65 Red

10064 1912-S MS65 Red PCGS. Reddish-orange and yellow-gold luster emanates from both sides of this S-mint Gem and a solid strike delivers sharp definition to the design elements, including Lincoln's hair and bow tie and most of the lines in the wheat stalks. A couple of small flecks are visible on each side. Population: 59 in 65 (3 in 65+) Red, 0 finer (2/14). NGC ID# 22BC, PCGS# 2458

10065 1913-S MS65 Red and Brown PCGS. The well-preserved surfaces of this early series issue show mostly original red patina, with a few hints of crimson. Vibrant mint luster and sharply detailed design elements add to the outstanding visual appeal. Population: 33 in 65 Red and Brown, 0 finer (2/14). NGC ID# 22BE, PCGS# 2466

10066 1914-D AU55 NGC. CAC. Rich overall chocolate-brown color gives way to gorgeous splashes of gold, pale blue, light green, and orange-red on both sides when this Choice AU cent is examined closely. Portions of the reverse rim reveal light cuds. NGC ID# 22BH, PCGS# 2471

10067 1916 MS67 Red PCGS. CAC. Rich vivid orange color covers both sides of this Superb Gem, providing the piece with strong immediate eye appeal. Closer examination further confirms the attractiveness of this piece. Adding to the desirability, neither PCGS nor NGC has awarded a higher numeric grade to a single example (2/14). NGC ID# 22BN, PCGS# 2488

10068 1916-S MS65 Red and Brown PCGS. CAC. Vibrant mint luster radiates from the original red surfaces of this attractive Gem, with just a single microscopic speck of carbon near the obverse rim at 7:30. The design elements are well-detailed and only minor signs of contact are present. Population: 32 in 65 Red and Brown, 0 finer (2/14). NGC ID# 22BR, PCGS# 2493

10069 1917-S MS65 Red and Brown PCGS. The original red surfaces of this attractive Gem have mellowed to light brown in a few areas, but only minor signs of contact are evident. Sharply detailed and brightly lustrous. Population: 39 in 65 Red and Brown, 0 finer (2/14). NGC ID# 22BU, PCGS# 2502

10070 1919 MS67 Red PCGS. Lustrous orange color and virtually pristine surfaces are among the attributes this Superb Gem cent possesses. Only a few minuscule hints of carbon are present. Population: 65 in 67 (2 in 67+) Red, 16 finer (2/14). NGC ID# 22BY, PCGS# 2515

10071 1919-S MS65 Red and Brown PCGS. Splendid apple-green and cherry-red shades grace this lustrous and fully struck Gem. An aesthetic treat for the advanced cent collector. Housed in an old green label holder. NGC ID# 22C2, PCGS# 2520

10072 1922-D MS65 Red PCGS. The original red surfaces of this delightful Gem display only minor contact marks and no trace of carbon. The design elements are sharply detailed throughout and blazing mint luster radiates from both sides. Population: 85 in 65 Red, 10 finer (2/14). NGC ID# 22C8, PCGS# 2539

**1922 Lincoln Cent, MS63 Red and Brown
No D, Weak Reverse**

10073 1922 No D Weak Reverse MS63 Red and Brown PCGS. CAC. Die Pair 1. The second 2 is weaker than the first 2, and the first T in TRUST is smaller and more distinct than the other letters. WE is quite soft. This is one of the Weak D die pairs. The faint remnants of a D still appear on the obverse, which is lustrous golden-orange, while the reverse shows waves of orange, lilac, and deep brownish-purple. Population: 23 in 63 Red and Brown, 9 finer (2/14). PCGS# 2541

**1925-S Cent, MS65 Red and Brown
Ex: Burning Tree Collection**

10074 1925-S MS65 Red and Brown PCGS. The 1925-S is among the rarest dates in the series in full Red. The present Gem does have some mellowing of color on the portrait, but the remainder of the surfaces are orange-red. Lustrous, crisply struck, spot-free, and unabraded. Housed in a green label holder.
Ex: Burning Tree Collection (Heritage, 3/2009), lot 310, which realized \$4,025. NGC ID# 22CH, PCGS# 2565

10075 1926-S MS64 Red and Brown PCGS. The lightly marked surfaces of this attractive Choice example show a mix of original red and light brown patina, with well-detailed design elements and vibrant mint luster. PCGS has graded 14 numerically finer examples (2/14). NGC ID# 22CL, PCGS# 2574

10076 1930 MS67 Red PCGS. CAC. An early Depression-era Superb Gem. CAC-approved with soft, full red luster adorning both sides. Only one example has graded higher at PCGS and NGC combined (2/14). NGC ID# 22CX, PCGS# 2605

10077 1935 MS67+ Red PCGS. CAC. This high-end Superb Gem displays pristine original red surfaces with vibrant mint luster and well-detailed design elements. PCGS has graded five numerically finer examples (2/14). NGC ID# 22DB, PCGS# 2641

10078 1941 Doubled Die Obverse MS65 Red and Brown PCGS. FS-102. The Cherrypickers' Guide lists three different doubled die obverse varieties for 1941, but FS-102 is the strongest and most valuable. Cherry-red, orange-gold, and olive-green grace this lustrous, smooth, and well struck Gem. PCGS# 37782

10079 1943-D MS68 NGC. CAC. A flawless steel cent with a hint of caramel-gold obverse toning. The reverse remains as struck. Intricately struck and thoroughly lustrous. Encased in a former generation holder. Census: 50 in 68, none finer (2/14).
Ex: Long Beach Signature (Heritage, 2/2009), lot 7567. PCGS# 2714

**1946-D Lincoln, MS67+ Red
Tied for Finest Certified**

10080 1946-D MS67+ Red PCGS. CAC. Splendid fire-orange surfaces are lustrous and expectedly free of mentionable spots, impairments, or contact. The strike is equally as impeccable as the eye appeal. PCGS has seen well over a hundred Superb Gems, but this MS67+ Red coin is currently tied for the finest at PCGS. Population: 2 in 67+ Red, 0 finer (2/14). NGC ID# 22EL, PCGS# 2746

10081 1948 MS67 Red NGC. An orange-red Superb Gem that boasts blazing luster and only inconsequential carbon. Contact is absent save for a tick near the A in STATES. Housed in a first generation holder. Census: 58 in 67 Red, 0 finer (2/14). NGC ID# 22ES, PCGS# 2761

10082 1949-S MS67+ Red PCGS. CAC. Satiny copper-red luster exhibits virtually unblemished surfaces on this CAC-approved Superb Gem. PCGS has award Plus status to a mere two examples, and none have graded higher at either PCGS nor NGC (2/14). NGC ID# 22EX, PCGS# 2776

10083 1953-S MS67+ Red PCGS. When it comes to 1953-S Lincoln cents, this is about as good as it gets. Frosty full mint bloom radiates from this coin's nearly perfect surfaces, with bright red hues deepening toward the centers. None have graded finer at PCGS or NGC (2/14), and this Plus-certified coin is one of only two pieces so graded by PCGS. NGC ID# 22FB, PCGS# 2812

**1954 Lincoln Cent, MS67 Red
Tied for Finest Known**

10084 1954 MS67 Red PCGS. Only four 1954 Lincoln cents have been rated as Superb Gems by PCGS with full Red color (2/14); a very low number when one considers that nearly 72 million pieces were produced. None are graded finer at either service. The exceptional quality of this coin is confirmed by a review of comments made by David Lange in his 2005 reference *The Complete Guide to Lincoln Cents*: "1954-P cents are noted for their generally poor quality. Most are dark and were coined from severely overused dies. ... The reasons for both the low mintage and the drastically inferior quality of this issue remain unknown."

Razor-sharp strike definition and rich original mint-red luster support the MS67 Red grade assessment, along with clean, nearly pristine surfaces and vibrant luster. A great coin with tremendous eye appeal.
NGC ID# 22FC, PCGS# 2815

10085 1955 Doubled Die Obverse — Improperly Cleaned — NGC Details. XF. FS-101. A well defined example of the remarkable doubled die variety. Luster emerges from the design despite moderate wear on the portrait high points. The orange-gold surfaces are somewhat bright and display hairlines. NGC ID# 22FG, PCGS# 2825

10086 1955 Doubled Die Obverse — Improperly Cleaned — NGC Details. AU. FS-101. The best known of all doubled die varieties. Well defined with good luster and unmarked surfaces. This apricot-gold example was recolored to pass as Uncirculated, but the cheekbone displays slight wear. NGC ID# 22FG, PCGS# 2825

10087 1955 Doubled Die Obverse — Improperly Cleaned — NGC Details. AU. FS-101. This satiny representative has only a trace of wear but is recolored peach-gold to pass as Mint State. Minimally abraded and attractive. Exceptional die doubling on the obverse legends has made this variety a longtime collector favorite.

10088 1955 Doubled Die Obverse — Improperly Cleaned — NGC Details. AU. FS-101. The most dramatic die variety of the series. The jaw and cheekbone display a hint of wear. Recolored, and, over time, retoned deep fire-red. A cluster of minute spots is noted near the profile. NGC ID# 22FG, PCGS# 2825

10089 1955 Doubled Die Obverse AU53 NGC. FS-101. An olive-brown representative of this famous Lincoln cent variety. All obverse legends exhibit remarkable doubling. The portrait shows light wear but there are no visible marks. NGC ID# 22FG, PCGS# 2825

10090 1955 Doubled Die Obverse MS62 Brown PCGS. FS-101. A boldly struck chocolate-brown representative that boasts vibrant cartwheel sheen and a smattering of individually trivial ticks. The most famous of all doubled die varieties. NGC ID# 22FG, PCGS# 2825

1955 Doubled Die Obverse, MS63 Brown Traces of Original Red

10091 1955 Doubled Die Obverse MS63 Brown PCGS. FS-101. A Select example of this legendary doubled die variety. Toned medium brown with traces of the original red in the design crevices. The strike is generally crisp though the cheekbone shows minor weakness. Marks are essentially absent though the left obverse border has four moderate-sized spots with another centered beneath the date. NGC ID# 22FG, PCGS# 2825

1955 Doubled Die Obverse Cent A Pleasing MS64 Brown

10092 1955 Doubled Die Obverse MS64 Brown PCGS. CAC. FS-101. Uniform light brown patination runs over both sides of this near-Gem. The date and all obverse lettering are dramatically doubled. The design elements are generally softly struck, a typical characteristic of this issue. No significant contact marks or spots are evident. A very pleasing Brown example. PCGS has seen only seven finer in this color designation (2/14). NGC ID# 22FG, PCGS# 2825

1955 Doubled Die Obverse Cent MS64 Red and Brown, FS-101

10093 1955 Doubled Die Obverse MS64 Red and Brown NGC. FS-101. Remarkable and consistent obverse die doubling is the hallmark of this famous *Guide Book* variety. Most '55 doubled die cents are brown, even among Uncirculated examples. However, the present lustrous near-Gem displays substantial fire-red, albeit blended with olive-green hues. A lens reveals only incidental contact. NGC ID# 22FG, PCGS# 2826

10094 1960-D Large Date MS67 Red PCGS. The 1960-D Large Date, while common in most grades, is rare in MS67 Red; PCGS has graded only 13 examples in this grade, with none finer (2/14). The present coin displays bright mint bloom, well-struck devices, and no detracting abrasions. NGC ID# 22FY, PCGS# 2866

10095 1970 MS67+ Red PCGS. Vibrant copper-red abounds on this boldly struck Superb Gem. None have graded finer at PCGS or NGC, and this is one of only two MS67 examples that received a Plus designation from PCGS (2/14). Full luster and immaculate surfaces are the hallmark of this piece. NGC ID# 22GK, PCGS# 2932

1972 Lincoln Cent, MS67 Red Doubled Die Obverse, FS-101

10096 1972 Doubled Die Obverse MS67 Red PCGS. FS-101. This spectacular Superb Gem shows strong doubling on the date, LIBERTY and IN GOD WE TRUST, identifying the popular FS-101 variety. The design elements are sharply detailed and the well-preserved original red surfaces radiate vibrant mint luster. Eye appeal is terrific. Population: 21 in 67 Red, 1 finer (2/14). NGC ID# 22GU, PCGS# 2950

10097 1975-D MS67+ Red PCGS. A high-end Superb Gem with razor-sharp definition on all design elements and pristine original red surfaces that radiate vibrant mint luster. Population: 36 in 67 (2 in 67+) Red, 0 finer (2/14). NGC ID# 22H6, PCGS# 2979

10098 1983 Doubled Die Reverse MS67 Red PCGS. FS-801. The reverse is strongly die doubled north. A virtually pristine representative of this coveted *Guide Book* variety. Both sides display tiny bubbles beneath the copper plate, as usual for 1983 cents. Population: 42 in 67 (1 in 67+) Red, 0 finer (2/14). NGC ID# 22HW, PCGS# 3056

PROOF LINCOLN CENTS

1909 Lincoln Cent, PR66 Red Beautifully Toned

10099 1909 PR66 Red PCGS. CAC. Gorgeous color, in hues of pale copper, orange, red, and yellow provide this Premium Gem with an exceptional appearance, with the reverse exhibiting the deepest shades. Rich luster is also present. A few tiny flyspecks do not detract from the appearance of this desirable specimen. Population: 42 in 66 (1 in 66+) Red, 6 finer (2/14). NGC ID# 22KS, PCGS# 3305

1910 Cent, PR66 Red and Brown Scarce in This Grade and Color

10100 1910 PR66 Red and Brown PCGS. The matte proof 1910 Lincoln cent comes from a relatively generous mintage of 4,083 pieces, but Premium Gems in all three color designations are very scarce and rare any finer. Because these proofs were wrapped in tissue paper when sold, the majority have completely or partially toned from the sulphur (Flynn, 2009). A good amount of luster remains on both sides of this PR66. Additionally, the design elements are sharply struck and neither side reveals significant marks or spots. This specimen displays pleasing eye appeal. Population: 24 in 66 (1 in 66+) Red and Brown, 4 finer (2/14). NGC ID# 22KT, PCGS# 3307

10101 1911 PR65 Brown PCGS. CAC. This impressive Gem displays razor-sharp definition on all design elements and the well-preserved medium brown surfaces retain a few hints of original red color. From a matte proof mintage of 1,725 pieces. Population: 34 in 65 Brown, 15 finer (2/14). NGC ID# 22KU, PCGS# 3309

10102 1912 PR65 Brown PCGS. Gorgeous toning provides both sides of this sharply struck Gem with immediate eye appeal. Rich shades of green are predominant, in hues of aqua, lime-green, apple-green, and blue-green. Among the other colors present are deep pink, lavender, orange, and bright yellow. Population: 41 in 65 Brown, 15 finer (2/14). NGC ID# 22KV, PCGS# 3312

1936 Lincoln Cent, PR66 Red Popular All-Brilliant Finish

10103 1936 Type Two — Brilliant Finish PR66 Red PCGS. CAC. This spectacular Premium Gem exhibits the all-brilliant finish used later in the year, after the satin finish proved unpopular with collectors. The design elements are sharply detailed and the original red surfaces show no mentionable distractions. Population: 37 in 66 (1 in 66+) Red, 2 finer (2/14). NGC ID# 22L3, PCGS# 3335

10104 1960 Small Date PR68 Deep Cameo PCGS. Ex: The Elite Cameo Collection. A pristine golden-orange specimen with dramatic cameo contrast. The Small Date is more elusive and more prized than its Large Date counterpart in both business strike and proof formats. Population: 39 in 68 Deep Cameo, 0 finer (2/14). Ex: Long Beach Signature (Heritage, 9/2004), lot 5640, which realized \$3,105. NGC ID# 22LL, PCGS# 93392

TWO CENT PIECES

1865 Two Cent Piece, MS66 Red Lustrous and Sharply Struck

10105 1865 MS66 Red PCGS. Fancy 5. Reddish-gold luster adorns both sides of this Premium Gem, and both sides are sharply struck. Close inspection reveals no mentionable contact marks or spotting. A small horizontal mark on the upper curve of the 2 in the denomination may help to pedigree the coin. Population: 43 in 66 Red, 1 finer (2/14). NGC ID# 22NA, PCGS# 3584

10106 1866 MS65 Red PCGS. Appealing luster and lovely orange and wheat-gold hues, including a few hints of red, provide this Gem with a pleasing appearance. A few tiny splashes of golden-brown color appear near 3 and 5 o'clock on the obverse. Scattered microscopic specks of carbon are present. Population: 47 in 65 (2 in 65+) Red, 8 finer (2/14). NGC ID# 274R, PCGS# 3590

10107 1872 XF40 NGC. CAC. The 1872 two cent piece boasts both the lowest mintage of the entire regular issue series with only 64,000 pieces produced, and it stands out as the last example of the denomination struck for circulation. The present coin exhibits even chocolate color overall with well-defined details. NGC ID# 22NG, PCGS# 3612

PROOF TWO CENT PIECES

1873 Closed 3 Two Cent Piece, PR64 Red and Brown Lovely and Impressive Original Striking

- 10108 1873 Closed 3 PR64 Red and Brown PCGS.** For the proof-only 1873, the Closed 3 pieces were struck the same year as the date, while the slightly scarcer Open 3 examples are called restrikes, though they might also have been struck in 1873. The present near-Gem is an original striking, and is sharply struck with minimal carbon and dusky orange-gold and steel-blue color. Encapsulated in an old green label holder. NGC ID# 2753, PCGS# 3652

1873 Open 3 Two Cent Piece PR65 Red and Brown

- 10109 1873 Open 3 PR65 Red and Brown NGC.** Mintages of two cent pieces dropped annually throughout its 10-year run, from nearly 20,000,000 pieces in 1864 to a scant 1,100 pieces in 1873. The 1873 production was proof-only and divided between 600 Closed 3 and 500 Open 3 pieces. The present fully struck specimen is predominantly peach-gold although the obverse in particular is moderately mellowed. NGC ID# 2754, PCGS# 3655

THREE CENT SILVER

1851 Three Cent, MS66+ Condition Rarity

- 10110 1851 MS66+ PCGS. CAC.** Although a huge mintage of nearly 5.5 million pieces was struck to replace vanishing Seated Liberty coinage (which was widely hoarded), the first-year trime was not preserved in high grades in any consistent or forward-thinking way. As a result, Premium Gem examples are scarce and Superb Gems are rare. This MS66+ example walks the line between the two grades. A hard-to-find full strike and satiny luster appear on smooth, softly glowing surfaces. A bit of reddish-gold toning visits the unmarked fields and devices. PCGS has certified just two MS66+ examples, and 13 pieces finer (2/14). NGC ID# 22YX, PCGS# 3664

- 10111 1851-O MS64 PCGS.** The 1851-O three cent piece stands out as the only issue of that denomination struck at a branch mint, and is highly sought in Mint State condition. The present example displays original luster showing through light golden and lavender patina on both sides. Some minor weakness is noted in the star, as is typical of this issue. NGC ID# 22YY, PCGS# 3665

- 10112 1852 MS66 PCGS.** The 1852 trime claims the largest mintage of the series, but the issue does become scarce at the MS66 level, and finer grades are rare. This well-detailed Premium Gem displays well-preserved lustrous surfaces with hints of pale gold toning. NGC ID# 22YZ, PCGS# 3666

- 10113 1861 MS66 PCGS.** Lustrous silver-white surfaces provide this well struck Premium Gem with immediate eye appeal. Closer examination only confirms the attractiveness. Both sides exhibit heavy clash marks. Population: 77 in 66, 29 finer (2/14). NGC ID# 22ZA, PCGS# 3679

PROOF THREE CENT SILVER

1863 Three Cent Silver, PR67 NGC Conditionally Rare

- 10114 1863 PR67 NGC.** A low-mintage proof date that is rare at this advanced grade level. Lovely sky-blue, peach, yellow, and lilac shades adorn the flawlessly preserved surfaces of this gorgeous Superb Gem. The design motifs are sharply struck and watery reflectivity emerges from the fields. Census: 7 in 67 (1 in 67 ★), 1 finer (2/14). NGC ID# 22ZP, PCGS# 3712

- 10115 1868 PR65 Cameo PCGS. CAC.** Beautifully toned, this Gem displays shades of pale yellow-gold, orange, teal, red-orange, and lavender. The proof mintage for the 1868 three cent coin consisted of only 600 pieces and only a small percentage of survivors have received the Cameo designation, adding to the appeal of this attractive specimen. Population: 10 in 65 Cameo, 7 finer (2/14). PCGS# 83718

- 10116 1870 PR64 Cameo NGC.** The surfaces of this near-Gem display gold color overall, with tiny scattered splashes of sea-green, forest-green, red-pink, and apricot also present. A number of die polish lines appear on the obverse. Census: 6 in 64 Cameo, 11 finer (2/14). PCGS# 83721

THREE CENT NICKELS

- 10117 1868 MS66 NGC.** Clash marks are present on both sides of this richly lustrous Premium Gem specimen displaying subtle golden toning. A few minuscule carbon flecks appear and the upper reverse reveals a few tiny die cracks. Census: 16 in 66, 4 finer (2/14). NGC ID# 2756, PCGS# 3734

- 10118 1887 MS65+ PCGS. CAC.** A high-end Gem example from a mintage of only 5,001 business strikes, this coin displays nice color and eye appeal. Portions of the border elements display blending. Population: 29 in 65 (1 in 65+), 13 finer (2/14). NGC ID# 22NU, PCGS# 3755

PROOF THREE CENT NICKELS

1865 Three Cent Nickel, PR65 Ultra Cameo Conditionally Rare

10119 1865 PR65 Ultra Cameo NGC. The exceptional white-on-black contrast provides strong eye appeal. This is a brilliant Gem that is flawless aside from a small spot in the upper reverse field. This first-year three cent nickel has a pattern opposite that of the later years in the series: the business strikes are high-mintage and common, while the proofs are rarely encountered, especially with Ultra Cameo contrast. The date is repunched west with a wide spread. Census: 4 in 65 Ultra Cameo, 9 finer (2/14).
Ex: New York Signature Sale (Heritage, 7/2004), lot 5385; Long Beach Signature (Heritage 2/2005), lot 5717. PCGS# 93761

10120 1867 PR66 Cameo NGC. CAC. Light cameo contrast appears on each side of this lovely specimen. Contrasting proofs from the first few years of three cent nickel production are rarely encountered. This piece has delicate champagne toning over its light gray surfaces. Census: 68 in 66 (1 in 66+, 5 in 66 ★), 5 finer (2/14). PCGS# 83763

1868 Three Cent Nickel, PR67 Cameo None Numerically Finer at NGC or PCGS

10121 1868 PR67 Cameo NGC. *Ex: The Mike Jacobson Collection.* A completely untoned and extraordinarily well mirrored specimen, this piece displays a touch of contrast between the fields and the devices. Early Three Cent Nickel Proofs are rarely found with this kind of flash and technical merit. Census: 12 in 67 Cameo (1 in 67 ★ Cameo), 0 finer (2/14).
Ex: Long Beach Signature (Heritage, 2/2005), lot 5724. PCGS# 83764

10122 1870 PR66 Cameo NGC. Nice luster and a pleasing degree of contrast provide this Premium Gem with lovely eye appeal. A few as-made strike-throughs appear on the obverse, including one on Liberty's cheek. The reverse displays a few small splashes of light color. Census: 26 in 66 Cameo (1 in 66+ Cameo, 2 in 66 ★ Cameo), 3 finer (2/14). PCGS# 83766

10123 1873 Closed 3 PR66 PCGS. CAC. The 1,100 proof three cent nickels minted in 1873 all show the Closed 3 in the date. This nicely detailed Premium Gem exhibits moderately reflective fields under shades of champagne-gold toning. Population: 14 in 66, 1 finer (2/14). NGC ID# 275U, PCGS# 3769

10124 1874 PR66 Cameo PCGS. CAC. Delicate gold toning appears over the light nickel-gray surfaces of this delightful Premium Gem three cent nickel piece. Both sides are fully mirrored with excellent field-to-device contrast. Population: 18 in 66 (1 in 66+) Cameo, 0 finer (2/14). PCGS# 83770

10125 1875 PR65 Cameo PCGS. Untoned with ample reflectivity in the fields that provide solid, but hardly dramatic contrast with the devices. There is the typical lump of extra metal (as struck) on the cheek of Liberty. The combination of sterling condition and the cameo designation makes it an unusual find for the collector assembling a set of three cent nickel proofs. Population: 12 in 65 (1 in 65+) Cameo, 4 finer (2/14). PCGS# 83771

10126 1876 PR66 Cameo NGC. Exquisitely struck, and virtually mark free. The deeply mirrored fields establish a strong contrast with the frosty design elements. Census: 18 in 66 Cameo (3 in 66 ★ Cameo, 1 in 66+ ★ Cameo), 4 finer (2/14). PCGS# 83772

10127 1882 PR67 PCGS. CAC. Faint toning is present on this lustrous Superb Gem representative. Only 22,200 business strikes were struck, adding to the desirability of proof examples. Population: 88 in 67 (1 in 67+), 7 finer (2/14). NGC ID# 2764, PCGS# 3778

1888 Three Cent Nickel, PR66 Ultra Cameo Among the Finest Known

10128 1888 PR66 Ultra Cameo NGC. Frosted design elements and highly reflective fields offer a pronounced cameo contrast. A few touches of milky toning are seen over the fields, but no marks or carbon spots are evident. The devices are well brought up and intensely frosted for high contrast, which tends to obscure the strike details in some recessed areas. Census: 2 in 66 Ultra Cameo (1 in 66 ★ Ultra Cameo), 2 finer (2/14). PCGS# 93785

SHIELD NICKELS

10129 1870 MS65 PCGS. CAC. The 1870 nickel is very scarce in Gem condition, and rare any finer. The present example displays a full strike with satiny silver-gray luster with a slight hint of reddish patina over exceptionally well-preserved surfaces. Population: 35 in 65, 10 finer (2/14). NGC ID# 22P4, PCGS# 3797

**1883/2 Shield Nickel, MS67
Final-Year Overdate, FS-304**

- 10130 1883/2 MS67 PCGS. CAC. FS-304.** The Shield nickel series is loaded with overdates, repunched dates, doubled die (and tripled die) obverses, and other anomalies, sometimes in combination, making the series a field day for variety collectors. Many of the more popular varieties are listed in the *Cherrypickers' Guide*, including five of the final-year 1883/2 overdates. On the FS-304, as here, the secondary 2 is visible but weak, appearing to the left of the 3. This Superb Gem offers bright, lightly striated fields that at first look brilliant, but when closely examined show subtle oil-slick iridescence. The noticeably striated fields give the coin a semireflective appearance. Minor high-point softness appears on the obverse. Population: 1 in 67, 0 finer (2/14). PCGS# 38415

PROOF SHIELD NICKELS

- 10131 1867 No Rays PR64 PCGS.** Beautifully toned surfaces add to the eye appeal of this near-Gem example. The hues include red, orange, lavender, yellow-gold, and pale blue, with areas of reflectivity remaining. NGC ID# 22PF, PCGS# 3821
- 10132 1872 PR66 Cameo PCGS. CAC.** Pale champagne toning adds to the visual appeal of this Premium Gem representative. Although the proofs from this era are known for lint marks, this piece is virtually free of them aside from one at the star near the E in UNITED. A lovely coin. Population: 23 in 66 (2 in 66+) Cameo, 2 finer (2/14). PCGS# 83826

- 10133 1873 Closed 3 PR66 Cameo PCGS.** All proofs show the Closed 3 in the date. This spectacular Premium Gem exhibits sharply detailed frosty design elements that contrast boldly with the deeply mirrored fields. Attractive shades of champagne-gold toning add to the outstanding eye appeal. Population: 22 in 66 Cameo, 1 finer (2/14). PCGS# 83827

1878 Nickel, Appealing PR67

- 10134 1878 PR67 PCGS. CAC.** The 1878 proof-only Shield five cent piece can be found through Premium Gem with a bit of searching. The population declines significantly in PR67 where PCGS and NGC have graded only 37 specimens and none finer. The obverse of this Superb Gem displays modest field-motif contrast and both sides are sharply impressed. This is a wonderfully preserved coin with great eye appeal. Population: 16 in 67, 0 finer (2/14). NGC ID# 276V, PCGS# 3832

- 10135 1880 PR66 Cameo NGC.** Mainly brilliant silver-gray surfaces display just a blush of golden tone over nicely reflective fields, while slightly frosted devices further complement a full strike. Census: 52 in 66 Cameo (4 in 66+ Cameo, 1 in 66 ★ Cameo), 24 finer (2/14). PCGS# 83835

**1880 Shield Nickel, PR67+ Cameo
Gorgeous, Conditionally Rare Example**

- 10136 1880 PR67+ Cameo NGC.** The Shield nickel type was only produced from 1866 through 1883, and in this late year for the series just 16,000 business strikes were minted in Philadelphia, causing the 3,995 proofs to come under increased market pressure. This fully struck example is brilliant and well-preserved, with gorgeous jet-black fields and icy frosted devices. Splendid technical merit and tremendous visual appeal are combined in this conditionally rare specimen. Census: 23 in 67 Cameo (4 in 67+ Cameo, 1 in 67 ★ Cameo), 1 finer (2/14). PCGS# 83835

LIBERTY NICKELS

- 10137 1885 AU55 NGC.** The 1885 Liberty nickel is a low-mintage key, prized by collectors in all grades and conditions. The lightly abraded surfaces of this Choice AU specimen are blanketed in shades of greenish-gold, lavender-gray and amber toning. NGC ID# 2773, PCGS# 3846
- 10138 1889 MS65+ PCGS. CAC.** A spectacular high-end Gem, with vibrant mint luster and well-detailed design elements that show just a touch of softness on the ribbon. Population: 88 in 65 (4 in 65+), 18 finer (2/14). NGC ID# 2775, PCGS# 3850

10139 1893 MS65 PCGS. The 1893 Liberty nickel is a scarce date in MS65 condition, and rare in finer grades. This attractive Gem displays well-detailed design elements and lustrous surfaces that show few signs of contact. Population: 82 in 65 (1 in 65+), 20 finer (2/14). NGC ID# 2778, PCGS# 3854

10140 1908 MS65+ PCGS. CAC. As indicated by the plus designation, this Gem possesses strong eye appeal. Light ice-blue color and strong luster are among the attributes of this coin. Portions of the design reveal an incompleteness of strike, including the left ear of corn. A few minor marks are present, including one on Liberty's jaw. Population: 80 in 65 (2 in 65+), 16 finer (2/14). NGC ID# 22PT, PCGS# 3869

10141 1912-S AU50 PCGS. A lightly circulated example of a low-mintage key, this 1912-S Liberty nickel displays hints of gold and gray-green toning. The high points of the design reveal light wear. Though scattered marks are present, none are worthy of individual mention. NGC ID# 277R, PCGS# 3875

**1912-S Liberty Nickel, MS65
Highly-Sought Key Issue**

10142 1912-S MS65 PCGS. This final regular-issue date for the Liberty nickel type saw a low production of 238,000 business strikes from the mint in San Francisco. Consequently, this is a key date in the series that is one of the most highly-sought issues of the early 20th century. This is a superior Gem example with lovely original toning distributed across each side, and lustrous surfaces that are distraction-free. NGC ID# 277R, PCGS# 3875

**1912-S Liberty Nickel, Exceptional MS65
A Low-Mintage, Key Date**

10143 1912-S MS65 PCGS. CAC. The 1912-S Liberty nickel is a low-mintage (238,000) key, prized by collectors as the final date of the series. Soft grayish-lavender and yellowish-gold toning bathes both sides of this Gem. This issue is typically poorly struck with most of the design elements mushy. This piece is an exception, as the star centers and Liberty's hair are strong, as is most of the reverse wreath. Even the corn ear left of the bow knot displays partial detail. Additionally, both sides have been well cared-for. Above-average for the date and aptly recognized as such by CAC. PCGS has graded only 14 specimens finer (2/14). NGC ID# 277R, PCGS# 3875

**1912-S Liberty Nickel, MS66
Only S-Mint Liberty Nickel**

10144 1912-S MS66 PCGS. The 1912-S Liberty nickel claims the lowest business-strike mintage of the series at a meager 238,000 pieces. It is also the only Liberty nickel from the San Francisco Mint and the final collectible date of the series, both important considerations for type purposes. The 1913-S has a fairly high survival rate, but examples in MS66 condition are conditionally very rare. This impressive Premium Gem offers well-detailed design elements and vibrant mint luster under iridescent shades of greenish-gold and cerulean-blue toning. Eye appeal is quite strong. Population: 14 in 66, 0 finer (2/14). NGC ID# 277R, PCGS# 3875

PROOF LIBERTY NICKELS

10145 1885 PR64 PCGS. The proof variant of the classic low-mintage Liberty Head nickel. Cool ice-blue and light golden hues show through subdued luster on both sides of this sharply struck near-Gem. NGC ID# 277T, PCGS# 3883

**1885 Liberty Nickel, PR67 Cameo
None Certified Finer at PCGS**

10146 1885 PR67 Cameo PCGS. CAC. The 1885 Liberty nickel is an elusive date in business-strike format, putting considerable pressure on the small supply of proofs from date collectors. This delightful Superb Gem is sharply detailed throughout, with deeply reflective fields that contrast boldly with the frosty devices. Attractive hints of lavender and emerald-green toning enhance the outstanding eye appeal. Population: 9 in 67 Cameo, 0 finer (2/14). PCGS# 83883

10147 1887 PR66 Cameo PCGS. Cartwheel luster is among the attributes this Premium Gem example possesses. The contrast is readily apparent between the frosted devices and mirrored fields on this lovely, sharply struck and virtually untuned piece. A small as-made lint mark is present below the M in AMERICA. Population: 9 in 66 (2 in 66+) Cameo, 1 finer (2/14). PCGS# 83885

10148 1892 PR66+ Cameo PCGS. A beautiful proof from the Gilded Age. The bright silver-gray surfaces exhibit softly frosted devices and nicely mirrored, nearly flawless fields. A small nick on Liberty's neck appears to be all that keeps this coin from an even higher grade. Population: 26 in 66 (3 in 66+) Cameo, 0 finer (2/14). PCGS# 83890

10149 1893 PR64+ Deep Cameo PCGS. CAC. Pronounced contrast provides this high-end near-Gem with an exceptional appearance. The richly frosted devices stand out boldly against the reflective fields. A few minuscule marks and tiny as-made strike-throughs are present, but are not distracting. Population: 2 in 64 (1 in 64+) Deep Cameo, 4 finer (2/14). PCGS# 93891

10150 1896 PR67 NGC. Vibrant multicolor toning leaps from the semiprooflike fields of this coin in vivid hues of green, gold, champagne, and rose. Seemingly pristine surfaces exhibit a needle-sharp strike on this high-end Superb Gem. Census: 11 in 67, 0 finer (2/14). NGC ID# 2786, PCGS# 3894

10151 1897 PR67 PCGS. This late 19th century proof nickel exhibits virtually flawless surfaces with nicely reflective fields that almost warrant a cameo designation. Profound multicolor toning blankets both sides of this beautiful coin with hues of violet, blue, green, and gold. Population: 21 in 67 (1 in 67+), 1 finer (2/14). NGC ID# 2787, PCGS# 3895

10152 1901 PR67 PCGS. CAC. The 1901 proof Liberty nickel is rare in Superb Gem condition and virtually unobtainable any finer. This exquisite PR67 example is fully struck, with deeply reflective pristine fields. Population: 30 in 67 (1 in 67+), 1 finer (2/14). NGC ID# 278B, PCGS# 3899

10153 1903 PR66+ Cameo PCGS. CAC. A conservatively graded Premium Gem proof. Flashy silver-gray luster nicely complements highly reflective fields on this untuned beauty. Population: 35 in 66 (4 in 66+) Cameo, 15 finer (2/14). PCGS# 83901

1905 Liberty Nickel, Appealing PR67

10154 1905 PR67 PCGS. CAC. The essentially untuned surfaces of this Superb Gem proof display frosty devices, especially Liberty's portrait. The design elements are sharply struck, including Liberty's hair, all star centers, and the corn ears and wheat stalks/grains on either side of the bow knot. Impeccable preservation heightens the coin's eye appeal, affirmed by the CAC sticker. Population: 13 in 67, 1 finer (2/14). NGC ID# 278F, PCGS# 3903

**1905 Liberty Nickel, PR67
Beautiful High-Grade Example**

10155 1905 PR67 PCGS. CAC. From an ample mintage of 2,152 pieces this is a gorgeous proof Liberty nickel, struck with exacting precision on all of the design elements and impressively preserved now for nearly 110 years. Essentially brilliant with flashy, highly reflective fields and pristine surfaces. Population: 13 in 67, 1 finer (2/14). NGC ID# 278F, PCGS# 3903

**1905 Liberty Nickel, PR66+ Cameo
Conditionally Rare**

10156 1905 PR66+ Cameo PCGS. CAC. Proof Liberty nickels are not frequently seen with cameo contrast according to the strict standards of PCGS or NGC. This piece is fully struck and offers profound field-to-device contrast on both sides. The virtually pristine surfaces reveal a wispy lint mark on the obverse below star 12, and a faint milky spot is noted on the upper reverse directly beneath OF. Neither of these minor flaws reduce the splendid eye appeal of this conditionally rare example. Population: 8 in 66 (1 in 66+) Cameo, 1 finer (2/14). PCGS# 83903

10157 1910 PR67 NGC. CAC. Beautiful green-gold and violet hues seem to melt into the deeply reflective surfaces of this Superb Gem. Fully struck in every respect, with a high degree of eye appeal. Census: 48 in 67 (1 in 67+), 1 in 67 ★), 6 finer (2/14). NGC ID# 278L, PCGS# 3908

BUFFALO NICKELS

10158 1913 Type Two MS66 PCGS. CAC. Displaying rich satin luster, this Premium Gem exhibits faint champagne toning and a pleasing strike. The reverse reveals a slight counter-clockwise rotation. PCGS has awarded higher numeric grades to only 19 examples (2/14). NGC ID# 22PZ, PCGS# 3921

10159 1913-D Type Two MS65 NGC. CAC. This lovely Gem exhibits attractive satin luster and is well struck overall, with minor areas of incompleteness, including LIBERTY. Subtle hints of champagne color appear on this pleasing piece. NGC has awarded higher numeric grades to only 21 examples (2/14). NGC ID# 22R2, PCGS# 3922

10160 1913-S Type Two MS63 PCGS. CAC. The 1913-S Type Two Buffalo nickel is always in demand from series specialists and first-year type collectors alike. This attractive Select specimen is well-detailed and lustrous, with a touch of the usual softness on the bison's shoulder and the hair above the braid. NGC ID# 22R3, PCGS# 3923

10161 1916 MS66 PCGS. CAC. Rich satin luster and silver-white surfaces provide this Premium Gem with strong visual appeal. The coin exhibits a pleasing degree of design detail. Only 16 examples have achieved higher numeric grades from PCGS (2/14). NGC ID# 22RA, PCGS# 3930

10162 1917-S Two Feathers MS64 PCGS. FS-401. Die lapping at the Mint has removed all but a vestige of the lowest feather. Lustrous and unabraded with light autumn-brown toning. The fields have an orange-peel texture due to die wear, as made. A slender diagonal retained lamination is noted near the bison's beard. Population: 3 in 64, 0 finer (2/14). PCGS# 38443

10163 1918/7-D Good 6 NGC. FS-101. The broad downstroke of the underdigit 7 identifies the rare wartime overdate. The date is worn but all four digits are readable. The pearl-gray fields and motifs are smooth aside from a faint thin horizontal mark on the bison's flank. NGC ID# 22RJ, PCGS# 3939

1918-D Nickel, MS66+ Pastel Patina

10164 1918-D MS66+ PCGS. As an early branch mint Type Two issue, the 1918-D is a better date in all grades and scarce in Mint State. At the MS66+ level, it becomes a major conditional rarity. The present nicely struck coin is delightfully patinated powder-blue, wheat-gold, and lavender. The lustrous surfaces are unabraded, and carbon is confined to three pinpoint flecks near the bison's head. Population: 23 in 66 (2 in 66+), 1 finer (2/14). NGC ID# 22RH, PCGS# 3938

10165 1920-S MS63 NGC. Areas of light toning add to the eye appeal of this lustrous Select example, including hues of champagne and gold. A splash of pale pink is present at the lower obverse. The reverse lacks full detail due to the use of eroded dies as this issue is known for. A few minuscule spots appear on both sides of this piece. NGC ID# 22RS, PCGS# 3946

10166 1924 MS66+ PCGS. CAC. A high-end Premium Gem, this coin exhibits lustrous surfaces and attractive toning, particularly on the reverse. The hues include champagne and pale orange. Adding to the appeal, only a couple of marks are present, all minor. Population: 87 in 66 (1 in 66+), 6 finer (2/14). NGC ID# 22RX, PCGS# 3951

10167 1937-D Three-Legged XF40 NGC. FS-901. Walnut-brown and cream-gray embrace this moderately circulated but unmarked key date nickel. Only the tip of the horn is indistinct, and the diagnostic trail of die lumps beneath the flank is readily evident when viewed beneath a loupe. NGC ID# 22SX, PCGS# 3982

10168 1937-D Three-Legged AU55 PCGS. CAC. FS-901. A steel-gray and tan-brown representative with unmarked and coruscating surfaces. A subtle spot above the back legs. The strike is soft on the Indian's large feather, probably due to an interesting strike-through, as made. NGC ID# 22SX, PCGS# 3982

10169 1937-D Three-Legged AU58 NGC. FS-901. Dove-gray and almond-gold blend throughout this briefly circulated key date nickel. Abrasions are absent, as is the front foreleg of the bison. But diagnostics are present, such as the granular back leg. The obsolete Cherrypicker's number (FS-020.2) is listed on the insert. NGC ID# 22SX, PCGS# 3982

10170 1937-S MS67 PCGS. CAC. Gorgeous toning appears on both sides of this Superb Gem example. The surfaces exhibit champagne-gold color overall, with splashes of pink, lime-green, and pale denim-blue also present. The luster is appealing as well and adds to the attractiveness. PCGS has yet to assign a higher numeric grade to a single example (2/14). NGC ID# 22SY, PCGS# 3983

PROOF BUFFALO NICKELS

1913 Buffalo Nickel, PR67 Type Two Variant

10171 1913 Type Two PR67 PCGS. From a matte proof mintage of 1,514 pieces, this spectacular Superb Gem exhibits pinpoint definition on all design elements and lustrous surfaces are free of mentionable distractions. A few hints of pale gold toning add to the outstanding eye appeal. Population: 51 in 67 (2 in 67+), 7 finer (2/14). NGC ID# 278S, PCGS# 3990

1914 Buffalo Nickel, PR67 Extremely Well-Made Issue

10172 1914 PR67 NGC. The 1914 was among the most well-made issues in the 1913-1916 matte proof nickel production run. With an original mintage of 1,275 pieces, it is also one of the more obtainable dates in Superb Gem condition.

The present example of this short-lived matte variant is ideal for type purposes, with a full strike, characteristically broad borders, and a fine, satiny matte appearance. A century of careful storage has resulted in nearly pristine surfaces with warm golden toning blanketing the obverse and forming diagonal ribbons on the reverse. Subtle green and rose tints are revealed when tilted under a light. Housed in a prior generation holder. Census: 66 in 67 (5 in 67 ★), 9 finer (2/14). NGC ID# 278T, PCGS# 3991

10173 1936 Type One — Satin Finish PR66 PCGS. Several hues of gold toning and rich satin luster combine to provide this Premium Gem with strong visual appeal. Hints of orange and red are present as well on this sharply struck coin exhibiting virtually pristine surfaces. NGC ID# 278X, PCGS# 3994

10174 1936 Type One — Satin Finish PR67 PCGS. The Satin Finish proofs of 1936 are a one-year type in the Buffalo nickel series. Golden-silver color with hints of pale pink and blue add to the eye appeal of this Superb Gem. Incredible design definition is the rule for these Satin Finish proof coins. NGC ID# 278X, PCGS# 3994

1936 Satin Finish Nickel, PR68 Double-Sided Pastel Toning

10175 1936 Type One — Satin Finish PR68 PCGS. Much like Rip Van Winkle, Buffalo nickel proof production slumbered for 20 years before its resumption in 1936. The initial delivery had a satin finish, then the Mint reverted to the brilliant finish more familiar to collectors of the day. The present precisely struck and undisturbed specimen displays pastel olive-green, rose-red, and cream-gray toning. Population: 32 in 68, 1 finer (2/14). NGC ID# 278X, PCGS# 3994

1936 Buffalo Nickel, Satin Finish PR68 Beautifully Toned and Conditionally Rare

10176 1936 Type One — Satin Finish PR68 PCGS. CAC. This was the first proof Buffalo nickel issue since 1916 and was executed using two distinct finishes: the so-called Satin Finish as well as the Brilliant Finish (also known respectively as Type One and Type Two). PCGS and NGC have combined to grade a total of 60 Satin Finish coins at PR68, with just one piece rated even finer by PCGS at PR69.

This superior example displays remarkably crisp strike definition and clean surfaces that display lovely aquamarine and golden-tan coloration. Encapsulated more than twenty years ago in a first-generation PCGS holder, this outstanding Superb Gem proof will appeal to the savvy collector or investor. Population: 32 in 68, 1 finer (2/14). NGC ID# 278X, PCGS# 3994

10177 1936 Type Two — Brilliant Finish PR66 PCGS. CAC. A gorgeous Premium Gem example of the Brilliant Finish variety, this piece exhibits a sharp strike and shimmering, virtually untuned surfaces. This beautifully preserved piece has wonderful eye appeal. NGC ID# 278Y, PCGS# 3995

10178 1937 PR65 PCGS. CAC. A well struck Gem representative, this coin displays highly lustrous, silver-white surfaces, providing the piece with a tremendous appearance. The 1937 is the second and final year of issue for the later-date proof Buffalo nickels. NGC ID# 278Z, PCGS# 3996

1937 Nickel, Lightly Toned PR67+

10179 1937 PR67+ PCGS. CAC. Soft reddish-tan patination laced with hints of light gold makes occasional visits to the luminous surfaces of this high-end Superb Gem proof Buffalo nickel. Bold definition characterizes the design elements, including the Indian's braid and the bison's horn and tail. CAC affirms the outstanding eye appeal of this impeccably preserved example. NGC ID# 278Z, PCGS# 3996

JEFFERSON NICKELS

10180 1938-S MS66+ Full Steps PCGS. A magnificent high-end Premium Gem from the first year of the design, this piece displays vibrant mint luster and razor-sharp design elements with Full Steps definition on Monticello. Population: 55 in 66 (1 in 66+) Full Steps, 7 finer (2/14). NGC ID# 22T6, PCGS# 84002

10181 1942-D MS67 Full Steps PCGS. An attractive champagne-gold patina covers both sides of this lovely piece exhibiting Full Steps definition. Rich luster adds to the eye appeal of this specimen. Population: 47 in 67 (1 in 67+) Full Steps, 0 finer (2/14). NGC ID# 22TL, PCGS# 84014

1942-D D Over Horizontal D Nickel, MS63 A Pleasing Example of This Scarce Variety

10182 1942-D D Over Horizontal D MS63 PCGS. FS-501. According to the *Cherrypickers' Guide*: "The initial D mintmark was punched into the die horizontally, then corrected, creating the D Over Horizontal D variety." Mottled layers of russet-tan patina complement the satiny steel-gray surfaces of this Select Mint State specimen. Slight chatter marks near the centers keep this scarce, pleasing example from a higher numerical rating. Population: 3 in 63, 16 finer (2/14). PCGS# 4015

10183 1942-P Type Two MS67 Full Steps PCGS. Aside from a small streak of orange toning at the upper left reverse, any toning present on this Superb Gem is faint. An appealing degree of luster adds to the visual allure of this piece. Population: 38 in 67 Full Steps, 0 finer (2/14). NGC ID# 22TM, PCGS# 84016

**1942-S Wartime Nickel, MS67 Full Steps
None Finer at PCGS or NGC**

10184 1942-S MS67 Full Steps PCGS. Satin luster and silver-white surfaces combine to provide this Superb Gem with tremendous eye appeal. A few scattered areas of light toning appear on the reverse in shades of yellow, orange, and lavender. Neither PCGS nor NGC has awarded a higher grade to a single Full Steps example (2/14). NGC ID# 22TN, PCGS# 84017

10185 1943-P MS67 Full Steps PCGS. This stunning Superb Gem displays razor-sharp definition on all design elements, including Full Steps on Monticello. The flawless surfaces are enhanced by shades of ice-blue and champagne-gold toning, with vibrant mint luster on both sides. Population: 55 in 67 (4 in 67+) Full Steps, 1 finer (2/14). NGC ID# 22TP, PCGS# 84018

10186 1943-P MS67 Full Steps PCGS. A "Scarface" example with a slender vertical die crack across Jefferson's cheek, jaw, and forehead. Well struck and virtually pristine with dynamic luster and light olive-green toning. Population: 55 in 67 (4 in 67+) Full Steps, 1 finer (2/14). NGC ID# 22TP, PCGS# 84018

**1943-P War Nickel, MS67+ Full Steps
Lustrous and Appealing**

10187 1943-P MS67+ Full Steps PCGS. The centers of this high-end Superb Gem example with Full Steps detail remain largely silver-white, while areas of toning appear at the peripheries. This pleasing coin displays strong luster and eye appeal. Population: 55 in 67 (4 in 67+) Full Steps, 1 finer (2/14). NGC ID# 22TP, PCGS# 84018

**1943-P Nickel, MS66+ Full Steps
Doubled Die Obverse, FS-106**

10188 1943-P Doubled Die Obverse MS66+ Full Steps PCGS. FS-106. Jefferson's eye and the obverse legends are boldly die doubled on this popular *Guide Book* variety. A thoroughly lustrous Premium Gem that boasts exemplary preservation and only a wisp of honey-gold toning. Well struck and free from any planchet imperfections. Population: 14 in 66 (1 in 66+) Full Steps, 2 finer (2/14). PCGS# 84174

**1943/2-P Nickel MS67 Full Steps, FS-101
One of the Three Finest-Known**

10189 1943/2-P MS67 Full Steps PCGS. FS-101. For just four years from 1942-45 the Jefferson nickel was produced using a metallic composition that included 35% silver, and a large P mintmark was added to the upper reverse field on the Philadelphia Mint coins. This essentially created a new type, which has traditionally been referred to simply as the "War Nickel". The switchover to this new type may have contributed to confusion in the Mint, causing employees to inadvertently produce the so-called 1943-P, 3 over 2 variety, which is listed on page 136 of the 2014 *Guide Book*.

Here we have an extraordinary Superb Gem example of this popular variety, also listed in *Cherrypickers'*, created when the die was first hubbed with a 1942-dated hub, then subsequently with a 1943-dated hub. The diagonal of the 2 is visible within the lower opening of the 3. Additionally, the reverse die is tripled. Brilliant throughout, this is a fully struck and pristine representative of this rare variety, and one of the finest-known examples. Population: 3 in 67 Full Steps, 0 finer (2/14). NGC ID# 22TR, PCGS# 84019

10190 1943-D MS67 Full Steps PCGS. Portions of both sides of this lovely piece reveal attractive toning. Among the colors present are yellow and gold, with a few tiny splashes of pastel pink and green. A small spot appears between STATES and OF on the reverse. Only 3 examples have achieved higher numeric grades from PCGS (2/14). NGC ID# 22TS, PCGS# 84020

10191 1943-S MS67 Full Steps PCGS. Displaying desirable Full Steps detail, this Superb Gem exhibits silver-white surfaces and strong luster. Both sides reveal thin as-made die polish lines. Population: 68 in 67 (1 in 67+) Full Steps, 0 finer (2/14). NGC ID# 22TT, PCGS# 84021

**1944-P Nickel, MS67+ Full Steps
Sole Finest PCGS-Graded Example**

10192 1944-P MS67+ Full Steps PCGS. The sole finest Full Steps example certified by PCGS, this coin displays areas of iridescent toning, primarily at the outer edges. Among the colors present are pastel shades of yellow, orange, red, and green. This is a truly outstanding coin. Population: 12 in 67 (1 in 67+) Full Steps, 0 finer (2/14). NGC ID# 22TU, PCGS# 84022

10193 1944-D MS67 Full Steps PCGS. The well-preserved surfaces of this stunning Superb Gem are blanketed in shades of greenish-gold, lavender, and cerulean-blue toning, with vibrant mint luster and terrific eye appeal. Full Steps definition is evident on Monticello. PCGS has graded three numerically finer examples (2/14). NGC ID# 22TV, PCGS# 84023

10194 1944-D MS67+ Full Steps PCGS. A lovely pale gold patina covers much of this high-end Superb Gem representative, while portions of the periphery reveal shades of yellow, pink, and green. Rich satin luster is an additional attribute this coin possesses. LIBERTY exhibits light die doubling on this pleasing piece. Population: 5 in 67+ Full Steps, 3 finer (2/14). NGC ID# 22TV, PCGS# 84023

10195 1944-S MS67 Full Steps PCGS. Potent luster provides immediate eye appeal for this Superb Gem exhibiting Full Steps definition. Faintly toned, this coin displays a few streaks of gold toning on the obverse, primarily on the portrait. A tiny mark appears to the left of the mintmark. Population: 29 in 67 (1 in 67+) Full Steps, 0 finer (2/14). NGC ID# 22TW, PCGS# 84024

10196 1944-S MS67 Five Full Steps NGC. Honey-gold centers are bounded by ice-blue, lime-green, and rose-red. A beautifully patinated, well struck, lustrous, and virtually pristine Superb Gem. Census: 6 in 67 Five Full Steps, 0 finer (2/14). NGC ID# 22TW, PCGS# 84024

10197 1945-P MS66 Full Steps PCGS. Strong satin luster and silver-white surfaces combine to provide this Premium Gem example with tremendous visual appeal. A number of vertical die polish lines appear in the right obverse field. PCGS has awarded higher numeric grades to only 7 examples (2/14). NGC ID# 22TX, PCGS# 84025

1945-P Doubled Die Reverse Nickel, MS66 Full Steps

10198 1945-P Doubled Die Reverse MS66 Full Steps PCGS. FS-801. This variety reveals remarkable doubling with a dramatic spread on some of the reverse lettering, especially on MONTICELLO, CENTS, and STATES OF. This is a fully struck coin that is essentially brilliant, save for occasional flecks of peach and russet toning. The shimmering surfaces exhibit tremendous mint frost, which is not a typical feature of the type. Almost perfectly preserved and nearly mark-free, this lovely Premium Gem is the finest-graded example of this popular *Guide Book* variety, which is also listed and described in Volume I of the *Cherrypickers' Guide to Rare Die Varieties of United States Coins*. Population: 1 in 66 Full Steps, 0 finer (2/14). PCGS# 84173

10199 1945-P Doubled Die Reverse MS66 Full Steps PCGS. FS-803. The lower reverse is clearly die doubled, strongest on CENTS and AMERICA. Not to be confused with FS-801, the prominent *Guide Book* DDR. A well struck olive-green Premium Gem with a blush of steel-blue on the upper left reverse. PCGS# 38502

10200 1945-P Tripled Die Reverse MS66 PCGS. FS-804. The reverse legends are lightly tripled, most clearly on the final O in MONTICELLO and the S in CENTS. In addition, the *Cherrypickers' Guide* notes that "the mintmark is punched at least three times." A different variety than the *Guide Book* FS-801. A lustrous and mark-free light olive-green representative. PCGS# 38503

**1945-D Jefferson Nickel, MS67+ Full Steps
Beautifully Toned**

10201 1945-D MS67+ Full Steps PCGS. Spectacular toning is present on this high-end Superb Gem example. The surfaces largely reveal lovely gold color, with vivid shades of yellow, orange, red, and green appearing at portions of the peripheries. Population: 75 in 67 (3 in 67+) Full Steps, 1 finer (2/14). NGC ID# 22TY, PCGS# 84026

**1945-S Nickel, MS66 Full Steps
Unusually Well Struck Steps
War Nickel Set Strike Key**

10202 1945-S MS66 Full Steps PCGS. Ex: Adkins. According to Bernard A. Nagengast, author of *The Jefferson Nickel Analyst*, the 1945-S is "the stopper in assembling a set of five full step war nickels, as it is much rarer than the second scarcest date, the 44-S. ... Sharp, deep five step coins are rare. Six step coins are extra rare." The present exceptionally sharp Premium Gem is lustrous and nearly pristine. Lightly toned overall though tiny freckles of tan-gray are fairly plentiful. NGC ID# 22TZ, PCGS# 84027

SMS JEFFERSON NICKEL

10203 1965 SMS MS68 Cameo NGC. A few subtle hints of toning are present on this piece displaying a spectacular appearance. A pleasing degree of contrast exists between the field and devices. A couple of very thin as-made lint marks appear below the M in UNUM. Census: 14 in 68 Cameo (2 in 68 ★ Cameo), 0 finer (2/14). PCGS# 84197

PROOF JEFFERSON NICKELS

10204 1952 PR69 Cameo NGC. A mere point from technical perfection, this PR69 Cameo exhibits strong visual appeal. The deeply mirrored fields provide a pleasing degree of contrast against the devices on this outstanding piece. A minuscule spot appears at the obverse rim near 11 o'clock. Census: 22 in 69 Cameo (1 in 69 ★ Cameo), 0 finer (2/14). NGC ID# 27A6, PCGS# 84184

10205 1954 PR67 Deep Cameo PCGS. Pronounced contrast exists between the frosted devices and richly mirrored fields on this appealing Superb Gem example displaying faint gold toning. This is a lovely specimen. Population: 12 in 67 Deep Cameo, 7 finer (2/14). NGC ID# 27A7, PCGS# 94186

**1971 No S Nickel, PR68 Deep Cameo
Rare, Highly-Sought Variety**

10206 1971 No S PR68 Deep Cameo PCGS. An estimated number of 1,655 proofs were produced in 1971 without the S mintmark, making this a rare variety indeed. The glassy fields are highly polished and deeply reflective, as the razor-sharp design motifs provide stark contrast. A flawlessly preserved, pristine representative. Population: 9 in 68 Deep Cameo, 3 finer (2/14). NGC ID# 22YN, PCGS# 94204

EARLY HALF DIME

10207 1795 — Plugged — NGC Details. AU. V-1, LM-1, R.6. A hole is expertly plugged at 6 o'clock on the reverse. The BE in LIBERTY is directly opposite and is re-engraved. A few thin marks are noted near the first three stars. Nonetheless, a richly detailed cream-gray example of this rare Valentine die marriage. NGC ID# 22ZV, PCGS# 4251

BUST HALF DIME

**1833 Capped Bust Half Dime, MS65
V-6, LM-9 Variety, Vivid Toning Accents**

10208 1833 MS65 PCGS. CAC. V-6, LM-9, R.2. A full-strike Gem, this multicolored half dime is notable for its brilliant mint luster and target toning. Concentric rings of lime-green, azure-blue, and peach-gold surround a silver center on the obverse, while the reverse is similarly toned with deeper gunmetal-blue and orange-gold surrounding a brilliant eagle. There are no areas of die-clashing as often seen on this date, nor are there any marks or abrasions to distract from the luminously toned appeal. Population: 36 in 65, 32 finer (2/14). NGC ID# 232F, PCGS# 4280

SEATED HALF DIMES

10209 1838 Large Stars, No Drapery MS65 PCGS. CAC. Richly toned forest-green, peach-red, and dove-gray. Unmarked and satiny. The strike is sharp except on the central reverse. Several stars are lightly repunched. Population: 50 in 65 (1 in 65+), 27 finer (2/14). NGC ID# 2TXX, PCGS# 4317

10210 1853 Arrows MS65 PCGS Secure. CAC. An impressive Gem representative of the popular Arrows design, with well-detailed design elements and vibrant mint luster under shades of golden-brown and lavender toning. Population: 52 in 65, 40 finer (2/14). NGC ID# 233Y, PCGS# 4356

10211 1854 Arrows MS65 PCGS. CAC. Scattered toning appears on both sides of this Gem example, with the reverse arguably the more attractive of the two sides. The colors include shades of golden-orange, lime-green, cherry-red, lemon-yellow, forest green, and fuchsia. Population: 40 in 65, 12 finer (2/14). NGC ID# 2342, PCGS# 4358

10212 1855-O Arrows MS64 PCGS. CAC. An attractive Choice example of the extremely popular Arrows design, with well-detailed design elements and satiny mint luster under shades of gray and golden-tan toning. Population: 10 in 64, 11 finer (2/14). NGC ID# 2345, PCGS# 4361

1873 Half Dime, MS67 Tied for Finest Graded

10213 1873 MS67 PCGS. CAC. Deep violet-rose and cobalt-green toning are evident on both sides of this visually compelling Superb Gem. From a high original mintage of 712,000 pieces, this is one of the four finest-graded examples of this final-year issue, including one coin at NGC. The design motifs are well-struck and the surfaces are essentially flawless. Population: 3 in 67, 0 finer (2/14). NGC ID# 2353, PCGS# 4404

PROOF SEATED HALF DIMES

1865 Half Dime, PR67 Cameo Low-Mintage Issue of Only 500 Coins

10214 1865 PR67 Cameo PCGS. Exhibiting a sharp strike and areas of rich toning, this Superb Gem Cameo example has a lovely appearance. The toning includes shades of teal, golden-orange, and pale yellow. Reflectivity emerges beneath the patina. The 1865 proof Liberty Seated half dime issue consisted of only 500 pieces. Population: 2 in 67 Cameo, 0 finer (2/14). PCGS# 84448

10215 1871 PR65 Cameo NGC. The sharply detailed design elements of this delightful Gem have a frosty texture that contrasts boldly with the deeply reflective fields. Shades of pale gold and cerulean-blue toning enhance the well-preserved surfaces. Census: 12 in 65 Cameo, 14 finer (2/14). PCGS# 84454

EARLY DIMES

10216 1800 — Scratches — NGC Details. VF. JR-2, R.5. The glossy obverse displays deep cream-gray toning. The reverse has a stone-gray center with charcoal near the rims. Both sides exhibit several clusters of pinscratches. NGC ID# 236H, PCGS# 4470

10217 1800 — Improperly Cleaned — NGC Details. XF. JR-2, R.5. The rarer of the two die marriages known for this challenging date. Nicely defined and without consequential abrasions, though the obverse is moderately granular and the reverse is hairlined. The borders are retoned sea-green and rose-red. NGC ID# 236H, PCGS# 4470

BUST DIME

1824/2 Capped Bust Dime, JR-1, MS63 Very Rare Any Finer

10218 1824/2 MS63 PCGS. CAC. JR-1, R.3. The 1824 Capped Bust dime is known in two varieties, one with a Flat Top 1 in the denomination and the other with a Pointed Top 1. Both varieties are listed on page 150 of the 2014 *Guide Book*. This coin represents the more available JR-1 variety, with a Flat Top 1. The design elements are well-detailed and the lustrous surfaces are blanketed in shades of lavender and gray toning. Population: 5 in 63, 8 finer (2/14). NGC ID# 2373, PCGS# 4502

SEATED DIMES

10219 1838 Large Stars MS64 NGC. Rich gunmetal-gray toning encroaches upon the wheat-gold centers. Lustrous and unabraded with excellent eye appeal for the designated grade. The strike is full except on the dentils. A worm-like die break is at the reverse center. NGC ID# 237U, PCGS# 4568

1842 Seated Dime, MS65 Conditionally Scarce

10220 1842 MS65 NGC. Despite a mintage of nearly 1.9 million coins, only 13 examples have been rated as Gems, and just 8 pieces are graded even finer at the two major services combined. This example is well-detailed with pleasing satin luster and attractive light, natural toning. Census: 7 in 65, 5 finer (2/14). NGC ID# 2386, PCGS# 4581

10221 1871 MS65 NGC. This Gem displays strong visual appeal at a quick glance due to light frosted silver surfaces. Closer examination reveals areas of pale gold color. A few minuscule marks are present, including two on the portrait. Census: 9 in 65 (1 in 65 ★), 7 finer (2/14). NGC ID# 23A4, PCGS# 4653

1873-CC Arrows Dime, XF Details
Rare Carson City Issue

10222 1873-CC Arrows — Improperly Cleaned, Corroded — NGC Details. XF. With a mintage of only 18,791 pieces, the 1873-CC is one of the keys to the Seated dime set. It is also one of just two Arrows Carson City issues, and since the 1874-CC is even rarer, the 1873-CC is thus requisite for a complete type set from the legendary Western coin factory. The present pearl-white example has minimal wear but the stone-white surfaces are moderately granular, and the obverse appears lightly burnished.

10223 1885 MS67 ★ NGC. The obverse resembles a cameo proof. The seated Liberty is frosty and the nearby field is mirrored. The reverse exhibits cartwheel luster. Crisply struck, untoned, and essentially pristine. Census: 17 in 67 (4 in 67 ★), 1 finer (2/14). NGC ID# 23AZ, PCGS# 4694

10224 1887-S MS65 PCGS. San Francisco issues from this period usually come sharply detailed, and this Gem is no exception. Slightly reflective fields nicely display splashes of soft lavender, blue, and light golden toning on both sides. Population: 27 in 65 (1 in 65+), 5 finer (2/14). NGC ID# 23B6, PCGS# 4699

10225 1891-O MS66 PCGS. Pale rose and sky-blue hues abound beneath satiny luster on this Premium Gem. Upon close examination, only the most minimal abrasions are revealed, while typical weakness is noted in Liberty's head. Population: 11 in 66, 3 finer (2/14). NGC ID# 23BE, PCGS# 4707

PROOF SEATED DIMES

10226 1858 PR64 PCGS. In 1858, an estimated 300+ proof sets were available for purchase by the general public for the first time. A well-struck near-Gem example, this coin displays rich teal, pink, and gold color on the obverse, with rich orange-gold color around the outer portions of the reverse along with a few tiny splashes of other hues. An as-made lint mark appears to the left of the date. Population: 28 in 64 (1 in 64+), 12 finer (2/14). NGC ID# 23CC, PCGS# 4747

10227 1873 No Arrows PR64 Cameo PCGS. CAC. Rich toning and appreciable contrast provide this near-Gem with a lovely appearance. The colors include shades of gold and teal. The coin exhibits a sharp strike overall, adding to the appeal. Population: 14 in 64 (1 in 64+) Cameo, 14 finer (2/14). PCGS# 84766

10228 1879 PR66 NGC. A gorgeous high-end proof with highly reflective fields around the periphery with deeper toning in the centers which slightly subdues the mirroring. Peripheral toning frames the boldly struck devices with hues of deep green, gold, ocean-blue, and soft lavender. Census: 25 in 66 (1 in 66 ★), 15 finer (2/14). NGC ID# 23D4, PCGS# 4776

10229 1882 PR64 Cameo PCGS. CAC. Essentially untoned with just a trace of orange iridescence along the left obverse and reverse border. Long on eye appeal and not too far removed from a Gem rating. Population: 31 in 64 (2 in 64+) Cameo, 39 finer (2/14). Ex: Long Beach Signature (Heritage, 6/2004), lot 7149; Texas N.A., Paramount Sale (4/67), lot 1551, where it brought \$40. PCGS# 84779

BARBER DIMES

10230 1893-O MS65 NGC. Rich toning, including shades of aqua, teal, rich gold, and pink, frames the lightly toned centers of this Gem. A couple of tiny lint marks appear on the portrait of this sharply struck piece. Census: 11 in 65 (1 in 65+), 8 finer (2/14). NGC ID# 23DR, PCGS# 4801

10231 1893-S MS65 PCGS. While generally considered a common date, the 1893-S dime quickly becomes rare in Gem condition. PCGS has awarded Gem status to a mere 13 examples, with only seven finer (2/14). This piece displays sharp detail under subdued silver luster, with hints of ice-blue toning in the protected areas. NGC ID# 23DS, PCGS# 4802

10232 1895-O XF40 PCGS. CAC. Aside from the 1894-S, which is virtually uncollectible, the 1895-O is the lowest mintage issue in the entire Barber dime series. This survivor displays medium gray color overall and even wear. Importantly, there are no marks worthy of mention. Population: 20 in 40, 85 finer (2/14). NGC ID# 23DW, PCGS# 4807

10233 1898 MS66 PCGS. Sharply defined, the mint luster shines forcefully through the multiple layers of gray, lilac, and rose coloration that cover each side of this sharply defined example. Population: 33 in 66 (2 in 66+), 4 finer (2/14). Ex: Long Beach Signature (Heritage, 2/2005), lot 6283. PCGS# 4815

10234 1903-O MS64 PCGS. Frosty luster and virtually untuned surfaces are among the attributes this near-Gem example possesses. A few tiny die cracks are present on this nicely struck piece and a minor as-made strike-through appears along the obverse rim near 1 o'clock. Tiny debris is present on the obverse near 3 o'clock. Population: 28 in 64, 16 finer (2/14). NGC ID# 23EN, PCGS# 4831

MERCURY DIMES

10235 1916 MS67 Full Bands PCGS. CAC. Crisply struck, from mildly rotated dies, this fully lustrous Superb Gem displays lovely multicolored peripheral toning on both sides, and seems pristine. A great first year example, for type purposes. Ex: St. Louis (CSNS) Signature (Heritage, 2005), lot 6727. NGC ID# 23GX, PCGS# 4905

1916-D Mercury Dime, Well-Defined VF30

10236 1916-D VF30 NGC. Relatively strong design detail shows on this key-date example, especially in the lines of the fasces. Even the diagonal bands, while nearly smooth, display clear separation. A few minute marks are scattered over the silver-gray surfaces but do not unduly distract. NGC ID# 23GY, PCGS# 4906

**1916-D Mercury Dime, Unc. Details
Elusive Key Issue**

10237 1916-D — Stained — NGC Details. Unc. The 1916-D Mercury dime is an issue that collectors prize in all grades and conditions. This still-attractive specimen has some unnatural coloration on both sides, but the design elements are sharply detailed and original mint luster shines through the patina. No large or distracting marks are evident. NGC ID# 23GY, PCGS# 4906

**1916-D Mercury Dime, MS62
Sought-After First-Year Key**

10238 1916-D MS62 NGC. The Mercury dime made its debut in 1916 and the Denver Mint struck a small initial mintage of just 264,000 pieces, making the 1916-D the most sought-after issue of the series. Many examples were saved by the general public for their novelty value, but these pieces often show the effects of rough handling by their non-numismatic owners. As a result, the 1916-D is a rare issue in high grade.

This attractive MS62 example offers well-detailed design elements that show a touch of softness on the middle bands of the fasces. Satiny mint luster shines through delicate shades of pale gold and pink toning and only minor signs of contact are evident. Census: 15 in 62, 28 finer (2/14). NGC ID# 23GY, PCGS# 4906

**1917 Mercury Dime, MS67 Full Bands
Beautifully Toned, Conditionally Rare**

10239 1917 MS67 Full Bands PCGS. When discussing the 1917 Mercury dime, thoughts turn to high mintage (over 55 million coins) and abundant availability. This is hardly an issue that is mentioned when talking about 20th century coinage rarities, yet examples in the MS67 grade with Full Split Bands are rarities. The surfaces display frosty mint luster accented by many hues of iridescent toning on both sides. As suggested by the PCGS Full Bands designation, it is crisply struck with full definition. This is an important opportunity for the advanced collector. Population: 22 in 67 (2 in 67+) Full Bands, 0 finer (2/14).

Ex: Long Beach Signature (Heritage 2/2005), lot 366; Long Beach Signature (Heritage 9/2010), lot 3809. NGC ID# 23H2, PCGS# 4911

10240 1920-D MS64 Full Bands PCGS. This charming Choice Mercury dime exhibits sharply detailed design elements with Full Bands definition on the fasces. The surfaces are brightly lustrous, with a few hints of silver-gray toning and only minor signs of contact. NGC ID# 23HC, PCGS# 4931

10241 1920-S MS63 Full Bands PCGS. This sharply detailed coin falls into a small group of 1920-S Full Bands Mercury dimes that boast clearly defined date numerals, a rare occurrence in this issue. The obverse displays a light golden hue, while the reverse exhibits a satiny ice-blue tone. Surprisingly few notable abrasions are present, given the grade. NGC ID# 23HD, PCGS# 4933

10242 1924-S MS64 Full Bands PCGS. Very few marks, are minuscule, appear on this lustrous, faintly toned near-Gem representative. The 1924-S Mercury dime issue was notoriously ill produced, adding to the desirability of coins with Full Bands. Only 19 examples with the Full Bands designation have achieved higher grades from PCGS (2/14). NGC ID# 23HL, PCGS# 4947

10243 1930-S MS66 Full Bands PCGS. Only 14 examples with the Full Bands designation have achieved higher grades from PCGS (2/14), adding to the appeal of this Premium Gem representative. Attractive toning includes lovely pale gold color, with small splashes of faint lavender and pale blue hues present as well. NGC ID# 23J6, PCGS# 4981

10244 1938-S MS67 Full Bands PCGS. CAC. The 1938-S dime is scarce with full bands in Superb Gem grades. The present example exhibits cool ice-blue toning on both sides with nicely frosted, extremely well-preserved surfaces. Six examples have graded higher at PCGS (2/14). NGC ID# 23JR, PCGS# 5015

10245 1940-D MS68 PCGS. CAC. The virtually pristine surfaces of this incredible Mercury dime display shades of silver-gray and greenish-gold toning and the well-detailed design elements fall just short of full definition on the middle bands. Population: 4 in 68, 0 finer (2/14). NGC ID# 23JV, PCGS# 5024

10246 1940-S MS67+ Full Bands PCGS. CAC. Rich toning at portions of the periphery serves to accentuate the lighter centers on this high-end Superb Gem representative. Several shades of red, green, and orange are present. A thin vertical die crack extends through much of the portrait. Population: 10 in 67+ Full Bands, 4 finer (2/14). NGC ID# 23JW, PCGS# 5027

10247 1944 MS67 Full Bands PCGS. CAC. Beautifully toned, this Superb Gem displays rich shades of red, orange, and gold on both sides. Attractive luster further adds to the eye appeal. Only one example with the Full Bands designation has achieved a higher numeric grade from PCGS (2/14). NGC ID# 23KB, PCGS# 5051

1945-S Micro S Dime, MS67 Full Bands Richly Toned

10248 1945-S Micro S MS67 Full Bands PCGS. CAC. Though both sides of this lustrous Superb Gem exhibit strong eye appeal, the reverse is arguably the more attractive side due to larger areas of toning. Among the colors present are teal, red-brown, and gold. The important Full Bands designation also adds to the desirability of this piece. A mark in the right reverse field poses minimal distraction, if any. Population: 22 in 67 (1 in 67+) Full Bands, 2 finer (2/14). NGC ID# 23KH, PCGS# 5063

PROOF MERCURY DIMES

10249 1936 PR65 PCGS. Beautifully toned, this Gem displays a number of colors, including golden-orange, fuchsia, denim-blue, grape, and sea-green. The strike is sharp, further adding to the strong visual appeal this piece possesses. NGC ID# 27DG, PCGS# 5071

1938 Mercury Dime, PR68 Virtually Flawless

10250 1938 PR68 NGC. Mercury dime proof production started in 1936 and ended in 1942, resulting in a brief seven-year series. This Superb Gem example is brilliant, deeply mirrored, and fully struck. Both sides are clean and virtually flawless. The eye appeal of the piece is excellent. Census: 43 in 68 (4 in 68 ★), 1 finer (2/14). NGC ID# 27DJ, PCGS# 5073

1939 Mercury Dime, PR67 ★ Cameo Conditionally Rare

10251 1939 PR67 ★ Cameo NGC. The proof mintage of this date, at 9,321 pieces, was considerably lower than modern proof dime productions in the millions. This is a beautiful Superb Gem with meticulously preserved surfaces and razor-sharp strike definition. Strong cameo contrast is evident on each side. Census: 15 in 67 Cameo (2 in 67 ★ Cameo), 1 finer (2/14). PCGS# 85074

ROOSEVELT DIMES

10252 1947-S MS67+ Full Bands PCGS. Exquisite peripheral bands of cherry-red, lemon-gold, and aquamarine embrace this crisply struck and thoroughly lustrous Superb Gem. A loupe reveals only incidental contact. Population: 40 in 67 (4 in 67+) Full Bands, 3 finer (2/14). NGC ID# 23KP, PCGS# 85087

10253 1950-S MS67+ Full Bands PCGS. The obverse in particular reveals rich, attractive toning on this high-end Superb Gem example, with deep red being the predominant color. Portions of the upper left reverse exhibit an incompleteness of strike. Population: 30 in 67 (4 in 67+) Full Bands, 2 finer (2/14). NGC ID# 23KZ, PCGS# 85096

10254 1968 MS67 Full Bands PCGS. A Superb Gem representative from this conditionally rare issue, the Full Bands are evident on the reverse of this piece. Attractive toning, particularly on the obverse, adds to the eye appeal. Shades of gold along with splashes of lavender and pale pink are present. Population: 8 in 67 Full Bands, 0 finer (2/14). NGC ID# 23M7, PCGS# 85133

PROOF ROOSEVELT DIMES

1950 Roosevelt Dime, PR68 Deep Cameo Tied for Finest-Certified at PCGS

10255 1950 PR68 Deep Cameo PCGS. This is a marvelously preserved Superb Gem dime that exhibits profound contrast between frosted white devices and endlessly reflective fields on each side. Fully struck on every design element, with pristine surfaces that are thoroughly untoned. Population: 2 in 68 Deep Cameo, 0 finer (2/14). PCGS# 95225

10256 1974-S PR70 Deep Cameo PCGS. A desirable, technically perfect specimen featuring the Deep Cameo designation, this piece exhibits strong visual appeal. The richly mirrored fields provide lovely contrast against the frosted devices. Population: 23 in 70 Deep Cameo, (2/14). NGC ID# 27F9, PCGS# 95252

TWENTY CENT PIECES

10257 1875-CC AU53 NGC. An AU53 example of the 1875-CC, the only collectible date of this short-lived odd denomination from the Carson City Mint, this coin displays pale gold and rose toning. Adding to the appeal, there are no marks worthy of individual mention. NGC ID# 23R6, PCGS# 5297

10258 1876 MS64 NGC. Reflective fields and light toning provide this near-Gem with a lovely appearance. The toning includes pale peach-gold, with small splashes of teal, golden brown, and cherry present on the reverse. The upper portion of Liberty and the cap reveal as-made die rust. NGC ID# 23R8, PCGS# 5299

PROOF TWENTY CENT PIECE

1876 Twenty Cent, PR65 Underrated Issue

10259 1876 PR65 PCGS. Rich toning, in hues of gold and teal, with tiny splashes of red, provides this lustrous Gem with a lovely appearance. The piece exhibits a strong degree of design definition overall. A tiny spot is present near 8 o'clock on the obverse. Population: 23 in 65, 12 finer (2/14). NGC ID# 27H3, PCGS# 5304

EARLY QUARTER

10260 1806 Fine 12 PCGS. B-9, R.1. Tompkins Die State 4/5. Navy-blue and olive-green embrace this unblemished and typically struck Bust type coin. A fairly late die state as the shoulder curl is partly lapped away. The date is clashed near STATES. NGC ID# 23RD, PCGS# 5314

BUST QUARTERS

10261 1818 — Improperly Cleaned — NGC Details. Unc. B-4, R.2. Tompkins Die State 5/4. The terminal die state with various interesting cracks, clashes, and rim crumbling. The borders display golden-brown toning while the centers are pearl-gray. Mildly glossy from a wipe but the minimally abraded surfaces are nonetheless attractive. NGC ID# 23RH, PCGS# 5322

1824/2 B-1 Capped Bust Quarter, VF20 Lightly Toned, Nice Eye Appeal

10262 1824/2 VF20 PCGS. B-1, R.3. A single die pair for the year resulted in this overdate, with the 4 punched high over an underlying 2. The 8 in the date is repunched as well, with remnants of the underdigit seen within both loops. The attractive patina displays caramel-gold color over the devices with deeper, bronze-gray accents. This moderately worn, problem-free coin is sharp for the grade and pleasing, with no serious marks. Population: 12 in 20, 73 finer (2/14). NGC ID# 23RR, PCGS# 5335

1824/2 Capped Bust Quarter, XF45 B-1, Only Dies for the Date

10263 1824/2 XF45 PCGS. B-1, R.3. The lone variety for the year and scarce in an absolute sense, with the available supply consistently unable to satisfy demand. This luminous Choice XF example has toned rich purple and silver-blue with modest wear concentrated at the high points. Population: 10 in 45, 14 finer (2/14).
Ex: Houston Signature (Heritage, 12/2008), lot 1218; Long Beach Signature (Heritage, 2/2009), lot 1061. NGC ID# 23RR, PCGS# 5335

10264 1825/4 XF40 PCGS. B-3, R.3. Designated as 1825/4/(2) on the PCGS holder. The Guide Book lists the same variety as 1825/4. Not to be confused with the very scarce B-1 1825/2. This steel-blue and tan-gold example is hairlined but devoid of mentionable abrasions. NGC ID# 23RU, PCGS# 5336

10265 1831 Large Letters AU58 PCGS. B-5, FS-301, R.3. The large 1s over small 1s in the date have attracted *Cherry-pickers'* notice. Sea-green toning fills the margins but the open fields and portrait show only a hint of tan patina. A partly lustrous and nicely struck example. PCGS# 5349

PROOF BUST QUARTERS

1831 Capped Bust Quarter, PR66
Only Certified Small Letters B-1 Proof
Recently Discovered in Europe

10266 1831 Small Letters PR66 NGC. CAC. B-1, R.8 as a proof. The innovative close collar technology was introduced on the quarter denomination in 1831, resulting in coins with beaded borders and a reduced diameter. Because there was no change in weight or composition, the new coins used thicker planchets to compensate for the smaller diameter. This caused some problems with striking quality. Chief Engraver William Kneass adjusted the design in many small ways in order to achieve the best-possible strike, including removing the motto E PLURIBUS UNUM from the reverse. Four obverse and five reverse dies were combined to strike the seven known die varieties of the date. Six varieties were classified as B-1 through B-6 by Ard Browning in his early series reference and the rare B-7 variety was discovered by later researchers.

Exactly which dies were used for proof coinage is in some dispute. Walter Breen listed coins of the B-1, B-2, B-4 and B-5 varieties which he believed were proof examples in his *Encyclopedia of United States and Colonial Proof Coins*. Of particular interest to the present description, he noted about the Browning 1 variety, "ANS. One or two others reported, not traced." David Akers challenged Breen's attribution of the four proof varieties in his description of the 1831 proof quarter in lot 1286 of the Pittman catalog, where he stated:

"Although others feel differently, it is my opinion that the only true Proofs of this date are this B-5 variety. Highly prooflike examples exist of other varieties, mostly B-2, and some of these pieces have incorrectly been called Proofs in the past, but they are very different in appearance from the specimens of this variety which have unquestioned Proof status."

Akers provided a roster of the seven B-5 proof quarters he was aware of. Since the time of the Pittman sale, third party grading services have certified a few specimens of the B-4 variety as proofs, as well as the B-5 coins Akers considered true proofs, seeming to confirm Breen's assertion, at least in part. We believe the present coin is the first example of a B-1 1831 proof quarter to be certified by either of the leading grading services.

Proof 1831 quarters began appearing at auction as early as the Joseph J. Mickley Collection (W. Elliot Woodward, 10/1867), where lot 1710 was a four-piece silver proof set described as, "1831 Four pieces, Half, Quarter, Dime and Half Dime; all brilliant, extremely rare." The lot realized \$8.50 to J.N.T. Levick. No study of die varieties had been attempted at the time of the Mickley sale, and it is not possible to determine which variety Mickley's coin represented. Recent sales of the 1831 proof quarter include the spectacular PR66 Cameo NGC specimen in lot 3736 of the FUN Signature (Heritage, 1/2009), which realized \$218,500.

This magnificent Premium Gem was acquired by a European nobleman during his travels in this country in the mid-19th century. Much like the coins in the famous Lord St. Oswald Collection, this piece has been preserved by the nobleman's family down to the present time. Delicate shades of cerulean-blue and greenish-gold toning blanket the pristine surfaces of this delightful specimen. The design elements are sharply detailed in most areas, but some stars on the left have incomplete centrils. The fields are deeply reflective, but the toning reduces what would otherwise be bold cameo contrast with the frosty design elements. A long reverse die crack extends from the lower leaves through the eagle's wing and the letters of UNITED STATES. Eye appeal is terrific. Census: 1 in 66, 0 finer (2/14). NGC ID# 23SB, PCGS# 5378

SEATED QUARTERS

10267 1851-O — Improperly Cleaned — NGC Details. XF. The California Gold Rush caused silver coins to exceed face value. Thus, the 1851-O mintage was just 88,000 pieces, and much of the production was likely melted. The present gunmetal-gray and olive-gold survivor has pleasing definition. The surfaces are faintly hairlined and mildly granular. A couple of thin marks are noted near Liberty's legs. NGC ID# 23T7, PCGS# 5418

1853 Liberty Seated Quarter, MS64 Brilliant, Frost-White Example

10268 1853 Arrows and Rays MS64 NGC. A one-year only design, more than 100 obverse and reverse dies were made to produce the highest mintage of the Seated quarter series with over 15 million pieces struck. Surprisingly few examples remain in high grade. When Larry Briggs said in his *Liberty Seated Quarters Encyclopedia*, "all UNC's seen are very frosty" he must have had this coin in mind. Brilliant-white and satiny lustrous, the mint frost is thick — rim-to-rim on both sides. Only minor luster grazes are seen, and no other mentionable marks. Die clashing is evident on the obverse. NGC ID# 23U4, PCGS# 5426

1858-S Seated Quarter, AU58 Single Finest Graded at PCGS

10269 1858-S AU58 PCGS. The typically small mintage of this S-mint issue was a mere 121,000 pieces, and all were needed as circulating coinage at that time in the booming towns and cities of Northern California; especially in San Francisco itself. This attractively toned example is the single finest-certified example at PCGS, where none have been graded in Mint State (2/14). The design elements exhibit sharp definition, and no marks are individually noteworthy or distracting on either side. NGC ID# 23TK, PCGS# 5447

1860 Liberty Seated Quarter, MS66 Only One Certified Finer by NGC

10270 1860 MS66 NGC. Type Two Obverse, Type One Reverse. A purely white coin with satin-smooth surfaces and intense luster. Although the mintage was a generous 804,400 pieces, few examples exist in the high Uncirculated grades. Currently NGC has certified only two coins in MS66, with one finer, while PCGS has certified just two examples at the Premium Gem level, with none finer (2/14). This stunning Premium Gem is a pristine silver-white example with frosted devices and a sharp strike. A few stars show flatness near Liberty's head, which is a bit of soft there as well (typical for the Philadelphia date), but all other details are sharp. Census: 3 in 66, 1 finer (2/14). NGC ID# 23TP, PCGS# 5451

10271 1874 Arrows MS64 NGC. Rich satin luster and light golden-peach surfaces provide both sides of this near-Gem with exceptional visual appeal. The design elements reveal a minor incompleteness of strike, including the obverse stars. Census: 17 in 64, 12 finer (2/14). NGC ID# 23VX, PCGS# 5494

10272 1875 MS65 PCGS. Type One Reverse. A chestnut-gold and slate-gray Gem that boasts vibrant cartwheel sheen and a precise strike. Minor grazes on the right obverse field are all that limit the grade. Population: 37 in 65, 24 finer (2/14). NGC ID# 23UX, PCGS# 5498

10273 1877 MS65 PCGS. Frosty luster and virtually untuned surfaces add to the eye appeal of this Gem representative. The strike is sharp overall, with minor incompleteness at the upper portion of Liberty. Clash marks are present on both sides. Long die breaks appear at the lower reverse. NGC ID# 23V5, PCGS# 5504

10274 1877-CC MS65 NGC. Briggs 2-B, FS-301. Large CC. The 77 in the date is repunched south, and the mintmark is widely spaced. Dusky rose-gold toning embraces this well struck and lustrous Carson City type coin. The reverse appears pristine and the obverse is nearly as nice. NGC ID# 23V6, PCGS# 5505

1880 Quarter Dollar, MS67 Tied for Second Finest at PCGS

10275 1880 MS67 PCGS. CAC. Business strike mintages of Seated quarters from 1879 to 1891 were extremely small, although the survival rate was rather significant. However, Superb Gem or finer specimens of all those dates are rarely encountered. This 1880 has reflective fields with brilliant silver surfaces and splashes of iridescence. Population: 13 in 67, 1 finer (2/14). NGC ID# 23VC, PCGS# 5512

10276 1888-S MS64 PCGS. Cartwheel luster and largely untuned surfaces are among the attributes this near-Gem possesses. Though not fully struck, the design elements exhibit a pleasing level of design detail. Population: 28 in 64 (1 in 64+), 9 finer (2/14). NGC ID# 23VN, PCGS# 5521

10277 1890 MS65 NGC. Brilliant surfaces and frosty luster create strong eye appeal for this nicely struck Gem representative. A tiny as-made strike-through appears near the bottom tip of the shield. Census: 31 in 65, 51 finer (2/14). NGC ID# 23VP, PCGS# 5523

PROOF SEATED QUARTERS

1864 Seated Quarter, PR65 Attractively Toned

10278 1864 PR65 PCGS. Just 470 proof quarters were struck in 1864, a low number which gradually increased following the Civil War. Survivors are scarce at grade levels above PR64, at both services. This is a lovely Gem example with blended toning variations that complement smooth, unmarked surfaces. Population: 10 in 65, 5 finer (2/14). NGC ID# 23WS, PCGS# 5560

10279 1870 PR64 PCGS. The surfaces remain largely reflective on this attractive near-Gem example. Toning is present on both sides, with the reverse toning being particularly attractive with shades of copper-gold and cerulean blue predominant. Population: 34 in 64, 15 finer (2/14). NGC ID# 23X3, PCGS# 5569

1871 Seated Liberty Quarter, PR67 Cameo Strong Visual Appeal

10280 1871 PR67 Cameo PCGS. The marked contrast between the fields and devices, particularly on the obverse, provides this piece with exceptional eye appeal. This Superb Gem displays peach-gold color overall, with areas of bright blue, red, and orange also present. The colors are more vivid on the obverse. A small mark appears to the right of star 4 and the reverse reveals evidence of die rust. Population: 2 in 67 Cameo, 0 finer (2/14). PCGS# 85570

10281 1873 No Arrows PR65 PCGS. Vibrant electric blue, violet, and champagne hues emanate from beneath satiny luster on this colorful Gem. Semiprooflike fields highlight a virtually perfect strike and reveal almost no noticeable marks when tilted under a light. Population: 12 in 65, 7 finer (2/14). NGC ID# 23X6, PCGS# 5572

1883 Seated Quarter, PR66 Attractively Toned and Well-Preserved

10282 1883 PR66 NGC. CAC. Apparently the mintage of 1,039 proofs must have been well-produced, as Gem and finer examples are not rare. Premium Gems are somewhat scarcer at both PCGS and NGC. The current offering represents a sharply-struck representative with appealing layers of rather deep patina, and carefully conserved surfaces that are free of distractions. Census: 28 in 66, 19 finer (2/14). NGC ID# 23XF, PCGS# 5584

1883 Quarter, PR67+ High-End in Grade and Eye Appeal

10283 1883 PR67+ NGC. CAC. Rich cobalt-blue and crimson-rose hues enliven the obverse, while the deeply contrasted reverse shows a silver center with amber-gold near the rim on this high-end Superb Gem. The proof strike of this piece is complete over both sides. The eye appeal is virtually unsurpassable, as indeed is the technical grade. Census: 17 in 67 (2 in 67+, 1 in 67 ★), 3 finer (2/14). NGC ID# 23XF, PCGS# 5584

10284 1889 PR65 PCGS. An attractive Gem from a proof mintage of just 711 pieces, this piece displays sharply detailed design elements and deeply reflective fields under vivid shades of greenish-gild and cobalt-blue toning. Population: 20 in 65, 14 finer (2/14). NGC ID# 23XM, PCGS# 5590

BARBER QUARTERS

10285 1894 MS65 NGC. CAC. Pleasing luster emanates from the richly toned surfaces of this Gem. The colors include shades of golden-yellow, teal, lavender, and deep red-brown. The strike is sharp, adding to the appeal. Census: 21 in 65 (1 in 65 ★), 7 finer (2/14). NGC ID# 23XZ, PCGS# 5607

**1895-O Quarter, MS66
Richly Toned and Lustrous**

10286 1895-O MS66 PCGS. CAC. Richly toned and lustrous, this Premium Gem primarily displays shades of teal, golden-orange, and plum though smaller areas of other attractive colors are present as well. The strike is sharp aside from minor incompleteness at the eagle's claws. Population: 3 in 66, 2 finer (2/14). NGC ID# 23Y5, PCGS# 5611

1899-S Quarter, Toned MS66

10287 1899-S MS66 PCGS. Variegated aqua-blue, lavender, and yellowish-gold toning cascades over the obverse of this Premium Gem ceding to a medley of russet, gray, and lavender on the reverse. The design elements are crisply defined, including the upper-right shield corner, the eagle's plumage and claws, and the arrow feathers. This low-mintage (708,000 pieces) Barber is very scarce in all grades and rare in MS66 and finer. Population: 11 in 66, 3 finer (2/14). NGC ID# 23YJ, PCGS# 5624

10288 1906 MS66 PCGS. Freckles of forest-green and walnut-brown overlie undisturbed dove-gray surfaces. Lustrous and nicely struck with outstanding eye appeal. A desirable example of this available Barber type issue. Population: 21 in 66, 2 finer (2/14). NGC ID# 23Z5, PCGS# 5642

**1907-O Barber Quarter, MS66+
Conditionally Elusive**

10289 1907-O MS66+ PCGS. CAC. This high-mintage issue has a reputation for being poorly produced, and the major services have not found many examples deserving of the MS66 rating, perhaps due to the typically soft strike definition seen on most of the coins. This lustrous and carefully preserved Premium Gem shows attractive, variegated coloration and mark-free surfaces. Only the central high points are somewhat weak. Population: 11 in 66 (3 in 66+), 5 finer (2/14). NGC ID# 23ZA, PCGS# 5647

10290 1908-S AU58 PCGS. CAC. A slightly better date, the 1908-S typically comes sharply struck with nice luster, and the present example does not disappoint. Both sides display just the barest touch of light golden tone, with a few small splashes of pale lavender. Population: 11 in 58, 66 finer (2/14). NGC ID# 23ZF, PCGS# 5652

10291 1909 MS65 PCGS. Subtle toning and frosty luster provide this Gem with an attractive appearance. The toning consists primarily of pale champagne-gold color, with a few scattered splashes of deeper gold also present. Population: 63 in 65 (2 in 65+), 22 finer (2/14). NGC ID# 23ZG, PCGS# 5653

10292 1911 MS65 PCGS. CAC. This Gem possesses lovely eye appeal, due in part to a pleasing degree of luster and lightly toned surfaces. The obverse reveals olive-green and tan toning, primarily at the outer edges. Scattered toning appears on the reverse. Population: 46 in 65 (1 in 65+), 14 finer (2/14). NGC ID# 23ZN, PCGS# 5659

10293 1912 MS65 PCGS. The obverse of this lustrous Gem is particularly attractive, with an overall salmon-pink appearance. Closer examination reveals a number of intermingled shades, among them orange, cherry, and bright green. The reverse displays light gold, golden-orange, and lavender hues. The coin exhibits a sharp strike overall, with minor softness at the lower reverse. Population: 78 in 65 (1 in 65+), 21 finer (2/14). NGC ID# 23ZS, PCGS# 5662

**1913 Barber Quarter, MS65
Challenging Date in High Grade**

10294 1913 MS65 PCGS. This Philadelphia issue is overshadowed by its rare San Francisco Mint counterpart, the 1913-S quarter, but it is scarce in its own right with a mintage of less than 500,000 pieces, and it is conditionally rare in Gem or finer grades. Brilliant, frost-white surfaces display strong silver luster and a complete absence of toning. A strong strike is full everywhere except for the slightest blending on the arrow fletchings and the right shield corner. There are no marks to mention on the flashy, silver-white surfaces. Population: 31 in 65 (1 in 65+), 7 finer (2/14). NGC ID# 23ZU, PCGS# 5664

PROOF BARBER QUARTERS

1893 Quarter, PR67 ★ Cameo

10295 1893 PR67 ★ Cameo NGC. Snow-white devices and legends exhibit obvious contrast with the virtually untuned fields. Well struck and essentially immaculate. The sole apparent imperfection is a tiny flan flake above the E in QUARTER. As of (2/14), NGC has certified only six proof 1893 quarters as Cameo with a Star designation. PCGS# 85679

10296 1894 PR65 NGC. This Gem proof displays a razor-sharp strike with brilliant, mirrored fields. The remarkably clean surfaces produce nice mirroring when tilted under a light, and exhibit the overall appearance of a higher-graded coin. NGC ID# 2429, PCGS# 5680

**1899 Quarter, PR66 Cameo
Conditionally Scarce**

10297 1899 PR66 Cameo PCGS. Lightly toned pearl-gray with glints of gold at the margins. The layer of patina scarcely dims this Premium Gem's inherent contrast, as the frost on the well-defined devices holds up without a hitch. Cameo examples of turn-of-the-century silver are elusive this fine. Population: 7 in 66 Cameo, 4 finer (2/14). PCGS# 85685

10298 1907 PR66 NGC. A degree of contrast is present on this Premium Gem, particularly on the obverse, adding to the eye appeal this piece possesses. Subtle toning appears on this piece exhibiting a sharp strike aside from the eagle's claws and the lower portion of the arrows. Census: 67 in 66 (2 in 66+), 30 finer (2/14). NGC ID# 242N, PCGS# 5693

10299 1908 PR64+ PCGS. A high-end Choice proof, from a mintage of just 545 pieces, this attractive specimen displays sharply detailed design elements and reflective fields. Shades of gold toning largely cover the surfaces, with splashes of teal, orange, and golden-brown also present. NGC ID# 242P, PCGS# 5694

**1908 Barber Quarter, PR67
Vivid Multicolor Toning**

10300 1908 PR67 PCGS. From a low proof mintage of 545 pieces, this spectacular Barber quarter exhibits sharply detailed design elements and well-preserved deeply reflective fields, under vivid shades of greenish-gold and violet toning. Eye appeal is terrific. Population: 15 in 67, 6 finer (2/14). NGC ID# 242P, PCGS# 5694

10301 1909 PR65 PCGS. Field reflectivity is pronounced despite richly dappled golden-russet and lime-green toning. Sharply struck and void of perceptible detractors. A meager 650 proofs were issued. NGC ID# 242R, PCGS# 5695

10302 1909 PR65 PCGS. CAC. An impressive Gem from a proof mintage of just 650 pieces, this coin offers sharply detailed design elements and deeply reflective fields. The obverse is toned light apricot-gold while the reverse is stone-white. NGC ID# 242R, PCGS# 5695

10303 1911 PR64 Cameo PCGS. Tiny, scattered splashes of golden-orange toning appear on the champagne surfaces of this near-Gem example displaying contrast between the fields and devices. Reflective fields add to the eye appeal of this well struck piece. Population: 13 in 64 Cameo, 41 finer (2/14). PCGS# 85697

**1913 Quarter, PR68 Cameo
None Finer at NGC**

10304 1913 PR68 Cameo NGC. Only 613 proof Barber quarters were struck in 1913 and the business-strike emission was also small. This spectacular MS68 specimen exhibits razor-sharp definition on all design elements, with deeply mirrored fields and bold field-device contrast. Census: 5 in 68 Cameo, 0 finer (2/14). PCGS# 85699

**1915 Quarter, Superb Gem Proof
Colorfully Toned**

10305 1915 PR67 PCGS. Impressive rose-red, orange-gold, and apple-green toning endow this fully struck Superb Gem. Immaculate aside from a few minute obverse mauve flecks. The final proof date and the second-lowest proof mintage of the series. Population: 10 in 67 (1 in 67+), 2 finer as 68, 2 finer as 67 Cameo (2/14). NGC ID# 242X, PCGS# 5701

STANDING LIBERTY QUARTERS

**1916 Standing Liberty Quarter, XF45
Sought-After Series Key**

10306 1916 XF45 NGC. Some flatness shows on the high points of this Choice XF specimen, but Liberty's toes and most lines in the drapery remain intact. The lightly abraded surfaces retain much original mint luster and show a few hints of golden-tan toning. The 1916 Standing Liberty quarter is a low-mintage first-year key in the series. NGC ID# 242Y, PCGS# 5704

1916 Standing Liberty Quarter, XF45

10307 1916 XF45 PCGS. CAC. A Choice XF example of the series key, this piece displays even wear and is devoid of any surface marks or abrasions worthy of mention. The surfaces exhibit light gray color overall, with closer inspection revealing subtle hints of peach. A few darker spots appear on the obverse. NGC ID# 242Y, PCGS# 5704

1916 Standing Liberty Quarter, AU55 Low-Mintage First-Year Key

10308 1916 AU55 PCGS. The 1916 Standing Liberty quarter claims a mintage of just 52,000 pieces, a low production total for any 20th century U.S. coin. The issue is probably the most sought-after coin of the entire series, combining the appeal of a first-year type coin with the enticing allure of the limited mintage. The 1916 was not a well-produced issue, however, and many examples show weak strikes and lackluster surfaces.

The present coin is an attractive Choice AU specimen, with well-detailed design elements that show a trace of wear on the high points. The pleasing surfaces retain much of their original mint luster under shades of golden-brown and lavender-gray toning. This coin will be a welcome addition to a fine collection or advanced type set. NGC ID# 242Y, PCGS# 5704

1916 Standing Liberty Quarter, Unc Details Important First-Year Series Issue

10309 1916 — Improperly Cleaned — NGC Details. Unc. This piece may pose an important bidding opportunity to obtain a Mint State Details example of this key first-year Standing Liberty quarter issue. The luster is a bit diffuse and a few faint hairlines are present, but the coin is retoning nicely and presents significant eye appeal.

10310 1917-D Type Two MS66 PCGS. CAC. Hints of chestnut-tan toning adorn lustrous and immaculate surfaces. The date is sharp though the sprig on the Liberty's head is incomplete, as are two shield rivets close to the waist. NGC ID# 2435, PCGS# 5716

10311 1918 MS65 Full Head PCGS. Attractive luster is present on this Gem displaying desirable Full Head definition. The surfaces exhibit light toning in hues of pale gold and olive-green. Though not fully defined, all of the shield rivets are present. A couple of minuscule spots appear near 5 o'clock on the obverse. NGC ID# 2437, PCGS# 5721

**1918/7-S Standing Liberty Quarter, Unc Details
Key Wartime Hubbing Error**

10312 1918/7-S — Artificial Toning — NGC Details. Unc. The 1918/7-S Standing Liberty quarter is one of the most elusive and sought-after issues of the series. The obverse die was inadvertently overdated during the hubbing process when new dies were being prepared at the end of 1917 for the next year's coinage. The dies normally received two impressions from the hub to bring up all the details. This die was initially impressed with the old hub bearing the 1917 date, then annealed and impressed again with the new 1918-dated hub, producing the dramatic overdate.

This well-detailed example shows just a trace of softness on Liberty's head and some shield rivets. The lustrous surfaces are lightly marked, but show shades of artificial pale gold and pink toning. A still-attractive specimen of this important series key. NGC ID# 243A, PCGS# 5726

**1921 Quarter, MS65
Lustrous and Sharply Struck**

10313 1921 MS65 PCGS. CAC. The 1921 Standing Liberty quarter is a better date in the series, with a relatively low mintage of less than 2 million pieces. One of the key dates in the series, it is highly popular with collectors. The radiantly lustrous surfaces of this Gem are nearly color-free save for occasional whispers of reddish-gold on the obverse. The design elements are sharply struck, especially the chain mail and the horizontal and vertical stripes of the inner shield. While Liberty's head is not full, the facial features are nicely detailed. Population: 94 in 65 (2 in 65+), 22 finer (2/14). NGC ID# 243H, PCGS# 5740

10314 1923 MS67 NGC. Lustrous silver-white surfaces provide both sides of this Superb Gem with a tremendous degree of visual appeal. A few tiny spots of golden toning appear on the obverse. The strike is sharp overall, with all of the shield rivets present. Neither NGC nor PCGS has awarded a higher numeric grade to a single example (2/14). NGC ID# 243J, PCGS# 5742

10315 1923-S VF30 NGC. Cream-gray and autumn-brown encompass this mid-grade semikey quarter. Marks are absent aside from a small scrape below Liberty's waist. All four date digits are readable. NGC ID# 243K, PCGS# 5744

10316 1924-D MS67 NGC. A lustrous and pristine Superb Gem with hints of straw-gold toning and minute freckles on the upper half of the obverse. The strike is typical. Certified in a former generation holder.

Ex: Long Beach Signature (Heritage, 6/2004), lot 8261. NGC ID# 243M, PCGS# 5748

10317 1924-S MS64 PCGS. Lustrous, largely silver-white surfaces provide this near-Gem with a lovely appearance. A few tiny flecks of toning are present. The 1924-S Standing Liberty quarter issue is known for incomplete strikes, as is the case with this example. NGC ID# 243N, PCGS# 5750

10318 1929-S MS66 Full Head PCGS. Scattered splashes of toning appear on both sides of this highly lustrous Premium Gem example displaying coveted Full Head detail. Among the hues present are gold, teal, cherry-red, and several shades of green. A tiny mark appears at Liberty's cheek. PCGS has awarded higher numeric grades to only 12 examples (2/14). NGC ID# 2444, PCGS# 5777

WASHINGTON QUARTERS

10319 1932-S MS64 PCGS. A richly toned near-Gem, this coin displays shades of orange, gold, lavender, cherry-red, and apple-green. Arguably, the reverse is the more attractive side. Very few marks, all minuscule, appear on this lovely representative. NGC ID# 2449, PCGS# 5792

10320 1934 Medium Motto MS67 NGC. CAC. FS-402. Sun-gold, peach, and pale powder-blue visit this virtually immaculate Superb Gem. Crisply struck and lustrous with outstanding eye appeal. Census: 67 in 67 (9 in 67 ★, 1 in 67+★), 0 finer (2/14). NGC ID# 244A, PCGS# 5793

10321 1934 Medium Motto MS67+ PCGS. CAC. FS-402. A faintly toned example, this high-end Superb Gem representative has tremendous eye appeal as the grade implies. Pleasing streaks of color are present on the obverse, with lovely shades of lime-green, yellow, and pink appearing near the date. Population: 8 in 67+, 1 finer (2/14). NGC ID# 244A, PCGS# 5793

**1935-D Quarter, MS67
Tied for Finest-Graded at PCGS**

10322 1935-D MS67 PCGS. The 1935-D is another scarce, semi-key issue from the Denver mint. Only 5.78 million pieces were produced and high-grade examples are very elusive. Only 18 other pieces have been certified in MS67 by PCGS, with none graded finer at either of the major services. This is an absolutely splendid coin. The surfaces are covered with light moss-green and rose-colored toning around lavender centers, and the whole coin has a significant presence of thick mint frost. As one would expect from the grade, the surfaces approach technical perfection. Population: 19 in 67, 0 finer (2/14). NGC ID# 244E, PCGS# 5798

**1935-D Quarter Dollar, MS67
Brilliant, None Certified Finer**

10323 1935-D MS67 PCGS. Majestically struck, brilliantly untuned, and totally unmarked by handling or transport, this dazzling, silver-white quarter is a Superb Gem in every way. Considered by many numismatists to be one of the most underrated dates in the series, this example with delight collectors searching for an untuned, brilliant representative of the date, and Registry Set collectors will take note of this coin as well. Population: 17 in 67, 0 finer (2/14). NGC ID# 244E, PCGS# 5798

10324 1938-S MS67 PCGS. CAC. Rich luster provides this Superb Gem example with immediate eye appeal. Scattered toning is present, in attractive shades of rich yellow, orange, cherry-red, and apple-green, particularly on the obverse. Population: 45 in 67 (3 in 67+), 0 finer (2/14). NGC ID# 244P, PCGS# 5807

10325 1939-S MS67 PCGS. A spectacular Superb Gem, from a small mintage of 2.6 million pieces, this delightful coin displays brilliant surfaces, with just a touch of champagne-gold on the obverse, and vibrant mint luster on both sides. The design elements are sharply detailed throughout and there are no visible signs of contact. Population: 53 in 67, 0 finer (2/14). NGC ID# 244T, PCGS# 5810

10326 1944-S MS67+ PCGS. Large S. Splendid jade-green, apricot-gold, and cherry-red toning adorn this lustrous and minimally abraded Superb Gem. The strike is crisp at the centers and shows minor incompleteness at the margins. NGC ID# 245A, PCGS# 5826

**1947 Washington Quarter, MS67+
One of the Four Finest at PCGS**

10327 1947 MS67+ PCGS. CAC. Colorful bands of iridescence surround silver centers of this smooth, lustrous quarter dollar. Pleasing shades of blue, lime-green, magenta, and pink frame the obverse, while more intense orange, green, and red cover the margins on the reverse. A bold strike complements unmarked fields and devices. There are no numerically finer examples seen by PCGS. Population: 68 in 67 (4 in 67+), 0 finer (2/14). NGC ID# 245H, PCGS# 5833

10328 1949-D MS67 PCGS. CAC. The obverse of this Superb Gem displays scattered freckles and splashes of rich toning, including hues of apple-green, cherry-red, orange, lavender, and lemon-yellow. The reverse also reveals rich toning though it is more distributed. Population: 49 in 67 (6 in 67+), 2 finer (2/14). NGC ID# 245R, PCGS# 5840

10329 1951-S MS67+ PCGS. CAC. Splendid fire-red and forest-green toning endows the borders of this highly lustrous Superb Gem. The centers are pale powder-blue. An outstanding example of a fairly low mintage S-mint issue. As of (2/14), PCGS has certified 15 as MS67+ along with a solitary MS68. NGC ID# 245Y, PCGS# 5848

**1953-S Quarter, MS67+
Tied for Finest-Certified at PCGS**

10330 1953-S MS67+ PCGS. CAC. A gorgeous Superb Gem quarter with lovely hues of original patina distributed across the obverse and near the reverse peripheries. Fully struck and seemingly pristine, this lustrous example hails from an original mintage in excess of 14 million pieces, yet only 7 coins have achieved the lofty MS67+ rating at PCGS, and none are graded any finer by that service (2/14). NGC ID# 2466, PCGS# 5854

**1970-D Quarter Dollar, MS68
Outstanding Eye Appeal**

- 10331 1970-D MS68 PCGS.** The brilliant surfaces of this MS68 Washington appear to reach out to the observer. Sharply struck design features and immaculately preserved surfaces heighten the coin's outstanding eye appeal. This nearly perfect Washington quarter will be a centerpiece of a high-grade collection. Population: 6 in 68, 0 finer (12/13). NGC ID# 2476, PCGS# 5886

PROOF WASHINGTON QUARTER

- 10332 1936 PR65 PCGS. CAC.** Following a hiatus of two decades, the Mint resumed proof set offerings in 1936, striking only 3,837 proof Washington quarters, making them the first proofs in the series. This Gem representative displays brilliant surfaces. NGC ID# 27HN, PCGS# 5975

EARLY HALF DOLLARS

- 10333 1795 2 Leaves Good 6 NGC. O-117, R.4.** A steel-gray and pearl-white collector coin of this elusive introductory half dollar type. All legends are readable, although portions of STATES OF are faint. A couple of thin marks are noted near star 1, and the right wing displays aqua residue. PCGS# 6052

**1795 Flowing Hair Half Dollar, VF25
S Over D in STATES Blunder, O-129a**

- 10334 1795 2 Leaves VF25 PCGS. O-129a, R.4.** One of the more interesting engraving blunders of the Flowing Hair half varieties — a similar error occurred on some 1795 half eagles. This example is a late state of the dies, with an impressive reverse die crack meandering from the bottom rim, through the ribbon bow, across the eagle's head, and to the opposite rim. A golden sheen overlays the gray-silver surfaces of this early, two-leaf half, which displays only a few small defects and nice appeal. PCGS# 6052

- 10335 1795/1795 Two Leaves Fine 12 ANACS. O-112, R.4.** The popular double date obverse, also found on the Three Leaves O-111. This is an appealing stone-gray example that has only a single mentionable abrasion, a short interrupted thin mark near the eagle's head. Adjustment marks are trivial and confined to the reverse margin. The strike is even aside from softness at the tops of STATES OF. Ex: *Chicago Signature (Heritage, 8/2011), lot 3911.* PCGS# 6055

- 10336 1803 Large 3, Large Reverse Stars XF40 NGC. O-103, R.3.** A cream-gray and almond-gold representative of this scarce *Guide Book* variety. The eagle is well defined and glimpses of luster peer from design crevices. The obverse displays faint hairlines. NGC ID# 24EF, PCGS# 6066

**1803 O-104 Half Dollar, XF45
Small 3 Variant**

- 10337 1803 Small 3, Large Reverse Stars XF45 PCGS. CAC. O-104, R.3.** Dusky golden-brown, sky-blue, and sea-green endows this pleasing and problem-free Choice XF example. Luster emerges from all design crevices. Scarcer than the Large 3 1803, whose die marriages are relatively available. Actually, the 3 in the date is not noticeably smaller than the Large 3 varieties, and it is more easily identified by the lack of an upright serif on the top crossbar than any other visual identifier. Sharp detail and strong appeal with no distractions. Population: 12 in 45, 9 finer (2/14). NGC ID# 24EF, PCGS# 6067

- 10338 1806 Pointed 6, No Stem — Improperly Cleaned — NGC Details. AU. O-109, R.1.** Golden-brown and steel-blue toning bathes this coruscating and unabraded Draped Bust type coin. Although mildly glossy, the surfaces are attractive and would please many specialists of the challenging series. PCGS# 6073

**1806 O-109a Draped Bust Half Dollar, AU55
Lustrous No-Stem, Pointed 6 Example**

- 10339 1806 Pointed 6, No Stem AU55 PCGS. CAC. O-109a, R.4.** Struck from the late state of the dies, this Overton-109a example displays exceptional mint luster and a uniformly bold strike. A distinct die crack emerges from star 12 and travels toward Liberty's neck. Another well-developed crack beneath 180 of the date extends toward the left stars, which are drawn to narrow rims that show only a small amount of milling. Orange-russet and gunmetal-blue accents appear at the margins, with light-gold centers. A bit of rub on the high points of Liberty's hair and forecurl, as well as on the eagle's head and breast, define the assigned grade. This CAC-Approved coin is virtually abrasion-free and highly attractive. Population: 21 in 55, 36 finer (2/14). PCGS# 6073

- 10340 1806 Pointed 6, Stem XF40 NGC. O-115, R.1.** The TY in LIBERTY is repunched. Rich forest-green fields contrast with lavender-gray and pearl-white high points. A loupe reveals infrequent thin marks. An attractive yet collectible Draped Bust type coin. NGC ID# 24EJ, PCGS# 6071

BUST HALF DOLLARS

- 10341 1808 AU53 PCGS. O-102a, R.2.** Readily attributed by the vertical die crack along the left border of the 0 in the date. A stone-gray half dollar that has ample bright luster. Marks are inconsequential for the grade aside from a slender area above the eagle's neck. NGC ID# 24EP, PCGS# 6090

**1812/1 Small 8 Half Dollar, AU58
O-102, Nice Luster and Detail**

- 10342 1812/1 Small 8 AU58 PCGS. O-102, R.2.** A delightful example of the overdate with lustrous medium gray surfaces with hints of champagne and iridescent toning. Evidence of clash-marked letters beneath the bust as well as other noticeable signs of die clashing appear on the obverse. The overdate is clear, with remnants of a 1 beneath the 2 (the result of 1812 over 11).
Ex: Houston Signature (Heritage, 12/08), lot 609, where it realized \$2,300.00. NGC ID# 24EY, PCGS# 6101

- 10343 1815/2 — Damage or Tooling — PCGS Genuine. VF Details. O-101a, R.3.** A barbell-shaped punch mark is noted at the obverse center. A smaller club-shaped punch mark is at the shoulder curl. The two punches cause a convex central reverse. The stone-gray surfaces are hairlined. The key to a date set of Capped Bust half dollars. NGC ID# 24F5, PCGS# 6108

**1815/2 Bust Half, AU50
O-101a, Key Overdate Issue**

- 10344 1815/2 AU50 PCGS. O-101a, R.3.** Bust half collectors know how difficult this date is to find with eye appeal. Many circulated examples are subdued with little remaining luster, but not so with this lively example. Liberal amounts of golden-orange luster surround the well-detailed devices, with a thin band of gunmetal blue at the rims. Struck from a late state of the dies, this coin displays many areas of die clashing on both sides. Curving die cracks on the reverse travel up and down through the legend, where the most obvious crack reaches from the M in AMERICA downward until it bisects the 0 in 50 C. Only 47,150 Capped Bust half dollars were struck in 1815, all from an unused 1812-dated die that was modified by a 5 punched over the last digit of the date. NGC ID# 24F5, PCGS# 6108

- 10345 1817 — Cleaning — PCGS Genuine. Unc. Details. O-111a, R.1.** A die line from the ribbon end is Dr. Glenn Peterson's pick-up point for this available Overton marriage. The borders teem with luster though the stone-gray surfaces are faintly hairlined. NGC ID# 24F6, PCGS# 6109

- 10346 1821 AU55 PCGS. CAC. O-103, R.2.** Defective As and Es in the reverse legend identify the Overton marriage. Golden-brown and sea-green outline peripheral design elements, but this lightly abraded half dollar is primarily cream-gray. NGC ID# 24FF, PCGS# 6128

- 10347 1822 AU55 PCGS. O-115, R.3.** This lightly toned scarcer variety half dollar displays bright luster across the margins and motifs. The curls and drapery display a hint of wear but marks are relatively few and minor. NGC ID# 24FG, PCGS# 6129

- 10348 1822 MS61 NGC. O-104, R.3.** A broad band of blue-green toning dominates the obverse border, though lilac-red is also present. The obverse center is brilliant, and the reverse displays delicate lime-green patina near the rims. Well struck and unblemished. NGC ID# 24FG, PCGS# 6129

**1823 Capped Bust Half, MS63
O-112, Extra Tall 3 in Date**

- 10349 1823 MS63 PCGS. O-112, R.1.** O-112, R.1. This interesting variety shows numerals in the date of different sizes, with the 23 larger than the 18, and the 3 larger yet than the 2. The coin is a treat for anyone who appreciates rich, original toning. Apple-green and lime-gold color drapes this lustrous and unabraded Bust half. Each side has a few minute dark spots. Sharply struck save for about half of the right-side stars, Liberty's profile is strike doubled as often seen on bust halves of this era. A prominent center dot on the reverse shield helps confirm the variety.
Ex: Fort Worth Signature (Heritage, 3/2010), lot 955. NGC ID# 24FJ, PCGS# 6131

1824 O-115 Half, Near-Gem

- 10350 1824 MS64 NGC. O-115, R.2.** Gunmetal-gray, straw-gold, and power-blue enrich this satiny and essentially unabraded Capped Bust type coin. The strike is generally good though the claws are incompletely impressed. O-115 is attributed by the die lump on the reverse field about midway between the left scroll end and the wing. NGC ID# 24FK, PCGS# 6137

**1824/4 Half Dollar, MS64
Unheralded Recut Date, O-109**

- 10351 1824/4 MS64 PCGS. O-109, R.2.** A less exciting date anomaly than some, yet a more interesting variety than many. This boldly struck half is first and foremost a sharp, appealing representative of the 1824 date, with golden luminosity over bright, silver surfaces. Liberty's hair curls are knife-sharp, as are the drapery clasp and drapery folds. There is no weakness on the cap. The stars are sharply struck, although a few are flat as always found on this variety. The eagle and scroll are fully brought up. Remnants of a miscut 4 appear just above and left of the slanted angle of the struck 4, with additional evidence of the recutting on the upright. An excellent, near-Gem Bust half dollar. PCGS# 6140

10352 1826 MS62 NGC. O-101a, R.2. Deep lavender and cobalt-blue encompasses satiny and unmarked surfaces. The strike is good though the curls right of the ear are incompletely defined. Liberty's profile is strike doubled. NGC ID# 24FM, PCGS# 6143

10353 1829 Small Letters AU58 PCGS. CAC. O-115, R.1. A lovely cream-gray and autumn-brown Borderline Uncirculated half dollar. Smooth aside from a solitary and unobtrusive mark on the cheekbone. Boldly struck, though a trace of wear is noted on the curl behind the ear. NGC ID# 24FS, PCGS# 6154

1830 O-103 Half Dollar, MS65
Ex: Eric P. Newman, "Colonel" Green

10354 1830 Small O MS65 PCGS. O-103, R.2. Ex: "Col" E.H.R. Green / Newman. The first A in AMERICA is noticeably repunched, as is the 5 in 50 C. The present satiny Gem exhibits almond-gold and silver-gray fields and devices. The borders are cobalt-blue. Abrasions are absent aside from hair-thin field lines in front of the nose and near star 1. A condition census example of 1830 O-103. NGC ID# 24FU, PCGS# 6156

10355 1832 Small Letters AU58 PCGS. O-103, R.1. Rich golden-brown, ocean-blue, and ruby-red toning graces the margins of this unmarked and attractive near-Mint half dollar. Luster is nearly full, and wear is slight on the shoulder curl and other high points. NGC ID# 24FW, PCGS# 6160

10356 1833 MS63 NGC. O-105, R.2. The widely repunched second S in STATES attributes this collectible Overton marriage. Light chestnut toning visits this lustrous and unabraded Select Bust half. The strike shows blending on the upper stars and near the branch stem. NGC ID# 24FX, PCGS# 6163

1834 Small Date, Small Letters Half
Lustrous, Near-Gem Example, O-114

10357 1834 Small Date, Small Letters MS64 PCGS. O-114, R.1. The Small Date, Small Letters varieties of this date are tricky to identify, but the position of the scroll in relation to the legend is usually the best place to start. This O-114 variety confirms on all diagnostics. A thin patina of reddish-gold hugs the rims, but this smoothly glowing bust half is mostly untuned and brilliant. A bold strike on the obverse is only a bit soft at the point of Liberty's bust and the corresponding reverse scroll. Otherwise, all details are sharp. Virtually no marks of consequence exist anywhere on this highly lustrous half. PCGS# 6166

REEDED EDGE HALF DOLLAR

10358 1836 Reeded Edge VF25 NGC. GR-1, R.2. The traditional mintage of 1,200 pieces may overstate the rarity of the Reeded Edge 1836 half dollar, but it is nonetheless a scarce introductory-year design subtype. The present slate-gray example has even wear and displays only minor marks. NGC ID# 2U28, PCGS# 6175

SEATED HALF DOLLARS

1840 Half Dollar, Attractive MS64
Reverse of 1839, Small Letters, Repunched 40

10359 1840 Reverse of 1839, Small Letters MS64 PCGS. WB-102, repunched 40. Bold repunching shows at the base of the 4, and the 0 is repunched southeast. The prevailing patina on this splendid, attractive near-Gem half is copper-orange, accented with glints of medium sky-blue near the rims on each side. The strike is sharp and the marks are few. Population: 19 in 64 (2 in 64+), 10 finer (2/14). NGC ID# 24GM, PCGS# 6234

10360 1842-O Small Date, Small Letters — Repaired — PCGS Genuine. XF Details. A rare *Guide Book* variety, struck with the obsolete Small Letters reverse of 1839. The borders and motifs have ample luster. Golden-brown and ocean-blue toning spans the margins. The right obverse field was smoothed with myriad vertical pinscratches in an attempt to efface graffiti. NGC ID# 24GV, PCGS# 6238

1842 Liberty Seated Half Dollar, MS63
Medium Date, WB-104

10361 1842 Medium Date, Large Letters MS63 NGC. CAC. WB-104, R.5+. Variegated toning of lilac, rose, and auburn-gold visit both sides of this fully struck Seated half. An interesting network of fine die cracks wends its way around the peripheries, while silver luster complements the subtle toning on this Medium Date example. All varieties of the 1842 date are underrated in Mint State and rare in Select Uncirculated condition or finer. Census: 2 in 63, 8 finer (2/14). NGC ID# 27ST, PCGS# 6239

10362 1848-O AU58 PCGS. Virtually free of toning, the surfaces of this near-Mint example display only light signs of wear. The reverse reveals a number of wispy die cracks, particularly at the upper portion. There are no mentionable marks on this lovely piece. Population: 12 in 58, 21 finer (2/14). NGC ID# 24HD, PCGS# 6261

1853 Arrows and Rays, MS64
Conditionally Scarce

10363 1853 Arrows and Rays MS64 PCGS. Despite a substantial original mintage of more than 3.5 million coins, the 1853 Arrows and Rays half dollar is very scarce in near-Gem condition, and rare any finer. This lovely silver-gray example is lustrous and generally well-struck, with incomplete definition noted on some of the rays. Wispy surface marks keep it from Gem status. NGC ID# 24JJ, PCGS# 6275

1860-S Seated Liberty Half, MS64
Among the Finest Certified at PCGS

10364 1860-S MS64 PCGS. WB-101, Die Pair 1. From a nominal mintage of 472,000 pieces, the 1860-S Seated Liberty half dollar circulated heavily at the time of issue and few examples were saved for numismatic purposes. The brilliant surfaces of this well-detailed Choice example retain much of their original mint luster and show only minor signs of contact. Population: 6 in 64, 0 finer (2/14). NGC ID# 24J6, PCGS# 6301

10365 1861 MS64 NGC. Lustrous, faintly toned surfaces provide this near-Gem with lovely eye appeal. Pale gold and orange shades are present. The coin displays a sharp strike overall, with evidence of die rust appearing on portions of Liberty. Census: 57 in 64 (1 in 64 ★), 30 finer (2/14). NGC ID# 24J7, PCGS# 6302

1861 Seated Half, MS65+
Lovely Eye Appeal

10366 1861 MS65+ PCGS. CAC. Frosty luster is present on this high-end Gem displaying strong eye appeal. The obverse displays light toning in shades of golden-yellow, red, and sage green. Toning also appears on the reverse though in lighter shades. A sharp strike adds to the attractiveness. Population: 22 in 65 (1 in 65+), 16 finer (2/14). NGC ID# 24J7, PCGS# 6302

10367 1871-CC Fine 12 PCGS. Despite an original mintage of over 150,000 coins, today the 1871-CC half dollar is seldom-seen in pleasing, uncleaned condition and extremely rare in Mint State. The present example exhibits natural gunmetal-gray coloration, with the correct detail for the grade. NGC ID# 24K5, PCGS# 6331

1872-CC Half Dollar, AU50
Above-Average for the Issue

10368 1872-CC AU50 NGC. WB-101, Die Pair 2, R.4. Though the 1872-CC has a fairly generous mintage of 257,000 pieces, there were no collectors in the vicinity until many years later. The typical survivor is VF, and NGC has certified only 77 examples in all grades. The present AU example is evenly defined and displays ample satin luster. The steel-gray and tan-brown surfaces are smooth aside from a slight reverse rim nick at 6:30 and a pair of slender diagonal marks on the right obverse field. Census: 4 in 50, 11 finer (2/14). NGC ID# 24K8, PCGS# 6334

1873-CC Seated Half, MS61
No Arrows Variant

10369 1873-CC No Arrows MS61 NGC. WB-101, Die Pair 1. This 1873-CC Seated Liberty half dollar was struck early in the year, before the weight change was instituted and the Arrows were added to the date. The design elements are well-detailed and the lustrous surfaces are blanketed in shades of golden-brown toning. A scattering of minor contact marks on both sides explains the grade. Census: 3 in 61, 6 finer (2/14). NGC ID# 24KC, PCGS# 6338

**1874 Arrows Liberty Seated Half, MS64
WB-102, Large Arrows Variety**

10370 1874 Arrows MS64 PCGS. WB-102. Softly lustrous, this coin displays stark, light silver-gray surfaces and charcoal-gray accents around the devices. A bold strike is interrupted by a frost-filled area of weakness on the eagle's left (facing) wing next to the shield. Liberty's head and the surrounding stars are fully struck. Only a few scattered, minor abrasions are seen with a glass on otherwise smooth and mark-free fields and devices. Population: 79 in 64 (2 in 64+), 20 finer (2/14).. NGC ID# 24LA, PCGS# 6346

10371 1877-S MS64 PCGS. CAC. Type One Reverse. Light autumn-brown toning visits the obverse margin of this lustrous and well struck near-Gem. Marks are minor except for a tick on the cheek. NGC ID# 24KM, PCGS# 6357

10372 1878-CC VF25 PCGS. WB-101, Die Pair 1, R.4. A challenging Carson City date in all conditions, this low-mintage issue had production stopped at just 62,000 pieces in what was the final year of half dollar production at the Carson City Mint. Operating under the Bland-Allison Act of 1878, silver usage was refocused on the Morgan dollar in place of lower denominations. This pleasing, VF example features moderate wear and variegated rose-gray and charcoal toning. The most noteworthy abrasion is a shallow scrape located on the right obverse field, to the left of star 11. Population: 6 in 25, 46 finer (2/14). NGC ID# 24KP, PCGS# 6359

**1881 Seated Half, MS66
Conditionally Rare**

10373 1881 MS66 PCGS. A low mintage of 10,000 pieces contributes to the high production value of this later Seated half dollar issue. Not rare in Mint State, but definitely rare at the MS66 grade level or finer. This example is one of 11 certified Premium Gems at PCGS, where just three pieces are rated even higher at MS67. This brilliant, fully struck specimen exhibits intense mint luster and exquisitely preserved surfaces that are nearly flawless. Population: 11 in 66, 3 finer (2/14). NGC ID# 24KU, PCGS# 6363

**1884 Half Dollar, MS64
Popular, Low-Mintage Date**

10374 1884 MS64 PCGS. The toned surfaces of this near-Gem reveal multiple colors when the coin is examined closely. Among the hues present are champagne, lavender, teal, and copper. Adding to the appeal, the coin exhibits a sharp strike. This piece displays the prooflike fields often encountered on this low-mintage issue. Only 4,400 business-strike Seated Liberty half dollars were struck in 1884. Population: 30 in 64, 41 finer (2/14). NGC ID# 24KX, PCGS# 6366

PROOF SEATED HALF DOLLARS

**1860 Seated Half Dollar, PR64
Originally Toned and Attractive**

10375 1860 PR64 PCGS. Type Two Reverse. The L and F in HALF are crowded close together on the lower reverse periphery. A gorgeous specimen with beautifully natural coloration and clean, well-conserved surfaces. A planchet lamination extends from the upper obverse rim near star 10 through Liberty's flag pole, and another mint-made imperfection is noted on the lower reverse from the lower edge of L into the eagle's left facing wing feathers. Neither of these as-made flaws affect the coin's technical grade, and they have minimal effect to the pleasing visual quality of this near-Gem example. Population: 37 in 64, 21 finer (2/14). NGC ID# 27TK, PCGS# 6414

**1862 Half Dollar, PR67 ★ Cameo
Tied for Finest Known**

10376 1862 PR67 ★ Cameo NGC. A simply spectacular proof that offers gleaming mirrors and heavily contrasted devices beneath rich patina. Amber-gold centers fade through rings of peach and violet until they yield to the outermost bands of electric-blue and teal. The strike is razor-sharp, the surfaces are virtually perfect, and the eye appeal is incredible for this issue of 550 proofs. This is one of just two PR67 Cameo survivors tied for finest certified by NGC, with only one at that level known to PCGS (2/14); interestingly, both of the NGC pieces received the Star designation, which may suggest that they are one and the same.

Ex: Dallas Signature (Heritage, 10/2008), lot 925; ANA Signature (Heritage, 8/2010), lot 3168. PCGS# 86416

**1871 Seated Half, PR65
Complex Toning Layers**

10377 1871 PR65 NGC. This extraordinary proof Seated half must be viewed from many angles and in differing lights to fully appreciate the complex layers that cover both sides. At first glance the coin looks dark and subdued. But viewed at a slight angle with overhead light, the incredibly deep mirrors reveal themselves in multiple layers of cobalt blue, magenta, fiery-orange, and frosted purple. The boldly struck devices are frosted and pristine. Census: 20 in 65, 10 finer (2/14). NGC ID# 27U6, PCGS# 6429

**1873 Closed 3, No Arrows Half, PR66
Great Type Coin**

10378 1873 No Arrows, Closed 3 PR66 PCGS. Areas of dusky toning appear on this Premium Gem representative exhibiting a sharp strike. Among the colors present are hues of forest-green, red, and peach. Portions of the fields reveal light hairlines. The 1873 No Arrows half dollar proof mintage consisted of 600 coins. Population: 12 in 66 (1 in 66+), 3 finer (2/14). NGC ID# 27U8, PCGS# 6431

10379 1883 PR63 PCGS. Areas of toning appear on both sides of this Select example, primarily at the outer edges, adding to the eye appeal of the lighter centers. The toning includes shades of orange-gold, pink, pale teal, and lavender. Scattered marks are present, including an area below the date. NGC ID# 27UJ, PCGS# 6444

10380 1883 PR64 PCGS. The dusky surfaces are primarily gunmetal-gray though the borders offer additional walnut-brown and cobalt-blue shades. Precisely struck and unblemished. A low mintage date due to ongoing prodigious silver dollar production. NGC ID# 27UJ, PCGS# 6444

10381 1886 PR64 PCGS. CAC. The surfaces retain reflectivity on this near-Gem exhibiting toning. Among the colors present are golden-orange, copper, electric-blue, and grape. A tiny translucent spot appears to the right of Liberty's head. PCGS has awarded higher numeric grades to only 36 examples (2/14). NGC ID# 27UM, PCGS# 6447

BARBER HALF DOLLARS

**1892 Barber Half, MS66
Ideal First-Year Example**

10382 1892 MS66 NGC. This lovely Premium Gem 1892 half dollar, the first of the new Barber design, is an attractive example for date or type purposes, as it is fully struck throughout both sides. Neither the often-weak juncture of the hair with the forehead of Liberty, nor yet the eagle's right (facing) claw and right shield corner and wing, betray the slightest sign of weakness. A further complement to the broad appeal is deep original patina, orange-gold and gunmetal-gray with glints of jade on each side. Census: 34 in 66 (1 in 66+, 2 in 66 ★), 9 finer (2/14). NGC ID# 24LF, PCGS# 6461

**1892-O Barber Half, MS65
Conditionally Rare**

10383 1892-O MS65 PCGS. CAC. In the first year of the new Barber half dollar series only 390,000 pieces emerged from the mint in New Orleans. Although not scarce in circulated grades, the 1892-O half is rare in Gem Mint State condition, and extremely elusive any finer. This deeply toned example is typically struck and impressively preserved, with satin luster and just a few shallow marks detected under low magnification. Population: 14 in 65, 6 finer (2/14). NGC ID# 24LG, PCGS# 6462

10384 1897-S XF45 PCGS. A Choice XF survivor of one of the keys to the Barber half dollar series, this example displays light gray surfaces overall, with subtle hints of rose. Portions of the protected areas reveal dirt, particularly on the reverse, testifying to the originality of this piece. No mentionable marks are present. NGC ID# 24M2, PCGS# 6479

10385 1899 MS64 PCGS. CAC. Lustrous, virtually untuned surfaces are among the attributes this near-Gem example possesses. The 1899 date is popular with collectors as a turn-of-the-century issue. Population: 51 in 64, 33 finer (2/14). NGC ID# 24M6, PCGS# 6483

**1902-O Fifty Cent, MS63
Elusive New Orleans Issue**

10386 1902-O MS63 PCGS. Barber half collectors know how challenging this New Orleans date can be, and its scarcity is confirmed by notably low populations in Select Uncirculated and finer grades. This example is fully lustrous with a generally untuned appearance, save for golden hints at selected border areas and some gold accents on the eagle and field stars. The strike is a bit soft on the reverse as is normally seen on this issue, although stronger than most with weakness confined to the right shield corner and wing (facing) as well as some lost detail on the eagle's neck and legs. There are no distracting abrasions or marks worth noting. Population: 13 in 63, 22 finer (2/14). NGC ID# 24MG, PCGS# 6493

**1907-S Barber Half, MS64
Condition Rarity in High Grade**

10387 1907-S MS64 PCGS. CAC. Deep pinkish-orange toning covers each side of this near-Gem, quite appealing even if its does subdue the luster a tad. The strike is well-executed, with a touch of softness on the upper-right shield corner and wing, but a few stray marks on Liberty's nose and cheek appear to preclude a Gem grade. Population: 9 in 64, 14 finer (10/13). NGC ID# 24N3, PCGS# 6511

10388 1908-D MS63 PCGS. A Select example, this coin displays lustrous surfaces. Scattered toning is present on both sides. Among the colors appearing are olive-green and golden-brown. The strike is sharp save for minor blending on the fletchings. NGC ID# 24N5, PCGS# 6513

10389 1910 MS63 NGC. Frosty luster adds to the appeal of this nicely struck Select example. Faint toning is present and includes shades of olive-green. Minor cuds appear on the upper portion of the obverse rim. Census: 10 in 63, 44 finer (2/14). NGC ID# 24NB, PCGS# 6519

10390 1913-S MS62 PCGS. A mere hint of gold toning visits this surprisingly mark-free representative. The strike is sharp at the border though the fletchings and right shield corner are inexactly impressed. NGC ID# 24NM, PCGS# 6529

10391 1915-D MS64 PCGS. Ex: Gene Holland Collection. Boldly struck, this near-Gem displays an interesting contrast of colors, between the obverse and the reverse. The obverse has attractive silver-gold toning, with dappled russet accents near the borders. The reverse, on the other hand, shows bright silver-gray color in the centers, and pleasing mottled lilac patina near the peripheries. The reverse is blemish-free, and there are just a few wispy slide marks on the obverse, on Liberty's cheek.
Ex: FUN Fort Lauderdale (Heritage, 1/2005), lot 7485. NGC ID# 24NS, PCGS# 6533

10392 1915-D MS64+ NGC. A high-end near-Gem representative, this piece exhibits a strong degree of visual appeal. Rich satin luster and brilliant untuned surfaces are among the attributes this coin possesses. As is often the case, the strike details are soft in places. NGC ID# 24NS, PCGS# 6533

PROOF BARBER HALF DOLLARS

1900 Half Dollar, PR66 ★ Cameo Snow-White Surfaces

10393 1900 PR66 ★ Cameo NGC. NGC has certified awarded the Star designation to only four proof 1900 half dollars, and among those, the present lot is the single highest graded. Ice-white motifs rise in full definition above blatantly mirrored fields. Devoid of toning, and careful rotation reveals only trivial hairlines. PCGS# 86547

1909 Half Dollar, Well-Struck PR65 Cameo

10394 1909 PR65 Cameo PCGS. After the Mint's brief experiment with the no-contrast method of proofing a few years before, the striking of subsidiary coinage returned to the deep mirror effect used prior to 1902. Curiously, in 1909 the Mint used two proofing methods and continued this two-track method until 1916. As mentioned, lower denomination coins were deeply mirrored in the fields, but gold coins received the new, European-influenced matte process.

The obverse of this Gem is mostly untoned and there is a moderate degree of contrast between the fields and devices. Both sides are essentially brilliant. The design elements are well-struck save for the usual softness in the upper-right shield corner. An exceptionally lovely Gem 1909 half dollar. Population: 9 in 65 Cameo, 25 finer (2/14).

Ex: *St. Louis (CSNS) Signature (Heritage, 2005), lot 7303; Pittsburgh Signature (Heritage, 10/2011), lot 3818.* PCGS# 86556

10395 1914 PR64 PCGS. CAC. Subtle hints of gold toning appear on the surfaces of this attractive near-Gem representative. The coin displays a pleasing degree of design detail, adding to the appeal. Population: 37 in 64, 56 finer (2/14). NGC ID# 24PJ, PCGS# 6561

WALKING LIBERTY HALF DOLLARS

10396 1916 MS64 NGC. Areas of toning appear at the peripheries of this lustrous near-Gem example. The colors include shades of golden-brown, red, and yellow-gold. Scattered marks are present, primarily at Liberty's gown, but they do not pose a distraction. NGC ID# 24PL, PCGS# 6566

10397 1917 MS65 PCGS. Rich toning covers large portions of this nicely struck Gem, though the reverse center remains largely untuned, adding to the eye appeal. The toning, arguably more appealing on the reverse, includes hues of orange, cherry-red, tan-green, lime-green, and violet. NGC ID# 24PP, PCGS# 6569

10398 1917-D Obverse MS64 PCGS. CAC. The surfaces of this near-Gem are largely silver-white and exhibit appealing satin luster, with areas of freckled toning appearing primarily at the outer edges. The colors include shades of teal and golden-brown. NGC ID# 24PR, PCGS# 6570

10399 1917-D Reverse AU58 PCGS. CAC. An attractive near-Mint example, this coin displays frosty silver surfaces along with a few tiny splashes of lavender toning. The high points of the design reveal light wear and a tiny fleck of debris appears near the eagle's right leg. NGC ID# 24PS, PCGS# 6571

1917-D Reverse Half Dollar, Lustrous MS64

10400 1917-D Reverse MS64 PCGS. Occasional gray and tan freckles cascade over the lustrous surfaces of this D-mint Walker. The design elements are generally well-struck, including the branch hand and the eagle's breast feathers. The top of Liberty's head and the trailing leg are soft as typically seen. PCGS has seen fewer than 50 finer (2/14). NGC ID# 24PS, PCGS# 6571

10401 1917-S Reverse MS64 PCGS. CAC. Champagne toning and rich luster are among the attributes this near-Gem example possesses. Closer examination reveals splashes of teal, cherry-red, and orange as well. The centers exhibit an incompleteness of strike. NGC ID# 24PU, PCGS# 6573

10402 1918 MS64 PCGS. Although the 1918 Walking Liberty half dollar issue had a large mintage, the survival rate was low for this issue. Well struck, this near-Gem exhibits a pleasing degree of design definition, including the branch hand. Areas of light toning appear on this lustrous coin displaying lovely visual appeal. NGC ID# 24PV, PCGS# 6574

1918-S Walking Liberty Half, MS64 Brilliant-White Appeal on Both Sides

10403 1918-S MS64 PCGS. Striking weakness is almost always seen on this issue, with fully struck examples virtually nonexistent. This representative displays a bolder strike than often seen, yet it is soft on the central portrait and wreath hand. The eagle displays minor weakness on the leg and breast feathers. Brilliant silver luster over frost-white, nearly mark-free surfaces are the primary attractions of this vibrant, near-Gem coin. The price of this San Francisco issue takes a huge jump in Gem or finer grades. NGC ID# 24PX, PCGS# 6576

**1918-S Walking Liberty Half, MS65
Only Two Finer Coins at PCGS**

10404 1918-S MS65 PCGS. The 1918-S Walking Liberty half dollar was produced in large numbers, but most of the coins were released into circulation and relatively few were saved for numismatic purposes. The issue is known as something of a strike rarity as well and is seldom encountered in high grade.

This attractive Gem displays a better-than-average strike, with some separation apparent between Liberty's thumb and fingers. The usual softness is still apparent on the skirt lines and eagle's leg, however. The well-preserved surfaces radiate vibrant mint luster and show no large or distracting contact marks. A few hints of pale gold toning add to the outstanding eye appeal. Population: 34 in 65 (1 in 65+), 2 finer (2/14). NGC ID# 24PX, PCGS# 6576

**1919-D Half Dollar, Conditionally Scarce AU55
A Leading Strike Rarity in the Series**

10405 1919-D AU55 PCGS. The 1919-D is one of the premier condition and strike rarities in this highly collectible series. Examples are scarce in XF and AU, and enter the realm of very rare in mint condition. With regard to strike, the centers are almost always flat, as is Liberty's head.

The current Choice AU example displays the typical strike weakness alluded to above. On the positive side, the silver-gray surfaces on both sides are remarkably clean for a coin that has experienced some circulation, and each displays traces of luster in the protected areas. This is a very nice piece for the issue, strike weakness notwithstanding. NGC ID# 24PZ, PCGS# 6578

10406 1919-S AU53 PCGS. CAC. A lightly circulated survivor, this coin displays areas of light olive-green toning, primarily in the reverse. None of the scattered marks present is worthy of individual mention. The 1919-S Liberty Walking half dollar hails from a small mintage of 1.5 million pieces. NGC ID# 24R2, PCGS# 6579

**1923-S Half Dollar, MS65+
Impressive, High-Grade Example**

10407 1923-S MS65+ PCGS. CAC. Ex: Charles Schultz. From an original mintage of nearly 2.2 million coins, just 71 Gems have been certified by NGC and PCGS combined, and a mere 14 pieces are ranked even higher. This is a strikingly original and marvelously preserved example with much better-than-usual definition of Liberty's branch hand and head, as well as the skirt lines and the foot. Shimmering mint luster complements the lovely light champagne-tan and creamy-silver coloration across minimally disturbed surfaces. Among S-mint half dollars of this type, only the 1917-S Obverse, the 1918-S, the 1919-S, and the 1921-S are even scarcer at the MS65 level or finer. Population: 46 in 65 (3 in 65+), 9 finer (2/14). NGC ID# 24R9, PCGS# 6586

1927-S Half Dollar, Minimally Abraded MS64+

10408 1927-S MS64+ PCGS. CAC. Highly lustrous surfaces of this high-end near-Gem Walker are nearly untuned. The strike is typical for the issue; that is, the design elements are poorly struck as seen on virtually all examples of this date. On the positive side, the surfaces are devoid of the significant bagmarks that typify this issue. Just a few minute marks are visible on the lower left (facing) leg. The CAC sticker affirms the above-average eye appeal for the coin. NGC ID# 24RA, PCGS# 6587

1934-S Half Dollar, Sharply Struck MS65

10409 1934-S MS65 NGC. Grayish freckles cascade over the lustrous surfaces of this Gem and the strike is solid throughout, including Liberty's branch hand, head, and skirt lines, and the eagle's breast feathers. Close examination reveals no significant contact marks. Nice overall eye appeal. NGC has seen fewer than 50 pieces finer (2/14). NGC ID# 24RH, PCGS# 6594

**1934-S Half Dollar, MS65
Frosty and Well-Struck**

10410 1934-S MS65 PCGS. This silver-white Gem is frosted throughout both sides and shows few marks of any significance. The surfaces are boldly struck, showing good detail on Liberty's head and a fully present split thumb. This issue is the first S-mint in the "short set" that concludes the series, a popular collection subset. NGC ID# 24RH, PCGS# 6594

**1935 Half Dollar, Lustrous MS67
Above-Average Strike**

10411 1935 MS67 PCGS. More than 9 million Walker half dollars were produced at Philadelphia in 1935, making this issue readily available in all grades through MS65. Premium Gems can be located with a little searching and Superb Gems are scarce. Finer coins are virtually unobtainable.

Luster embraces the silver-white surfaces on both sides of this MS67 offering, and the design elements are well-impressed, including Liberty's right (facing) hand that exhibits considerable separation between the thumb and branch. Even the eagle's trailing leg shows more feather detail than ordinarily seen on this date. A few minute marks concealed in the eagle's right (facing) wing are insignificant. Population: 45 in 67 (4 in 67+), 1 finer (2/14). NGC ID# 24RJ, PCGS# 6595

10412 1937 MS67 NGC. Light butter-gold patina graces this well struck and nearly mark-free Superb Gem. Exceptional quality for the late Great Depression issue. Census: 88 in 67 (7 in 67+, 3 in 67 ★, 1 in 67+ ★), 2 finer (2/14). NGC ID# 24RR, PCGS# 6601

10413 1937-S MS66 PCGS. Frosty luster provides this lightly toned example with lovely eye appeal. A tiny spot appears on Liberty's left breast. The certified population drops dramatically above the MS66 level, with PCGS having awarded higher numeric grades to only 32 examples (2/14). NGC ID# 24RT, PCGS# 6603

10414 1937-S MS66 PCGS. CAC. Brilliant surfaces and rich luster provide this Premium Gem example with tremendous visual appeal. Adding to the desirability of this piece, the 1937-S is a scarcer issue among the dates and mintmarks from the 1930s. PCGS has awarded higher numeric grades to only 32 examples (2/14). NGC ID# 24RT, PCGS# 6603

10415 1937-S MS66+ PCGS. CAC. This sharply struck Premium Gem displays a warm blush of light golden toning on both sides, with just a touch of pastel around the obverse periphery. Satiny luster nicely accents a sharp strike, with Liberty's gown lines fully defined. NGC ID# 24RT, PCGS# 6603

10416 1938-D MS66 PCGS. CAC. A piece with lovely eye appeal, light golden tints settle largely at the margins of this Premium Gem from a mintage of fewer than half a million pieces. Liberty's head is well defined, though her branch hand is soft. NGC ID# 24RV, PCGS# 6605

10417 1938-D MS66 PCGS. CAC. Silver-white surfaces and lovely luster provide this Premium Gem with strong eye appeal. The 1938-D is the key to the "Long Short Set" of Walking Liberty halves that begins with the 1934-PDS mintages. Only 38 examples have achieved higher numeric grades from PCGS (2/14). NGC ID# 24RV, PCGS# 6605

1938-D Half Dollar, MS67
Key to the Late-Date Walkers

10418 1938-D MS67 PCGS. This low-mintage date of fewer than 500,000 pieces is the key to late-date Walkers. Superb Gems are very difficult to locate. A ring of gold and olive toning runs along the inner obverse border. Lustrous surfaces are nicely preserved and exhibit well-struck design elements, save for the usual softness in Liberty's branch hand. Population: 38 in 67 (2 in 67+), 0 finer (2/14). NGC ID# 24RV, PCGS# 6605

10419 1939-S MS67 PCGS. CAC. Untoned silver-white surfaces and frosty luster provide this Superb Gem representative with exceptional eye appeal. Neither PCGS nor NGC has awarded a higher numeric grade to a single example (2/14). NGC ID# 24RY, PCGS# 6608

10420 1941-S MS66 PCGS. CAC. Shimmering lustrous surfaces are among the attributes this attractive Premium Gem possesses. Scattered toning is present, primarily at the outer portions of the obverse, in shades of forest-green and golden-brown. Only 8 examples have achieved higher numeric grades from PCGS (2/14). NGC ID# 24S5, PCGS# 6613

10421 1941-S MS66 NGC. CAC. Deep satin luster provides this Premium Gem example with strong immediate eye appeal. Areas of light iridescence are present along with subtle hints of champagne-gold and pale blue toning. The strike reveals areas of softness in the usual locations. Only 21 examples have achieved higher numeric grades from NGC (2/14). NGC ID# 24S5, PCGS# 6613

1941-S Walker, MS66+
Outstanding Eye Appeal

10422 1941-S MS66+ PCGS. CAC. A key issue in the late-date Walking Liberty series, the 1941-S is scarce in MS66 condition and it is rare any finer. This lustrous, colorfully toned example is certainly among the finest both in technical grade and eye appeal. Despite a bit of strike weakness at the centers (as almost always found on this issue), the immaculate surfaces and incredible toning of this Premium Gem earned the Plus designation from PCGS. Violet, blue, orange, lime-green, and golden-rose toning cover both sides of the coin in wonderful pastel hues. Strong luster radiates from the smooth, mark-free fields and devices. NGC ID# 24S5, PCGS# 6613

1944-S Half Dollar, MS66+
A Leading Strike Rarity

10423 1944-S MS66+ PCGS. CAC. Large S. The 1944-S Walker, with a mintage approaching 9 million pieces, is readily available through MS65, and even Premium Gems can be located with a bit of patience and searching. Finer examples are extremely rare. The lustrous surfaces of this high-end Premium Gem yield silver-gray color and are devoid of mentionable marks. The design elements are typically struck, that is, the centers are weak, not unexpected for this well-known strike rarity. Both sides are devoid of significant marks. PCGS has seen a mere six coins finer (2/14). NGC ID# 24SE, PCGS# 6623

1944-S Walking Liberty Half, MS66+
Frosty and Untoned

10424 1944-S MS66+ PCGS. CAC. The frosty silver surfaces are untoned and remarkably free of singular impairments, even in the exposed right field. There is some expected strike weakness at the center obverse, on Liberty's thumb and branch hand, but the strike overall is better than normally seen. Population: 56 in 66+, 6 finer (2/14). NGC ID# 24SE, PCGS# 6623

1945-D Half Dollar, Lustrous MS67+

10425 1945-D MS67+ PCGS. CAC. Both sides of this high-end Superb Gem Walker are awash with excellent luster. Reddish-tan patina gravitates to the borders, being somewhat more extensive on the obverse. The design elements are sharply struck, including Liberty's facial features and branch hand and the eagle's breast feathers. This impeccably preserved coin exhibits tremendous eye appeal, affirmed by CAC. NGC ID# 24SG, PCGS# 6625

**1945-S Walking Liberty Half, MS67
None Finer at PCGS**

10426 1945-S MS67 PCGS. CAC. This spectacular Superb Gem displays vivid shades of ice-blue and greenish-gold toning on both sides, highlighted by vibrant mint luster underneath. The design elements show a touch of the usual softness on Liberty's wreath hand and the eagle's leg, but the well-preserved surfaces are free of mentionable distractions. Population: 20 in 67, 0 finer (2/14). NGC ID# 24SH, PCGS# 6626

10427 1946-D MS67 PCGS. CAC. Highly lustrous, this faintly toned Superb Gem possesses a wonderful appearance. The toning consists largely of rich gold shades. Liberty reveals a few minuscule marks. Neither PCGS nor NGC has awarded a higher numeric grade to a single example (2/14). NGC ID# 24SK, PCGS# 6628

**1946-S Walking Liberty Half Dollar
Silver-White Superb Gem**

10428 1946-S MS67 PCGS. Only a touch of central weakness appears on this brilliant, silver-white Superb Gem Walker, which is more sharply struck than many of this date. The fields are remarkably mark-free, with only a few tiny pinpricks noted on the high points of Liberty, with vibrant luster alive and pervasive over the untuned surfaces. PCGS and NGC have graded none numerically finer than this MS67 example. Population: 53 in 67 (2 in 67+), 0 finer (2/14). NGC ID# 24SL, PCGS# 6629

**1947-D Walking Liberty Half, MS67
Conditionally Rare**

10429 1947-D MS67 PCGS. CAC. This D-mint half dollar issue becomes challenging at the MS67 grade level, with a mere 69 pieces graded as such by the two major services and none any finer. This lustrous specimen reveals original speckled russet, gold, and burnt-orange patina across both sides, with most of the high-points still showing silver-gray color. Effulgent mint frost and clean, distraction-free surfaces ensure the conditional rarity of this outstanding example. Population: 20 in 67, 0 finer (2/14). NGC ID# 24SN, PCGS# 6631

**PROOF WALKING LIBERTY
HALF DOLLARS**

**1936 Half Dollar, PR66
Sharp and Attractive**

10430 1936 PR66 PCGS. CAC. Areas of golden-brown, orange, lime-green, and yellow toning appear at the outer edges of this Premium Gem specimen, accentuating the central devices. A strong strike and lovely luster further contribute to the eye appeal of this piece. PCGS has awarded higher numeric grades to only 32 examples (2/14). NGC ID# 27V4, PCGS# 6636

10431 1939 PR67 PCGS. CAC. A hazy patina consisting of shades of pale yellow, gold, and green covers large portions of both sides of this lustrous piece. The coin exhibits a sharp strike, adding to the appeal. Only 32 examples have achieved higher numeric grades from PCGS (2/14). NGC ID# 27V7, PCGS# 6639

FRANKLIN HALF DOLLARS

10432 1952-S MS66 Full Bell Lines PCGS. Areas of light toning, largely in shades of gold and orange, appear primarily on the obverse of this Premium Gem. A couple of reed marks are present on the obverse. Population: 42 in 66 (2 in 66+) Full Bell Lines, 1 finer (2/14). NGC ID# 24T5, PCGS# 86663

10433 1953-D MS66+ Full Bell Lines PCGS. CAC. Bold champagne toning surrounds the periphery of the obverse with a deep violet center, while the reverse displays a blush of the same overall. Fully struck with satiny luster, this Premium Gem exhibits almost no noticeable abrasions. Only one example has graded numerically finer at PCGS (2/14). NGC ID# 24T7, PCGS# 86665

**1956 Franklin Half with Full Bell Lines, MS67
Vivid Multicolor Obverse Toning**

10434 1956 MS67 Full Bell Lines PCGS. CAC. An example with multiple attributes, including the Superb Gem grade and Full Bell Lines designation, this coin also features lustrous beautifully toned surfaces, particularly the obverse. The colors include intermingled shades of red, orange, pink, fuchsia, yellow, sea-green, denim-blue, and violet. Population: 15 in 67 Full Bell Lines, 0 finer (2/14). NGC ID# 24TD, PCGS# 86671

PROOF FRANKLIN HALF DOLLARS

10435 1950 PR67 PCGS. CAC. Lustrous and largely brilliant, this Superb Gem exhibits strong visual appeal. Splashes of milky-golden patina appear, particularly on the outer portions of the obverse. The reverse exhibits a few splashes of red-brown toning. Population: 39 in 67, 0 finer (2/14). NGC ID# 27VA, PCGS# 6691

1952 Franklin Half Dollar, PR66 Deep Cameo
Gorgeous, Conditionally Rare Example

10436 1952 PR66 Deep Cameo PCGS. CAC. This early proof Franklin issue had a mintage of 81,980 pieces; quite low for the series. Survivors are rare with Deep Cameo surfaces, at any grade level. A stunning black-and-white coin with pinpoint strike definition on the snow-white devices and glassy, deeply watery fields. Even careful inspection fails to reveal the smallest surface mark or blemish. Population: 7 in 66 (1 in 66+) Deep Cameo, 1 finer (2/14). NGC ID# 27VC, PCGS# 96693

10437 1955 PR67 Deep Cameo PCGS. The deeply mirrored fields of this Superb Gem seem to flow like liquid around the fully struck, frosty devices, while untuned, virtually flawless surfaces give this piece incredible eye appeal. Population: 53 in 67 Deep Cameo, 19 finer (2/14). NGC ID# 27VE, PCGS# 96696

10438 1955 PR67 Deep Cameo PCGS. CAC. The sharply detailed design elements of this spectacular Superb Gem are richly frosted, creating intense cameo contrast with the deeply mirrored fields. Population: 53 in 67 Deep Cameo, 19 finer (2/14). NGC ID# 27VF, PCGS# 96696

PROOF KENNEDY HALF DOLLAR

1974-S Kennedy Half, PR70 Deep Cameo
Elusive Early Clad Issue

10439 1974-S PR70 Deep Cameo PCGS. The 1974-S is one of a string of the early clad issues in the Kennedy half series that are elusive in this perfect grade with Deep Cameo designation. PCGS has seen only 20 such (2/14). Deep contrast appears on each side of this piece, certified in an early PCGS blue-label holder. NGC ID# 27WN, PCGS# 96810

EARLY DOLLARS

10440 1795 Flowing Hair, Three Leaves — Obverse Graffiti — NGC Details. VG. B-6, BB-25, R.3. All legends are bold on this almond-gold and stone-gray Flowing Hair dollar. A proud 19th century owner wrote his name in cursive on the left and right obverse field. Both sides are hairlined and moderately glossy. NGC ID# 24WZ, PCGS# 6852

1795 B-6, BB-25 Silver Dollar, VF20
Head of '95, Three Leaves

10441 1795 Flowing Hair, Three Leaves VF20 PCGS. B-6, BB-25, R.3. Bowers-Borckardt Die State III. Smooth, silver-gray surfaces display iridescent highlights and nice detail for the grade. The rims are often indistinct on this scarce variety, yet they are complete on this coin even with 40 points of wear, with only moderate weakening at LIBERTY and above UNITED. Despite a minor scattering of small abrasions in the field beneath Liberty's chin, this is an attractive early dollar. It is carefully produced and well-preserved — a nice representative of the Head of '95, Three Leaves type. NGC ID# 24WZ, PCGS# 6852

1795 Flowing Hair Dollar, VF20
Three Leaves Beneath Wing, B-5, BB-27

10442 1795 Flowing Hair, Three Leaves VF20 NGC. B-5, BB-27, R.1. Bowers-Borckardt Die State II. The most plentiful variety of the 1795 Flowing Hair series, this die pair is easily identifiable by the "bar" in the left obverse field between star 5 and the uppermost hair curl. David Bowers estimates as many as 100,000 pieces of the total 160,295-piece mintage were struck with the BB-27 dies. Pleasing, old-silver gray fields surround lighter silver-gray devices of this smoothly worn dollar. All of the elements are well-detailed for the VF20 designation. A small mark near star 6 and some barely noticeable slide marks on Liberty's neck are seen on the obverse; on the reverse, two small reverse rim bumps are the only mentionable marks. NGC ID# 24WZ, PCGS# 6852

1795 Flowing Hair Silver Dollar, VG10
R.5 Rarity, B-3, BB-11 Two-Leaves

10443 1795 Flowing Hair, Two-Leaves VG10 PCGS. B-3, BB-11, R.5.

Reportedly the first die pair for the year, this two leaves variety features the Head of '94 with Liberty's hair showing six main curls, the third one from the top curving downward and touching the fourth curl. A reverse with 16 berries, eight on each branch of the wreath, confirms the variety. The variety is rare, with Bowers and Borckardt noting in their *Encyclopedia*, "between 50 and 75 BB-11 dollars exist, making this one of the more elusive issues of the Flowing Hair type."

This well-worn example displays dove-gray centers with deep charcoal-gray margins on the obverse. The reverse is almost entirely dove-gray except for a dark gray toning streak. Smooth wear appears overall, but all of the design elements are complete and the rims are strong. Only a few tiny marks disturb the appealing surfaces. NGC ID# 24WZ, PCGS# 6853

1795 Flowing Hair Dollar, VF35
Two Leaves, B-1, BB-21 Variety

10444 1795 Flowing Hair, Two Leaves VF35 PCGS. B-1, BB-21, R.2.

Star 1 barely touches the lowest curl and there are two berries inside the branch, near the eagle's tale, identifying the BB-21 variety. This variety is especially popular with early dollar collectors for its widespread availability and the often-preferred, two-leaf reverse, but also because it is an overdate variety with the remnants of an erroneous 1 beneath the 7 (which is visible with a glass on this example).

Although moderately worn, the coin retains traces of original mint luster, with silver-gray surfaces and gold accents at the margins and pale-gold overtones in the fields. A few medium-sized, vertical scrapes in the right obverse field are the only marks of note. The rims are complete, unmarked, and well-denticled. NGC ID# 24WZ, PCGS# 6853

**1795 Draped Bust Dollar, XF45
Centered Bust, B-15, BB-52**

10445 1795 Draped Bust, Centered XF45 PCGS. B-15, BB-52, R.2. Bowers-Borckardt Die State IV. Both Flowing Hair and Draped Bust silver dollars were struck in 1795, with two die varieties of the Draped Bust motif known. This coin represents the BB-52 variety, with the portrait centered and the highest wave of hair under the E in LIBERTY. The BB-52 is slightly more difficult to locate than the other variety, but both are important first-year type coins. Both obverse and reverse dies were only used to coin the BB-52 issue.

The present coin is an attractive Choice XF specimen, with well-outlined hair and drapery. The lightly abraded surfaces are blanketed by pleasing shades of greenish-gold and lavender-gray toning. Eye appeal is quite strong. Population: 43 in 45, 84 finer (2/14). NGC ID# 24X2, PCGS# 6858

**1795 B-14, BB-51 Dollar, Fine 12
Draped Bust, Small Eagle**

10446 1795 Draped Bust, Off Center Fine 12 PCGS. B-14, BB-51, R.2. Planchet preparation was an imprecise process at the Mint in 1795. All kinds of imperfections are encountered, including overweight planchets, voids, defects, and other flaws. This example hits for a high average in the "blame-the-planchet derby," with several criss-crossing adjustment marks (now minimized by wear) across the obverse and a rim defect at 10 o'clock. The reverse is in the game, too, with some planchet granularity seen in the fields and beneath the eagle.

Despite these Mint-related flaws, this is actually a pleasant example of the Off-Center Portrait variety. It is the only use of this "set left" design, which was quickly corrected on the BB-52 variety and never revisited in the Draped Bust series. Smooth wear exists on the nicely-detailed devices, and this early dollar appears a few points sharper than the assigned grade, most likely due to the planchet issues. Pleasing lilac and gold overtones enhance the silver-gray surfaces. PCGS# 96858

**1796 Draped Bust Dollar, Fine 15
B-4, BB-61, Small Date, Large Letters**

10447 1796 Small Date, Large Letters Fine 15 NGC. B-4, BB-61, R.3. Bowers-Borckardt Die State I. A dove-gray example with bronze undertones, this richly toned Small Eagle dollar is a nice, circulated representative of the Large Letters reverse coupled with the Small Date obverse. It is struck from an early state of the dies with Liberty's curls complete, before the dies were relapped. The 1796 Large Letters variety is considered to be more scarce than the Small Letters varieties, which is opposite from the situation with 1797 small eagle dollars, where the Small Letters reverse is more challenging to find. This attractive early dollar is well-detailed for the grade and displays strong, full rims. PCGS# 6860

1797 9x7 Stars Dollar, VF25
Large Letters, B-1, BB-73

- 10448** 1797 9x7 Stars, Large Letters VF25 PCGS. B-1, BB-73, R.3. Bowers Die State III. A pleasing representative of this scarce date. Despite the assigned numerical grade, luster emerges from the eagle's plumage and reverse legends. Moderate adjustment marks, as coined, are noted near the eagle's legs and the reverse border at 7:30. Mildly granular near the hair ribbon, but abrasions of any consequence are absent. NGC ID# 24X4, PCGS# 6863

1797 Draped Bust Dollar, AU50
Low-Mintage Date, B-1, BB-73

- 10449** 1797 9x7 Stars, Large Letters AU50 PCGS. B-1, BB-73, R.3. Bowers-Borckardt Die State I, with the pellet die flaw near star 9 and some roughness near star 1. The 9x7 arrangement of the obverse stars and large letters in the legend on the reverse identifies the BB-73 variety. The 1797 Draped Bust, Small Eagle dollar has a reported mintage of just 7,776 pieces, the lowest mintage of any silver dollar since 1794. The issue is actually much more available than this small figure would suggest, and numismatists believe many 1797-dated coins may have been struck in 1798, and included in the production totals for that year.

The present coin is an attractive AU50 specimen, with just a touch of wear on the high points of the well-detailed design elements. The surfaces are lightly abraded and retain most of their original mint luster. Like most examples of the BB-73 variety, the devices are well-centered, with broad dentils at the borders. Housed in a green label holder. Population: 16 in 50, 26 finer (2/14). NGC ID# 24X4, PCGS# 6863

- 10450** 1798 Large Eagle, Pointed 9, Four Berries VF20 NGC. B-8, BB-125, R.2. Bowers Die State II. This Heraldic Eagle type coin has deep brown fields with lighter cream-gray toning on the high points. The strike is slightly soft on the hair ribbons and left shield border. A trio of thin marks are noted near Liberty's shoulder. NGC ID# 24X6, PCGS# 6873

**1798 Large Eagle Dollar, Choice XF
Knob 9, B-3, BB-94**

10451 1798 Large Eagle, Knob 9, 4 Vertical Lines XF45 PCGS. B-3, BB-94, R.5. Bowers Die State III, with an obverse die crack between stars 2 and 3, apparently a rare die state. The surfaces have natural, lilac-gray color on the obverse and gray-gold on the reverse. Exceptional surfaces and bold design details are noted. Perhaps the second finest known of the late die state, this piece is finer than the Spies coin or the Aspen coin, and it is marginally lower quality than the Hesselgesser specimen.

Ex: H.W. Blevins Collection (Superior, 6/1988), lot 3641; Houston Signature (Heritage, 12/2008), lot 809, which realized \$6,325. PCGS# 6875

**1798 Heraldic Eagle Dollar, AU50
Wide Date, Pointed 9, B-23, BB-105**

10452 1798 Large Eagle, Wide Date, Pointed 9 AU50 PCGS. B-23, BB-105, R.3. Bowers Die State III. Generally slate-gray, though a hint of almond-gold toning is present. The well defined surfaces display pockets of luster. Neither side shows any remotely relevant marks, though the rims have a couple of trivial imperfections. PCGS# 6877

10453 1799 Irregular Date, 15 Stars Reverse — Cleaning — PCGS Genuine. XF Details. B-4, BB-153, R.4. Bowers Die State I. A scarce Bolender marriage and an underappreciated *Guide Book* variety. The Irregular Date obverse die of B-13 and B-15 is paired with the blundered 15 Stars reverse of B-3. The present example is mildly glossy beneath deep cobalt-blue surfaces. Abrasions are surprisingly inconsequential, since the adjustment marks on the shield are as coined. PCGS# 6879

10454 1799 7x6 Stars VG10 NGC. B-21, BB-169, R.3. Bowers Die State IV. Forest-green toning clings to design recesses, but most of this early silver dollar is cream-gray. Both sides are hairlined though the only mentionable mark is a vertical line near the left border of the shield. NGC ID# 24X7, PCGS# 6878

**1799 Draped Bust Dollar, XF40
Close 17 Obverse, B-16, BB-158
Early Die State**

10455 1799 7x6 Stars XF40 PCGS. B-16, BB-158, R.2. Bowers-Borckardt Die State I. The obverse and reverse display a strong strike from perfect dies, with no evidence of die clash, die lapping, or die cracks. All of the berries are bold. This variety has a distinctive appearance with the stars at the left distant from the curls and almost equally distant from the L in LIBERTY. Stars at the right, however, are close to the bust and the Y in LIBERTY. The date numerals 1 and 7 are close together. This well-detailed, attractive example has smooth, silver-gray surfaces and lighter silver color on the devices, with a bit of iridescence in the fields. The coin shows no significant abrasions or circulation marks worth mentioning, and it is well-centered within boldly denticled rims. Housed in a previous generation, green label holder. NGC ID# 24X7, PCGS# 6878

**1799 7x6 Stars Dollar, AU
B-9, BB-166, Rich Original Toning**

10456 1799 7x6 Stars AU50 NGC. B-9, BB-166, R.1. Bowers Die State V. Deep walnut-brown toning embraces a majority of this undisturbed and unmarked half dollar. The obverse center is cream-gray. Wear is minor and confined to such high points as Liberty's shoulder and the eagle's breast feathers. Luster shimmers from design elements. Although Bolender-9 can be located without difficulty in VF, AU examples are unquestionably scarce. NGC ID# 24X7, PCGS# 6878

1800 Draped Bust Dollar, XF45

B-5, BB-189, Excellent Appeal
Near Condition Census

10457 1800 XF45 PCGS. B-5, BB-189, R.5. Ex: Miller/Hesselgesser. Bowers-Borckardt Die State II. A nearly perfect example for the grade, this appealing dollar has the original, old-silver look early type and series collectors cherish. Hints of golden mint luster brighten the light-gray devices, which are surrounded by silver-gray fields and deep charcoal-gray margins. A bold strike retains sharp detail on Liberty's hair strands, drapery folds, and the well-formed stars. The eagle's breast feathers, wing tips, and shield are virtually complete despite 15 points of wear. The BB-189 is an R.5 variety — one of the scarcer varieties of the year. Five or six About Uncirculated examples of the variety exist, but so far none in mint state. This high-end XF45 is close to the Condition Census for the die pair. Ex: *Pre-Long Beach Auction (Ira & Larry Goldberg, 2/2009)*, lot 1093, which realized \$5,750. NGC ID# 24X9, PCGS# 6887

10458 1800 AMERICA I — Improperly Cleaned — NGC Details. XF. B-19, BB-192, R.2. Bowers Die State II. Undesignated on the NGC holder as the AMERICA I variety, but the slender die scratch is obvious near the final A in the reverse legend. This dusky silver-gray early dollar displays ample glimmers of luster. Inoffensively cleaned. The initials L and M are lightly entered on the obverse field, near the ribbon and profile. PCGS# 6892

1800 12 Arrows Dollar, AU53 Partial Luster, B-17, BB-196

10459 1800 12 Arrows AU53 NGC. B-17, BB-196, R.1. Bowers Die State IV. A partly lustrous silver dollar with faint almond-gold and powder-blue patina. Minor wear on Liberty's shoulder and other high points corresponds to the grade. Marks are inconsequential aside from a slight obverse rim nick at 4 o'clock and a few abrasions beneath the hair ribbon. PCGS# 6890

10460 1802/1 — Spot Removed — PCGS Genuine. VF Details. B-3, BB-234, R.3. The obverse has a few minor freckles of struck-in grease, and the grease spot above the ribbon displays hairlines from an attempt at removal. A pair of thin marks are noted between the LI in LIBERTY. Otherwise, this lightly toned early silver dollar is attractive and retains glimpses of luster. PCGS# 6899

10461 1802 Narrow Date Fine 15 PCGS. B-6, BB-241, R.1. Bowers Die State III with minor lapping on the shoulder curl. Blended olive-gold and pearl-gray toning visits this nicely detailed and unblemished Heraldic Eagle collector coin. NGC ID# 24XB, PCGS# 6895

10462 1802 Narrow Date — Obverse Graffiti — NGC Details. VF. B-6, BB-241, R.1. Bowers Die State III. Several brief, straight, and hair-thin marks are noted near the base of Liberty's neck. The obverse rim was lightly filed between 6:30 and 9 o'clock to minimize a couple of minor dings. Deep gunmetal-gray fields accompany lighter pearl-white high points. NGC ID# 24XB, PCGS# 6895

GOBRECHT DOLLARS

1836 Gobrecht Dollar, VG Details
Judd-60, Die Alignment I

10463 1836 Name on Base, Judd-60 Original, Pollock-65, R.1 — Improperly Cleaned — NGC Details. VG. Silver. Plain Edge. No Stars Obverse, Stars Reverse. Die Alignment I (coin turn, center of Liberty's head opposite DO in DOLLAR). Wear over each side is so heavy it is not possible to determine if this was an early (pre-die clashed) striking or a later one (with the diagonal die clash mark). Each side is pale gray with medium-gray toning surrounding the devices. Light hairlining is seen over each side, and there is a curious darker spot in the right obverse field. PCGS# 11225

1836 Gobrecht Dollar, PR62
Judd-60 Restrike, Die Alignment IV

10464 1836 Name on Base, Judd-60 Restrike, Pollock-65, R.5, PR62 PCGS. Silver. Plain Edge. No Stars Obverse, Stars Reverse. Die Alignment IV (head of Liberty opposite OF after a medal turn). The straight, angling die clash is faintly visible, more so when angled under a light. This is from the later, reworked version of the Restrike dollars; as evidenced on this piece by the lack of die cracking through the reverse lettering. This is an especially attractive Gobrecht dollar. Each side is virtually mark-free. The fields retain considerable flash still from the proof mirroring, evident even through the light, even gray patina. Population: 23 in 62, 26 finer (2/14). PCGS# 11227

SEATED DOLLARS

1846 Seated Dollar, MS64+
Conditionally Scarce
Ex: Eliasberg

10465 1846 MS64+ PCGS. Ex: Eliasberg. The 1846 Seated dollar, with a mintage of 110,600 pieces, is a popular issue for type purposes at lower circulated and AU grades. Mint State coins are difficult to find, and this MS64+ example approaches the top of the grading spectrum at both services. NGC and PCGS have seen a combined total of 42 near-Gems, and each company has certified exactly two MS65s apiece.

This lovely coin offers satiny, semiprooflike surfaces and bold, nearly full strike definition. Pleasing intermingled colors of golden-brown, apple-green, russet, and cream-gray adorn the carefully preserved surfaces that only betray a few minor abrasions. From the collection of a legendary numismatist who clearly had a taste for high-quality coins. Population: 20 in 64 (2 in 64+), 2 finer (2/14). Ex: *Eliasberg II* (Bowers and Merena, 4/1997), lot 2212. NGC ID# 24YG, PCGS# 6932

10466 1859-S VF30 PCGS. Both sides of this example exhibit attractive light gray surfaces. The coin retains a pleasing degree of design detail and displays even wear. Although surface marks are present, as expected at this grade level, few if any of the marks poses a distraction. NGC ID# 24YZ, PCGS# 6948

1861 Seated Liberty Dollar, MS64+
Bold Strike, Nice Luster

10467 1861 MS64+ PCGS. The 1861 Seated Liberty dollar claims a mintage of 77,500 pieces. Unlike silver dollars of earlier years, the 1861 was not used primarily as an international trade coin. While some examples were exported, a considerable number remained in this country. It seems that many of the coins that remained in domestic holdings were later melted to provide silver for subsidiary coinage. The 1861 is an elusive date in the Seated dollar series, especially in high grade.

This high-end Choice specimen exhibits much sharper detail than usually seen on this issue. The well-preserved surfaces display subtle hints of golden-brown and lavender-gray toning, with only minor signs of contact. Population: 24 in 64 (3 in 64+), 5 finer (2/14). NGC ID# 24Z4, PCGS# 6951

10468 1870-CC — Obverse Scratched — NGC Details. AU. Variety 2-E. Despite a mintage of 12,462 pieces, three obverse and five reverse dies were used to coin 1870-CC dollars. Presumably, several small deliveries at Carson City were interspersed with other denominations. A lightly circulated example, richly toned dove-gray, golden-brown, plum-mauve, and navy-blue. Two thin test marks near star 12 explain the NGC designation. NGC ID# 24ZE, PCGS# 6964

PROOF SEATED DOLLARS

1863 Low-Mintage Seated Dollar, PR64
Only 460 Proofs Produced

10469 1863 PR64 PCGS. A seldom-seen date in either business strike or proof formats, the 1863 silver dollar is a challenging assignment for date collectors. This near-Gem proof is deeply toned with magenta and golden-orange margins surrounding iridescent fields reminiscent of oil-on-water hues. Fully struck devices float on mirrored fields that are a bit hazy, determining the PR64 designation. Population: 35 in 64, 14 finer (2/14). NGC ID# 252H, PCGS# 7006

1869 Liberty Seated Dollar, PR65
Deeply Reflective, Richly Toned

10470 1869 PR65 PCGS. A scant mintage of 600 proofs has yielded precious few Gem or better examples, and few can match this richly toned proof for eye appeal and quality. When viewed at the proper angle, the complex toning values and the incredibly deep mirrors reveal themselves. While nuances of many colors blend to create a cohesive palette, this coin displays lime-green and azure blue merging into vivid magenta, violet, and orange hues. The portrait of Liberty is an astonishing purple-violet with golden highlights. The reverse displays the same lime-green, violet, and azure blue with purple and olive-gold shades covering the eagle. The strike is uniformly full and there are no marks to disturb the liquid fields or frosted devices. Population: 17 in 65, 7 finer (2/14). NGC ID# 252R, PCGS# 7017

1873 Seated Liberty Dollar, PR66 Cameo
None Certified Finer

10471 1873 PR66 Cameo PCGS. Deeply reflective and highly contrasted, this mirrorlike proof dollar offers exquisite eye appeal and flawless attention to detail. A full strike appears on every frosted device, and no marks disturb the deeply pooled fields. A circular vignette of electric blue, violet, and burnt orange merges into clear gold centers on both sides. The “Panic of ‘73” marked the end of the Seated dollar series, but the Mint showed no panic — only careful preparation — when it struck this proof dollar. No other example is certified numerically finer by either service and only this coin is PR66 Cameo by PCGS (2/14). PCGS# 87021

TRADE DOLLARS

10472 1875-S MS62 NGC. Type One Reverse. Large S. A lustrous pearl-gray representative. Bagmarks are absent though faint hairlines are noted. The rims are moderately granular near 9 o'clock on each side. NGC ID# 2536, PCGS# 7039

10473 1876 MS63 NGC. Type One Obverse and Reverse. Light to medium caramel-gold and cream-gray toning encompasses this coruscating and precisely struck Centennial-year Trade dollar. Minor obverse field marks correspond to the grade. NGC ID# 2539, PCGS# 7041

1876 Trade Dollar, MS65
Uncommonly Smooth Surfaces

10474 1876 MS65 NGC. Type One Obverse. Type Two Reverse. Light autumn-gold patina visits this intricately struck and lustrous Gem. Uncommonly devoid of marks, though we note minor granularity near star 13 and the E in TRADE. A remarkable type coin from our Centennial year. Census: 14 in 65, 5 finer (2/14). NGC ID# 2539, PCGS# 7041

10475 1876-CC Doubled Die Reverse AU53 NGC. FS-801. Type One Obverse and Reverse. Tall CC. The right (facing) wingtip and nearby branch are widely die doubled. A minimally abraded and lightly circulated example of the scarce *Guide Book* variety. Toned cream-gray and tan-brown with the deepest shades on the reverse. PCGS# 97042

10476 1877-S MS61 NGC. CAC. Large S. Rich golden-brown and ice-blue toning blankets this satiny and well struck Trade dollar. The few marks are inconsequential for the designated grade. A trace of aqua residue is noted above the eagle's right (facing) shoulder. NGC ID# 253E, PCGS# 7046

10477 1878-S MS61 NGC. Dusky shades of golden-brown and lavender-gray toning blanket the lightly marked surfaces of this Mint State Trade dollar, with frosty mint luster and well-detailed design elements underneath. NGC ID# 253G, PCGS# 7048

1878-S Trade Dollar, MS65
Last Business-Strike Issue

10478 1878-S MS65 PCGS. CAC. Luster emerges beneath the patina on this Gem example from the final business strike issue of the Trade dollar series. Contemporary collectors, however, saved few specimens and S-mint coins are quite elusive at the MS65 level. The surfaces reveal hues of sea-green, yellow-gold, red, and peach. Though not fully struck, the design elements reveal a pleasing degree of detail. A few minuscule marks and grazes are present along with a small die lump on Liberty's neck. Once Morgan dollar production began, only proof Trade dollars were minted until the series ended a few years later. Population: 23 in 65 (3 in 65+), 26 finer (2/14). NGC ID# 253G, PCGS# 7048

PROOF TRADE DOLLARS

1873 Trade Dollar, Sharply Struck PR62 Cameo The Rarest Date of the Regular Proof Series

10479 1873 PR62 Cameo PCGS. The 2014 *Red Book* lists 865 proof Trade dollars being struck in 1873, most of which were mishandled or spent for face value. This reflects the generally held notion that proof Trade dollars were unpopular with numismatists during this time (Bowers, 1993). In any event, the 1873 is considered the rarest proof date of the regular 1873-1883 issues. Moreover, population data indicate that fewer than 20 percent exist in Cameo format.

Both sides of this PR62 Cameo example display strong field-motif contrast and a veneer of lavender patina. The design elements are sharply struck, though the beads on Liberty's crown are a tad weak. Wispy hairlines in the fields determine the numerical grade. Population: 11 in 62 Cameo, 27 finer (2/14). PCGS# 87053

1873 Trade Dollar, An Appealing PR63 Cameo

10480 1873 PR63 Cameo PCGS. The deep mirrored fields highlight the frosty motifs on this Select Trade dollar resulting in stunning Cameo contrast. The nearly color-free surfaces display just occasional whispers of golden-tan, and the strike is strong throughout, including Liberty's hair and facial features, the beads on the crown, and the eagle's plumage. Despite light hairlines that prevent an even finer numerical grade, this piece exhibits nice overall eye appeal and will be an excellent addition to a Trade dollar collection. Population: 17 in 63 (1 in 63+) Cameo, 10 finer (2/14). PCGS# 87053

1874 Trade Dollar, PR64 Cameo Low Distribution and Survival

10481 1874 PR64 Cameo PCGS. Ex: The Andy Geosits Collection of Trade Dollars. This early proof striking has an impressive Cameo appearance, with brilliant fields displaying an abundant amount of cloudy, milky toning. Hairlines are extremely minimal and only some weakness of strike in the central regions keeps this piece from spectacular standards. A considerable rarity in Choice grades and nearly impossible to obtain at the full Gem level with the Cameo contrast. Population: 16 in 64 Cameo, 4 finer (2/14).

Ex: *Long Beach Signature* (Heritage, 1/2004), lot 6361; *FUN Signature* (Heritage, 1/2006), lot 4498. PCGS# 87054

10482 1876 PR62 PCGS. Type One Obverse. Type Two Reverse. Deep mauve and walnut-brown toning blankets the obverse. The reverse is lightly toned and exhibits noticeable cameo contrast. Minor hairlines emerge when rotated beneath a loupe. NGC ID# 27YM, PCGS# 7056

10483 1876 PR61 Cameo PCGS. Type One Obverse. Type Two Reverse. An untoned proof type coin with noticeable frost on the legends and motifs. Liberty's hair is fully struck, though the eagle's right (facing) leg is incomplete. The fields retain flash and display minor hairlines. PCGS# 87056

1877 Trade Dollar, PR62 Cameo Sharply Struck and Strong Contrast

10484 1877 PR62 Cameo PCGS. The mintage figures for the 1877 proof Trade dollar are in dispute. Willem (1983) and the 2014 *Red Book* give a figure of 510 pieces, while Bowers (1993) suggests a coinage of 710 pieces. Regardless of the mintage discrepancies, the 1877 proof Trade dollar is not all that difficult to acquire. Indeed, PCGS and NGC combined have graded 441 examples, including those in Cameo finish.

Both sides of this essentially untoned PR62 Cameo yield pronounced field-device contrast. The design elements are sharply impressed, save for a couple of soft spots in Liberty's hair. Scattered marks and light hairlines account for the numerical grade. Population: 8 in 62 Cameo, 38 finer (2/14). PCGS# 87057

**1878 Trade Dollar, Patinated PR62 Cameo
An Available Proof-Only Issue**

10485 1878 PR62 Cameo PCGS. This proof-only issue saw a mintage of 900 pieces. Most of the original mintage apparently still survives, owing in part to two hoards, one accumulated by a Boston dealer who by 1960 had acquired 100 to 200 pieces, and another by a New York City dealer who purchased several dozen in the 1950 and 1960s. PCGS and NGC have certified nearly 700 pieces, attesting to the availability of this issue. Most of these are in the PR60 to PR64 range

Occasional whispers of cobalt-blue, lavender, and reddish-orange patina visit the light golden-tan surfaces of this PR62 Cameo. Both sides yield strong field-motif contrast and each exhibits sharply struck design features. Only the hair around Liberty's face is somewhat soft. Light hairlines, especially on the obverse, limit the numerical grade. Population: 14 in 62 Cameo, 65 finer (2/14). PCGS# 87058

1878 Trade Dollar, Exceptional PR63 Cameo

10486 1878 PR63 Cameo PCGS. CAC. This Select Cameo Trade dollar displays exceptional field-motif contrast over both sides. The crisply struck design elements enhance this contrast even more, giving this piece outstanding eye appeal. A few wispy hairlines and a faint thumb print in the lower-left reverse quadrant are all that stand in the way of an even higher numerical grade. CAC appropriately recognizes the quality of this beautiful example that will satisfy the most discriminating Trade dollar collector. Population: 34 in 63 (1 in 63+) Cameo, 31 finer (2/14). PCGS# 87058

10487 1879 PR62 PCGS. The surfaces of this piece retain a strong degree of reflectivity, adding to the eye appeal. Areas of toning are present, including shades of gold, peach, and olive-green. Moderate hairlines and marks appear, among them a few hair thin lines. NGC ID# 27YR, PCGS# 7059

10488 1879 PR62 Cameo PCGS. Aside from the eagle's talons, this coin displays a sharp strike overall. The surfaces reveal a pale gold patina along with a few scattered spots and streaks of toning. Beginning in 1879 until the end of the series, the Trade dollar was produced solely in proof format. PCGS# 87059

**1880 Trade Dollar, PR64 Cameo
Excellent Eye Appeal**

10489 1880 PR64 Cameo PCGS. Ex: The Andy Geosits Collection of Trade Dollars. Golden tinged on both sides, the obverse and reverse are unusually clean for the grade. Pinpoint striking definition and silky-smooth features help to provide expectantly solid eye appeal for a late date proof Trade Dollar at the near-Gem level of preservation. The appreciably frosted devices appear to float atop glassy reflectivity in the fields. Minor hairlines are found in the fields, expected for the grade. If you enjoy white coins displaying Cameo contrast, this is an excellent selection to add to your collection. Population: 61 in 64 (3 in 64+) Cameo, 38 finer (2/14).

Ex: Pittsburgh Signature (Heritage, 8/2004), lot 6427; FUN Signature (Heritage, 1/2006), lot 4526. PCGS# 87060

**1882 Trade Dollar, PR64
Proof-Only Issue**

10490 1882 PR64 PCGS. Areas of golden-orange toning appear on this sharply struck near-Gem representative. Substantial reflectivity remains despite a milky patina covering much of the coin. Light hairlines are present. The 1882 Trade dollar was a proof-only issue consisting of a substantial mintage of 1,097 pieces. NGC ID# 27YU, PCGS# 7062

**1882 Trade Dollar, PR66
Spectacular Multicolor Toning**

10491 1882 PR66 PCGS. CAC. Trade dollars were produced exclusively in proof format at the Philadelphia Mint in 1882, for the fifth year in a row. A fairly generous mintage of 1,097 proofs was struck to satisfy collector demand. The demand seems to have lessened as the year progressed and some examples may have gone unsold, to be melted after the end of the year.

This delightful Premium Gem features well-detailed design elements, with a touch of the usual softness on some star centers. The well-preserved surfaces are spectacularly toned in vivid shades of greenish-gold and violet, with deep mirrors underneath. Eye appeal is terrific. Population: 19 in 66, 6 finer (2/14). NGC ID# 27YU, PCGS# 7062

10492 1883 PR62 PCGS. The toning on this piece provides nice eye appeal, even at a quick glance, but closer examination reveals rich shades of electric-blue, grape, orange-copper, and rich gold. Scattered hairlines appear on both sides. The 1883 Trade dollar had a proof mintage of only 979 pieces. NGC ID# 27YV, PCGS# 7063

**1883 Trade Dollar, Toned PR63
The Final Year of the Regular Series**

10493 1883 PR63 PCGS. This is the final Trade dollar except for the clandestine 1884 and 1885 issues. The 1883 was a proof-only issue with a mintage of only 979 coins, a number of which are believed to have been melted or spent. Despite the possible melting, PCGS and NGC have graded more than 1,000 examples, attesting to the availability of this issue.

Soft lavender and gold-tan patination on the obverse cedes to a melange of deep violet, electric-blue, lavender and gold-orange on the reverse. The design elements are well-struck throughout. NGC ID# 27YV, PCGS# 7063

1883 Trade Dollar, Toned and Sharply Struck PR63

10494 1883 PR63 PCGS. CAC. This PR63 example is sharply struck with nice definition showing on all of the design elements. Liberty's hair and crown are nicely detailed, as are the eagle's feathers. Aside from a few wispy hairlines in the fields, the surfaces are nicely preserved, and are enriched with a layer of mauve-gray patination, with yellow-gold and cobalt-blue accents around the peripheries.

Ex: *Palm Beach Signature* (Heritage, 3/2005), lot 6792. NGC ID# 27YV, PCGS# 7063

EARLY PROOF SETS

Seven-Piece 1879 Proof Set Cent Through Morgan Dollar

10495 Seven-Piece Partial 1879 Proof Set NGC. Housed in separate NGC holders with consecutive certification numbers. The Seated denominations all have low associated business strike mintages. The set does not contain a Trade dollar or any gold. The set includes:

Indian cent PR65 Red and Brown NGC CAC, Snow-PR1, the date is lightly but noticeably repunched, peach-red dominates though the portrait high points display tan;

Three cent nickel PR66 NGC, lightly blended butter-gold and steel-gray patina, well struck, immaculate, a couple of shallow mint-made obverse strike-throughs;

Shield nickel PR65 NGC, intricately struck, flashy, light olive-gray toning, minor carbon, no hairlines are perceptible;

Seated dime PR65 NGC, Fortin-102, lapped obverse die, interesting die scratches on the upper left reverse rim and the lower left portion of the wreath, brilliant and nicely struck, a few minuscule ticks on the right obverse field;

Seated quarter PR65 NGC, stone-white, crisply struck, partially lapped drapery, devoid of relevant hairlines;

Seated half dollar PR64 Cameo NGC CAC, brilliant save for a hint of peach toning near the rims, the strike is bold except on the eagle's claw, moderate hairlines on the right obverse field; and a

Morgan dollar PR65 NGC, VAM-31, ONE DOLLAR exhibits minor die doubling, lightly toned and nicely mirrored, the strike shows some softness at the centers, no perceptible hairlines. (Total: 7 coins) NGC ID# 229Y, PCGS# 2325

Six-Piece 1899 Proof Set, PR64-65 Cent Through Silver Dollar

10496 Six-Piece 1899 Proof Set PCGS. The set includes:

Indian cent PR64 Brown PCGS, CAC, rich lavender dominates though the borders offer streaks of pumpkin-gold and sea-green, fully struck, only a couple of tiny flecks.

Liberty nickel PR64 PCGS, CAC, intricately impressed, the left ear of corn is complete, the luminous surfaces display pastel straw-gold and powder-blue, void of detectable carbon.

Barber dime PR65 PCGS, fully struck, deeply patinated though rotation beneath a light reveals iridescent jade-green, lilac-red, cobalt-blue, and stone-gray undertones.

Barber quarter PR65 PCGS, richly toned plum-red and blue-green, a razor-sharp strike, a loupe fails to locate any detractions.

Barber half dollar PR65 PCGS, a deep blanket of forest-green, olive-gold, and walnut-brown embraces undisturbed surfaces; and a

Morgan dollar PR64 PCGS, sharply struck, deep autumn-brown, cobalt-blue, and plum-mauve shades encompass this exemplary Choice proof. The proof set is housed in separate holders. The dime through dollar have low proof mintages of 846 pieces. (Total: 6 coins) NGC ID# 22AM, PCGS# 2384

End of Session One

SESSION TWO

PATTERNS

1856 Flying Eagle Cent, PR64+
Judd-184, Pleasing Color and Luster

10497 1856 Flying Eagle Cent, Judd-184, Pollock-220, Low R.7, PR64+ PCGS. CAC. Ex: Exemplar Collection. Eagle Eye Photo Seal, card included. The obverse is the same as the famous Judd-180 Flying Eagle cent, the Snow obverse 2 with a pointed U in UNITED. The reverse has an oak wreath with the denomination ONE CENT and ornamental shield above. Believed to be a restrike mule, as the reverse was probably created in 1858. Thus, these are considered a “fantasy pieces.” Nevertheless, these pieces have long been considered an integral part of the pattern series and are avidly sought after by Flying Eagle and Indian cent collectors as well as pattern specialists.

An exemplary example, this high-end near-Gem exhibits gorgeous chestnut-brown color, with splashes of plum and violet appearing on the center of the reverse. Strong luster and minimally marked surfaces are additional attributes of this attractive piece. Population: 4 in 64 (1 in 64+), 2 finer (2/14). PCGS# 11808 66004 QP

1858 Low Date Cent in Copper-Nickel, PR63
Judd-208, Pollock-208, Five-Leaf Clusters

10498 1858 Indian Cent, Judd-208, Pollock-253, R.1, PR63 PCGS. Indian head cent as adopted in 1859, struck in copper-nickel with a plain edge. Two obverse and two reverse dies were used to strike these pattern cents. This is the rare variant with a low date and clusters of five leaves. Only a half dozen pieces are estimated known, according to USPatterns.com. The steel-gray surfaces have a slight accent of reddish patina. A streak of porosity is noted on the left side of the reverse. Well, but not quite fully struck with moderately reflective mirrors in the fields. PCGS# 11885 1126 STD

1864 Seated Half Dime, PR64 Brown
Judd-378, Struck in Copper

10499 1864 Half Dime, Judd-378, Pollock-446, Low R.7, PR64 Brown PCGS. CAC. Struck from regular issue dies with a reeded edge, but in copper instead of silver. According to USPatterns.com, Judd-378 was “deliberately made in the early 1870s and sold as part of complete off-metal [restrike] sets of the silver coinage of this year” except the quarter through dollar had Motto reverses. Only a dozen or so are believed to exist in copper. A fully struck near-Gem with deep and consistent chocolate-brown toning. Ex: Sacramento ANA Signature (Heritage, 3/2011), lot 4382. PCGS# 60549

1865 With Motto Quarter in Copper
Judd-426, PR63 Brown

10500 1865 Quarter Dollar, Judd-426, Pollock-498, Low R.7, PR63 Brown PCGS. The obverse die is the traditional Liberty Seated design used for regular coinage in 1865. The reverse die features the familiar perched eagle design, with the addition of the scroll and motto IN GOD WE TRUST adopted for regular coinage in 1866. Struck in copper with a reeded edge. Probably around a dozen examples are known today of this scarce off-metal striking. While labeled Brown, there is significant underlying mint red still evident. Fully struck. PCGS# 60611 60128 STD

**1867 Five Cent in Nickel
Judd-566, PR63**

10501 1867 Five Cents, Judd-566, Pollock-627, Low R.6, PR63 PCGS. The obverse features a bust of Liberty facing left, wearing a coronet but lacking a star, surrounded by the legend and date. The denomination is within a laurel wreath that is close to the edges on the reverse, with a tiny IN GOD WE TRUST above. CENTS is in a straight line. Struck in nickel with a plain edge. Subtly mirrorlike surfaces emanate beneath subdued luster, with minimal marks for the grade. Light gray-golden patina. PCGS# 60776 [1202 STD](#)

**1869 Three Cent Nickel, PR66
Judd-676, Rare Pollock-755 Variant**

10502 1869 Three Cent Nickel, Judd-676, Pollock-755, R.4, PR66 PCGS. CAC. A Premium Gem specimen bearing a design that strongly resembles the business-strike three cent nickel of 1869, with the exceptions being a larger date and the pillars in the denomination are smooth. These pieces were struck in nickel with a plain edge. Andrew Pollock divided the Judd-676 issue into two varieties, with this coin representing the less available Pollock-755 type, rated as R.7, with long dentils and the left reverse ribbon end being shorter than the Pollock-753 type.

Beautifully preserved silver-white surfaces and potent luster are among the attributes this exceptional piece possesses. The reverse reveals an as-made lint mark at the third I and several tiny strike-throughs are present. Population: 2 in 66, 0 finer (2/14). PCGS# 60901

**1869 Three Cent Nickel, PR64 Brown
Struck in Copper, Judd-678**

10503 1869 Three Cent Nickel, Judd-678, Pollock-757, Low R.7, PR64 Brown PCGS. Struck with a plain edge from regular issue three cent nickel dies, but in copper instead of the usual copper-nickel alloy. Most likely, this pattern was struck not as a regular dies trial, but was instead produced with the intention of sale to privileged numismatists as part of a denomination set of off-metal copper strikings. The obverse is olive-green and golden-brown with a blush of lilac-red near STATES. The reverse is ocean-blue. A fully struck Choice proof with flashy fields and undisturbed surfaces.
Ex: *Chicago Signature (Heritage, 8/2011), lot 5250, which realized \$4,025.* PCGS# 60903 [1369 STD](#)

**1869 Standard Silver Quarter, PR63 Cameo
Extremely Rare Judd-731
Aluminum, Reeded Edge**

10504 1869 Standard Silver Quarter Dollar, Judd-731, Pollock-812, High R.7, PR63 Cameo NGC. CAC. Standard Silver design with Liberty wearing a diadem and scroll below. The reverse displays STANDARD SILVER around the upper periphery, the date 1869 at the bottom, and the denomination 25 CENTS within an oak and laurel wreath. Struck in aluminum with a reeded edge. A well struck specimen that boasts pleasing field reflectivity. As is usual for the extremely rare Judd-731 quarter, both sides exhibit moderate laminations, and these have toned deep gray. The remainder of the coin is as issued. PCGS# 60958 [1208 STD](#)

**1869 Standard Silver Quarter, PR64
Judd-733, Silver, Reeded Edge**

10505 1869 Standard Silver Quarter Dollar, Judd-733, Pollock-814, R.5, PR64 NGC. The bust of Liberty faces right, wearing a headband with LIBERTY on it. The peripheral legend is UNITED STATES OF AMERICA, with IN GOD WE TRUST on a scroll in exergue. On the reverse, an oak and laurel wreath surrounds 25 CENTS, and with STANDARD SILVER 1869 around the rim. Struck in silver with a reeded edge. Light chestnut-gold toning graces this flashy and intricately impressed near-Gem. No hairlines or spots are readily evident. PCGS# 60960 [1220 STD](#)

**1870 Standard Silver Half Dime
Judd-809, Silver, Reeded Edge
PR67, Single Finest Certified**

- 10506** 1870 Standard Silver Half Dime, Judd-809, Pollock-897, Low R.7, PR67 NGC. CAC. William Barber's Seated Liberty design is paired with a familiar Standard Silver reverse motif, a wreath of corn and cotton and 5 CENTS in the center. Struck in silver with a reeded edge. The small physical size of the five cent pattern resulted in slight differences in the design. The cap on the pole resembles a large number 2, for example. The ribbon ends in a single tail distant from the U in UNITED, rather than the double tail below UN on the larger denomination patterns. This beautifully toned and well-pedigreed example displays rich ocean-blue and straw-gold shades. The strike is full and there are no detractions. As of (2/14), NGC and PCGS have certified ten specimens of Judd-809, and the present piece is the single finest among those by two grades. Ex: Newman Collection / Central States Signature (Heritage, 4/2013), lot 3979. PCGS# 61053 [60062 STD](#)

**1870 Aluminum Half Dollar, PR65 Cameo
Standard Silver Series
Judd-943, Pollock-1071**

- 10507** 1870 Standard Silver Half Dollar, Judd-943, Pollock-1071, High R.7, PR65 Cameo PCGS. CAC. Standard Silver reverse paired with a Liberty cap-and-stars portrait on the obverse. This Pollock subvariety shows the tip of the cap beneath the ES in STATES. Struck in aluminum with a reeded edge. The experts at uspatterns.com suggest "at least 3 known" for this aluminum delicacy. This is the single finest example certified by PCGS (2/13), though of course it has little competition for the title. Well-preserved aluminum surfaces are minimally toned and exhibit excellent contrast. Struck from moderately rotated dies. PCGS# 61189 [1165 STD](#)

**1872 Quarter Pattern, PR65 Red and Brown
Judd-1198, Finest Seen at PCGS**

- 10508** 1872 Quarter Dollar, Judd-1198, Pollock-1338, R.7, PR65 Red and Brown PCGS. CAC. The obverse and reverse are the regular-issue dies for the date, struck in copper with a reeded edge. These coins have been called dies trial pieces, but they were actually marketed to collectors as part of complete off-metal sets. One such set was offered in lot 282 of the Woodside Collection (New York Coin & Stamp, 4/1892):

"1872: \$1, 50C., 25C., 10C., 5C., 3C.: same as regular issues: in copper: proofs: rare; 6 pcs."

According to USPatterns.com there are probably half a dozen examples of Judd-1198 surviving in all grades. The present coin is an attractive Gem, the finest certified at PCGS. The design elements are sharply detailed and the fields are deeply reflective. The well-preserved surfaces display attractive shades of orange-gold and lavender-gray patina. Eye appeal is outstanding. Population: 1 in 65 Red and Brown, 0 finer (2/14). PCGS# 71469 [1479 QP](#)

GOLD DOLLARS

- 10509** 1849 Open Wreath MS64 PCGS. Breen-6004. Close stars, thin date numerals. A honey-gold near-Gem with vibrant luster and a good strike. The reverse displays minor but interesting die rust. Housed in a green label holder. NGC ID# 25B9, PCGS# 7502 [1097 NOIMAGE](#)

**1849 Closed Wreath Gold Dollar, MS65
An Impressive First-Year Representative**

10510 1849 Closed Wreath MS65 PCGS. Breen-6005. This is a beautiful gold dollar featuring deep amber-gold toning and hints of pale lilac color over Liberty's portrait, as well as in some of the reverse fields. Intensely lustrous with razor-sharp strike definition, this piece will also impress the viewer with its wonderfully clean surfaces. From the first year of gold dollar production and a marvelous representative of the date and variety, this coin should appeal to the quality-minded aficionado of technical and aesthetic excellence. In an old green PCGS holder. Population: 16 in 65, 4 finer (2/14). PCGS# 7503 [1521 STD](#)

10511 1850-O MS61 NGC. Variety 1. The rarest Type One New Orleans issue. A scant 14,000 pieces were struck. This butter-gold representative is crisply struck and free from any detrimental abrasions or planchet imperfections. NGC ID# 25BJ, PCGS# 7512 [1305 NOIMAGE](#)

**1850-O Gold Dollar, MS63
Only 14,000 Pieces Struck**

10512 1850-O MS63 PCGS. Variety 1. New Orleans struck gold dollars in each of the first five years of the denomination. Four of those issues have fairly high mintages and are generally available in Mint State. The exception is the 1850-O, which has a production of just 14,000 pieces. This fully struck example displays blended apple-green and lemon-gold toning. Moderate obverse field grazes are all that limit the grade. Population: 7 in 63, 2 finer (2/14). NGC ID# 25BJ, PCGS# 7512 [60146 STD](#)

10513 1851-O MS63 NGC. CAC. Variety 2. A lovely apricot-gold Select New Orleans type coin. The strike is good and none of the minor field grazes merit individual description. The two confirmed die varieties are equally scarce, and distinguished by the stars between 1 and 3 o'clock. These stars are attenuated on Variety 1 and bold on Variety 2. NGC ID# 25BN, PCGS# 7516 [28030 NOIMAGE](#)

1853 Gold Dollar, Conditionally Scarce MS65

10514 1853 MS65 PCGS. CAC. The 1853 gold dollar saw a mintage of more than 4 million pieces, the highest mintage of any issue of the denomination. Accordingly, it is not surprising that it is the most common gold dollar today. The date becomes scarce in near-Gem and Gem and rare any finer. The lustrous surfaces of this MS65 example display soft reddish-gold color and sharply struck design elements. Excellent eye appeal as affirmed by CAC. NGC ID# 25BU, PCGS# 7521 [1150 STD](#)

10515 1854 Type One MS64 PCGS. Perfect for a high-quality type set, the eye appeal of this near-Gem is upper-end for the grade. Coupled with a needle-sharp strike, the well-preserved surfaces showcase frosty green-gold peripheral luster circling a halo of orange-gold with warm rose-gold centers. Only a couple insignificant ticks in the left obverse field preclude full Gem status. NGC ID# 25BY, PCGS# 7525 [22011 NOIMAGE](#)

10516 1854 Type Two MS61 NGC. CAC. Peach and green-gold surfaces add to the appeal of this representative displaying the typical light strike at the centers. Cuds appear on the reverse near 1 o'clock and 3 o'clock. A pleasing example of this popular coin. NGC ID# 25C3, PCGS# 7531 [1310 NOIMAGE](#)

**1854 Type Two Gold Dollar, MS63
Rich Orange Toning**

10517 1854 Type Two MS63 PCGS. The briefly coined Type Two design ranks among the scarcest gold types of its era. This orange-gold Select representative displays prominent clash marks but is refreshingly free from abrasions. The strike is generally sharp, even on the 5 in the date, which is often faint as it is opposite the relatively high relief portrait. NGC ID# 25C3, PCGS# 7531 [60150 STD](#)

**1856 Slanted 5 Gold Dollar
Scarce Premium Gem Example**

10518 1856 Slanted 5 MS66 PCGS. Glistening butter-gold surfaces provide this Premium Gem with immediate eye appeal. This piece exhibits generally good striking detail, although there is typical weakness on OLL and 85 at the reverse center. Shallow planchet flaws are present on the obverse near the central portions of AMERICA. Population: 9 in 66 (2 in 66+), 4 finer (2/14). NGC ID# 25C9, PCGS# 7540 [1477 STD](#)

**1857 Gold Dollar, MS65
Conditionally Scarce**

10519 1857 MS65 PCGS. Although the 1857 gold dollar was a higher mintage issue with 774,789 pieces struck, surviving examples are scarce in Gem condition. Lustrous butter-gold surfaces provide this Gem with immediate eye appeal. The centers reveal a pleasing degree of design detail, while portions of the dentils reveal blending on both sides. Population: 14 in 65, 14 finer (2/14). NGC ID# 25CD, PCGS# 7544 [60045 STD](#)

**1857-C Gold Dollar, Near-Mint
Exceptionally Smooth Surfaces**

10520 1857-C AU58 NGC. Variety 1. Charlotte Mint production of gold dollars was biennial by 1857, as they were struck in 1855, 1857, and 1859, but not in adjacent years. This low mintage sun-gold representative is unabraded and attractive. The occasional traces of planchet texture are usual for the issue and do not affect the technical grade. Census: 33 in 58, 8 finer (2/14). NGC ID# 25CE, PCGS# 7545 [28031 STD](#)

10521 1862 MS64 PCGS. CAC. For type purposes, the 1862 gold dollars encompass many pieces with pleasing eye appeal, and this satiny near-Gem is no exception. Small tinges of rose-gold accent soft green-gold luster overall with fewer abrasions than the grade suggests. NGC ID# 25CW, PCGS# 7560 [60039 NOIMAGE](#)

**1867 Gold Dollar, MS66
Only One Finer Coin at PCGS**

10522 1867 MS66 PCGS. The 1867 gold dollar is an elusive issue from a small business-strike mintage of 5,200 pieces. Probably no more than 75-110 examples are extant in all Mint State grades, and circulated specimens are quite scarce as well. The true rarity of this date is not appreciated outside of series specialists. High-grade business-strike examples have often been mistaken for proofs in auction descriptions.

The present coin is a delightful Premium Gem with sharply detailed design elements and some interesting clash marks on both sides. The prooflike yellow-gold surfaces are well-preserved, with no large or distracting flaws. Population: 4 in 66, 1 finer (2/14). NGC ID# 25D3, PCGS# 7566 [1432 QP](#)

10523 1872 MS63 PCGS. The 1872 gold dollar mintage consisted of a low 3,500 pieces. Rich gold color and luster are among the attributes this Select representative possesses. Scattered marks are present, though the portrait is largely free of them. Population: 15 in 63, 31 finer (2/14). NGC ID# 25D9, PCGS# 7572 [1021 NOIMAGE](#)

10524 1873 Open 3 MS65 PCGS. The more available of the two 1873 varieties, this lovely Gem displays soft yellow-gold accents over lustrous green-gold surfaces. Sharply detailed and very pleasing for the grade. Population: 45 in 65 (2 in 65+), 14 finer (2/14). NGC ID# 25DB, PCGS# 7573 [60038 NOIMAGE](#)

1873 Closed 3 Gold Dollar, MS63
Conditionally Rare, Low-Mintage Type

10525 1873 Closed 3 MS63 PCGS. This type had a meager business strike mintage of just 1,800 coins, while its Open 3 counterpart from the same date and mint had a significantly higher production of 123,300 pieces. This is a lovely Select Mint State example with pleasing, evenly distributed coloration and typically struck design motifs, somewhat soft on LIBERTY and 73. A few minor marks define the grade. Population: 12 in 63, 11 finer (2/14). NGC ID# 25DA, PCGS# 7574 [29010 STD](#)

1877 Gold Dollar, Lustrous MS65
A Popular, Low-Mintage Issue

10526 1877 MS65 PCGS. CAC. The low mintage of 3,900 business strikes makes the 1877 gold dollar popular among collectors. Mint State survivors are mostly in the MS60 to MS63 range, and higher-grade pieces are available with patience and searching. The lustrous reddish-gold surfaces of the present Gem offering display hints of lavender and have been well cared-for. Semiprooflike, as usually seen. The design elements are nicely defined, though Liberty's hair is a tad soft in spots. The CAC sticker affirms the coin's above-average eye appeal. Population: 15 in 65, 24 finer (2/14). NGC ID# 25DF, PCGS# 7578 [1144 STD](#)

10527 1882 MS66 PCGS. Deep orange-gold color and appealing luster add to the attractiveness of this Premium Gem example. The reverse is particularly lovely, with a number of tiny splashes of lavender present. Population: 28 in 66, 39 finer (2/14). NGC ID# 25DL, PCGS# 7583 [1098 NOIMAGE](#)

10528 1883 MS66 PCGS. During the 1880s, gold dollars were highly popular for jewelry and love token purposes. In addition, mintages were generally very low. Nonetheless, the 1883 is collectible in high grades since Philadelphia-area dealers secured a small hoard of the date upon issue. A lustrous and unabraded honey-gold Premium Gem. The RT in LIBERTY is nearly lapped away, as made. NGC ID# 25DM, PCGS# 7584 [40028 NOIMAGE](#)

1883 Gold Dollar, MS67
Delightful, Near-Perfect Specimen

10529 1883 MS67 PCGS. Despite a relatively low mintage of 10,800 pieces, this issue is not particularly scarce in high Mint State grades, making it an excellent choice for a Superb Gem type collection. Scintillating mint frost and sharply-struck design motifs combine with near-perfect preservation to ensure the MS67 rating for this visually delightful specimen. NGC ID# 25DM, PCGS# 7584 [60140 STD](#)

10530 1884 MS66 PCGS. Light clash marks are present on this beautifully preserved Premium Gem example displaying attractive butter-gold color. An as-made lint mark appears near the F in OF. Population: 19 in 66, 21 finer (2/14). NGC ID# 25DN, PCGS# 7585 [1024 NOIMAGE](#)

10531 1887 MS64 Prooflike NGC. CAC. Glimmering sun-gold surfaces provide this near-Gem with strong visual appeal. A few tiny orange alloy spots are present. Aside from a small mark below the bow on the wreath, there are no marks worthy of mention on this lovely piece. Census: 6 in 64 Prooflike, 11 finer (2/14). PCGS# 77588 [1315 NOIMAGE](#)

10532 1888 MS64 PCGS. A sharply struck gold dollar from one of the last years of the series. This piece displays frosty yellow-gold luster with hints of green-gold throughout. Slightly reflective fields add to this coin's eye appeal. NGC ID# 25DT, PCGS# 7589 [60110 NOIMAGE](#)

10533 1889 MS65 PCGS. A Gem example of the last date in the gold dollar series, this example displays satiny green-gold luster with blushes of light rose-gold throughout. Slight strike doubling is noted in the legend and denomination. NGC ID# 25DU, PCGS# 7590 [60055 NOIMAGE](#)

1889 Gold Dollar, MS67
Conditionally Scarce

10534 1889 MS67 PCGS. This was the final year of production for the Liberty Head gold dollar type, and 28,950 business strikes emerged from the Philadelphia Mint. Apparently, quite a few examples were spared from circulation and kept in Mint State condition. Superb Gems remain scarce, however. This beautiful specimen displays intense, radiant mint frost and lovely light rose, peach, and yellow-gold toning. It is sharply-struck and the surfaces are virtually flawless. NGC ID# 25DU, PCGS# 7590 [1553 STD](#)

EARLY QUARTER EAGLES

1808 Capped Bust Left Quarter Eagle, XF Details In-Demand One-Year Type Coin, BD-1

10535 1808 — Edge Repaired — PCGS Genuine. XF Details. BD-1, R.4. The 1808 Capped Bust Left quarter eagle is a popular one-year type coin, from a small mintage of 2,710 pieces. The new design was engraved by John Reich with a large bust of Liberty facing left. This design was also used on half eagles until 1813, but no quarter eagles were struck between 1808 and 1821, so the 1808 is the only quarter eagle of this type. A single die variety is known for the date, with a surviving population of 125-150 examples in all grades and conditions.

The present coin retains much interior detail on Liberty's hair intact and the lustrous orange-gold surfaces show a scattering of minor abrasions. The rim shows several irregular dents and bruises, indicating some repair was attempted at one time. NGC ID# 25FD, PCGS# 7660 [1177 QP](#)

1833 BD-1 Two and a Half AU Sharpness, Low Mintage

10536 1833 — Rim Filing — NGC Details. AU. BD-1, R.5. The only die marriage for this rare date. The obverse rim is filed, but this lemon-gold representative displays noticeable luster, and the only mentionable abrasions are a cluster of small marks above the eagle's head. The strike is good aside from softness on the shield. Just 4,160 pieces were struck. NGC ID# 25FP, PCGS# 7673 [1343 STD](#)

CLASSIC QUARTER EAGLES

10537 1835 AU55 PCGS. Breen-6141, Variety 6, R.2. The Wide AM variety, as usually encountered on this sophomore-year Classic five. This orange-gold example displays pockets of bright luster and shows some softness of strike at the centers. Smooth aside from subtle field marks near the upper profile. NGC ID# 25FT, PCGS# 7693 [1372 NOIMAGE](#)

10538 1836 Script 8 AU58 PCGS. Breen-6143, Variety 13, R.4. Significantly scarcer than the usual Variety 11, the present die marriage is interesting for its double berry on the olive branch. The T in UNITED is entered much higher than nearby letters. This near-Mint lemon-gold representative is smooth besides a few moderate marks near the chin. NGC ID# 25FU, PCGS# 7694 [1242 NOIMAGE](#)

1839 Two and a Half, AU58 Scarce Philadelphia Issue

10539 1839 AU58 NGC. Breen-6148, Variety 21, R.3. Just a single die marriage is known from the low mintage of 27,021 pieces. A nicely struck wheat-gold near-Mint representative from the final year of the Classic type. The luminous surfaces are lightly abraded overall, though we note a few wispy marks beneath star 9 and a thin line above the eagle's neck. NGC ID# 25G2, PCGS# 7698 [1201 STD](#)

1839-D Quarter Eagle, Mint Details Weak Stem Variety

10540 1839-D — Repaired — NGC Details. Unc. Variety 26, R.3. The solitary Dahlonega issue of the series has a mintage of just 13,674 pieces. Two die varieties are known. These are colloquially referred to as the "Weak Stem" and "Bold Stem" by specialists, in reference to the eagle's olive branch. This unworn honey-gold "Weak Stem" example appears impressive to the unaided eye, although a loupe reveals careful smoothing on the field near the profile. The upper reverse displays a few unimportant marks. NGC ID# 25G6, PCGS# 7700 [22009 STD](#)

LIBERTY QUARTER EAGLES

10541 1840-O XF45 NGC. Variety 1. A luminous lemon-gold Choice XF example with lightly marked fields and ample glimmers of luster. Portions of the eagle are typically brought up. A low mintage New Orleans issue.

Ex: *Dallas Signature* (Heritage, 10/2006), lot 2484. NGC ID# 25GD, PCGS# 7720 [48018 NOIMAGE](#)

10542 1841-C — Lamination on Reverse — AU55 ANACS. Variety 1. This early Charlotte Mint rarity has pleasing sharpness and unmarked straw-gold surfaces. Luster brightens design recesses. A partially retained lamination affects the upper reverse. Only 10,281 pieces were struck, and the typical survivor grades XF.

Ex: *Long Beach Signature* (Heritage, 2/2011), lot 4328. NGC ID# 25GE, PCGS# 7721 [29011 NOIMAGE](#)

1841-C Two and a Half, Near-Mint

10543 1841-C AU58 PCGS. Variety 1. A miserly mintage of 10,281 pieces ensures the rarity of this Charlotte Mint two and a half. The eye appeal is impressive, since the luminous butter-gold surfaces show only a single mentionable mark, a hair-thin line behind the hairbun. The strike is crisp given its branch facility origin. Population: 6 in 58, 1 finer (2/14). NGC ID# 25GE, PCGS# 7721

1842-D Quarter Eagle, XF45 Well-Detailed and Fully Original

10544 1842-D XF45 NGC. Variety 3-F. Only one die marriage is identified, consistent with a mintage of 4,643 coins. This Choice XF specimen has light wear on the high points with splashes of faint olive toning over its light yellow surfaces. The low mintage is consistent with a scarce issue, especially in higher circulated grades. The average grade of all NGC and PCGS certified 1842-D quarter eagles is 45, so this piece represents the typical survivor. Census: 15 in 45, 32 finer (2/14).

Stamford Coinfest Signature (Heritage, 10/2010), lot 4610. NGC ID# 25GJ, PCGS# 7725 [48024 STD](#)

10545 1846 AU58 NGC. The butter-gold surfaces of this near-Mint example reveal light wear on the high points of the designs. Areas of mint luster remain on this attractive piece and none of the marks present are worthy of individual mention. Census: 43 in 58, 21 finer (2/14). NGC ID# 25GZ, PCGS# 7740 [1447 NOIMAGE](#)

1847-C Quarter Eagle, AU53 Scarce Charlotte Issue

10546 1847-C AU53 NGC. Variety 1. A straw-gold Charlotte type coin with generally smooth surfaces, though a faded field mark or two is noted beneath the hairbun. Luster brightens the legends and motifs. The stars and dentils are well struck though the central devices show blending. A mere 23,226 pieces were produced. NGC ID# 25H6, PCGS# 7745 [48025 STD](#)

10547 1849-D XF45 NGC. Variety 11-N (formerly 11-M). The usual high date variant of this elusive and low mintage Dahlonega issue. Lilac-red and olive-green encompass refreshingly unabraded surfaces. The strike is above average though the neck plumage shows blending. NGC ID# 25HF, PCGS# 7754 [48019 NOIMAGE](#)

10548 1851-C VF25 PCGS. Variety 1. Well defined for the VF25 grade, given the typical Charlotte Mint strike on the eagle. The obverse is apricot-gold while the reverse is orange-red. The field beneath the ES in STATES is mildly glossy. Encased in a green label holder. Ex: *Tampa FUN Signature* (Heritage, 1/2011), lot 12364, which realized \$1,585.85. NGC ID# 25HM, PCGS# 7760 [48009 NOIMAGE](#)

1852-C Quarter Eagle, AU55 Rare Any Finer

10549 1852-C AU55 NGC. Variety 1. With a mintage of 9,772 coins, the 1852-C began a gradual decline in quarter eagle production at the Charlotte mint that would last until the facility's closing in early 1861. It is scarce in all grades and very rare in Mint State.

This Choice About Uncirculated example exhibits pale green-gold color overall, with no major surface abrasions. The obverse displays good definition in the hair curls and the stars, while the central reverse displays typical weakness in the eagle feathers. Census: 24 in 55, 25 finer (2/14). NGC ID# 25HS, PCGS# 7764

[48013 STD](#)

10550 1852-D — Obverse Scratched — NGC Details. XF. Variety 16-N (formerly 15-M). Thin marks on the lower left obverse quadrant confirm the NGC notation, but the pumpkin-gold surfaces retain plentiful glimmers of bright luster. The strike on the eagle is somewhat soft, as usual for this very low mintage Dahlonega issue. NGC ID# 25HT, PCGS# 7765 [1338 NOIMAGE](#)

**1859-S Two and a Half, AU58
Sharply Struck and Lustrous**

10551 1859-S AU58 NGC. The orange-gold surfaces on this near-Mint State 1859-S quarter eagle display radiant luster amid a sharp strike and fewer signs of contact than might be expected. The mintage was a low 15,200 pieces, most of which circulated extensively. Census: 24 in 58 (1 in 58+), 10 finer (2/14). NGC ID# 25JN, PCGS# 7790 [1227 STD](#)

10552 1861 New Reverse, Type 2 MS64 PCGS. A well preserved and lustrous near-Gem with olive-green borders and peach-gold centers. The mintage of the 1861 is much higher than all other gold dollar issues of its decade combined, which makes the issue ideal for a Civil War type set.

Ex: Long Beach Signature (Heritage, 2/2011), lot 4347, which realized \$2,530. NGC ID# 25JX, PCGS# 7794 [48008 NOIMAGE](#)

**1861-S Quarter Eagle, AU55
Low-Mintage Condition Rarity**

10553 1861-S AU55 NGC. A Choice AU 1861-S quarter eagle from a moderately low mintage of 24,000 pieces, this example displays lovely butter-gold color. The high points of the design exhibit light wear. None of the scattered marks present are worthy of individual mention, though a few minor rim nicks are observed on the obverse. Census: 12 in 55, 27 finer (2/14). NGC ID# 25JY, PCGS# 7795 [1195 STD](#)

10554 1869-S AU58 NGC. A near-Mint representative, this lightly circulated example displays pleasing intermingled hues of gold color. Only 29,500 1869-S quarter eagles were minted and few survive in Mint State grades, adding to the appeal of AU examples. Census: 59 in 58, 16 finer (2/14). NGC ID# 25KE, PCGS# 7810 [48014 NOIMAGE](#)

10555 1870 AU55 PCGS. An attractive Choice AU example of this scarce, low mintage quarter eagle issue. Well struck with faint wear and numerous tiny marks noted on each side. Population: 12 in 55, 21 finer (2/14). NGC ID# 25KE, PCGS# 7811 [48006 NOIMAGE](#)

10556 1877 AU58 NGC. From a low mintage of only 1,632 coins, the 1877 Liberty quarter eagle is desirable in all grades. This near-Mint example exhibits intermingled hues of gold and yellow. The right obverse field reveals a few tiny spots of as-made struck-in grease. Census: 38 in 58, 27 finer (2/14). NGC ID# 25KW, PCGS# 7826 [1306 NOIMAGE](#)

10557 1878-S MS63 NGC. A semiprooflike representative with attractive peach-gold toning and a bold strike. The minimal marks do not appear to limit the grade. Census: 47 in 63, 18 finer (2/14). NGC ID# 25KZ, PCGS# 7829 [48015 NOIMAGE](#)

**1887 Quarter Eagle, Well-Struck MS64
A Scarce, Low-Mintage Issue**

10558 1887 MS64 PCGS. CAC. The 1887 quarter eagle, from a minuscule mintage of 6,160 circulation strikes, is scarce in all grades. Mint State examples can be located with diligent searching through near-Gem after which the date is exceedingly rare. The honey-gold surfaces of this MS64 specimen display pleasing luster and exhibit well-struck design elements, save for softness in a few of the star centers. There are fewer marks than what might be expected for the designated grade. Population: 17 in 64, 1 finer (2/14). NGC ID# 25LB, PCGS# 7839 [1140 STD](#)

**1888 Liberty Quarter Eagle, MS65
None Finer at PCGS**

10559 1888 MS65 PCGS. From a mintage of 16,098 pieces, the 1888 Liberty quarter eagle is seldom encountered in MS65 condition. This impressive Gem exhibits sharply detailed design elements and the well-preserved peach-gold surfaces radiate satiny mint luster. Population: 18 in 65, 0 finer (2/14). NGC ID# 25LC, PCGS# 7840 [27009 STD](#)

10560 1891 MS64 PCGS. CAC. Hues of gold, orange, and green combine to provide this lustrous near-Gem with a lovely appearance. Although scattered marks are present, they are minuscule. AMERICA reveals die doubling. A few aqua flecks appear near the I in UNITED. Population: 28 in 64 (1 in 64+), 10 finer (2/14). NGC ID# 25LF, PCGS# 7843 [1462 NOIMAGE](#)

10561 1893 MS65 NGC. A canary-gold Gem whose intricate strike, dynamic luster, and exemplary preservation combine to ensure remarkable eye appeal. From a mintage of only 30,000 pieces. Encapsulated in a first generation holder. Census: 53 in 65, 31 finer (2/14). NGC ID# 25LH, PCGS# 7845 [1252 NOIMAGE](#)

**1893 Quarter Eagle, MS67
Single Finest Certified at PCGS**

10562 1893 MS67 PCGS. The 1893 Liberty quarter eagle claims a mintage of 30,000 pieces, a small total in absolute terms but quite large in the context of the series. Although Mint State examples are not too difficult to locate, the 1893 is surprisingly elusive in grades above the Gem level.

This spectacular Superb Gem is the single finest specimen certified at PCGS (2/14). The design elements are sharply detailed throughout and the well-preserved peach-gold surfaces show no mentionable distractions. Vibrant mint luster adds to the terrific visual appeal. We believe this is the first time a PCGS-graded MS67 example has ever been offered at auction. Registry Set enthusiasts should bid accordingly. Population: 1 in 67, 0 finer (2/14). NGC ID# 25LH, PCGS# 7845 [1513 QP](#)

1898 Quarter Eagle, Fully Struck MS66

10563 1898 MS66 PCGS. Like many examples of this well-produced issue, this Premium Gem 1898 quarter eagle boasts a full strike with light, wispy die cracks visible and excellent eye appeal on the orange-gold, highly lustrous surfaces. Only a couple of faint ticks on Liberty's jawline preclude an even finer grade. Population: 34 in 66 (1 in 66+), 9 finer (2/14). NGC ID# 25LN, PCGS# 7850 [1523 STD](#)

10564 1900 MS66 NGC. Lustrous green-gold surfaces and a sharp strike provide this Premium Gem with strong visual appeal. Aside from a small mark on Liberty's jaw, the surfaces are largely devoid of abrasions. NGC has awarded higher numeric grades to only 36 examples (2/14). NGC ID# 25LR, PCGS# 7852 [48027 NOIMAGE](#)

10565 1902 MS65 PCGS. A radiant apricot-gold Gem that boasts a bold strike and potent luster. Minor field grazes preclude perfection. A quality Liberty type coin. Encapsulated in a green label holder. NGC ID# 25LT, PCGS# 7854 [1357 NOIMAGE](#)

10566 1902 MS66 PCGS. This spectacular Premium Gem possesses terrific eye appeal to complement the high technical grade. The design elements exhibit razor-sharp definition and the well-preserved orange-gold surfaces radiate vibrant mint luster. NGC ID# 25LT, PCGS# 7854 [60136 NOIMAGE](#)

**1902 Quarter Eagle, MS67
Superior Quality and Eye Appeal
Tied for Finest-Graded at PCGS**

10567 1902 MS67 PCGS. This late-date Liberty Head issue had an original mintage of 133,500 pieces, and Mint State examples are plentiful. Superb Gems are scarce, however, and the current offering is tied for finest-certified at PCGS. This visually captivating quarter eagle is fully struck and displays a rich frosty sheen over light honey-gold surfaces. A pair of tiny red-orange specks on the obverse are too small to distract the viewer of this gorgeous piece. Flawlessly preserved and blemish-free on both sides. NGC ID# 25LT, PCGS# 7854 [1483 STD](#)

10568 1903 MS65 PCGS. Pleasing luster and appealing honey-gold color combine to provide this Gem with a lovely appearance. The strike is sharp and the few marks present are minuscule. The Liberty Head quarter eagle issues from the 1900s are known for being well produced. NGC ID# 25LU, PCGS# 7855 [1454 NOIMAGE](#)

10569 1903 MS66 NGC. A coin with immediate eye appeal, this Premium Gem representative exhibits shimmering luster and butter-gold color. A few tiny alloy spots appear on each side. The surfaces reveal a few tiny signs of contact, including one on Liberty's nose. NGC ID# 25LU, PCGS# 7855 [48028 NOIMAGE](#)

**1904 Quarter Eagle, MS67
Outstanding Visual Appeal**

10570 1904 MS67 NGC. Even at a quick glance, this coin reveals tremendous visual appeal. Lustrous surfaces and rich pumpkin-gold color are among the attributes this piece possesses. Aside from a tiny mark on Liberty's cheek, very few abrasions are present on this well-struck specimen. The population of surviving examples drops drastically above the Superb Gem level, with NGC having awarded higher numeric grades to only 5 examples (2/14). NGC ID# 25LV, PCGS# 7856 [48026 STD](#)

10571 1905 MS66+ NGC. This high-end Premium Gem exhibits sharply detailed design elements and vibrant mint luster, with well-preserved orange-gold surfaces that show a few hints of rose and outstanding eye appeal. NGC ID# 25LW, PCGS# 7857 [78001 NOIMAGE](#)

**1905 Quarter Eagle, MS67
Highly Lustrous and Well-Struck**

10572 1905 MS67 PCGS. The 1905 Liberty Head quarter eagle, coming from a mintage exceeding 200,000 pieces, is a very common date for the series. PCGS and NGC have graded thousands in Mint State through MS66. The population drops significantly in MS67 where the issue is scarce. Higher-grade specimens are very rare.

Vibrant luster radiates from both sides of this honey-gold Superb Gem, each of which displays occasional wisps of apricot. The design elements are sharply struck, including the hair on Liberty's head, the star centers, and the eagle's plumage. A few minute ticks are insignificant. Population: 62 in 67, 1 finer (2/14). NGC ID# 25LW, PCGS# 7857 [1551 STD](#)

**1905 Quarter Eagle, MS67
Strong Luster and Rich Color**

10573 1905 MS67 NGC. Strong luster and intermingled shades of orange, gold, and green combine to provide this Superb Gem representative with tremendous visual appeal. The number of certified examples drops significantly above the MS67 level, with only 6 examples having achieved higher numeric grades from NGC (2/14). NGC ID# 25LW, PCGS# 7857 [48011 STD](#)

10574 1906 MS65 PCGS. CAC. The 1906 quarter eagle frequently comes with outstanding eye appeal, making it ideal for the type collector. The present example radiates full mint bloom and original golden color, beautifully showcasing incredibly clean surfaces and a perfect, needle-sharp strike. NGC ID# 25LX, PCGS# 7858 [60050 NOIMAGE](#)

INDIAN QUARTER EAGLES

**1908 Indian Head Quarter Eagle, MS65+
A Lovely High-End Example**

10575 1908 MS65+ PCGS. The first-year 1908 Indian Head quarter eagle is the third most-available issue of the series at the Gem grade level, at PCGS. This is a beautiful piece with shimmering mint luster and lovely light toning. Just one or two tiny nicks are found on each side of the coin, with the aid of a magnifier. NGC ID# 288Y, PCGS# 7939 [1519 STD](#)

10576 1909 MS64 PCGS. A lemon-gold Choice Indian type coin whose bold strike and unmarked surfaces exude eye appeal. Ideal for a quality gold type set. Housed in a green label holder. NGC ID# 288Z, PCGS# 7940 [1420 NOIMAGE](#)

**1911-D Two and a Half
Mint State Sharpness**

10577 1911-D — Damaged — NGC Details. Unc. The mintmark is sharp, and the peach-gold surfaces are fully detailed and satiny. Each side has several lengthy slender marks, one of which affects the top of the mintmark. Still a collectible example of the most coveted issue of the Indian quarter eagle series. NGC ID# 2894, PCGS# 7943 [1209 STD](#)

**1914 Quarter Eagle, MS63
Scarce Key Issue**

10578 1914 MS63 NGC. Only the 1911-D quarter eagle and its 1911-D 'Weak D' sub-variety are scarcer at the MS63 grade level than the 1914 Philadelphia Mint issue, at NGC. This specimen is clean and appealing, with lovely light coloration and few surface marks. A well-struck and nicely preserved example. NGC ID# 2898, PCGS# 7946 [1381 STD](#)

10579 1926 MS64 PCGS. Rich peach-red toning is consistent across this well struck and coruscating Choice Indian type coin. A lens reveals only infrequent minor contact. Certified in a green label holder. NGC ID# 289C, PCGS# 7950 [1345 NOIMAGE](#)

10580 1926 MS65 PCGS. Because of their reduced relief, Indian Head quarter eagles were subject to numerous abrasions in the fields, making Gem survivors highly sought-after today. This well-preserved example displays pleasing yellow-gold frost with tinges of orange-gold on both sides. A full strike further enhances minimally abraded surfaces. NGC ID# 289C, PCGS# 7950 [40044 NOIMAGE](#)

10581 1929 MS64+ PCGS. CAC. A high-end near-Gem, this coin reveals deep gold color with hints of orange. Attractive luster is present as well, adding to the eye appeal. A lovely representative from the final year of issue for the series. NGC ID# 289F, PCGS# 7953 [1431 NOIMAGE](#)

THREE DOLLAR GOLD PIECES

10582 1854 XF40 NGC. Fully original with tiny amounts of verdigris clinging to the crevices of the design. The color is green-gold with no major abrasions or blemishes present on this lightly circulated first-year three dollar. NGC ID# 25M3, PCGS# 7969 [1330 NOIMAGE](#)

10583 1854 AU53 NGC. A pleasing example of this first-year issue. Significant yellow-gold luster remains in the protected regions with orange-gold coloration on the lightly worn areas. Sharply struck with most detail remaining. NGC ID# 25M3, PCGS# 7969 [1329 NOIMAGE](#)

10584 1854 AU55 PCGS. A Choice AU representative, this coin exhibits lovely light gold color, with subtle hints of green-gold and peach. Tiny areas of light dirt surround portions of the design and a tiny alloy spot appears near 3 o'clock on the obverse. This is a lovely, lightly circulated coin. NGC ID# 25M3, PCGS# 7969 [1089 NOIMAGE](#)

**1854 Three Dollar, Well-Struck MS62
The First Year of Issue**

10585 1854 MS62 NGC. The first year of the three dollar gold denomination saw a generous mintage exceeding 138,000 pieces, the highest for the series. Many were saved as the first year of issue, making the date available through MS62. Select and near-Gem examples are scarce and finer specimens are rare. Lustrous yellow-gold surfaces exhibit well-struck design details. A few light marks scattered about are not serious. NGC ID# 25M3, PCGS# 7969 [1230 STD](#)

1854 Three Dollar, Sharp MS62

10586 1854 MS62 PCGS. The lustrous surfaces of this three dollar example display honey-gold coloration, and an impressive strike delivers strong definition to the design features, including Liberty's hair and the wreath elements. The light marks scattered about are fewer than what would be expected for an MS62. NGC ID# 25M3, PCGS# 7969 [27015 STD](#)

**1854 Three Dollar Gold, MS62
Popular Type Issue**

10587 1854 MS62 NGC. This first-year issue saw the highest mintage of the series, at 138,618 pieces, making it a great choice for type purpose and the second-most common three dollar gold date. This is a lovely example with shimmering mint luster and attractive light coloration. Surface marks are minimal for the MS62 grade level. NGC ID# 25M3, PCGS# 7969 [59019 STD](#)

**1857 Three Dollar Gold, MS62
Seldom Seen Any Finer**

10588 1857 MS62 PCGS. The 1857 three dollar gold piece claims a mintage of 20,891 pieces and the issue is seldom encountered in high grade today. This attractive MS62 specimen offers well-detailed design elements and vibrant mint luster, mixed with occasional areas of prooflike reflectivity. Population: 32 in 62, 24 finer (2/14). NGC ID# 25MA, PCGS# 7976 [27018 STD](#)

10589 1859 AU53 NGC. A lower-mintage early three dollar gold piece, this sharply struck, fully original example displays only slight wear on the high points, with significant mint luster still framing the devices. NGC ID# 25MD, PCGS# 7979 [1257 NOIMAGE](#)

**1860 Three Dollar Gold, AU58
Low-Mintage Issue**

10590 1860 AU58 PCGS. CAC. A low-mintage issue from the Philadelphia Mint, with just 7,036 coins produced. This near-Mint example is attractive and minimally marked, with somewhat deeper-than-average coloration and noticeable wear on the central high points. Population: 49 in 58, 78 finer (2/14). NGC ID# 25ME, PCGS# 7980 [60053 STD](#)

**1861 Three Dollar, AU53
Scarce in All Grades**

10591 1861 AU53 NGC. Struck from a mintage of fewer than 6,000 pieces, the 1861 three dollar is scarce in all grades, and Mint State examples, clustered mostly in the MS61 and MS62 range, are rare. This AU53 example displays yellow-gold surfaces imbued with hints of red and retains traces of luster in the protected areas. The design elements are well-defined despite some high-point wear. The expected circulation marks are few and insignificant. NGC ID# 25MG, PCGS# 7982 [1211 STD](#)

**1861 Three Dollar
Mint State Sharpness**

10592 1861 — Improperly Cleaned — NGC Details. Unc. A challenging Civil War date limited to 113 proofs and 5,959 business strikes. The present butter-gold example exhibits complete design detail but both sides display diagonal hairlines, and traces of dark debris reside in protected areas. Very Scarce with Uncirculated sharpness. NGC ID# 25MG, PCGS# 7982 [1218 STD](#)

10593 1862 — Improperly Cleaned — NGC Details. AU. This lightly circulated canary-gold Civil War three has a somewhat bright appearance but is free from consequential abrasions. A scant 5,750 pieces were struck. NGC ID# 25MH, PCGS# 7983 [1294 NOIMAGE](#)

10594 1863 — Improperly Cleaned — NGC Details. XF. A caramel-gold example with moderate obverse marks above the bust tip and near the AT in STATES. The reverse field displays hairlines and the reverse rim is filed. A Civil War date with a low mintage of 5,000 pieces. NGC ID# 25MJ, PCGS# 7984 [1290 NOIMAGE](#)

10595 1868 — Improperly Cleaned — NGC Details. AU. A moderately prooflike peach-gold representative. Liberty's curls show subtle wear. Careful rotation displays parallel hairlines across both sides. Just 4,850 pieces were struck. NGC ID# 25MP, PCGS# 7989 [1289 NOIMAGE](#)

**1872 Three Dollar Gold, MS62
Only 2,000 Pieces Struck**

10596 1872 MS62 PCGS. CAC. Only 2,000 three dollar gold pieces were struck in 1872, making the issue scarce-to-rare in all grades today. This attractive MS62 example displays well-detailed design elements and partially prooflike yellow-gold surfaces with a few highlights of green. A scattering of minor contact marks on both sides explains the grade. Population: 18 in 62 (1 in 62+), 12 finer (2/14). NGC ID# 25MV, PCGS# 7994 [44005 STD](#)

10597 1878 AU58 NGC. A pleasing near-Mint type coin. The honey-gold surfaces are minimally abraded and exhibit considerable luster. Minor die doubling is evident on the right border of the upper right portion of the wreath. NGC ID# 25MZ, PCGS# 8000 [1376 NOIMAGE](#)

10598 1879 XF40 NGC. With a small mintage of just 3,000 coins, the 1879 is one of the lesser-seen issues in the three dollar series. This example exhibits mostly green-gold color with some yellow-gold remaining in the protected crevices. Good detail for the grade. NGC ID# 25N2, PCGS# 8001 [1326 NOIMAGE](#)

1879 Three Dollar, MS64+ ★
Semiprooflike Fields

10599 1879 MS64+ ★ NGC. As of (2/14), NGC has certified just five 1879 three dollar pieces with a Star designation. Both sides are semiprooflike, especially the reverse, and this may be the reason for the NGC Star. In addition, the strike is needle-sharp, and the rich peach-gold toning is also compelling. A loupe reveals only hair-thin contact near the jaw and a field graze inside the upper left reverse rim. NGC ID# 25N2, PCGS# 8001 [60120 STD](#)

1882 Three Dollar Gold, MS62
Only 1,500 Pieces Struck

10600 1882 MS62 PCGS. Ex: South Texas. Beautiful sunset-orange in the fields contrasts with pale jade hues on the device high points of this stunning low-mintage three dollar gold. The 1882 had a mintage of 1,500 pieces but appears to have been saved in considerable numbers. An arcing scrape in the left obverse field is the only mentionable mark that appears without magnification. Population: 37 in 62, 77 finer (2/14). NGC ID# 25N5, PCGS# 8004 [1534 STD](#)

1888 Three Dollar Gold, MS63
Popular Type Issue

10601 1888 MS63 PCGS. The 1888 three dollar gold piece claims a mintage of just 5,000 pieces, but the issue has a high survival rate, making it relatively available today in the context of the series. This attractive Select example displays well-detailed design elements and lustrous orange-gold surfaces with a few scattered contact marks. NGC ID# 25NB, PCGS# 8010 [27019 STD](#)

1888 Three Dollar Gold, MS64
Lustrous and Well-Preserved

10602 1888 MS64 PCGS. Apparently a high percentage of the 5,000 pieces minted were saved and held back from circulation, leaving many Uncirculated coins for collectors to choose from. The beautiful butter-yellow toning that adorns each side of this lustrous specimen complements smooth, mark-free surfaces. Sharp strike definition includes typical doubling on UNITED. NGC ID# 25NB, PCGS# 8010 [45017 STD](#)

PROOF THREE DOLLAR GOLD PIECE

1882 Three Dollar Gold, PR64
Tied for Finest Deep Cameo at PCGS

10603 1882 PR64 Deep Cameo PCGS. CAC. Only 76 proof three dollar gold pieces were struck in 1876, with small deliveries widely dispersed throughout the year. The business-strikes of this date show pronounced recutting on the 2, making it easy to differentiate between prooflike regular-issues and true proofs. The surviving population is probably on the order of 40 examples in all grades.

This impressive Choice specimen exhibits well-detailed design elements that show some effects of lapping on the reverse. The devices are richly frosted, creating intense cameo contrast with the deeply mirrored fields. The pleasing lemon-yellow surfaces show the slight orange-peel texture found on the best proofs of this time period. Population: 2 in 64 Deep Cameo, 0 finer (2/14). NGC ID# 28AR, PCGS# 98046 [1440 QP](#)

EARLY HALF EAGLES

1808 Capped Bust Left Five, MS63
Popular BD-4 Variety

10604 1808 MS63 PCGS. BD-4, High R.3. Bass-Dannreuther Die State c/a. A substantial mintage of 55,578 Capped Bust Left half eagles was accomplished in 1808, with four die varieties known for the date. This coin represents the BD-4 variety, with a normal date and a widely spaced 5D in the denomination. The BD-4 probably accounted for about 15,000-30,000 pieces of the reported mintage, as it is the most available variety in today's market. The surviving population numbers 175-225 examples in all grades. The obverse die was used previously to coin the 1808 BD-3 variety and the reverse was used again to strike the BD-1 variety of 1809.

The present coin features strongly impressed design elements, but the obverse die was lapped after its previous use, making the details a little thin in places. The vivid orange-gold surfaces are lustrous and lightly marked, with no sign of planchet adjustment marks. Eye appeal is quite strong for this early U.S. gold issue. Housed in a green label holder. Population: 18 in 63, 17 finer (2/14). NGC ID# 25PA, PCGS# 8102 [1508 QP](#)

**1809/8 BD-1 Half Eagle, MS62
Unsubstantiated Overdate Die**

10605 1809/8 MS62 NGC. BD-1, High R.3. Bass-Dannreuther Die State b/b. The sole die variety for the date. The 9 in the date is large and is accompanied by small lumps of raised metal traditionally associated with an underdigit 8, although that consensus is by no means definitive. The reverse die is the Wide 5D carried over from 1808 BD-4. This unmarked and original Capped Bust half eagle is sharply struck and retains substantial mint luster. The surfaces are completely problem-free. Given the rapid rise in value with each succeeding grade, the best value for the type may be found in MS62.

Ex: Long Beach Signature (Heritage, 9/2008), lot 3600; Pittsburgh Signature (Heritage, 10/2011), lot 4867. NGC ID# 25PC, PCGS# 8104 1191 QP

CLASSIC HALF EAGLES

10606 1834 Plain 4 AU58 NGC. Breen-6502, McCloskey 2-A, R.1. The 4 in the date is triple-punched. A smooth olive-green Borderline Uncirculated Classic five with lilac-tinged luster in protected areas. A small but interesting strike-through is noted on the reverse rim at 6 o'clock. NGC ID# 25RR, PCGS# 8171 1360 NOIMAGE

**1835 Classic Half Eagle, MS64
Tied for Finest Certified**

10607 1835 MS64 NGC. McCloskey 1-B, R.3. Extremely well-made and eye appealing, this impressive 1835 Classic half eagle had a substantial mintage of 371,534 pieces, and is usually obtainable in XF and AU grades, even in lower Mint State grades, but certainly not at the Choice Mint State level. The 1835 is rare in MS64, and currently unknown finer. Currently seven varieties are known, determined by the style of the 8 in the date and position of the stars.

This attractive near-Gem is tied for the finest graded with an uncharacteristically razor-sharp strike and well-preserved surfaces. The coin presents bright, frosted mint luster with significant semiprooflike sheen intermixed in the fields on each side. The centers are noticeably lighter in hue than the deeper, reddish-gold margins. High-end for the grade. Census: 12 in 64, 0 finer (2/14). NGC ID# 25RV, PCGS# 8173 1364 QP

10608 1838 AU50 NGC. Breen-6515, McCloskey 2-B, R.1. An olive-gold type representative with a good strike and lightly marked surfaces. Glimmers of luster emerge from design recesses. Mildly granular near star 1. NGC ID# 25S4, PCGS# 8176 1371 NOIMAGE

10609 1838 AU55 PCGS. Breen-6514, McCloskey 1-A, R.2. A boldly struck caramel-gold Choice AU example. Luster brightens the borders and eagle. A later die state with clash marks (as made) near the beak. Careful rotation reveals faint hairlines beneath the right (facing) wing. NGC ID# 25S4, PCGS# 8176 1383 NOIMAGE

LIBERTY HALF EAGLES

1839 Five, Uncirculated Details Single-Year Subtype

- 10610 1839 — Improperly Cleaned — NGC Details. Unc.** Although designated as cleaned by NGC, the surfaces instead are moderately subdued and mattelike, an appearance associated with gold coins recovered from shallow water shipwrecks. This caramel-gold example has a good strike and lacks high point wear. The fields show only trivial contact, though the cheek displays a few faint abrasions. A single-year subtype with a different portrait of Liberty than found on later dates. NGC ID# 25S7, PCGS# 8191 [1219 STD](#)

1840-D Half Eagle, XF45 Conditionally Scarce

- 10611 1840-D Tall D XF45 PCGS. Variety 3-B.** Two distinct mintmark sizes are known for the 1840-D half eagles, the other variety having a shorter mintmark. The 1840-D is most often found in the Very Fine to Extremely Fine grade range, and is very scarce. About Uncirculated examples are rare and just a handful of Mint State pieces are known. Whispers of reddish-lavender visit both sides of this Choice XF piece and the devices are appropriately defined. Scattered marks are visible over both sides, the most prominent being a linear abrasion in the left reverse field. This mark will also help to identify this coin. Population: 15 in 45, 32 finer (2/14). NGC ID# 25SG, PCGS# 8198 [1207 STD](#)

- 10612 1840-O AU53 PCGS. Variety 3.** The Small O variety, about equally rare as its Large O counterpart. An early and lower mintage New Orleans issue. The present lightly to moderately abraded example has original honey-gold toning and shows softness of strike at the centers. NGC ID# 25SK, PCGS# 8200 [1090 NOIMAGE](#)

- 10613 1841-D Small D — Improperly Cleaned — NGC Details. AU. Variety 5-D.** This green-gold Dahlonega half eagle is well defined and shows glimpses of luster within the legends. The fields are cloudy from a wipe and display scattered minute ticks. NGC ID# 25SR, PCGS# 8204 [1295 NOIMAGE](#)

1844-C Five Dollar, AU53

- 10614 1844-C AU53 NGC. Variety 1.** Bright luster fills the legends and plumage of this typically abraded sun-gold representative. The strike is bold on the eagle and stars, though the curls show moderate blending. An intermittent die crack extends from the left wingtip through the eagle to the first A in AMERICA. A better Charlotte issue with a production of only 23,631 pieces. NGC ID# 25T8, PCGS# 8220 [1197 STD](#)

- 10615 1844-D XF40 NGC. Variety 11-G (formerly 11-H).** An original green-gold representative with traces of dirt in design recesses. A loupe reveals the occasional hair-thin mark, but the overall look is attractive. The strike is above average though the curls near the hairbun are incomplete. NGC ID# 25T9, PCGS# 8221 [60152 NOIMAGE](#)

1844-D Half Eagle, AU55 Rare 12-G Die Variety

- 10616 1844-D AU55 NGC. Variety 12-G.** The top of the flag show no repunching, is flatter than on the Variety 11-G, and is closer to the front of the bust truncation. This variety is seen far less often than the 11-G die pairing. This Choice AU piece shows a peppering of small and medium ticks on each side. The mintage of the 1844-D fives was a large 88,900 pieces, and it is relatively available well into Mint State territory. Census: 41 in 55 (1 in 55+★), 54 finer (2/14). NGC ID# 25T9, PCGS# 8221 [1448 STD](#)

1846 Large Date Five, MS62 Condition Rarity

- 10617 1846 Large Date MS62 NGC. CAC.** Lustrous sun-gold surfaces are present on this lovely example. The strike is sharp overall, with minor incompleteness noted at the eagle's claws. A couple of tiny spots appear at the upper portion of Liberty and near 10 o'clock on the reverse. The 1846 Liberty half eagle is a scarce issue, with two varieties known for the date. This piece represents the more available Large Date variety. Census: 11 in 62 (1 in 62+), 17 finer (2/14). NGC ID# 28BG, PCGS# 8226 [42015 STD](#)

10618 1846-C VF30 NGC. Variety 1. A luminous yellow-gold Charlotte half eagle from a mintage of only 12,995 pieces. Well defined for the VF30 grade, especially if the typical strike is taken into account. A few wispy field marks are noted near the beak. NGC ID# 25TG, PCGS# 8227 [1270 NOIMAGE](#)

**1846-O Half Eagle, AU55
Scarce New Orleans Issue**

10619 1846-O AU55 PCGS. CAC. Variety 1. A richly detailed Choice AU New Orleans half eagle. No marks are noticeable and the strike is above average, though the hairbun is incompletely brought up. The sea-green surfaces are moderately subdued and display hints of rose-gold near the rims. Just 58,000 pieces were produced. Population: 9 in 55, 18 finer (2/14). NGC ID# 25TK, PCGS# 8230 [43012 STD](#)

**1847-D Half Eagle, AU50
Nice Dahlonega Type Coin**

10620 1847-D AU50 PCGS. Variety 18-K (formerly 16-L). The mintmark is well centered over the E in FIVE. A different variety exists with the mintmark positioned slightly further west. A caramel-gold Dahlonega type coin with lightly abraded and mildly glossy surfaces. The strike is above average for the underfunded antebellum Southern facility, though the curls display moderate blending. NGC ID# 25TP, PCGS# 8234 [1128 STD](#)

1852-D Five Dollar, AU53

10621 1852-D AU53 NGC. Variety 32-V (formerly 27-S). This butter-gold Dahlonega type coin has original surfaces and minimal marks, though we note a slight obverse rim ding at 2 o'clock. The strike is typical but substantial luster ensures the eye appeal. Variety 32-V is the usual die marriage, and is identified by the placement of the 2 in the date, distant relative to the bust. NGC ID# 25UC, PCGS# 8252 [38001 STD](#)

10622 1853 MS61 PCGS. Lustrous surfaces, in hues of orange and green-gold provide this MS61 representative with lovely eye appeal. A few tiny hints of lavender are also present. Aside from a few marks below STATES, none of the abrasions present are worthy of mention. Population: 21 in 61, 45 finer (2/14). NGC ID# 25UD, PCGS# 8253 [1099 NOIMAGE](#)

**1855-O Five Dollar, AU58
Surprisingly Scarce New Orleans Issue**

10623 1855-O AU58 NGC. Variety 1. The only known variety. This is a surprisingly rare issue that seldom appears for sale at auction. Over the past several years, we have offered about one of these per year, and never any finer than this example. The surfaces have bright green-gold color with reflective, nearly prooflike fields and few marks of any kind. Census: 7 in 58, 3 finer (2/14). Ex: *Long Beach Signature* (Heritage, 9/2006), lot 3527. NGC ID# 25UT, PCGS# 8264 [1194 STD](#)

10624 1855-S XF45 NGC. As the 1854-S is prohibitively rare, the 1855-S half eagle is usually the earliest five dollar from San Francisco available to collectors. Warm orange-gold color blankets both sides of this example with touches of mint luster remaining in the protected areas. Incredibly sharp detail makes this coin seem almost undergraded. Census: 17 in 45 (1 in 45+), 65 finer (2/14). NGC ID# 25UU, PCGS# 8265 [1250 NOIMAGE](#)

10625 1856-S XF45 NGC. Medium S. No Motto San Francisco half eagles are scarce. The present apricot-gold example retains noticeable luster and lacks any obtrusive marks. Ex: *Orlando Signature* (Heritage, 1/2006), lot 5208. NGC ID# 25UZ, PCGS# 8270 [1395 NOIMAGE](#)

**1860-D Medium D Half Eagle
Uncirculated Sharpness**

10626 1860-D Medium D — Scratches — NGC Details. Unc. Variety 46-GG (formerly 38-FF). Faded hair-thin marks are noted near Liberty's nose and the left (facing) wing. A few drops of lacquer are noted near the D in UNITED. Nonetheless, this low mintage almond-gold Dahlonega half eagle is devoid of wear and offers substantial luster. The strike is above average, though the lovelock and eagle's neck are incompletely impressed. NGC ID# 25VH, PCGS# 8286 [22010 STD](#)

**1860-D Half Eagle, MS62
Medium D Mintmark**

10627 1860-D Medium D MS62 PCGS. Variety 48-GG (formerly 38-FF). A lemon-gold example of this late Dahlonega issue that surely qualifies as Condition Census, since the third party population data is inflated by resubmissions over the past quarter-century. Nicely struck, with blending of detail limited to the eagle's neck and Liberty's lovelock. The satiny apricot-gold surfaces are essentially unabraded aside from small marks near star 4. Despite a scant mintage of 14,635 pieces, three die varieties are known, distinguished by the mintmark size and location. Population: 13 in 62, 2 finer (2/14). NGC ID# 25VH, PCGS# 8286 [62005 OP](#)

10628 1867 — Repaired — NGC Details. AU. A tiny mintage of 6,870 pieces confirms the rarity of this Reconstruction issue. Gold coin was driven from circulation by Gresham's Law and unbacked Federal paper money. This briefly circulated example is relatively unabraded. No repair is readily evident though the surfaces are glossy and display unusual lemon and olive toning. NGC ID# 25W3, PCGS# 8313 [27013 NOIMAGE](#)

**1873 Open 3 Five Dollar, MS63
Superior Mint Luster**

10629 1873 Open 3 MS63 PCGS. The Open 3 variant was struck between November 19 and 29, 1873. These pieces are slightly scarcer overall than their Closed 3 counterpart, and they are notably lacking in the better grades of Mint State. Only 11 pieces have been so graded by PCGS with 10 finer (2/14). The obverse is fully struck, while the reverse shows slight softness on the eagle's neck. The bright, lustrous, yellow-gold surfaces are lightly marked on the obverse. Ex: *Long Beach Signature* (Heritage, 5-6/2007), lot 2360. NGC ID# 25WK, PCGS# 8328 [1130 STD](#)

10630 1877-S AU53 NGC. The San Francisco production of 1877 half eagles consisted of only 26,700 coins and most surviving examples fall into the VF to XF range. This AU53 example exhibits attractive yellow-gold color. A number of hair thin marks appear on both sides. Census: 17 in 53, 30 finer (2/14). NGC ID# 25X3, PCGS# 8344 [1320 NOIMAGE](#)

1878-CC Liberty Half Eagle, AU58
Low-Mintage Branch Mint Rarity
Condition Census Example

10631 1878-CC AU58 PCGS. Variety 1-A. Although the U.S. government planned to increase the supply of half eagles and eagles in 1878, to facilitate the resumption of specie payments which had been suspended since 1861, the Carson City facility played only a small role in these plans. The mints at Philadelphia and San Francisco were both tasked with producing substantial mintages of these gold denominations in 1878, but the Carson City Mint concentrated on striking the new Morgan dollars, and only coined enough gold to satisfy the needs of the local economy and, of course, the demands of depositors. In the end, only 9,054 Liberty half eagles were struck, using a single pair of dies.

Unfortunately, the 1878-CC half eagle was not a well-produced issue, and most examples seen are softly struck, with insipid mint luster. Few examples were saved by contemporary collectors because interest in branch-mint issues was virtually nil before A.G. Heaton popularized this collecting discipline in the 1890s. As a result, most specimens circulated heavily at the time of issue, and show excessive bagmarks and surface flaws, along with considerable wear. The 1878-CC was unknown in Mint State grades before 2001, when NGC certified a single specimen in MS63. Carson City specialist Rusty Goe estimates the surviving population at 90-120 pieces in all grades, with two examples in Uncirculated condition.

Before 2002 the present coin was owned by Henry S. Lang, a collector who assembled a memorable cabinet of Carson City coins over a number of years. When Doug Winter compiled his Condition Census for the issue in 2001, this coin (conservatively graded AU55 at the time) was tied for second-finest known, because the MS63 NGC coin had not yet surfaced. Today a few more coins have been certified at the near-Mint level, but we suspect the population data has been skewed by resubmissions and crossovers. This coin should share second, or possibly third, place in the list of finest-known examples today.

The coin offered here is an attractive borderline Uncirculated example with a remarkably sharp strike for the issue. The well-preserved orange-yellow surfaces show a few accents of lilac and are remarkably free of serious distractions. Vibrant satiny mint luster adds to the outstanding visual appeal. We expect spirited competition from series specialists and Registry Set collectors when this lot is called. Population: 6 in 58, 0 finer (2/14).

Ex: Charlie Tuppen Collection; J.J. Teaparty; Henry S. Lang; *Rarities Sale* (Bowers and Merena, 7/2002), lot 615; *Richard Jewell Collection* (*American Numismatic Rarities*, 3/2005), lot 710. NGC ID# 25X5, PCGS# 8346 ¹¹⁸⁶FP

10632 1884 MS63 PCGS. A lovely degree of luster adds to the eye appeal of this Select example displaying yellow and peach-gold shades when examined closely. A light mark on Liberty's chin poses minimal distraction, if any. Population: 21 in 63, 3 finer (2/14). NGC ID# 25XN, PCGS# 8364 [1070 NOIMAGE](#)

10633 1886-S MS64 PCGS. CAC. Sea-green and apricot-gold alternate across this lustrous and precisely struck Choice type coin. Delicate marks on the field and portrait correspond to the grade. Very scarce any finer. NGC ID# 25XV, PCGS# 8370 [45016 NOIMAGE](#)

1892 Liberty Five, MS65 Condition Rarity

10634 1892 MS65 NGC. Shimmering yellow-gold surfaces, particularly on the reverse, provide this Gem with a lovely appearance. The coin displays a pleasing strike, adding to the appeal. Minor scattered marks held this piece from a higher grade. Census: 30 in 65 (2 in 65+), 28 finer (2/14). NGC ID# 25Y6, PCGS# 8379 [1380 STD](#)

1894-O Half Eagle, MS62 Low-Mintage New Orleans Issue

10635 1894-O MS62 NGC. Variety 2. The 1894-O has a scant mintage of 16,600 pieces, yet two easily distinguished varieties are known. Variety 1 places the mintmark over the V in FIVE, while on Variety 2 the mintmark is centered over the VE. Variety 2 is scarcer. This satiny representative is nicely struck and without any mentionable marks. Sea-green borders frame sun-gold centers. Census: 12 in 62, 2 finer (2/14).

Ex: West Palm Beach Signature (Heritage, 7/2009), lot 8843, which realized \$1,955. NGC ID# 25YF, PCGS# 8388 [29009 STD](#)

10636 1901-S MS64 PCGS. The 1901-S usually comes with strong eye appeal, making the date ideal for type purposes. Mostly green-gold luster blankets this near-Gem example, with pale rose-gold hues that show under a good light. Sharply struck and minimally abraded for the grade. NGC ID# 25YX, PCGS# 8404 [1346 NOIMAGE](#)

1903-S Half Eagle, MS66 None Numerically Finer at PCGS

10637 1903-S MS66 PCGS. Rich luster and intermingled shades of yellow and green-gold add to the attractiveness of this Premium Gem representative. The design elements are sharply detailed in most areas, but some of the stars reveal incompleteness. The scattered marks and grazes present are minuscule. Population: 18 in 66 (2 in 66+), 0 finer (2/14). NGC ID# 25Z3, PCGS# 8408 [1169 STD](#)

1904 Half Eagle, Lustrous MS65

10638 1904 MS65 PCGS. CAC. The highly lustrous surfaces of this Gem yield apricot-gold and yellow-gold patination. The design elements are sharply impressed and neither side reveals mentionable abrasions. These attributes add up pleasing eye appeal, aptly recognized by CAC. Population: 64 in 65 (1 in 65+), 22 finer (2/14). *Ex: Long Beach Signature (Heritage, 9/2005), lot 1333.* NGC ID# 25Z4, PCGS# 8409 [1370 STD](#)

1904 Half Eagle, Radiant MS65+ Impeccably Preserved

10639 1904 MS65+ PCGS. CAC. The 1904 half eagle can be located with relative ease through MS63. Near-Gems are a bit more difficult and Gems are scarce. Higher-grade examples are rare. Radiant luster emanates from the apricot-gold surfaces of this high-end Gem and the strike is sharp throughout. Just a few minuscule marks are seen on the otherwise impeccably preserved surfaces. There is no questioning the Plus designation by PCGS or the CAC approval. Population: 64 in 65 (1 in 65+), 22 finer (2/14). NGC ID# 25Z4, PCGS# 8409 [1133 STD](#)

10640 1905-S MS64 PCGS. Rich honey-gold color and strong luster provide this near-Gem with tremendous visual appeal. A few scattered marks are present, but they do not affect the desirability of this gorgeous piece. Population: 25 in 64, 5 finer (2/14). NGC ID# 25Z7, PCGS# 8412 [1080 NOIMAGE](#)

**1906-D Half Eagle, MS65
Conditionally Scarce**

10641 1906-D MS65 PCGS. This appealing example would serve admirably as a first-year D-mint representative, or as a Gem example of the type. Sumptuous luster illuminates the clean, lightly toned surfaces that are minimally marked and display sharply detailed motifs. Surprisingly scarce at this grade level, and surprisingly affordable as well. Premium Gems are rare and considerably more expensive. Population: 51 in 65 (2 in 65+), 7 finer (2/14). NGC ID# 25ZA, PCGS# 8414 [1531 STD](#)

**1907 Liberty Half Eagle, MS66
Ideal Type Coin**

10642 1907 MS66 NGC. This delightful Premium Gem possesses extraordinary eye appeal to complement its high technical grade. The design elements are sharply detailed throughout and the well-preserved yellow-gold surfaces show a few highlights of rose. No mentionable distractions are evident. Census: 38 in 66 (2 in 66+, 2 in 66 ★), 11 finer (2/14). NGC ID# 25ZC, PCGS# 8416 [1452 STD](#)

**1908 Half Eagle, Lustrous MS66
Final Year of the Liberty Head Design**

10643 1908 MS66 NGC. This was the last year of issue for the Liberty Head half eagle, and is one of the most common of the type. NGC has graded more than 6,000 pieces, mostly in MS61 through MS64. Gems and Premium Gems are quite scarce and finer coins are rare. Boldly struck design features stand out on this radiantly lustrous, apricot-gold MS66 offering that has been lovingly preserved. Excellent overall eye appeal. Census: 50 in 66 (1 in 66 ★), 6 finer (2/14). NGC ID# 25ZE, PCGS# 8418 [1229 STD](#)

INDIAN HALF EAGLES

10644 1908-D MS63+ PCGS. As supported by the plus designation, this Select example exhibits strong visual appeal. Intermingled hues of yellow and gold colors are present. Though scattered marks and grazes exist, the only marks appearing on the portrait are minuscule, adding to the attractiveness of this piece. NGC ID# 28DF, PCGS# 8511 [1085 NOIMAGE](#)

**1909-O Five Dollar, AU Details
Repunched Mintmark**

10645 1909-O — Improperly Cleaned — NGC Details. AU. The mintmark is clearly repunched within the loop, as seen on a minority of the issue. This key date Indian half eagle is somewhat glossy and bright from a wipe but is free from any detrimental marks. The strike is precise, and high point wear is marginal. Essential for a New Orleans gold type set. NGC ID# 25ZK, PCGS# 8515 [1187 STD](#)

**1909-O Indian Five Dollar, AU58
Complete, Well-Formed Mintmark**

10646 1909-O AU58 PCGS. CAC. It is one of the ironies of coin collecting that the 1909-O half eagle, one of the keys to the Indian Head series, was struck in the same year that collecting U.S. coins by mintmark got a serious boost in the form of the 1909-S VDB cent. Although Augustus Heaton had published his seminal work on mint marks in 1893, it would take the speculative fever and hefty profits that some collectors made on 1909-S VDB cents for the new style of collecting to really gain a firm foothold in the numismatic community. Two other difficulties stood in the way of collectors putting back examples of the 1909-O half eagle. Its face value was too high for most collectors to afford to stash away coins at the time, even if they were aware of the low mintage of 34,200 pieces. And the mintmark was weakly struck on most specimens, even though a minority showed a bold mintmark. This piece shows a complete, well-formed O to the left of the fasces on the lower reverse. Significant luster remains, as one would expect from the grade. The surfaces are a bit choppy, and the overall strike details are well brought up for this often troublesome issue. NGC ID# 25ZK, PCGS# 8515 [1163 QP](#)

**1909-S Indian Half Eagle, MS64+
Very Rare in Finer Grades**

10647 1909-S MS64+ PCGS. CAC. The 1909-S Indian half eagle claims a smallish mintage of 297,200 pieces. In terms of total number of Mint State examples known, the 1909-S is the third-rarest issue of the series. Most Mint State survivors grade no better than MS63 and the 1909-S is a prime condition rarity in grades above MS64.

This high-end Choice specimen exhibits sharply detailed design elements, with fine detail present on the lower headdress feathers and a bold mintmark. The vivid orange and reddish-gold surfaces radiate vibrant mint luster and show only minor signs of contact. Eye appeal is outstanding. Population: 16 in 64 (1 in 64+), 4 finer (2/14). NGC ID# 25ZL, PCGS# 8516 [1538 QP](#)

**1912 Indian Half Eagle, MS64+
Scarce Issue in Higher Grades**

10648 1912 MS64+ PCGS. CAC. As the Plus designation indicates, this high-end near-Gem exhibits strong eye appeal. The attractiveness is due in part to lustrous orange-red surfaces. A sharp strike is an additional attribute. A hair thin mark appears above the headdress, but does not pose a distraction. Population: 24 in 64+, 50 finer (2/14). NGC ID# 28DS, PCGS# 8523 [1178 STD](#)

**1912-S Half Eagle, Appealing MS61
Elusive Series Issue**

10649 1912-S MS61 PCGS. The 1912-S half eagle is one of the scarcer series issues overall in the Pratt-designed Indian Head series. This piece offers eye appeal to spare on golden-orange surfaces that show a couple of small ticks on the Indian's cheek and a few unimportant field marks on the reverse that together define the grade. NGC ID# 252N, PCGS# 8524 [57020 STD](#)

1913 Half Eagle, Well-Struck MS64

10650 1913 MS64 PCGS. The 1913 half eagle is a great representative of the series for type-set purposes due to its availability in Mint State and the care taken in its production. Pleasing luster exudes from both sides of this near-Gem, each of which exhibits well-struck design features, including the headdress feathers and the eagle's shoulder feathers. Yellow-gold surfaces are imbued with whispers of violet and lavender. The obverse is quite smooth, but several contact marks are visible on the reverse. NGC ID# 28DT, PCGS# 8525 [1546 STD](#)

**1913-S Half Eagle, MS61
Somewhat Better Struck Than Usual**

10651 1913-S MS61 NGC. Deep violet spots run over the apricot-gold surfaces on both sides of this half eagle. The design elements are somewhat better defined than ordinarily seen, especially on the eagle's shoulder. The mintmark is barely visible, however, as is the usual case for this issue. Several marks are scattered about. NGC ID# 25ZP, PCGS# 8526 [1217 STD](#)

1914 Half Eagle, Sharply Struck MS64

10652 1914 MS64 NGC. The 1914 Indian Head five dollar, sporting a mintage of 247,000 circulation strikes, is available in all grades through near-Gem. Gems are rare and the date is virtually unobtainable any finer. Indeed, the finest seen by NGC and PCGS is a single MS66 each (2/14). Pleasing luster drapes the apricot-gold surfaces of this MS64 example and an impressive strike imparts strong detail to the devices, including the eagle's shoulder feathers, an area often weak. Some milling marks are visible in the upper-right reverse field. NGC ID# 28DU, PCGS# 8527 [1234 STD](#)

10653 1914-D MS62 NGC. The 1914-D stands out as being the last half eagle produced at Denver. This example exhibits a sharp strike with a few small areas of verdigris which attest to the coin's originality. Scattered abrasions define the grade. NGC ID# 28DV, PCGS# 8528 [52011 NOIMAGE](#)

**1914-D Five Dollar, MS63
Final Denver Issue**

10654 1914-D MS63 PCGS. A beautifully toned pumpkin-gold half eagle. A loupe fails to locate more than negligible contact. The strike is bold aside from the lowest headdress feather. Prevalent luster bathes both sides. The final Denver issue of the widely collected series. Certified in a green label holder. NGC ID# 28DV, PCGS# 8528 [1509 STD](#)

LIBERTY EAGLES

1839 Ten Dollar, AU Details Head of 1838, Two-Year Subtype

- 10655 1839 Type of 1838, Large Letters — Improperly Cleaned — NGC Details. AU.** The second and final issue of the first Liberty eagle subtype. Liberty leans forward and has a pronounced bust truncation. Most of her ear is covered. No gold type collection can be considered complete without an example of this very scarce design. This apricot-gold and lime-green representative shows only light wear but the surfaces are hairlined and somewhat glossy. Small bagmarks are scattered. NGC ID# 262E, PCGS# 8576 [1213 STD](#)

1842-O Eagle, Choice AU High Mintmark Variant

- 10656 1842-O AU55 PCGS. Variety 1.** Although less rare than the 1841-O, the 1842-O is nonetheless very scarce. A scant 27,400 pieces were struck. Survivors are about evenly divided between two die marriages, the high mintmark Variety 1 and the low mintmark Variety 2. A sharply struck New Orleans ten with ample luster, rich olive-gold toning, and no singularly mentionable abrasions. NGC ID# 262N, PCGS# 8587 [1478 STD](#)
- 10657 1847 AU58 NGC.** Rounded Bun subtype. Shield Ring reverse. Luster dominates the margins and motifs of this luminous sun-gold No Motto type coin. The strike is good, and none of the distributed field abrasions require singular description. NGC ID# 262Z, PCGS# 8597 [1277 NOIMAGE](#)
- 10658 1847-O AU55 NGC. CAC. Variety 2.** The 18 in the date is lightly repunched. Original honey-gold surfaces have coaxed a scarce green bean from CAC. The fields display scattered unobtrusive marks. The strike shows moderate softness near Liberty's ear and on the lower half of the eagle, usual for this New Orleans type issue. NGC ID# 2632, PCGS# 8598 [1457 NOIMAGE](#)
- 10659 1848-O XF45 NGC. Variety 1.** The centered date die pair with a shield ring at the top of the second vertical stripe. A lightly abraded caramel-gold Choice XF representative with a typical strike and plentiful glimpses of luster. NGC ID# 2634, PCGS# 8600 [1278 NOIMAGE](#)
- 10660 1850 Large Date AU50 PCGS.** Pale yellow-gold luster blankets both sides of this Almost Uncirculated gold piece, with small remnants of semiprooflike fields remaining around the raised design elements, most notably on the obverse. Some typical weakness is noted in the stars. NGC ID# 2637, PCGS# 8603 [60054 NOIMAGE](#)

1851-O Eagle, AU58 'Shield Ring' Reverse

- 10661 1851-O AU58 NGC. CAC. Variety 1.** Liberty's upper neck curls show lapping, Shield Ring reverse. The moderate mintage of the 1851-O eagles appears to have circulated extensively in the area around antebellum New Orleans, a time when the city was the "Queen of the South" and one of the largest and most important commercial ports in America. This lightly circulated example shows a bold strike with light field chatter contrasting with some semiprooflike texture in the protected areas. NGC ID# 263B, PCGS# 8607 [1436 STD](#)

1854-S Ten Dollar, AU58 First-Year Issue

- 10662 1854-S AU58 NGC.** Bright yellow-gold color is present on this near-Mint representative. Portions of the protected areas reveal shades of peach. A die crack appears near 3 o'clock on the reverse. Scattered abrasions are seen, including a few hair thin marks and rim nicks. Census: 53 in 58, 4 finer (2/14). NGC ID# 263K, PCGS# 8615 [1190 STD](#)
- 10663 1855 AU58 PCGS.** The 1855 Liberty eagle is a very scarce issue in high grade. This attractive near-Mint example displays pleasing yellow-gold surfaces that retain most of their original mint luster and show a scattering of minor abrasions. Population: 26 in 58, 20 finer (2/14). NGC ID# 263L, PCGS# 8616 [40049 NOIMAGE](#)
- 10664 1855 AU58 NGC. CAC.** The pleasing orange-gold surfaces of this attractive near-Mint specimen show a number of well-scattered minor abrasions and retain significant amounts of original mint luster. NGC ID# 263L, PCGS# 8616 [1437 NOIMAGE](#)
- 10665 1860-O — Improperly Cleaned — NGC Details. XF. Variety 2.** The low date variant of the final No Motto New Orleans issue. No marks merit mention but the olive-gold surfaces are mildly glossy and exhibit patches of hairlines. A scant 11,100 pieces were struck. NGC ID# 2645, PCGS# 98631 [1291 NOIMAGE](#)

**1862 Liberty Eagle, AU58
Challenging Civil War Issue**

10666 1862 AU58 PCGS. CAC. Areas of mint luster remain on this near-Mint example displaying yellow-gold color overall with hints of red. The strike is sharp, with only light wear present on the high points. A few small alloy spots are present and among the signs of contact appearing is a hair thin mark on the lower reverse above TEN.

The 1862 production begins a long run of low mintage Philadelphia issues, with only 10,960 coins struck during this second year of the Civil War. Multiple reasons, including the suspension of specie payments in 1862 and a lack of backing of paper money, drove gold coins from circulation for a number of years. Many merchants issued tokens during the Civil War as a means of exchange. Population: 5 in 58, 0 finer (2/14). NGC ID# 2649, PCGS# 8635 [1170 QP](#)

**1868-S Ten Dollar, Attractive AU55
Late-State Reverse Die**

10667 1868-S AU55 NGC. The preferences for easier-exported double eagles led to small mintages for many of the S-mint eagle issues of the 1860s, witness the 1868-S with a production of only 13,500 pieces. This orange-gold Choice AU piece is thoroughly attractive and also a reminder that the San Francisco Mint was at the mercy of the Philadelphia Mint die shop, thousands of miles away. The reverse die here is in a late state, showing crumbling around the left scroll end and what looks like a partial I below IN. An interesting coin, well-struck elsewhere with scattered light abrasions. Census: 13 in 55, 8 finer (2/14). NGC ID# 264P, PCGS# 8654 [1224 STD](#)

**1874-S Liberty Ten, AU55
Only Three Finer Coins at NGC**

10668 1874-S AU55 NGC. Only 10,000 Liberty eagles were struck at the San Francisco Mint in 1874, making the date elusive in all grades today. This Choice AU specimen shows a trace of wear on the high points of the design elements but the orange and rose-gold surfaces are lightly abraded and retain significant amounts of original mint luster. Census: 11 in 55, 3 finer (2/14). NGC ID# 2659, PCGS# 8671 [1449 STD](#)

**1879 Liberty Eagle, MS64
Only Three Numerically Finer at PCGS**

10669 1879 MS64 PCGS. Lustrous peach-gold surfaces with hints of green-gold provide this near-Gem with a lovely appearance. In addition, the coin exhibits a sharp strike. A couple of tiny alloy spots are present on the reverse. Although scattered signs of contact appear, including a few tiny hair thin marks, they are minor. Population: 9 in 64 (1 in 64+), 3 finer (2/14). NGC ID# 265M, PCGS# 8683 [1154 STD](#)

10670 1880 MS63 NGC. Intermingled shades of gold, peach, and orange along with pleasing luster add to the attractiveness of this Select example displaying a sharp strike. Scattered marks, primarily on the obverse, contributed to the grade of this example. Census: 37 in 63, 15 finer (2/14). NGC ID# 265S, PCGS# 8687 [45019 NOIMAGE](#)

- 10671 1885-S MS63 PCGS.** Despite a mintage of 228,000 coins, the 1885-S ten dollar is scarce in MS63 and extremely rare numerically finer, with no Gem examples currently known. This sharply struck piece is fully lustrous with a pale green-gold periphery surrounding yellow-gold centers. Population: 91 in 63 (5 in 63+), 3 finer (2/14). NGC ID# 266E, PCGS# 8707 [40045 NOIMAGE](#)

**1891-CC Liberty Ten Dollar, MS63
Repunched Mintmark, Variety 4-C, FS-501**

- 10672 1891-CC Repunched Mintmark, Variety 4-C, FS-501 MS63 NGC.** In addition to the repunched mintmark, a spike appears below Liberty's jaw as one of the diagnostics for Variety 4-C. A highly lustrous Select example, this coin displays rich butter-gold color. The strike is precise, adding to the appeal. A die break appears at the left portion of the obverse. As expected at this grade level, scattered marks are present. PCGS# 145728 [1200 STD](#)

- 10673 1896-S MS60 NGC.** Lustrous butter-gold surfaces add to the appeal of this Mint State representative from a relatively low mintage issue. The coin exhibits a sharp strike, further adding to the appeal. Census: 18 in 60, 50 finer (2/14). NGC ID# 267C, PCGS# 8736 [1272 NOIMAGE](#)

**1901-S Liberty Ten, MS66
Very Rare in Higher Grades**

- 10674 1901-S MS66 PCGS.** A highly appealing Premium Gem with beautiful iridescent toning over brilliant honey-gold color with hints of olive along the obverse and reverse borders. This is one of the common dates in the Liberty gold eagle series, and the issue is not too difficult to locate at this grade level, yet as of (2/14), only two numerically finer coins have been examined by PCGS. Ex: Dallas Signature (Heritage, 7/2006), lot 1496; Dallas Signature (Heritage, 10/2006), lot 3016. NGC ID# 267S, PCGS# 8749 [1545 STD](#)

- 10675 1905-S MS62 NGC.** Attractive luster provides this piece with lovely eye appeal in addition to the yellow and orange-gold hues. Scattered marks limited the grade of this piece. Surviving 1905-S eagles are much scarcer than their mintage might suggest. Census: 25 in 62, 4 finer (2/14). NGC ID# 2683, PCGS# 8758 [1281 NOIMAGE](#)

- 10676 1907-D MS63 PCGS.** The 1907-D Indian eagle is a popular issue with final-date mintmark type collectors. This attractive Select specimen displays vibrant mint luster and well-detailed design elements, with lightly marked orange-gold surfaces. NGC ID# 2689, PCGS# 8764 [60145 NOIMAGE](#)

**1907-S Eagle, MS65
Only One Finer at NGC**

- 10677 1907-S MS65 NGC.** From a mintage of only 210,500, surviving examples of the 1907-S are surprisingly scarce in Mint State and become considerably more rare at the Select level and higher. The introduction of the new Indian Head design overlapped the final year of issue for the Liberty Head series.

An amazing Gem survivor, this piece displays lovely pumpkin-gold color, with hints of green and red. Exceptional cartwheel luster further adds to the attractiveness. A few scattered marks are present, including an as-made strike-through near star 7. Census: 1 in 65, 1 finer (2/14). NGC ID# 268A, PCGS# 8765 [1193 QP](#)

INDIAN EAGLES

- 10678 1908 Motto MS63 NGC.** Very pleasing for the grade with satiny luster and minimal abrasions. The surfaces display mostly green-gold color with tinges of rose-gold in the protected areas. NGC ID# 28GJ, PCGS# 8859 [1377 NOIMAGE](#)

- 10679 1908-S AU55 NGC.** Unlike its Philadelphia and Denver Mint counterparts, the 1908-S eagle was struck only in the With Motto format. Production consisted of only 59,850 pieces and Mint State survivors are rare, adding to the appeal of lightly circulated examples. This Choice AU coin displays lovely yellow-gold color, with attractive splashes of orange also present. NGC ID# 28GL, PCGS# 8861 [1302 NOIMAGE](#)

**1909 Ten Dollar, MS63
Conditionally Scarce**

10680 1909 MS63 NGC. This early issue had an original mintage of 184,789 business strikes and is one of the scarcest dates from the Philadelphia Mint in grades of MS63 or finer. This example shows vibrant satiny mint luster and pretty light toning over both sides. Minor surface marks are seen that correspond to the Select Mint State assessment by NGC. NGC ID# 28GM, PCGS# 8862 [1544 STD](#)

10681 1911 MS64 PCGS. CAC. Gleaming orange-gold surfaces provide this near-Gem with a strong degree of visual appeal. Areas of lavender toning are also present, primarily on the reverse. In addition, this coin exhibits a sharp strike. NGC ID# 28GT, PCGS# 8868 [1084 NOIMAGE](#)

10682 1913 MS64 PCGS. The 1913 ten dollar is one of the most available and most lustrous eagles in the Indian Head series, making it ideal for type purposes. The present example exhibits fantastic mint bloom with a sharp strike and frosty, yellow-gold luster. Very few abrasions are present, given the grade. NGC ID# 28GY, PCGS# 8873 [40055 NOIMAGE](#)

10683 1913-S AU55 PCGS. A low mintage of only 66,000 coins adds to the popularity of this S-mint issue. A Choice AU example, this coin displays butter-gold color and nice luster. Scattered marks held this piece from a higher grade. NGC ID# 28GZ, PCGS# 8874 [1008 NOIMAGE](#)

**1915 Indian Head Ten, MS65
Favorite Issue for Type**

10684 1915 MS65 NGC. Although no Indian Head eagle is common in Gem Mint State, this issue is known for an abundance of well-produced examples. This MS65 coin does not disappoint, with bright, swirling luster over lightly textured surfaces and bold devices. The central design elements — the Indian and the eagle — stand out strongly against the unabraded fields, and even the most finely rendered details are fully brought up. Gleaming, yellow-gold color glows with reddish and green highlights beneath mint frost. This issue is a favorite for type collectors wanting a sharply produced example of the type with outstanding eye appeal. NGC ID# 28H5, PCGS# 8878 [1493 STD](#)

10685 1926 MS64 PCGS. CAC. Perfect for type collectors, 1926 ten dollars usually come with good eye appeal and sharp strikes. The present example is outstanding for the grade, with vibrant orange-gold overall and razor-sharp detail. Satiny luster displays a lack of major abrasions on this CAC-approved near-Gem. NGC ID# 28H9, PCGS# 8882 [28010 NOIMAGE](#)

10686 1932 MS64 PCGS. The 1932 Indian eagle enjoys great popularity as a type issue. This attractive Choice example displays well-detailed design elements and vibrant mint luster, with lightly marked orange-gold surfaces. NGC ID# 28HB, PCGS# 8884 [28025 NOIMAGE](#)

10687 1932 MS64 NGC. CAC. Rich pumpkin-gold color and frosty luster provide this near-Gem with immediate eye appeal. Hints of green are also present on this nicely struck coin. The field to the right of the eagle's head reveals a partial outline of a star. NGC ID# 28HB, PCGS# 8884 [1273 NOIMAGE](#)

10688 1932 MS64 PCGS. CAC. This impressive Choice specimen possesses tremendous eye appeal, with sharply detailed design elements and vibrant mint luster throughout. The light orange-gold surfaces show just a few minor contact marks. NGC ID# 28HB, PCGS# 8884 [28026 NOIMAGE](#)

LIBERTY DOUBLE EAGLES

10689 1850 — Improperly Cleaned — NGC Details. AU. The 1848 discovery of gold in California resulted in two new denominations. Gold dollars were first issued for circulation in 1849, and the double eagle entered commerce in 1850. This example is bright from a wipe, and the obverse field has a couple of pinscratches. The reverse periphery exhibits interesting heavy die cracks. NGC ID# 268F, PCGS# 8902 [1269 NOIMAGE](#)

**1850 Double Eagle, AU53
Popular First-Year Example**

10690 1850 AU53 NGC. Always popular as the first year of the type, the 1850 double eagle has always been pursued by rare coin dealers and collectors alike. Well-struck with a pleasing overall appearance, this semiprooflike AU example displays mint-green and peach-gold coloration. The design's high points show moderate rub, and small abrasions pepper the surfaces on each side. NGC ID# 268F, PCGS# 8902 [28006 STD](#)

1850 Double Eagle, AU58
Near-Mint State Survivor of This First-Year Issue

10691 1850 AU58 NGC. Far nicer than the typical survivor of this large first-year issue of more than 1.1 million pieces, the present example shows semiprooflike luster and a bold strike on surfaces that show few marks of any consequence. The wheat-gold surfaces show only scant high-point wear consistent with the grade. NGC ID# 268F, PCGS# 8902 [1450 STD](#)

1851-O Twenty, AU Details
Favored New Orleans Issue

10692 1851-O — Polished — NGC Details. AU. Variety 4. Polished to an unnatural brightness, this moderately abraded, second-year New Orleans double eagle is a favored early date. The glossy surfaces of this example are a monotone yellow-gold with softness on the high points. Variety 4 displays the O mintmark positioned left of the normal location above the N of TWENTY. NGC ID# 268J, PCGS# 8905 [1212 STD](#)

1852-O Double Eagle, AU53
Popular Early O-Mint Issue

10693 1852-O AU53 PCGS. CAC. Variety 1. The 1852-O is among the more available O-mints from the first decade of production of the new double eagle denomination, launched commercially in 1850. This AU53 example offers generous luster over apricot-gold surfaces that show light field chatter but no major marks. Population: 50 in 53, 81 finer (2/14). NGC ID# 268L, PCGS# 8907 [1476 STD](#)

1853 Double Eagle, AU55
Rare Any Finer

10694 1853 AU55 PCGS. CAC. With more than 1 million coins struck, the 1853 double eagle is available through About Uncirculated grades. Mint State pieces are rare and usually found no better than MS62. Whispers of lavender visit the apricot-gold surfaces of this Choice AU specimen. The design elements are fairly well-struck, and distributed marks are visible over both sides, not unexpected for a large, heavy gold coin that has seen some circulation. NGC ID# 268M, PCGS# 8908 [1127 STD](#)

1854 Twenty Dollar, AU55
Small Date Variety

10695 1854 Small Date AU55 PCGS. CAC. Generally, the Small Date variety is encountered in VF to XF, adding to the appeal of this Choice AU example. The high points of the design exhibit light wear on this piece. The Small Date variety is the more frequently encountered of the two different-size date logotypes used by the Mint for the 1854 Philadelphia double eagles. NGC ID# 268P, PCGS# 8911 [1168 STD](#)

**1854-S Double Eagle
Outstanding Near-Mint Example**

10696 1854-S AU58 NGC. This issue was the first double eagle struck by the fledgling San Francisco Mint, and it is extremely popular with collectors as such. Coins that avoided loss at sea circulated extensively, making attractive, near-Mint examples challenging to find and in strong demand.

This lightly circulated example displays exceptionally smooth, natural surfaces with nearly a full amount of remaining mint luster. A few non-distracting abrasions are present as expected at this grade level, but none are individually bothersome or severe. Lime-green and honey-gold shadings visit the clean, yellow-gold fields surrounding boldly detailed devices. Apparently from an early state of the dies, with no die cracks visible on either side of this lustrous, original example. NGC ID# 268U, PCGS# 8913 [79001 OP](#)

**1856-S Twenty, AU55
Attractively Toned**

10697 1856-S AU55 PCGS. The 1856-S Liberty double eagle was seldom encountered in high grade before the remarkable shipwreck finds of the last two decades. Since the recovery of the treasure from the *S.S. Central America*, the date has become relatively available and extremely popular with type collectors. The present coin is a Choice AU example, with slightly reflective greenish-gold surfaces accented by rose highlights. Population: 53 in 55, 90 finer (2/14). NGC ID# 2692, PCGS# 8919 [74001 STD](#)

**1857-S Liberty Head Twenty, AU55
Type One Example, Attractive**

10698 1857-S AU55 NGC. CAC. Variety 20-F. Shipwreck recoveries make this a common double eagle in the Liberty Head series, but there are those who prefer original coins versus seawater coins. While there is no way to say with certainty this is an original coin, one can speculate based on the appearance of the coin and the number of abrasions on its surfaces. Recovery coins often are abrasion-free and display a slightly mattelike, bright-yellow appearance. This attractive twenty is a lustrous, apricot-gold with a few olive accents. A scattering of abrasions (none severe) are distributed across the surfaces. Boldly struck, this double eagle displays CAC approval for quality and eye appeal. It is the 20-F variety, with the mintmark shifted right to line up with the right edge of the N's left upright. NGC ID# 2696, PCGS# 8922 [1223 STD](#)

10699 1858 XF45 NGC. This Choice XF Type One double eagle shows a touch of wear on the hair and coronet, but most interior detail remains intact. The light green and orange-gold surfaces show scattered minor abrasions on both sides. NGC ID# 2697, PCGS# 8923 [1416 NOIMAGE](#)

10700 1859-S VF35 NGC. A Choice VF survivor from this popular, branch mint issue, this coin exhibits wheat-gold color overall along with small splashes of peach. None of the scattered marks present are worthy of mention on this pleasing circulated example. NGC ID# 269C, PCGS# 8928 [1286 NOIMAGE](#)

**1860 Double Eagle, AU58
Attractive Luster and Color**

10701 1860 AU58 PCGS. Population figures indicate the 1860 double eagle is plentiful in circulated condition; however, Mint State pieces become difficult to locate, particularly at the higher grade levels. Pleasing mint luster remains on this lovely near-Mint example. Attractive butter-gold color adds to the eye appeal. A number of small alloy spots are present near the central reverse. Ex: *Long Beach Signature* (Heritage, 9/2008), lot 4063. NGC ID# 269D, PCGS# 8929 [1134 STD](#)

**1862 Liberty Head Twenty, AU53
Philadelphia Rarity**

10702 1862 AU53 NGC. The 1862 Philadelphia double eagle is decidedly rare in all grades, and although this well-detailed example is not without its share of abrasions and marks, it is one of the few About Uncirculated examples available for collectors. Only nine shipwreck coins were recovered from the *S.S. Republic*, but apparently this is not one of them. Most marks are confined to the rims, which appear to have done their duty and protected the fields and devices from more serious abrasions. The original, yellow-gold surfaces display a significant amount of remaining mint luster and a bit of prooflike flash. Census: 12 in 53, 38 finer (2/14). NGC ID# 269M, PCGS# 8937 [79002 STD](#)

**1863 Twenty
Scarce, AU Details**

10703 1863 — Improperly Cleaned — NGC Details. AU. Hardly any examples of this issue were recovered from the various shipwrecks, and few pieces remain in AU or better condition from an original mintage of 142,790 business strikes. This example has bold details with attractive, prooflike flash around the stars and legend. Olive-gold color displays orange-gold highlights, but the fields are dull from cleaning and hairlined. NGC ID# 269P, PCGS# 8939 [1215 STD](#)

**1867-S Twenty Dollar, AU55
Richly Lustrous**

10704 1867-S AU55 PCGS. CAC. The 1867-S double eagle saw a substantial Reconstruction-era mintage of more than 920,000 pieces. This Choice AU example with the added CAC approval boasts super eye appeal on richly lustrous orange-red surfaces that are well-struck and minimally marked. Population: 37 in 55, 63 finer (2/14). NGC ID# 26A2, PCGS# 8952 [1475 STD](#)

**1872-CC Twenty Dollar Gold
AU Details**

10705 1872-CC — Improperly Cleaned — NGC Details. AU. AU details are present on this 1872-CC double eagle, an early and better Carson City issue, consisting of a mintage of only 26,900 coins. The high points of the design reveal wear and scattered marks are present, including a few hair thin marks, primarily at the upper left reverse. NGC ID# 26AE, PCGS# 8964 [1199 STD](#)

10706 1875-CC — Improperly Cleaned — NGC Details. AU. Variety 5-A. Careful rotation reveals field hairlines, but this apricot-gold Carson City double eagle nonetheless displays considerable luster and has only minimal wear. A better die pairing, scarcer than Variety 4-A. NGC ID# 26AT, PCGS# 8974 [1280 NOIMAGE](#)

10707 1876 MS60 NGC. Heavy Motto. Light peach toning adorns this lustrous and well struck final year Type Two double eagle. Distributed small abrasions are consistent with the grade. NGC ID# 26AV, PCGS# 8976 [1285 NOIMAGE](#)

10708 1876-CC — Rim Filing — NGC Details. Unc. Variety 1-A. The obverse rim is filed throughout, but the reverse rim appears unimpaired. This sun-gold Carson City double eagle has good luster and lacks any mentionable marks. The strike is good overall, though the shoulder curl is indistinct. NGC ID# 26AW, PCGS# 8977 [1279 NOIMAGE](#)

**1877 Double Eagle, MS62
Rare Any Finer**

10709 1877 MS62 PCGS. This is a popular issue for type collectors, as it represents the first year of the new and final Type Three design for Liberty Head double eagles. The denominational value of TWENTY DOLLARS is now spelled out across the lower reverse, rather than being abbreviated as TWENTY D. This attractive example is highly lustrous with lovely light toning and impressively sharp strike definition. Just 16 coins are currently graded higher by PCGS (2/14). NGC ID# 26AY, PCGS# 8982 [1518 STD](#)

1877-CC Double Eagle, XF45

10710 1877-CC XF45 NGC. Variety 3-A. Die lines from obverse star 3 and the E in AMERICA confirm the variety attribution. An apricot-gold double eagle with refreshingly few bagmarks. The curls and wings show minor wear but remaining luster is substantial, especially on the reverse. A low mintage yet collectible Carson City issue. NGC ID# 26AZ, PCGS# 8983 [1517 STD](#)

1878 Twenty Dollar, MS62
Bright Luster and a Sharp Strike

10711 1878 MS62 PCGS. Bright luster and a sharp strike on orange-gold surfaces contribute to the strong eye appeal present on this early Type Three issue. This date is available in MS62 but much more elusive at the Select grade level. A few field marks on each side of the profile of Liberty account for the grade of this piece. PCGS has seen 44 submissions finer (2/14). NGC ID# 26B3, PCGS# 8985 [1522 STD](#)

1879-CC Liberty Twenty, AU53
Low-Mintage Carson City Issue

10712 1879-CC AU53 NGC. Variety 1-A. The 1879-CC Liberty double eagle is an elusive issue from a low mintage of just 10,708 pieces. The surviving population is estimated at 300-350 specimens in all grades, with most examples seen in the VF-XF grade range. The 1879-CC is scarce in AU and rare in all Mint State grades.

The present coin is a well-detailed AU53 example, with much interior detail remaining in the hair and star centers. The vivid greenish-gold surfaces retain much of their original mint luster and show a scattering of minor abrasions on both sides. Type Three double eagles from the Carson City Mint are popular with series specialists and mintmark type collectors alike. NGC ID# 26B7, PCGS# 8989 [1451 QP](#)

10713 1881-S MS61 PCGS. A sharply detailed double eagle from the Western-most branch mint. Pleasing green-gold luster surrounds the borders, deepening to warm orange-gold hues around the devices. Scattered abrasions are present, as the grade suggests. NGC ID# 26BD, PCGS# 8995 [1248 NOIMAGE](#)

10714 1882-S MS61 PCGS. Tall S. One of two mintmark styles for the issue. The sea-green borders and orange-gold centers are typical of original double eagles from this era. Sharply struck and lustrous with the expected smattering of small abrasions. NGC ID# 26BG, PCGS# 8998 [43011 NOIMAGE](#)

1889-CC Double Eagle, AU55
First Carson City Issue Since 1885

10715 1889-CC AU55 NGC. CAC. Variety 1-A. This Choice AU 1889-CC is a bit better than the average certified survivor, which clocks between AU50 and AU55. This piece is orange-gold with smoke-gray high points, the sign of long-term bag storage. The low mintage for this issue was a meager 30,945 pieces, the first double eagle struck in Carson City since the 1885-CC. NGC ID# 26BV, PCGS# 9011 [1438 STD](#)

10716 1890-CC — Scratch — PCGS Genuine. AU Details. Variety 1-A. Liberty's neck displays a few pinscratches, and a cluster of small abrasions is noted near obverse star 4. A lightly circulated Carson City type coin with ample remaining luster. An early die state with full tail feathers. Minor die doubling is evident on PLURIBUS. NGC ID# 26BY, PCGS# 9014 [1011 NOIMAGE](#)

1890-CC Double Eagle, AU53
Lustrous Appeal, Late Die State

10717 1890-CC AU53 NGC. Variety 1-A. Although the date is readily available up to better Uncirculated grades, this Carson City issue is always in demand. The present AU53 example displays excellent remaining mint luster for the grade and attractive, orange accents on apricot-gold surfaces. Only small abrasions are seen, with a shallow scrape by star 13 the most noticeable mark. This twenty is well-detailed from a strong strike, despite the late die state, indicated by weak tail feathers on the eagle due to die lapping. NGC ID# 26BY, PCGS# 9014 [1225 STD](#)

1891-S Double Eagle, MS64
Lustrous High-End Example

10718 1891-S MS64 NGC. CAC. This issue is plentiful in lower Mint State grades, but scarce at MS64 and virtually unobtainable any finer. At the MS65 or Gem level just one piece is known to PCGS, while NGC has certified two such coins. This intensely lustrous near-Gem example reveals even orange-gold coloration. A few light marks and a shallow abrasion along Liberty's lower cheek and jaw keep this high-end example from grading even higher. NGC ID# 26C4, PCGS# 9018 [45009 STD](#)

1892-CC Liberty Head Twenty
Uncirculated Details

10719 1892-CC — Improperly Cleaned — NGC. Unc. Details. Variety 1-A. An attempt was made to improve the appearance of this lovely double eagle by cleaning small areas of the obverse fields with some strange method (perhaps an eraser). There was no success, and thankfully the effects are limited. Otherwise, the coin is virtually unmarked with high eye appeal. Flashy, orange-gold surfaces remain attractive. The lustrous reverse is unimpaired. Most likely, this is a fully struck, Select Uncirculated example if not for the misguided foolery. [1214 STD](#)

10720 1894 MS63+ NGC. CAC. A high-end Select example, even a quick glance confirms the plus designation on this piece possessing strong eye appeal. Cartwheel luster and deep honey-gold color are among the attributes this coin possesses. Scattered marks were a grade-limiting factor for this attractive example. NGC ID# 26CB, PCGS# 9025 [1263 NOIMAGE](#)

10721 1895 MS64 NGC. Rich butter-gold color and appealing luster add to the attractiveness of this near-Gem. Despite a mintage of more than 1.1 million coins, few certified pieces have surpassed the MS64 grade, with NGC and PCGS combined having assigned higher numeric grades to only 11 examples (2/14). NGC ID# 26CD, PCGS# 9027 [1308 NOIMAGE](#)

**1901-S Twenty Dollar, MS63
Bold Strike and Copious Luster**

10722 1901-S MS63 PCGS. This issue “comes nice” and this well-struck Select piece is no exception, showing a bold strike and copious cartwheel luster over reddish-orange surfaces that display excellent eye appeal. This issue is occasionally seen even finer, but this piece will nestle comfortably in a type or date set. NGC ID# 26CT, PCGS# 9040 [1548 STD](#)

**1904 Liberty Twenty, MS66
Only One Finer Coin at NGC**

10723 1904 MS66 NGC. The 1904 Liberty twenty is the most plentiful date of the series and the number one choice of type collectors searching for a Type Three double eagle. However, the 1904 becomes quite scarce at the MS66 level, and NGC has graded only one coin in higher numeric grades (4/13). This spectacular Premium Gem exhibits well-detailed design elements and vibrant mint luster to complement the well-preserved orange-gold surfaces. Eye appeal is outstanding. NGC ID# 26CY, PCGS# 9045 [1514 STD](#)

**1904 Double Eagle, MS66
Quintessential Type Issue**

10724 1904 MS66 PCGS. The quintessential Type Three Liberty Head double eagle issue, the 1904 was struck in a prodigious amount exceeding 6.2 million coins. This Premium Gem example would make a perfect type coin, showing effulgent luster over reddish-orange surfaces that are well-struck and free of all but inconsequential contact. PCGS has seen only two numerically finer (2/14). NGC ID# 26CY, PCGS# 9045 [1535 STD](#)

10725 1906 MS61 PCGS. The 1906 double eagle is a low-mintage 20th century coin, with an original production of only 69,500 pieces. The present example displays flashy surfaces beneath bright yellow-gold luster overall. Scattered abrasions define the grade. NGC ID# 26D4, PCGS# 9049 [1245 NOIMAGE](#)

**1906-D Double Eagle, MS64
Obverse Strike-Through**

10726 1906-D — Obverse Strike-Through — MS64 NGC. A rod-shaped strike-through extends from the bust tip into Liberty's neck. A second and smaller but likely related strike-through is at 7 o'clock. This well struck first-year Denver Mint near-Gem offers lightly abraded dusky khaki-gold surfaces. Uncirculated examples are fairly plentiful but most grade between MS61 and MS63. [1304 STD](#)

10727 1907 MS64 NGC. Rich green-gold luster colors both sides, with subtle rose-gold hues showing up when tilted under a light. The elements are sharply struck with no particularly bothersome surface abrasions present.

Ex: Long Beach Signature (Heritage, 9/2005), lot 5204. NGC ID# 26D7, PCGS# 9052 [1390 NOIMAGE](#)

**1907-S Liberty Twenty, MS64
Rarely Encountered Any Finer**

10728 1907-S MS64 PCGS. Intermingled shades of gold, orange, peach, and apricot along with attractive luster add to the appeal of this near-Gem. The few scattered marks present are minor. Although the 1907-S double eagle is relatively available in the lower Mint State grades, Gem specimens are virtually unobtainable, adding to the appeal of near-Gems such as this lovely specimen. Housed in a green label holder. PCGS has awarded higher numeric grades to only 8 examples (2/14). NGC ID# 26D9, PCGS# 9054 [1159 STD](#)

PROOF LIBERTY DOUBLE EAGLE

1898 Liberty Double Eagle, PR64
Rare Deep Cameo Example
Only 75 Pieces Struck

10729 1898 PR64 Deep Cameo PCGS. CAC. Only 75 proof Liberty double eagles were struck in 1898 and the surviving population numbers no more than 35-40 examples in all grades. The 1898 was one of the best-produced dates of the series and collectors have always prized high-quality specimens of this issue. Unfortunately, some coins were mishandled over the years, reducing the already small supply. PCGS and NGC have combined to certify nine coins in grades below PR60 (2/14). Two coins are included in the National Numismatic Collection at the Smithsonian Institution and one is in the collection of the American Numismatic Society. Jeff Garrett and Ron Guth believe the population data for this issue has been distorted by resubmissions and crossovers, as the leading grading services have certified a total of 79 specimens between them (2/14).

The present coin is a deeply reflective orange-gold specimen with a remarkable degree of contrast for this normally well-produced double eagle proof. Close inspection of the fragile mirror surfaces makes one even more appreciative of the quality of this beautifully preserved representative. The reverse is essentially as struck while on the obverse light magnification reveals several wispy hairlines in the left and right fields. These, of course, have no ill-effect on the coin's dramatic eye appeal and perhaps shave a point off the specimen's overall grade. This beautiful piece represents an important opportunity for the gold specialist to acquire a rock-solid near-Gem example of the sought-after Liberty Double Eagle proof. Population: 4 in 64 Deep Cameo, 5 finer (2/14).

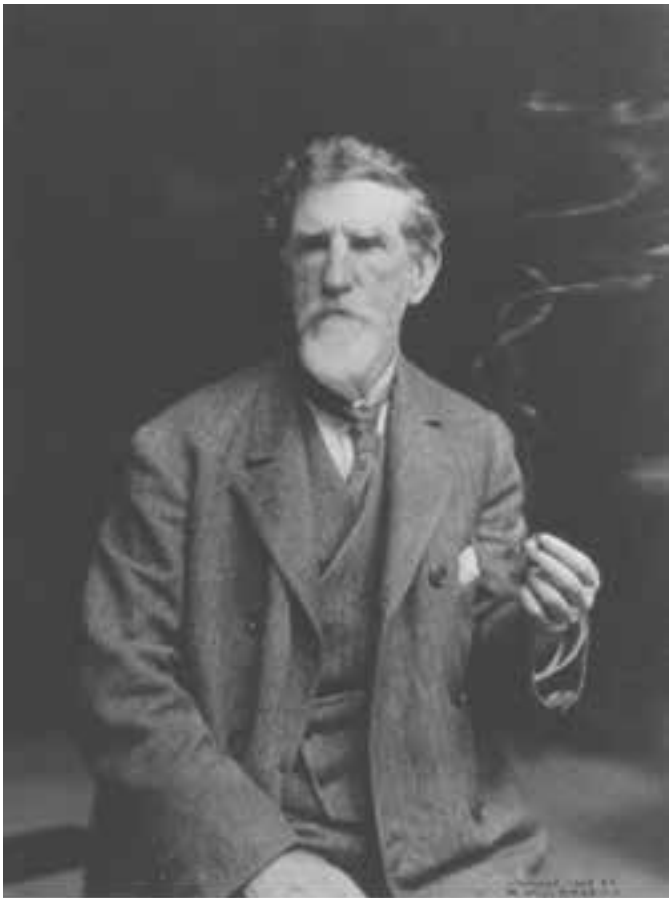

Ex: *Dallas Signature* (Heritage, 11/2005), lot 2476. NGC ID# 26EK, PCGS# 99114 **1162 FP**

HIGH RELIEF DOUBLE EAGLES

1907 High Relief Twenty, AU Details Wire Rim Variant

10730 1907 High Relief, Wire Rim — Lacquer — PCGS Genuine. AU Details. The wire rim is just noticeable around a portion of the obverse with almost no evidence of it around the reverse. The surfaces are bright golden-orange with just the slightest trace of high-point friction evident. Traces of lacquer can be seen on the lower reverse. A few contact marks can be seen, the only obvious ones located just above and to the right of the sun on the reverse. NGC ID# 26F2, PCGS# 9135 **1180 STD**

Courtesy of the Saint-Gaudens National Historic Site

1907 Saint-Gaudens Double Eagle, MS64 High Relief, Wire Rim Variant

10731 1907 High Relief, Wire Rim MS64 PCGS. The 1907 Saint-Gaudens High Relief double eagle has been acknowledged as America's most beautiful regular-issue coinage design since its debut in 1907. The aesthetic beauty of the design and its limited mintage of 12,367 pieces ensures its unending popularity with numismatists of all disciplines, and collectors who own no other gold coins avidly seek examples of this iconic issue.

Although not indicated on the holder, this attractive Choice specimen exhibits a wire rim around part of the edge on both sides. This feature was caused by metal extruding through the narrow gap between the collar and the die when the coin was struck. The central design elements are sharply detailed and the lustrous reddish-gold surfaces show only minor signs of contact. Housed in a green label holder. NGC ID# 26F2, PCGS# 9135 **1510 QP**

MCMVII High Relief Twenty, MS65
The Wire Rim is Almost Complete Around Each Side

10732 1907 High Relief, Wire Rim MS65 NGC. The dominant school of sculpture and architecture in the 19th century was Neoclassicism. The roots of Neoclassicism grew from The Grand Tour, a several year-long educational and social extension of young noblemen's education. The Grand Tour culminated in what was usually a yearlong stay (or more) in Rome, where the young nobleman became familiar with the many remnants of Classical antiquity liberally scattered throughout the city. After returning home, many commissioned copies of Classical works they had seen in Rome, or commissioned new Classically-inspired works.

The early years of Augustus Saint-Gaudens' life curiously paralleled the young noblemen from the 18th century who had taken the Grand Tour of the continent. But Saint-Gaudens was not of noble birth. He was the son of a shoe maker, and his time in Paris and Rome was devoted to the study and production of art. His time in Rome was not artistically inspired. Rather he was a refuge from Paris after the outbreak of the Franco-Prussian War in 1870. While in Rome, he soaked up the Classical works that surrounded him, and their influence can clearly be seen on the obverse of the High Relief twenty from 1907, with its forward-looking, striding figure of Liberty.

This classic inspiration can clearly be seen in Saint-Gaudens' design for the double eagle in 1907. And this is a wonderfully preserved example of what is undoubtedly the most widely known of the great sculptor's works. The surfaces glow with rich, satiny mint luster and show just the slightest tinge of reddish patina. The strike details are complete on each side, including the Capitol building and separation between the letters and rim on the upper reverse. Surprisingly, the wire rim is almost complete around each side. As expected, there are no mentionable or noticeable contact marks that interfere with full appreciation of this Gem High Relief. NGC ID# 26F2, PCGS# 9135 [1378 FP](#)

**1907 Flat Rim High Relief, MS64
Rich, Satiny Mint Luster**

10733 1907 High Relief, Flat Rim MS64 NGC. CAC. This Flat Rim is so very close to being complete around each side — just a bit of extruded metal can be seen on the left side of the reverse. This “fin” or “burr” in Mint parlance, was the source of much distress to Mint Director Frank Leach. He gave specific orders that it be eliminated, but even after die and collar adjustments were made few High Reliefs were actually produced with a completely flat rim. This is a magnificent example of the High Relief, one that displays the bright, satiny mint luster these coins are so well known for. The color is rich yellow-gold with almost none of the usually seen reddish patina. Of course, no marks are present that are worthy of mention. PCGS# 9136 [59022 QP](#)

SAINT-GAUDENS DOUBLE EAGLES

1907 Arabic Numerals Double Eagle, Toned MS65

10734 1907 Arabic Numerals MS65 PCGS. The Saint-Gaudens 1907 Arabic Numerals, from a mintage exceeding 361,000 pieces, was produced with a much lower relief than the previous High Relief Roman Numerals subtype. Whispers of violet and lavender visit the lustrous yellow-gold surfaces of this Gem example. The design elements are well-struck, especially on Liberty's branch hand and the panes of the Capitol building. Some scattered minuscule marks are within the confines of the grade designation. NGC ID# 26F5, PCGS# 9141

**1907 Arabic Numerals Twenty, MS65
Lustrous and Well-Preserved**

10735 1907 Arabic Numerals MS65 NGC. The Arabic Numerals No Motto double eagle was only produced for two years, 1907 and 1908, but so far collectors have not targeted this brief design variation as an important type. This Gem example will appeal to all who see it, by virtue of radiant mint luster and beautiful light coloration. The surfaces only display a few trivial marks, as expected for the grade. NGC ID# 26F5, PCGS# 9141 [28028 STD](#)

**1908 With Motto Twenty, MS64+
Strong Mint Luster, Upper-End Quality**

10736 1908 Motto MS64+ PCGS. The lustrous surfaces of this high-end near-Gem display even yellow-gold coloration imbued with hints of rose. Both sides exhibit well-struck design elements, and each reveals a few light marks precluding Gem status. Hundreds of this issue have been certified in MS64, but only 27 have received the Plus designation (2/14). NGC ID# 26F8, PCGS# 9147 [1136 STD](#)

10737 1908-D Motto MS64 PCGS. A pleasing example of this early Denver issue, with warm light reddish-gold patina blanketing both sides and sharp detail overall. A lack of major abrasions makes this piece particularly choice. NGC ID# 26F9, PCGS# 9148 [57019 NOIMAGE](#)

**1908-D Motto Twenty Dollar, MS65
Scarcer Early Saint-Gaudens Issue**

10738 1908-D Motto MS65 PCGS. Rich, intermingled hues of gold, orange, and peach combine to provide this Gem with immediate eye appeal. Nice luster further enhances the appearance and the design elements display a pleasing degree of definition. A tiny spot appears just above Liberty's branch hand. PCGS has awarded higher numeric grades to only 30 examples (2/14). NGC ID# 26F9, PCGS# 9148 [1500 STD](#)

1908-S Double Eagle, MS63
Exceptional Quality for the Grade

10739 1908-S MS63 NGC. Just 22,000 pieces were produced at the San Francisco Mint for a first attempt at the Saint-Gaudens design, and the results are exceptional for this example. Smooth, satiny fields are softly lustrous and nearly without abrasions of any kind. Delightful orange-gold color displays olive and lime-green highlights amid glowing mint luster when rotated under light.

All of these attributes are suggestive of a finer grade, and one might expect a weak strike to be a limiting factor but, on the contrary, the strike is bold. Typical problem areas such as Liberty's torch hand, gown folds, forward leg and foot, and the Capitol Building are all well-produced, and the eagle is sharp. The 1908-S double eagle is scarce in an absolute sense due to the low mintage, and rare in Select Uncirculated grades and finer. This quality example would fit nicely in any advanced set. Census: 22 in 63, 25 finer (2/14). NGC ID# 26FA, PCGS# 9149 [28021 QP](#)

10740 1909-S MS64 NGC. CAC. This early San Francisco-issued Saint-Gaudens double eagle displays satiny yellow-gold luster on both sides, with pale rose-gold hues throughout. CAC-approved with no major abrasions. NGC ID# 26FE, PCGS# 9153 [52013 NOIMAGE](#)

10741 1910 MS64 PCGS. A coin with lovely eye appeal due to rich yellow-gold color, this near-Gem representative displays a strong degree of design detail and minimal abrasions, all minuscule. The 1910 Saint-Gaudens double eagle, from a mintage of 482,000 pieces, is an available issue in grades up to the MS64 level, but the population drops substantially at the Gem level. NGC ID# 26FF, PCGS# 9154 [1413 NOIMAGE](#)

10742 1910 MS64+ PCGS. Frosty yellow-gold luster adorns both sides of this sharply struck near-Gem, with hints of green-gold around the periphery. Only the most trivial abrasions keep this piece from a higher grade. NGC ID# 26FF, PCGS# 9154 [57018 NOIMAGE](#)

10743 1910-S MS62 NGC. An early Saint-Gaudens double eagle from the branch mint at San Francisco, this well-struck coin exhibits fewer abrasions than the grade suggests, with none being particularly noticeable. Soft yellow-gold luster blankets both sides, with subtle hues of orange-gold on the reverse. NGC ID# 26FH, PCGS# 9156 [41001 NOIMAGE](#)

1911 Double Eagle, Lustrous MS64

10744 1911 MS64 PCGS. The 1911 double eagle can be located with little trouble through near-Gem. Gems are scarce and the date is very rare any finer. The orange-gold surfaces of this MS64 specimen display strong luster and sharply struck design elements, including the fingers on Liberty's hands, the panes and pillars of the Capitol building, and the eagle's plumage. Some minute marks are consistent with the grade designation. NGC ID# 26FJ, PCGS# 9157 [1129 STD](#)

1911-D/D Twenty Dollar, MS65
Thick Mint Luster

10745 1911-D/D MS65 PCGS. CAC. FS-501. The popular Repunched Mintmark variety 1911-D/D is seldom seen at the Gem level of this piece, which additionally has the CAC green label endorsement. Thick, flowing luster runs over deep orange surfaces that are boldly struck with minimal marks and excellent eye appeal. Population: 88 in 65 (1 in 65+), 35 finer (2/14). PCGS# 145010 [28040 STD](#)

10746 1911-S MS64 NGC. This attractive Choice specimen displays vivid orange and greenish-gold surfaces with just a few minor contact marks and vibrant mint luster on both sides. The design elements are well-detailed and eye appeal is strong. NGC ID# 26FL, PCGS# 9159 [1424 NOIMAGE](#)

10747 1913-D MS64 PCGS. A nicely struck near-Gem representative, this coin displays lovely pumpkin-gold color. Appealing luster further adds to the attractiveness of this piece. A few scattered marks on the reverse pose little distraction, if any. NGC ID# 26FP, PCGS# 9162 [1083 NOIMAGE](#)

**1913-S Saint-Gaudens Twenty, MS64
Attractive, Flashy Gold Surfaces**

10748 1913-S MS64 PCGS. For an issue that is often weakly struck and subject to spots from improperly mixed alloys, this example is a welcome change. A sharp strike complements vibrant, apricot-gold surfaces with rich, orange overtones. Few abrasions are seen on the highly lustrous, spot-free fields and devices, and those marks that exist are small and apart from the main elements. This low-mintage issue (just 34,000 pieces produced) takes a huge jump in price at the next highest level, making high-end examples such as this gleaming double eagle extremely desirable. NGC ID# 26FR, PCGS# 9163

**1914 Double Eagle, MS63
Fresh Mint Luster**

10749 1914 MS63 NGC. Lightly textured surfaces are sharply struck and freshly lustrous on this attractive, low-mintage Philadelphia issue. A production of 95,250 pieces was somewhat hoarded, perhaps a result of the looming world unrest, and only in the last few decades have the hidden coins emerged. Perhaps this glowing, olive-gold example was one of them. Very few marks appear on the frosted surfaces, and the eye appeal is terrific. NGC ID# 26FS, PCGS# 9164

10750 1914-S MS65+ PCGS. One of the more frequently encountered pre-1920 issues, and often used for type purposes. This example displays orange-gold tints that complement vibrant green-gold luster, the hallmark of this boldly struck Gem. A nice cartwheel effect shows off the well-preserved surfaces. NGC ID# 26FU, PCGS# 9166

**1922 Double Eagle, Lustrous MS65
Extremely Rare Any Finer**

10751 1922 MS65 PCGS. Enough 1922 double eagles have survived in various hoards to make this one of the most plentiful dates in the entire series. Even Gems are readily available, evident from the nearly 2,000 MS65 specimens graded by PCGS and NGC. That said, MS65 is the finest most collectors can hope to locate as the population then drops precipitously. In fact, the two services have seen only 16 example finer (2/14).

The lustrous surfaces of the present Gem offering display wisps of lavender and rose and are well-struck. A few light scuffs are within the parameters of the grade designation and do not detract. NGC ID# 26G3, PCGS# 9173 **75001 STD**

10752 1923 MS64+ PCGS. CAC. Rich luster and pumpkin-gold color combine to provide strong visual appeal for this high-end near-Gem example. A strong strike is an additional attribute. Scattered marks held this lovely piece from a higher grade. NGC ID# 26G5, PCGS# 9175 **1034 NOIMAGE**

10753 1923-D MS65 PCGS. The 1923-D is one of the most eye-appealing dates in the Saint-Gaudens double eagle series, and this example is no exception. Fantastic mint bloom radiates off this flashy coin in varying shades of orange-gold around the margins with bright yellow-gold centers, nicely complementing a sharp strike. A small alloy spot is noted just left of center on the obverse. NGC ID# 26G6, PCGS# 9176 **57016 NOIMAGE**

**1924 Twenty Dollar, MS66+
Quintessential Type Coin**

10754 1924 MS66+ PCGS. The 1924 twenty dollar Saint-Gaudens is one of the quintessential dates for type purposes, available for a price up to the Superb Gem level, with a couple even finer. This MS66+ will cost far less than those ultrahigh-grade examples, showing frosty surfaces with penetrating luster and attractive apricot-orange color. Only minor ticks preclude an MS67 grade. Population: 56 in 66+, 86 finer (2/14). NGC ID# 26G7, PCGS# 9177

**1926 Double Eagle, MS66
Incredible Eye Appeal**

10755 1926 MS66 NGC. CAC. The bright yellow-gold surfaces of this impressive Premium Gem display vibrant mint luster and few signs of contact. Sharply detailed design elements add to the incredible eye appeal. Housed in a former generation holder. NGC has graded just eight numerically finer examples (2/14). NGC ID# 26GD, PCGS# 9183 **60116 STD**

**1926-S Double Eagle, MS64
Popular Mintmark Type Coin**

10756 1926-S MS64 PCGS. Rich yellow-gold color and attractive luster add to the appeal of this near-Gem example. Several long, thin die breaks are present, primarily at the upper obverse. Prior to the return to the United States of examples, beginning in the early 1950s, that were stored in Europe for decades, the 1926-S was considered a great rarity in the series. PCGS has awarded higher numeric grades to only 35 examples (2/14). NGC ID# 26GF, PCGS# 9185 [1184 STD](#)

1927 Double Eagle, Vibrant MS66

10757 1927 MS66 PCGS. This Premium Gem exhibits several attributes that make it an excellent choice for a high-grade Saint-Gaudens double eagle type coin or date collection. First, its copper-gold surfaces yield vibrant luster, second, all design features are sharply struck, and third, each side has been very well cared for. While MS66s are abundant (PCGS has seen more than 5,600 pieces), it has graded only 14 examples finer (2/14). NGC ID# 26GG, PCGS# 9186

**1927 Double Eagle, Marvelous MS66
An Excellent Type Choice**

10758 1927 MS66 PCGS. The 1927 Saint-Gaudens double eagle claims a large mintage of more than 2.9 million pieces, making it an available date and a popular type issue. The certified population is staggering, including in MS66, the grade of the present offering. The population then drops dramatically; PCGS and NGC have seen fewer than 70 pieces finer (2/14).

This is a marvelous type coin. Its copper-gold surfaces display ebullient luster, the design elements are boldly defined (save for minor softness on the Capitol building), and both sides have been well cared-for. In other words, this piece exudes tremendous eye appeal. NGC ID# 26GG, PCGS# 9186 [1139 STD](#)

**1928 Double Eagle, Razor-Sharp MS66
An Excellent Type Coin**

10759 1928 MS66 PCGS. The 1928 double eagle saw a record mintage exceeding 8 million pieces. Yet the date does not appear to be as common as some other Saint-Gaudens twenties such as the 1924 or the 1927. Perhaps a significantly larger number of this date were melted in the 1930s than originally thought (Garrett and Guth, 2006). That said, Premium Gems such as the present offering are abundant, but the population drops precipitously in MS67 and finer, examples of which are scarce to rare.

Intense luster emanates from the copper-gold surfaces of this MS66 example. The design elements are razor sharp, including Liberty's facial features, the fingers on both hands, the panes of the Capitol building, and the eagle's plumage. Both sides are impeccably preserved. This coin is an excellent type choice. NGC ID# 26GK, PCGS# 9189 [1142 STD](#)

TERRITORIAL GOLD

**August Bechtler Gold Dollar, AU53
Kagin-24, 27 Grams, 21 Carats**

10760 (1842-52) A. Bechtler Dollar, 27G. 21C., Plain Edge AU53 NGC. K-24, R.3. August Bechtler was the issuer of this Carolina gold variety, which is collectible by Bechtler standards and thus ideal for type purposes. The original dusky green-gold surfaces are surprisingly devoid of abrasions, though we note a small mint-made lamination near the rim, located above the second E in BECHTLER. Listed on page 378 of the 2014 *Guide Book*. PCGS# 10040 [1232 STD](#)

(1834-37) Bechtler Five Dollar, MS63
Rutherford, Plain Edge, K-17
Single Finest Certified

10761 1834 C. Bechtler Five Dollar, Plain Edge MS63 NGC. K-17, R.5. Large scale mining of gold began in Georgia and North Carolina around 1828 and, prior to 1849, the region produced most of the gold found in the United States. The miners faced many challenges in converting their raw gold into a useful medium of exchange, however. The Southern Appalachian district where the mines were located was populated by subsistence farmers and Cherokee Indians and there were no large towns in the area. The economy was mostly based on a barter system, with almost no specie or paper money to facilitate economic transactions. Shipping their gold ore to the U.S. Mint in Philadelphia was a daunting prospect, both difficult and dangerous.

To provide the region with a standard medium of exchange, Christopher Bechtler, a German-born metallurgist, gunsmith, and jeweler, established a private mint in Rutherford County, North Carolina in 1831. Bechtler was scrupulously honest and a competent assayer, die engraver, and coiner. His coins, and those of his son Augustus and nephew Christopher, Jr., were widely accepted in the South as late as the Civil War. He changed the design of his coins frequently, responding to suggestions made by his depositors, and the change in weight standard adopted by the U.S. Mint in 1834. In all, he issued seven different series of five dollar gold coins, with many different die varieties, by 1842.

All of the fourth series Bechtler five dollar gold pieces, K-16 through K-19, were produced with the date AUGUST 1, 1834 in a small circle inside the legend CAROLINA GOLD / CARATS., which rings the rims. The weight 140 / G. / 20. is in the center. On the K-17, the reverse reads C. BECHTLER. AT RUTHERFORD.★, and the edge is plain.

The present coin is the finest certified example at either of the leading grading services (2/14). Both obverse and reverse feature well-struck design elements and the pleasing yellow-gold surfaces show only minor signs of contact. Ample mint luster and a few highlights of green color add to the outstanding eye appeal. Listed on page 378 of the 2014 *Guide Book*. Census: 1 in 63, 0 finer (2/14). PCGS# 10091 1481 FP

**1860 Clark, Gruber Two and a Half
AU Details, K-1**

10762 1860 Clark, Gruber & Co. Quarter Eagle — Improperly Cleaned — NGC Details. AU. K-1, R.4. Unlike the ten and twenty dollar 1860 Clark, Gruber denominations, which featured a fanciful depiction of Pikes Peak, the two and a half and five dollar designs merely imitated their Federal counterparts. Luster brightens protected areas of this scarce Denver pioneer gold issue. Rotation beneath a light reveals fine vertical hairlines, and a few wispy field abrasions are noted above the eagle's head. Listed on page 394 of the 2014 *Guide Book*. PCGS# 10135 [1337 STD](#)

S.S.C.A. RELIC GOLD MEDAL

10763 (2001) SSCA Relic Gold Medal "1855 Kellogg & Co. Fifty" Gem Proof PCGS. Struck on September 10, 2001, with a proof mintage for that date of 153 pieces. This 2.5-ounce round restrike from 2001 contains 887 Fine gold, obtained from melted-down Kellogg & Humbert ingots recovered from the 1857 wreck of the *S.S. Central America*. A flawless example with glassy butter-gold fields, still housed in the mauve and gold insert PCGS holder of its initial issue. PCGS# 10358 [1047 NOIMAGE](#)

CALIFORNIA FRACTIONAL GOLD

**1872/1 Octagonal Indian Half Dollar
MS66 Prooflike, BG-937**

10764 1872/1 Indian Octagonal 50 Cents, BG-937, High R.4, MS66 Prooflike NGC. Breen-Gillio Die State I. The luminous portrait and wreath contrast with the mirrored caramel-gold fields. A crisply struck and pristine Premium Gem, limited in grade solely by minute mint-made strike-throughs. Census: 2 in 66 Prooflike, 1 finer as 66 Deep Prooflike (2/14). PCGS# 710795 [60151 STD](#)

10765 1875 Indian Octagonal 1 Dollar, BG-1127, R.4, MS61 NGC. A wheat-gold representative that has good field reflectivity and an absence of relevant marks. The strike is moderately soft at the centers, usual for the collectible octagonal dollar variety. PCGS# 10938 [59020 NOIMAGE](#)

MORGAN DOLLARS

10766 1878 8TF MS65 PCGS. CAC. VAM-21. The "Broken R & B" VAM, named for die defects on the bases of the R and B in PLURIBUS. Attractively patinated powder-blue, wheat-gold, and lavender. Lustrous and crisply struck with only minor contact. NGC ID# 253H, PCGS# 7072 [1003 NOIMAGE](#)

**1878 Strong 7/8TF Morgan, MS65+
Dramatic VAM-38 Example**

10767 1878 7/8TF Strong MS65+ PCGS. CAC. VAM-38. All of the letters of LIBERTY on the obverse are strongly and widely separated, and all of the obverse stars and peripheral letters show bold doubling as well. This high-end example of the 7/5 Tailfeathers type shows bold eye appeal with thick mint frost on silver-gray centers with generous rim accents of amber-gold, bluish-gray, and copper tones. Population: 6 in 65+, 9 finer (2/14). NGC ID# 2TXZ, PCGS# 7078 [1526 STD](#)

**1878 Morgan Dollar, MS66
Strong 7/8 Tailfeathers, VAM-37**

10768 1878 7/8TF Strong MS66 PCGS. VAM-37. Splashes of rich golden-brown dominate the fields. The motifs are cream-gray and the peripheries display vibrant navy-blue and plum-red shades. Four obvious tailfeather fragments peer beneath the primary seven tailfeathers. Lustrous, carefully preserved, and rare at the MS66 level. NGC ID# 2TXZ, PCGS# 7078 [43010 STD](#)

10769 1878 7TF Reverse of 1878 MS65 NGC. VAM-30. Leroy Van Allen and VAMworld.com classify this die marriage as a 7/0 tailfeather variety. Sharply struck and lustrous with only a hint of straw-gold toning on the right obverse. A beautifully preserved long nock Gem. NGC ID# 253K, PCGS# 7074 [1397 NOIMAGE](#)

10770 1878 7TF Reverse of 1878 MS65 PCGS. CAC. VAM-114-2. The R in PLURIBUS and the first star east of the date are boldly die doubled. A beautiful arc of peach-gold, ruby-red, and ocean-blue patina endows the lower right reverse margin. Lustrous and sharply struck with smooth fields. NGC ID# 253K, PCGS# 7074 [1051 NOIMAGE](#)

10771 1878 7TF Reverse of 1879 MS65 PCGS. VAM-221-1. VAM-221-1 is identified by a die chip on the forehead. 1878 Morgans are often collected by die variety. Lustrous, well preserved, and nicely struck with potent luster and a hint of golden patina. NGC ID# 253L, PCGS# 7076 [1405 NOIMAGE](#)

10772 1878 7TF Reverse of 1879 MS65 PCGS. This sharply detailed Gem displays well-preserved lustrous surfaces under vivid shades of greenish-gold and turquoise patina. The Reverse of 1879 is identified by the slanting arrow feather. NGC ID# 253L, PCGS# 7076 [1411 NOIMAGE](#)

10773 1878 7TF Reverse of 1879 MS65 PCGS. Apple-green, honey-gold, and peach-red patina consumes this lustrous and precisely struck Gem. Marks are minor and mostly relegated to the field near the eagle. The third major design subtype within the year, the Third Reverse would continue with minimal changes through 1904. NGC ID# 253L, PCGS# 7076 [40042 NOIMAGE](#)

**1878-CC Morgan Dollar, Lustrous MS66
A Very Popular Issue**

10774 1878-CC MS66 PCGS. The 1878-CC dollar is very popular among Morgan dollar collectors due to it being the first-year-of-issue and the CC mintmark. This Premium Gem displays intense luster emanating from its silver-gray surfaces. The design elements are sharply struck, including the hair over Liberty's ear and the eagle's breast feathers. In this regard, Miller (1982) writes that this is "one of the most consistently well struck Morgan dollars." A few light marks are in concert with the grade designation. NGC ID# 253M, PCGS# 7080 [1547 STD](#)

10775 1878-CC MS63 Deep Mirror Prooflike PCGS. CAC. A better date in Deep Mirror Prooflike, this CAC-Approved example is thickly frosted on the portrait and eagle for nice contrast. As expected for the grade, a few minor abrasions dot the untuned, silver fields and a small graze is seen on Liberty's frosted cheek. This Select Uncirculated example is fully struck and brilliant. NGC ID# 253M, PCGS# 97081 [71008 NOIMAGE](#)

10776 1879-CC AU53 NGC. Significant mint luster remains in the protected areas of both faces, while just a blush of light golden tone complements strong detail for the grade. Some minor clash marks can be seen, most notably on the reverse. NGC ID# 253T, PCGS# 7086 [1258 NOIMAGE](#)

**1879-CC Silver Dollar, MS62
Intensely Lustrous and Attractive**

10777 1879-CC MS62 NGC. Normal Mintmark. This snow-white specimen is highly lustrous, with frosty surfaces that are occasionally visited by wisps of russet patina. There are remarkably few surface marks detected for the grade, and most of those reside in the field areas away from the focal points. An important Carson City issue, second-rarest from that Western mint behind the well-known 1889-CC key date. NGC ID# 253T, PCGS# 7086 [59014 STD](#)

**1879-CC Dollar, MS62
Attractive Semikey Example**

10778 1879-CC MS62 NGC. Layers of antique-gold, coppery russet-gold, and cobalt-blue patina decorate the obverse surfaces of this well-struck coin. The intensely lustrous reverse is essentially brilliant. A boldly struck example of this Carson City semikey issue, showing scattered small-to-moderate marks that are consistent with the MS62 assessment. NGC ID# 253T, PCGS# 7086 [59015 STD](#)

**1879-CC Morgan Dollar, MS62
Important Carson City Semikey**

10779 1879-CC MS62 NGC. Normal Mintmark. This issue represents the first rare issue in the Morgan dollar series, and is the second-rarest Carson City date behind the key 1889-CC. This attractive specimen is boldly struck save for typical softness over the centers, and the vibrant frosty luster quality is quite appealing. Mostly untuned and showing scattered trivial surface marks, this example reveals an occasional speck of russet or charcoal color, while the fields and peripheries display faint greenish undertones. NGC ID# 253T, PCGS# 7086 [59016 STD](#)

**1879-O Dollar, MS65+
Highly Lustrous and Lightly Toned**

10780 1879-O MS65+ PCGS. Cartwheel luster and faint toning are among the attributes this high-end Gem exhibits. The toning includes hues of teal, deep orange, and plum. The strike is sharp, including the centers, further adding to the attractiveness of this piece. The certified population drops dramatically at the MS66 level. Population: 12 in 65+, 15 finer (2/14). NGC ID# 253V, PCGS# 7090 [1541 STD](#)

10781 1879-O MS63 Deep Mirror Prooflike NGC. Strong contrast exists between the flashy fields and richly frosted devices on this Select representative. Although scattered marks precluded a higher grade, they do not pose a significant distraction. Census: 24 in 63 (1 in 63 ★) Deep Mirror Prooflike, 25 finer (2/14). NGC ID# 253V, PCGS# 97091 [71003 NOIMAGE](#)

10782 1879-S Reverse of 1878 MS64+ PCGS. A Top 100 Variety. The "Partial R" reverse, a reference to the R in TRUST. Splashes of apple-green, golden-brown, lilac-red, and stone-gray invigorate this lustrous and well struck near-Gem. Marks are trivial for the designated grade. NGC ID# 253W, PCGS# 7094 [40016 NOIMAGE](#)

**1879-S Reverse of 1878, MS65
Deeply Toned and Highly Attractive**

10783 1879-S Reverse of 1878 MS65 PCGS. A Top 100 Variety. Deep mauve and aqua-marine patina dominate the obverse, while the reverse has a brilliant center and peripheral reddish-brown, lavender-brown, and olive toning. A well-struck Gem with a clean cheek and a nearly pristine reverse. Just two examples of the 1879-S With the Reverse of 1878 have been graded higher than MS65, at PCGS (2/14).

Ex: *Signature Sale (Heritage, 11/2003)*, lot 8350. NGC ID# 253W, PCGS# 7094 [60138 STD](#)

10784 1880-CC MS66+ PCGS. This high-end Premium Gem example shows the Reverse of 1879 with slanted top arrow feather (not so indicated on the holder). Bowers (2007) contends that this variety, with an estimated mintage of 466,000, is several times more plentiful than the Reverse of 1878 variety with parallel arrow feather (estimated mintage of 125,000).

Lustrous silver-gray surfaces exhibit well-struck motifs, except that the centers are weak as often encountered on this date. A few light marks are visible, but these are fewer and less severe than often seen on this issue, examples of which are usually extensively bagmarked. NGC ID# 2542, PCGS# 7100 [1550 NOIMAGE](#)

10785 1880-CC MS66 PCGS. CAC. The 1880-CC Morgan dollar claims a low mintage of 591,000 pieces. This impressive Premium Gem is well-detailed and lustrous, with outstanding eye appeal. PCGS has graded 29 numerically finer examples (2/14). NGC ID# 2542, PCGS# 7100 [1430 NOIMAGE](#)

10786 1880/79-CC Reverse of 1878 MS64 PCGS. VAM-4. A Top 100 Variety. Among the most popular Carson City varieties. A brilliant and lustrous near-Gem that boasts a well preserved reverse. The obverse field is also smooth, and the cheek displays moderate grazes. NGC ID# 253Z, PCGS# 7108 [1458 NOIMAGE](#)

10787 1880/79-CC Reverse of 1878 MS65 PCGS. VAM-4. A Top 100 Variety. The left reverse displays a remarkable arc of deep forest-green and ruby-red patina. The remainder of this lustrous Gem is brilliant save for a slender golden-brown band on the lower obverse. NGC ID# 253Z, PCGS# 7108 [1236 NOIMAGE](#)

10788 1880-CC 8 Over Low 7 MS63 Deep Mirror Prooflike PCGS. VAM-6. A Top 100 Variety. Among the most obvious Morgan dollar overdate varieties. The downstroke, crossbar, base, and flag of the underdigit 7 are all evident. One wonders whether the three blundered date dies (VAM-5 through VAM-7) were intentionally shipped to remote Carson City to help conceal Mint mistakes. A lightly toned example with flashy fields and a good strike. PCGS# 97105 [71011 NOIMAGE](#)

**1880-CC 8/7 Reverse of 1878, MS66+
Brilliant and Highly Lustrous**

10789 1880-CC 8/7 Reverse of 1878 MS66+ PCGS. VAM-7. A Hit List 40 Variety. A lovely example with shimmering stone-white surfaces. Well-struck and highly lustrous, with carefully preserved surfaces that reveal few surface flaws even under careful examination. A great example of this scarcer type featuring the Reverse of 1878. Bowers (2005) estimated a business strike mintage of 125,000 pieces for this reverse type, in his *Guide Book of Morgan Silver Dollars*; much lower than the 360,000 coin production that he estimated for the Reverse of 1879 variety from the same date and mint. Population: 35 in 66 (5 in 66+), 2 finer (2/14). PCGS# 7110 [40025 STD](#)

10790 1880-O MS64 PCGS. Small or Micro O. A brilliant Choice New Orleans dollar that boasts vibrant cartwheel luster and a bold strike. Well preserved except for minor chatter near the rim above the ATES in STATES. NGC ID# 2543, PCGS# 7114 [1428 NOIMAGE](#)

10791 1880-O MS64 PCGS. Small or Micro O. Impressive forest-green, cherry-red, and peach-gold consumes the obverse. The reverse is brilliant aside from peripheral multicolor hues. Nicely struck and coruscating. NGC ID# 2543, PCGS# 7114 [1429 NOIMAGE](#)

10792 1880-S MS66 Deep Mirror Prooflike NGC. CAC. Medium S. Frosty devices provide exemplary contrast with glassy fields. Fully struck and magnificently preserved. This brilliant Premium Gem would be a standout within a 19th century silver type set. Ex: *Sacramento ANA Signature (Heritage, 3/2011)*, lot 3891. NGC ID# 2544, PCGS# 97119 [1266 NOIMAGE](#)

10793 1881-CC MS65 NGC. Frosty luster adds to the eye appeal of this Gem displaying largely silver-white surfaces with a few scattered areas of faint toning present. The strike is sharp overall, with incompleteness present at the centers. Ex: *Summer FUN (Heritage, 7/2007)*, lot 8393. NGC ID# 2547, PCGS# 7126 [49007 NOIMAGE](#)

10794 1881-CC MS66 NGC. From a low mintage of 296,000 pieces, this delightful Premium Gem exhibits razor-sharp definition on all design elements and vibrant mint luster with a few hints of pale gold toning. NGC ID# 2547, PCGS# 7126 [1446 NOIMAGE](#)

10795 1881-CC MS66+ PCGS. CAC. A high-end Premium Gem representative, this coin exhibits immediate eye appeal, due in part to untuned silver-white surfaces and frosty luster. The strike is sharp aside from the extreme centers and very few marks are present, all minuscule. NGC ID# 2547, PCGS# 7126 [1030 NOIMAGE](#)

**1881-S Morgan Dollar, MS68
Remarkable High-Grade Example**

10796 1881-S MS68 PCGS. This S-mint issue had an original mintage of 12.7 million business strikes and it has proven to be one of the most common dates in the ever-popular Morgan dollar series. Hundreds of thousands of Mint State survivors have been graded, but just a tiny fraction of that number that number, including this piece, have achieved the remarkable MS68 assessment at PCGS. This impressive Superb Gem is fully struck and both sides are pristine. It presents an essentially brilliant, highly lustrous, snow-white appearance in the fields and centers, while slight pinches of russet color are found near the borders. As an added bonus, this beautiful coin is encapsulated in an early PCGS holder with a green label. NGC ID# 2549, PCGS# 7130 [28008 STD](#)

10797 1882 MS66 PCGS. A delightful Premium Gem, with frosty-white surfaces and bright silver luster. Fully struck (as not always the case with this issue), the surfaces are free of all but the most minor pinpricks and luster grazes. A highly attractive example, sure to please the new owner. NGC ID# 254A, PCGS# 7132 [40051 NOIMAGE](#)

10798 1882-CC MS66 Prooflike PCGS. A stunning Premium Gem, this Carson City dollar displays a pleasing degree of contrast between the fields and devices. Areas of attractive gold toning are present, primarily at portions of the outer edges. The coin displays a sharp strike aside from the extreme centers. Minor scattered marks on the eagle's breast provide little distraction, if any. NGC ID# 254B, PCGS# 7135 [60135 NOIMAGE](#)

10799 1882-O MS65 PCGS. Pale toning is present on this Gem, with areas of gold, pale green, and denim-blue appearing at the extreme outer edges. Aside from the extreme centers, the strike is sharp. Only 31 examples have achieved higher numeric grades from PCGS (2/14). NGC ID# 254C, PCGS# 7136 [1349 NOIMAGE](#)

10800 1882-O MS65 PCGS. The obverse of this Gem displays attractive peach-red color while the reverse remains silver-white overall with light toning at the extreme outer edges. Tiny scattered splashes of teal are present on the obverse. Cartwheel luster adds to the strong eye appeal of this piece. PCGS has awarded higher numeric grades to only 31 examples (2/14). NGC ID# 254C, PCGS# 7136 [1417 NOIMAGE](#)

10801 1883-CC MS66+ PCGS. CAC. Cartwheel luster and silver-white surfaces are among the attributes this high-end Premium Gem possesses, providing this piece with strong visual appeal. The coin exhibits a sharp strike aside from the extreme centers. NGC ID# 254H, PCGS# 7144 [1062 NOIMAGE](#)

10802 1883-CC MS66+ PCGS. CAC. This high-end Premium Gem exhibits sharply detailed design elements and well-preserved brilliant surfaces with vibrant cartwheel mint luster. Eye appeal is outstanding. All CC-mint Morgan dollars are always in demand. NGC ID# 254H, PCGS# 7144 [1409 NOIMAGE](#)

**1883-CC Silver Dollar, MS67
Vivid, Neon Obverse Toning**

10803 1883-CC MS67 NGC. Sharply struck with bold detail at the centers, this iridescent Superb Gem dollar is visually impressive. Polychromatic toning with neon hues cover the obverse, while the reverse displays brilliant, frost-white surfaces. Lime-green, magenta, cyan, aqua, and olive-green coloration floats over brilliant silver luster. The surfaces show only a small abrasion located above the Motto, but nothing overly significant. NGC has not graded any numerically finer examples (2/14). NGC ID# 254H, PCGS# 7144 [1453 STD](#)

10804 1883-O MS66+ PCGS. CAC. Frosty devices, flashy fields, a sharp strike, and virtually untuned surfaces are among the attributes this high-end Premium Gem possesses. This wonderful coin exhibits spectacular eye appeal. Population: 38 in 66+, 42 finer (2/14). NGC ID# 254J, PCGS# 7146 [1041 NOIMAGE](#)

10805 1883-O MS66+ PCGS. CAC. The obverse of this high-end Premium Gem displays rich toning, while the reverse exhibits only faint toning, with an overall silver-white appearance. The obverse is largely golden-peach, with a small area of pastel lavender, blue, and green shades along the lower right edge. A sharp strike adds to the attractiveness. Population: 38 in 66+, 42 finer (2/14). NGC ID# 254J, PCGS# 7146 [1055 NOIMAGE](#)

1883-O Dollar, Conditionally Scarce MS67

10806 1883-O MS67 PCGS. The 1883-O Morgan, sporting a mintage of 8.7 million pieces, is readily available through MS65. In fact, the grading services have certified thousands of examples through this level of preservation. Premium Gems can be located with just a bit more difficulty, but then the population drops significantly. Only about 80 MS67s have been certified and none finer.

An arc of powder-blue and gold patina covers the upper and left obverse of this Superb Gem, leaving the remaining surfaces color-free. The design elements are well-struck though the centers are soft. Pleasing luster drapes both sides, each of which is nicely preserved. Population: 42 in 67 (1 in 67+), 0 finer (2/14). NGC ID# 254J, PCGS# 7146 [1145 STD](#)

10807 1884-CC MS66+ PCGS. CAC. VAM-2. The 1 in the date is obviously repunched. This virtually brilliant high grade Carson City type coin has potent luster and a sharp strike. Nearly pristine save for minor marks on Liberty's neck. NGC ID# 254M, PCGS# 7152 [1444 NOIMAGE](#)

10808 1884-CC MS66+ PCGS. CAC. VAM-7. The 18 in the date is repunched, one of several interesting RPD VAMs for this Carson City type issue. Brilliant and highly lustrous with an essentially immaculate obverse. Minor contact on the reverse field determines the grade. Struck from a rusted reverse die. NGC ID# 254M, PCGS# 7152 [45010 NOIMAGE](#)

**1884-CC Morgan Dollar, MS67
Richly Toned Obverse**

10809 1884-CC MS67 NGC. Underlying cartwheel luster enhances intense shades of blue, violet, magenta, and orange-gold on the obverse of this Superb Gem dollar, while the reverse shows just a whisper of golden-gray toning over brilliant-silver surfaces. A bold strike offers sharp detail surrounded by clean, smooth fields. Only two or three minor abrasions exist on the surfaces, and none are distracting. NGC has graded only one numerically finer example (1/14). NGC ID# 254M, PCGS# 7152 [1435 STD](#)

10810 1884-CC MS65 Deep Mirror Prooflike PCGS. VAM-5. The 1 in the date is repunched, as is the base of the left C in the mintmark. A fully brilliant Gem with exceptional cameo contrast between the icy motifs and the glassy fields. The strike is good and the reverse is well preserved. NGC ID# 254M, PCGS# 97153 [43009 NOIMAGE](#)

10811 1884-O MS67 PCGS. A gorgeous example, this Superb Gem displays lustrous, virtually untuned surfaces. Very few marks of any type are present, providing this coin with strong visual appeal. Population: 87 in 67, 1 finer (2/14). NGC ID# 254N, PCGS# 7154 [1022 NOIMAGE](#)

**1884-O Morgan Dollar, Lustrous MS67
Virtually Unobtainable Any Finer**

10812 1884-O MS67 PCGS. The 1884-O Morgan is an available date from a mintage of more than 9.7 million pieces and consequently is popular with mintmark type collectors. The grading services have certified thousands of examples through Premium Gem, after which the population falls dramatically. MS67s are scarce, and finer specimens are virtually unobtainable.

Ebullient luster radiates from the silver-gray surfaces of this Superb Gem. The design elements are slightly better struck than ordinarily seen, though only part of the hair above Liberty's ear shows. Both sides have been nicely cared for. Population: 87 in 67, 1 finer (2/14). NGC ID# 254N, PCGS# 7154 [1537 STD](#)

10813 1884-S AU58 NGC. A near-Mint example, this piece displays a strong strike aside from the extreme centers. The surfaces are largely brilliant, with faint scattered toning appearing on both sides. A minor rim disturbance at the top of the reverse poses minimal distraction, if any. NGC ID# 254P, PCGS# 7156 [1318 NOIMAGE](#)

10814 1884-S — Cleaning — PCGS Genuine. Unc. The 1884-S is famous for its conditional rarity in Mint State. The present piece displays pleasing cartwheel luster and has light pumpkin-gold toning at the margins. No bagmarks are consequential but the obverse displays inoffensive vertical hairlines. NGC ID# 254P, PCGS# 7156 [19015 NOIMAGE](#)

10815 1884-S AU55 Prooflike NGC. The 1884-S is a well known conditional rarity, and the issue is also highly elusive with prooflike fields. The present lightly abraded and partly lustrous example is brilliant aside from a narrow band of golden toning near the rims. Encapsulated in a prior generation holder. NGC ID# 254P, PCGS# 7157 [71001 NOIMAGE](#)

10816 1885 MS67 PCGS. CAC. A high-end early Philadelphia issue. Brilliant cartwheel luster beautifully showcases the exceptionally clean surfaces of this CAC-approved Superb Gem. Only two examples have graded numerically higher at PCGS (2/14). NGC ID# 254R, PCGS# 7158 [40009 NOIMAGE](#)

**1885 Morgan Dollar, MS67 Prooflike
Tied for Finest Certified at PCGS**

10817 1885 MS67 Prooflike PCGS. This magnificent Superb Gem exhibits sharply detailed design elements with a rich coat of mint frost and the well-preserved surfaces display prooflike reflectivity throughout. The surfaces are essentially brilliant and no mentionable distractions are evident. Population: 3 in 67 Prooflike, 0 finer (2/14). NGC ID# 254R, PCGS# 7159 [40014 STD](#)

10818 1885-CC MS66 PCGS. Cartwheel luster and minimally abraded, virtually untuned surfaces combine to provide this Premium Gem with tremendous eye appeal. In addition, the coin displays a sharp strike. PCGS has awarded higher numeric grades to only 59 examples (2/14). NGC ID# 254S, PCGS# 7160 [1039 NOIMAGE](#)

10819 1885-CC MS63 Deep Mirror Prooflike NGC. A Select representative with pleasing eye appeal, this piece displays pronounced contrast between the fields and devices. The coin exhibits silver-white color overall, with subtle toning present. A sharp strike adds to the attractiveness. NGC ID# 254S, PCGS# 97161 [71002 NOIMAGE](#)

10820 1885-O MS67 PCGS. CAC. A coin with strong visual appeal, this Superb Gem boasts lovely silver-white color, frosty luster, and very few marks, all of them minuscule. The piece exhibits a sharp strike, even at the centers. PCGS has yet to assign a higher numeric grade to a single example (2/14). NGC ID# 254T, PCGS# 7162 [1038 NOIMAGE](#)

10821 1885-S MS65+ PCGS. CAC. The obverse of this high-end Gem exhibits rich toning throughout, in hues of gold, orange, and red. The flashy reverse on the other hand, is largely free of toning aside from the extreme outer edges and a splash near OF. Adding to the appeal, the coin exhibits a sharp strike. Population: 14 in 65+, 35 finer (2/14). NGC ID# 254U, PCGS# 7164 [1032 NOIMAGE](#)

**1886-O Select Dollar
Above-Average Strike**

10822 1886-O MS63 PCGS. The 1886-O Morgan dollar circulated extensively in the channels of commerce, consequently it is very common in worn grades. Even Mint State pieces can be found through MS63, after which the issue becomes scarce. The lustrous, untoned surfaces of this Select specimen display relatively strong definition, including the center areas that are typically weak. Minute marks and scuffs determine the grade. Nevertheless, this is still a good-looking piece for the date and designated grade. NGC ID# 254W, PCGS# 7168 [1108 STD](#)

**1886-O Morgan Dollar
A Minimally Marked MS63**

10823 1886-O MS63 PCGS. The lustrous surfaces of this Select Morgan dollar display hints of light gold color, and the design features exhibit slightly better definition than ordinarily encountered on this issue. Indeed, a modicum of detail is apparent in the hair over Liberty's ear and the eagle's breast feathers, areas that are often flat. The outstanding feature of this coin is the minimally abraded surfaces. Despite a couple of light grazes on the obverse, both sides reveal fewer marks than what be expected for an MS63. NGC ID# 254W, PCGS# 7168 [1149 STD](#)

**1886-O Dollar, Near-Gem
Famous Condition Rarity**

10824 1886-O MS64 PCGS. The 1886-O is famous for its status as the rarest Morgan dollar issue in full Gem, though VF examples are plentiful. The present silver-gray near-Gem boasts vibrant luster. The strike is above average given its New Orleans origin. The reverse is well-preserved, and the obverse displays only wispy grazes. NGC ID# 254W, PCGS# 7168 [60163 STD](#)

10825 1886-O AU58+ Prooflike NGC. As indicated by the Plus designation, this near-Mint example possesses strong eye appeal. The lovely Prooflike surfaces display silver-white color. Though scattered marks are present, they pose limited distraction, if any. Census: 15 in 58 (1 in 58+) Prooflike, 10 finer (2/14). NGC ID# 254W, PCGS# 7169 [71006 NOIMAGE](#)

10826 1886-S MS64+ PCGS. CAC. The 1886-S Morgan dollar claims a low mintage of 750,000 pieces. This high-end Choice example offers well-detailed design elements and lustrous surfaces under shades of green and turquoise toning. NGC ID# 254X, PCGS# 7170 [1356 NOIMAGE](#)

10827 1886-S/S MS62 Deep Mirror Prooflike PCGS. VAM-2. A Top 100 Variety. A lower mintage issue, the 1886-S is a better date in Uncirculated grades and rare with deeply mirrored fields. This brilliant and boldly struck silver dollar has a smooth reverse, though the obverse displays expected marks. The mintmark is lightly repunched. PCGS# 42794 [71010 NOIMAGE](#)

10828 1887 MS67 PCGS. An impressive Superb Gem, with well-detailed design elements and vibrant mint luster throughout. The well-preserved surfaces show hints of pale gold and pink toning. PCGS has graded just one numerically finer example (2/14). NGC ID# 254Y, PCGS# 7172 [1373 NOIMAGE](#)

10829 1888 MS66+ PCGS. CAC. A sharp strike and virtually untuned surfaces add to the visual appeal of this high-end Premium Gem example. Strong luster and minimally marked surfaces are additional attributes this piece possesses. Population: 76 in 66+, 27 finer (2/14). NGC ID# 2555, PCGS# 7182 [1042 NOIMAGE](#)

**1888-O Silver Dollar, MS66+
Tied for Finest at PCGS**

10830 1888-O MS66+ PCGS. An essentially brilliant and high grade New Orleans type coin. Dynamic cartwheel sheen illuminates nearly unabraded surfaces. An interesting horizontal strike-through is noted on the dentils beneath the date. Unavailable any finer from PCGS. Population: 241 in 66 (12 in 66+), 0 finer (2/14). NGC ID# 2556, PCGS# 7184 [43008 STD](#)

10831 1888-S MS64 PCGS. CAC. Lustrous surfaces provide this near-Gem with a lovely appearance. Faint toning is present on the obverse. Though scattered marks and grazes are present, they do not pose a distraction on this nicely struck coin. NGC ID# 2557, PCGS# 7186 [1033 NOIMAGE](#)

1888-S Dollar, Lustrous MS65+

10832 1888-S MS65+ NGC. Enough 1888-S Morgan dollars exist that there is little difficulty locating one in MS63 or MS64. The issue becomes scarce in Gem, however, and rare any finer. The silver-gray surfaces of this high-end Gem display vibrant luster and well-struck design elements, though the hair over Liberty's ear is weak, as typically seen on this issue. Just a few minute marks and grazes prevent a finer grade. NGC ID# 2557, PCGS# 7186 [27011 STD](#)

10833 1888-S MS63 Deep Mirror Prooflike PCGS. Incredibly bright, reflective silver mirrors surround lightly frosted devices of this untuned and fully struck dollar. Quite a few Deep Mirror Prooflike examples came out of the Redfield hoard, but it is unknown if this is one of them. A few light abrasions interrupt the mirrored fields, preventing a higher grade. Liberty's cheek is clean. NGC ID# 2557, PCGS# 97187 [71007 NOIMAGE](#)

10834 1889 MS66 PCGS. CAC. This spectacular Premium Gem displays vibrant mint luster and well-detailed design elements under vivid shades of golden-brown, gray, and violet toning, with incredible eye appeal. PCGS has graded four numerically finer examples (2/14). NGC ID# 2558, PCGS# 7188 [1445 NOIMAGE](#)

10835 1889-CC VF20 NGC. This key Carson City dollar exhibits even wear on the design elements, with Liberty's ear bold and some interior detail intact in the hairlines. Both sides show irregular patches of amber toning. NGC ID# 2559, PCGS# 7190 [1328 NOIMAGE](#)

10836 1889-CC VF35 PCGS. A desirable Choice VF example of the rarest Carson City Morgan, this coin retains nice eye appeal on both sides. The evenly worn surfaces reveal attractive light gray color with hints of gold. The scattered marks present do not pose a distraction on this lovely piece. NGC ID# 2559, PCGS# 7190 [1102 NOIMAGE](#)

1889-CC Dollar, Toned XF40 A Key to the Series

10837 1889-CC XF40 PCGS. The 1889-CC dollar is one of the keys in the Morgan series and is the most elusive of Carson City dollars. Bowers (2007) suggests that: "In comparison to the demand for them, examples are rare in all grades." Soft yellow-gold and grayish-lavender patination runs over both sides of this XF40 example. Appropriate detail is seen on the design elements, and each side reveals the expected circulation marks, slightly more so on the obverse. NGC ID# 2559, PCGS# 7190 [1111 STD](#)

1889-CC Dollar, AU Details Close to Mint Sharpness

10838 1889-CC — Improperly Cleaned — NGC Details. AU. The high points display little if any actual wear. However, the pearl-white surfaces are subdued from dipping. This well struck key date Carson City dollar has a small reeding impression near Liberty's jaw but is otherwise surprisingly unabraded. Luster illuminates the eagle and portrait. NGC ID# 2559, PCGS# 7190 [1333 STD](#)

1889-O Morgan Dollar, MS65 Attractive and Conditionally Scarce

10839 1889-O MS65 PCGS. Mint State examples of this high-mintage New Orleans issue are numerous, but full-fledged Gems are scarce and Premium Gems are rare. This example is softly struck on some of the high points, especially across the centers, and the originally toned surfaces display bold satin luster. Shades of turquoise-green, olive-drab, slate-gray, and others mingle across the well-preserved surfaces. NGC ID# 255A, PCGS# 7192 [40026 STD](#)

10840 1889-S MS65 PCGS. Cartwheel luster and brilliant surfaces add to the strong visual appeal this Gem possesses. Areas of light gold toning appear at the extreme periphery. Aside from minor weakness at the extreme centers, the strike is sharp. A few scattered marks pose little distraction, if any. NGC ID# 255B, PCGS# 7194 [1104 NOIMAGE](#)

10841 1889-S MS65 PCGS. This spectacular Gem exhibits sharply detailed design elements and vibrant mint luster throughout. The mostly brilliant surfaces show a few hints of golden-tan toning and only minor signs of contact are evident. NGC ID# 255B, PCGS# 7194 [40053 NOIMAGE](#)

10842 1890 MS65 PCGS. The 1890 Morgan dollar is rare in grades above the Choice level. This impressive piece displays sharply detailed design elements and lustrous surfaces with no mentionable distractions. PCGS has graded only one numerically finer example (2/14). NGC ID# 255C, PCGS# 7196 [40056 NOIMAGE](#)

10843 1890-CC MS64 PCGS. VAM-3. The 90 in the date is repunched southwest. A few subtle splashes of peach patina augment the eye appeal of this lustrous and nicely struck near-Gem. The fields are smooth and the cheek displays only minor grazes.
Ex: Thrifty Scot Collection (Heritage, 9/2009), lot 1091, which realized \$1,265. NGC ID# 255D, PCGS# 7198 [49005 NOIMAGE](#)

10844 1890-CC MS62+ Deep Mirror Prooflike PCGS. CAC. VAM-3. The 90 in the date is lightly repunched. A stone-white scarcer date Carson City dollar with pleasing cameo contrast between the frosty devices and darkly reflective fields. Small marks are present but chiefly confined to the left obverse. NGC ID# 255D, PCGS# 97199 [1354 NOIMAGE](#)

10845 1890-O MS65 PCGS. A lovely Gem displaying satin luster, the centers remain largely brilliant with areas of attractive toning appearing at portions of the outer edges. The hues include deep gold, aquamarine, and red. The centers exhibit an incompleteness of strike. Only 20 examples have achieved higher numeric grades from PCGS (2/14). NGC ID# 255E, PCGS# 7200 [1073 NOIMAGE](#)

10846 1890-O MS65 PCGS. This delightful Gem exhibits sharply detailed design elements, a characteristic not always seen on O-mint coins of the 1890s. The well-preserved surfaces are brilliant and brightly lustrous. NGC ID# 255E, PCGS# 7200 [1407 NOIMAGE](#)

1890-S Dollar, Radiant MS66+ Seldom Seen Finer

10847 1890-S MS66+ PCGS. The 1890-S is a somewhat better date within the Morgan series even in Gem condition. This frosty silver-white MS66+ PCGS example is one of only nine such submissions at that service with six finer (2/14). Radiant cartwheel luster and a clean cheek are among the many draws here. NGC ID# 255F, PCGS# 7202 [1540 STD](#)

1891 Morgan Dollar, MS65 Scarce Any Finer

10848 1891 MS65 PCGS. Frosty luster is present on this Gem exhibiting a sharp strike overall. Toning is present on both sides, with the colors including hues of turquoise, plum, golden-brown, and gray green. Arguably, the colors are more appealing on the obverse. PCGS has awarded higher numeric grades to only 3 examples (2/14). NGC ID# 255G, PCGS# 7204 [1491 STD](#)

1891 Morgan Dollar, MS65 Only Three Finer Coins at PCGS

10849 1891 MS65 PCGS. Strong luster is among the attributes this Gem possesses. Light toning, primarily on the obverse adds to the visual appeal. The colors include pale shades of teal, plum, and golden-orange. The strike is sharp aside from the extreme centers. PCGS and NGC combined have awarded higher numeric grades to only 5 examples (2/14). NGC ID# 255G, PCGS# 7204 [1512 STD](#)

10850 1891 MS64 Prooflike PCGS. David Bowers described this Philadelphia date as “often insipid and grainy, not at all attractive,” so this appealing example offers an excellent opportunity. Untoned and brilliant silver-white surfaces are fully prooflike and reflective. The strike is surprisingly bold for this issue. Only a few tiny abrasions are seen anywhere on the coin and determine the near-Gem grade. NGC ID# 255G, PCGS# 7205 [28022 NOIMAGE](#)

10851 1891-CC MS64 NGC. VAM-3. A Top 100 Variety. The “Spitting Eagle” is among the best-known Morgan dollar varieties and was found on many of the GSA ‘91-CC dollars. This lustrous and virtually brilliant near-Gem is crisply struck, and attractive despite a moderate mark on the edge of the right (facing) wing. Ex: *Long Beach Signature* (Heritage, 6/2007), lot 1553. NGC ID# 255H, PCGS# 7206 [49006 NOIMAGE](#)

10852 1891-CC MS64+ PCGS. CAC. VAM-3. A Top 100 Variety. The collectible and interesting “Spitting Eagle” VAM, named after the die lump beneath the beak. Splashes of rich peach patina endow this lustrous, nicely struck, and well preserved Carson City near-Gem. NGC ID# 255H, PCGS# 7206 [1461 NOIMAGE](#)

1891-CC VAM-3 Dollar, MS65 ‘Spitting Eagle’ Variety

10853 1891-CC Spitting Eagle, VAM-3, MS65 PCGS. A Top 100 Variety. While the Spitting Eagle is actually the most common of all 1891-CC varieties, it is popular among Morgan dollar collectors. The silver-white surfaces of this Gem display pleasing luster. The design elements are relatively well-struck, although the centers are ill defined, as often seen. A few scattered marks are within the confines of the designated grade. Population: 14 in 65 (1 in 65+), 1 finer (2/14).). NGC ID# 255H, PCGS# 7206 [1109 STD](#)

1891-CC Dollar, MS65 VAM-6, Die Doubled Reverse

10854 1891-CC MS65 PCGS. VAM-6. A lightly toned and well struck Gem with minor luster grazes on the left obverse and beneath the motto. AMERICA is die doubled, as are other nearby design elements. Much rarer than the better known “Spitting Eagle” VAM-3. The letter N from IN is faintly clashed in front of Liberty’s neck, which suggests eventual classification as VAM-6A. NGC ID# 255H, PCGS# 7206 [1554 STD](#)

1891-CC Morgan Dollar, MS65
Gorgeous VAM-3 Example

10855 1891-CC MS65 PCGS. VAM-3. A Top 100 Variety. Though undesignated as such on the holder, this is an example of the "Spitting Eagle" variety, so-named because of the die gouge below the eagle's beak that resembles saliva. Lustrous silver-white surfaces provide this Gem with a high degree of visual appeal. The strike is sharp aside from the extreme centers. The number of certified examples drops significantly beyond the MS65 grade, with PCGS having assigned higher numeric grades to only 29 examples (2/14). NGC ID# 255H, PCGS# 7206 [40038 STD](#)

1891-O Morgan Dollar, MS65
Extremely Rare in Finer Grades

10856 1891-O MS65 PCGS. The 1891-O Morgan dollar was produced in large numbers, but the issue is scarce at the MS65 level, and finer coins are virtually unobtainable. This attractive Gem features well-detailed design elements and vibrant mint luster, with a few hints of pale jade toning. PCGS has graded no numerically finer examples (2/14). NGC ID# 255J, PCGS# 7208 [40040 STD](#)

1891-S Morgan Dollar, MS65+ Prooflike
An Impressive, Conditionally Rare Example

10857 1891-S MS65+ Prooflike PCGS. In his 1993 *Silver Dollars and Trade Dollars of the United States, A Complete Encyclopedia*, Dave Bowers noted that the Redfield Hoard contained a significant number of prooflike 1891-S dollars. He added: "The enormous number of prooflike 1891-S dollars in this hoard reduced the relative prooflike rarity of this date. However in fully prooflike condition and without spotting, the 1891-S is still a rare coin." The current offering represents a lovely example with fully struck devices and pleasingly preserved surfaces. It is almost entirely free of the bothersome spots that Bowers noted, and, in addition to being conditionally rare, it is a highly attractive piece overall. Population: 25 in 65 (2 in 65+) Prooflike, 1 finer (2/14). NGC ID# 255K, PCGS# 7211 [27017 STD](#)

10858 1892 MS64 PCGS. This attractive Choice Morgan dollar displays well-detailed design elements, with a touch of softness on the hair strands above Liberty's ear. The mostly brilliant surfaces show a few traces of golden-tan and violet toning. NGC ID# 255L, PCGS# 7212 [1351 NOIMAGE](#)

1892 Morgan Dollar, MS65
Rare Any Finer

10859 1892 MS65 PCGS. A small mintage of just over 1 million pieces yielded few examples in high Mint State grades. The 1892 dollar is an extreme rarity in MS66 or higher (and priced accordingly), making Gem examples such as this coin the logical choice for most collectors assembling a high-grade set. One-sided toning offers shades of violet, blue, and golden orange on the obverse. The reverse displays lustrous, frost-white surfaces. Although a bit soft on Liberty's hair over the ear, this example is sharply struck elsewhere, and no mentionable abrasions are seen. PCGS has graded just four examples numerically finer (2/14). NGC ID# 255L, PCGS# 7212 [1455 STD](#)

10860 1892-CC — Improperly Cleaned — NGC Details. Unc. Upon first glance, this scarcer date Carson City dollar appears to be unimpaired. Both sides display sweeping luster and the well struck surfaces are only lightly marked. Close evaluation reveals a glossy and hairlined area on the back of Liberty's cap. NGC ID# 255M, PCGS# 7214 [1339 NOIMAGE](#)

10861 1892-CC MS63 PCGS. CAC. Deep peach-red toning is confined to portions of the peripheries. Most of this semiprooflike representative remains brilliant. Well struck and only lightly abraded. The eagle exhibits a pair of small tan spots.
Ex: Long Beach Signature (Heritage, 9/2009), lot 1111. NGC ID# 255M, PCGS# 7214 [49004 NOIMAGE](#)

10862 1892-O MS64 NGC. Frosty luster appears on this brilliant near-Gem representative displaying areas of subtle pale pink toning, providing this piece with a pleasing degree of visual appeal. Scattered marks, primarily on the reverse, held this lovely piece from a higher grade. NGC ID# 255N, PCGS# 7216 [1296 NOIMAGE](#)

10863 1892-O MS64+ NGC. This high-end Choice Morgan dollar exhibits well-detailed design elements with a touch of the usual softness on the hair strands above Liberty's ear. The lustrous surfaces are remarkably free of distractions and show a few hints of golden-tan toning. NGC ID# 255N, PCGS# 7216 [28029 NOIMAGE](#)

10864 1892-O MS64+ PCGS. This high-end Choice example shows a touch of the typical softness on the hair above the ear, but the peripheral devices are sharply rendered. The lustrous surfaces show a few hints of golden-tan toning and only minor signs of contact. NGC ID# 255N, PCGS# 7216 [60148 NOIMAGE](#)

1892-O Morgan Dollar, MS65
Strong Visual Appeal

10865 1892-O MS65 PCGS. Silver-white surfaces and strong luster provide this Gem with immediate eye appeal. The coin displays a sharp strike overall, save for the extreme centers. Minimally abraded surfaces are an additional attribute this gorgeous piece possesses. Minuscule flecks appear on both sides. PCGS and NGC have each only awarded higher numeric grades to 5 examples (2/14). NGC ID# 255N, PCGS# 7216 [1153 STD](#)

10866 1892-S AU50 PCGS. A pleasing, lightly circulated example, this coin exhibits light wear on the high points. The piece is virtually untoned. Importantly, none of the surface marks present are worthy of individual mention. NGC ID# 255P, PCGS# 7218 [1019 NOIMAGE](#)

10867 1893-CC VF35 PCGS. The final date of the Carson City series, the 1893-CC Morgan dollar claims a mintage of 677,000 pieces. This pleasing Choice VF specimen shows a little wear on the hair above the ears and eagle's breast and the lightly abraded surfaces display shades of champagne-gold and pink toning. NGC ID# 255S, PCGS# 7222 [4903 NOIMAGE](#)

10868 1893-CC XF40 NGC. Even wear and an absence of marks worthy of mention add to the appeal of this circulated example of the 1893-CC Morgan, the last of the Carson City Mint dollars. A few subtle hints of gold and brown toning are present. NGC ID# 255S, PCGS# 7222 [15028 NOIMAGE](#)

10869 1893-O AU58 NGC. Luster remains beneath the light patina on this nicely struck near-Mint State survivor. The toning includes hues of gold and olive-green. As expected at this grade level, scattered marks are present. However, they are minor in nature. NGC ID# 255T, PCGS# 7224 [1307 NOIMAGE](#)

10870 1893-O AU58 NGC. A pleasing degree of luster remains on this appealing near-Mint example. The coin is virtually untoned aside from a small amount of golden-brown toning at the outer edges of the obverse. Aside from a hair thin mark near 4 o'clock on the obverse, the surfaces do not reveal any distractions. NGC ID# 255T, PCGS# 7224 [1311 NOIMAGE](#)

1893-O Morgan Dollar, MS62
Low-Mintage O-Mint Issue

10871 1893-O MS62 PCGS. The lustrous surfaces of this piece reveal scattered toning in faint hues of orange and golden-brown. Light marks and abrasions are present, but do not pose a significant distraction. The reverse exhibits a few small pieces of debris. Only 300,000 examples of the 1893-O Morgan dollar were struck, making it the lowest mintage issue of the series produced at the New Orleans Mint. NGC ID# 255T, PCGS# 7224 [1156 STD](#)

10872 1893-S — Reverse Scratched — NGC Details. Fine. A series of vertical pinscratches beneath IN GOD WE TRUST are the product of an idle hour perhaps a century ago. The reverse is deeply toned plum-mauve and gunmetal-blue, while the obverse is cream-gray aside from peripheral golden-brown and forest-green. NGC ID# 255U, PCGS# 7226 [1334 NOIMAGE](#)

1893-S Dollar, XF Details

10873 1893-S — Improperly Cleaned — NGC Details. XF. Well detailed for the XF level, this key date silver dollar also exhibits a generous amount of luster across both peripheries. Both sides are stone-gray though the obverse additionally displays subtle lilac tints. Subdued and minutely granular from a dip, yet an important opportunity to complete many advanced collections of the widely held series. NGC ID# 255U, PCGS# 7226 [1340 STD](#)

1893-S Silver Dollar, AU Details

10874 1893-S — Cleaning — PCGS Genuine. AU Details. Both sides display coarse hairlines, but the borders and motifs exhibit ample luster. The eagle's breast is worn, as is the hair above the ear, but the remaining definition is crisp. Lightly toned almond-gold with glimpses of lilac on the lower reverse. The low mintage key to the business strike Morgan dollar series. NGC ID# 255U, PCGS# 7226 [76001 STD](#)

10875 1894-S MS60 Prooflike PCGS. Prooflike dollars from the mid-1890s are not often encountered, but this example qualifies as one of the few. As expected for this issue, the strike is bold. The coin is brilliant-white except for a touch of reddish-brown at the margins, with myriad small abrasions in the obverse fields defining the grade. NGC ID# 255X, PCGS# 7233 [71009 NOIMAGE](#)

**1895-S Morgan Dollar, MS64+
Seldom Encountered in High Grade**

10876 1895-S MS64+ PCGS. CAC. Only 400,000 Morgan dollars were produced at the San Francisco Mint in 1895, a small mintage in the context of the series. Some of the coins were released into circulation but a number were held in banks and Treasury vaults until a later date. Of the coins that were held in government storage, a number were undoubtedly melted under the provisions of the Pittman Act in 1918. The survivors were gradually released over the years, but few were saved for numismatic purposes. Most Mint State specimens show evidence of rough handling in storage, with excessive bagmarks a common problem.

This high-end Choice example displays well-detailed design elements, with a touch of softness on the hair above the ear. The brilliant surfaces show a mix of cartwheel mint luster and prooflike reflectivity, with a few minor contact marks on both sides. PCGS has graded 38 numerically finer examples (2/14). NGC ID# 255Z, PCGS# 7238 [1459 QP](#)

10877 1896 MS66+ PCGS. CAC. A thin crescent of toning appears along portions of the extreme right obverse margin on this high-end Premium Gem representative. The colors include yellow, orange, red, grape, and several shades of green. The remainder of the coin exhibits silver-white color and frosty luster. A sharp strike is an additional attribute. NGC ID# 2562, PCGS# 7240 [1061 NOIMAGE](#)

**1896 Silver Dollar, MS67+
Rich Multicolor Patina**

10878 1896 MS67+ PCGS. CAC. Remarkable ocean-blue, plum-red, and peach-gold toning encompasses nearly all of the obverse. The reverse is brilliant aside from peripheral arc of honey patina. A well struck Superb Gem with booming luster and uncommonly smooth surfaces. Though the 1896 is a high mintage issue, examples of the present extraordinary quality are undeniably rare. NGC ID# 2562, PCGS# 7240 [72001 STD](#)

10879 1896-O MS61 NGC. CAC. Scattered toning appears primarily on the obverse of this Mint State example. The colors include shades of gold, orange, and olive-green. The strike is pleasing overall, with incompleteness present at the centers. NGC ID# 2563, PCGS# 7242 [1316 NOIMAGE](#)

**1896-O Morgan Dollar, MS63
Seldom Encountered in Finer Grades**

10880 1896-O MS63 PCGS. The 1896-O Morgan dollar is widely known as a poorly produced issue, with weak strikes and lackluster surfaces the norm. This attractive Select example has a better-than-average strike, with well-detailed design elements, and the lustrous surfaces are free of large and distracting contact marks. PCGS has graded 31 numerically finer examples (2/14). NGC ID# 2563, PCGS# 7242 [40041 STD](#)

10881 1896-O MS61 Prooflike NGC. The 1896-O Morgan dollar is seldom encountered with sharply detailed design elements and reflective fields but this specimen possesses both of those attributes. Shades of greenish-gold toning visit the surfaces, with a scattering of minor contact marks on both sides. Census: 7 in 61 Prooflike, 3 finer (2/14). NGC ID# 2563, PCGS# 7243 [71004 NOIMAGE](#)

**1897-O Morgan Dollar, MS63
New Orleans Scarcity**

10882 1897-O MS63 NGC. A Select representative, this coin displays toning in intermingled shades of peach, gold, and pale green. Save for the extreme centers, this piece exhibits a sharp strike. Scattered marks held this lovely piece from a higher grade. The 1897-O Morgan dollar is scarcer than the mintage of over 4 million might suggest. NGC ID# 2566, PCGS# 7248 [1216 STD](#)

**1897-S Dollar, MS66 Prooflike
Conditionally Scarce**

10883 1897-S MS66 Prooflike PCGS. This San Francisco issue is not uncommon in Prooflike condition, but Premium Gems with fully prooflike surfaces are scarce, and Prooflike Superb Gems are rare. This is a gorgeous specimen with profound contrast observed between the sharply struck devices and the glassy, highly reflective fields. Surface flaws are minimal, as expected for the lofty MS66 Prooflike designation. Population: 27 in 66 (1 in 66+) Prooflike, 3 finer (2/14). NGC ID# 2567, PCGS# 7251 [28007 STD](#)

10884 1898-S MS65 PCGS. The mintmark is lightly repunched, evident on the upper serif. Brilliant and lustrous with smooth fields and a solitary graze above Liberty's jaw. The centers show minor inexactness. NGC ID# 256A, PCGS# 7256 [40052 NOIMAGE](#)

10885 1900 MS66+ PCGS. CAC. A sharp strike, virtually untuned surfaces, and minimal marks add to the strong eye appeal this high-end Premium Gem possesses. Frosty luster is also present on this lovely piece. Population: 39 in 66+, 32 finer (2/14). NGC ID# 256E, PCGS# 7264 [1007 NOIMAGE](#)

10886 1901 AU58 NGC. CAC. Light toning, in shades of gold, olive-green, and gray, appears on both sides of this near-Mint example. Aside from the extreme centers, the strike is sharp, adding to the appeal. NGC ID# 256J, PCGS# 7272 [1317 NOIMAGE](#)

10887 1903-O MS66 PCGS. Jade-green and gunmetal-gray enrich lustrous and uncommonly unabraded surfaces. The 1903-O was regarded as a major rarity before the early-1960s Treasury release of sealed bags of Uncirculated examples. Nonetheless, the issue is scarce in the present quality. NGC ID# 256S, PCGS# 7286 [48005 NOIMAGE](#)

10888 1904 MS65 PCGS. Attractive toning covers both sides of this lustrous, well-struck Gem. The obverse features rich hues of golden-orange with a few scattered splashes of pale green-blue. The reverse is arguably the more attractive side, with intermingled shades of teal, red, copper, and gold. Only 18 examples have achieved higher numeric grades from PCGS (2/14). NGC ID# 256U, PCGS# 7290 [1023 NOIMAGE](#)

10889 1921 MS66+ PCGS. This high-end Premium Gem represents the final year of the Morgan design. The design elements are sharply detailed throughout and the well-preserved surfaces display vibrant mint luster under shades of greenish-gold toning. PCGS has graded eight numerically finer examples (2/14). NGC ID# 256X, PCGS# 7296 [60147 NOIMAGE](#)

10890 1921-D MS66 NGC. This Premium Gem exhibits sharply detailed design elements and vibrant mint luster with ample eye appeal. The brilliant surfaces are well-preserved and a few roller marks in the upper reverse field are the only marks of note. NGC has graded nine numerically finer examples (2/14). NGC ID# 256Y, PCGS# 7298 [1391 NOIMAGE](#)

**1921-S Morgan Dollar, MS64
Rare Prooflike Example**

10891 1921-S MS64 Prooflike NGC. From a huge mintage of more than 21 million pieces, the 1921-S Morgan dollar is surprisingly rare with prooflike surfaces. This attractive Choice specimen features sharply detailed design elements and slightly reflective fields, with hints of pale jade toning on both sides and few signs of contact. Census: 5 in 64 Prooflike, 1 finer (2/14). NGC ID# 256Z, PCGS# 7301 [71005 STD](#)

PROOF MORGAN DOLLARS

**1880 Silver Dollar, PR67
Attractively Toned and Lustrous**

10892 1880 PR67 NGC. Reflective fields emerge beneath the multicolor patina present on this Superb Gem. Closer examination reveals hues of apple green, deep pink, red, pale blue, golden orange, and violet. Aside from the extreme centers, the strike is sharp. A hair thin mark appears between the E in ONE and the D in DOLLAR at the lower reverse. Census: 29 in 67 (1 in 67+), 10 finer (2/14). NGC ID# 2724, PCGS# 7315 [1188 STD](#)

**1894 Morgan Dollar, PR63
Lovely Cameo Contrast**

10893 1894 PR63 Cameo PCGS. An impressive piece, this sharply struck Select example earned the Cameo designation from PCGS. Appreciable contrast exists between the frosted devices and richly mirrored fields. Lightly toned, areas of teal are present near the outer edges. A few tiny spots appear on the obverse. Population: 14 in 63 Cameo, 50 finer (2/14). PCGS# 87329 [1166 STD](#)

**1894 Morgan Dollar, PR67 Cameo
Elusive Issue in Proof or Business-Strike Format**

10894 1894 PR67 Cameo PCGS. A nominal mintage of 972 proof Morgan dollars was accomplished at the Philadelphia Mint in 1894, but the business-strike mintage was only 110,000 pieces, making the date elusive in both formats. A surprisingly large delivery of 341 proofs took place in December, probably anticipating a large demand as Christmas gifts. Some of these coins probably went unsold and were melted after the end of the year.

The present coin is a magnificent Superb Gem, with sharply detailed frosty design elements that contrast boldly with the deeply mirrored fields. The well-preserved surfaces are essentially brilliant and show no mentionable distractions. Eye appeal is incredible. Population: 6 in 67 (2 in 67+) Cameo, 0 finer (2/14). PCGS# 87329

**1900 Dollar, Toned PR63 Cameo
Exceptional Contrast and Eye Appeal**

10895 1900 PR63 Cameo PCGS. The Mint struck 912 proof Morgan dollars in 1900, the most generous amount for the final years of the series since 1894. The population data indicates that about 20 percent of the certified examples are Cameos. Deep cobalt-blue and lavender patination around the peripheries cedes to tan and russet-gold in the centers. The design elements are sharply struck, including the hair above Liberty's ear and the eagle's breast feathers. A few faint hairlines and contact marks show under a loupe. Nevertheless, this is a wonderful coin with exceptional contrast and outstanding eye appeal. Population: 11 in 63 Cameo, 36 finer (2/14). Ex: Long Beach Signature (Heritage, 2/2009), lot 1994. PCGS# 87335 [1120 STD](#)

10896 1901 — Stained — NGC Details. Proof. VAM-4. Rich golden-brown and forest-green embraces this unmarked but somewhat subdued specimen. The centers display moderate inexactness of strike. ONE DOLLAR is lightly die-doubled, as always on proofs of this date. NGC ID# 27ZZ, PCGS# 7336 [1336 NOIMAGE](#)

PEACE DOLLARS

10897 1922 MS66+ PCGS. CAC. Availability of 1922 Peace dollars drops off sharply beyond MS66, with numerically finer examples rare. This Plus-graded Premium Gem displays bright mint bloom that shines through blended hues of green, lavender, champagne, and ice-blue frost. CAC-approved with beautifully preserved surfaces. NGC ID# 257C, PCGS# 7357 [1353 NOIMAGE](#)

10898 1923 MS66+ PCGS. CAC. As the grade implies, this high-end Premium Gem exhibits spectacular eye appeal. Rich silver-white surfaces, strong luster, and very few abrasions, all minuscule, are attributes of this desirable coin. PCGS has awarded higher grades to only 50 examples (2/14). NGC ID# 257F, PCGS# 7360 [1059 NOIMAGE](#)

10899 1923-D MS65 NGC. Much scarcer in Gem grades than its P-mint counterpart, this Denver-issued piece exhibits significant mint luster that shines through finely stippled multicolor toning. Scattered green, lavender, gold, and ocean-blue hues abound on both sides, with only minimal abrasions detectable under close examination. NGC ID# 257G, PCGS# 7361 [1382 NOIMAGE](#)

10900 1924-S MS64 PCGS. CAC. The surfaces on both sides of this near-Gem example are largely covered in a light patina. The colors include hues of olive-green, tan, and green-brown. Areas of luster emerge beneath the toning. Scattered marks on Liberty's jaw and neck pose limited distraction. The number of certified examples drops drastically at the Gem level and above. NGC ID# 257K, PCGS# 7364 [1101 NOIMAGE](#)

10901 1925 MS66+ PCGS. CAC. Brilliant silver-white surfaces and strong luster provide this high-end Premium Gem with tremendous visual appeal. A few minuscule marks on Liberty do not detract from the appearance of this pleasing piece. NGC ID# 257L, PCGS# 7365 [1235 NOIMAGE](#)

10902 1926-D MS66 PCGS. A slightly challenging date in Premium Gem condition, this 1926-D Peace dollar displays fully brilliant mint bloom with a needle-sharp strike. Well-preserved, frosty surfaces present an outstanding cartwheel effect when tilted under a light. Only 15 examples have graded numerically finer at PCGS and NGC combined (2/14). NGC ID# 257P, PCGS# 7368 [43013 NOIMAGE](#)

10903 1927-S MS64 PCGS. CAC. Strongly contributing to the eye appeal, this piece exhibits potent satin luster, particularly on the reverse. This near-Gem displays areas of subtle toning at the outer edges, with the shades including teal and golden-brown. As is typically the case with this issue, this coin exhibits a soft strike. The reverse reveals a lamination near 3 o'clock. NGC ID# 257U, PCGS# 7372 [1100 NOIMAGE](#)

10904 1928 MS64 PCGS. Principally lightly toned butter-gold though narrow bands of sea-green and lavender adorn the lower reverse. A lustrous and low mintage near-Gem with pleasing preservation. Certified in a green label holder. NGC ID# 257V, PCGS# 7373 [27016 NOIMAGE](#)

10905 1928 MS64 PCGS. From a series-low mintage of 360,649 pieces, this impressive Choice example displays vibrant mint luster and well-detailed design elements with highlights of pale gold toning. NGC ID# 257V, PCGS# 7373 [44003 NOIMAGE](#)

10906 1928 MS64 PCGS. CAC. A light gold and tan patina covers this near-Gem specimen, with a pleasing degree of luster emerging beneath the faint hues. Scattered marks are present, but they are minuscule and not distracting. NGC ID# 257V, PCGS# 7373 [44004 NOIMAGE](#)

10907 1928-S MS64+ PCGS. A lustrous and stone-white near-Gem. Marks are minimal and the strike is fairly sharp. The right obverse field exhibits prominent die polish lines, as made. The monogram and portions of IN GOD WE TRVST are die doubled, usual for this scarce San Francisco issue. NGC ID# 257W, PCGS# 7374 [40043 NOIMAGE](#)

10908 1934-D MS65+ PCGS. CAC. Medium D. One of the lesser-seen, 1930s Peace dollars, this outstanding Plus-graded Gem exhibits full mint bloom with a razor-sharp strike. Frosty, well-preserved surfaces are remarkably free of noticeable abrasions, which bring this fully brilliant coin incredibly close to the next higher grade. NGC ID# 257Y, PCGS# 7376 [40048 NOIMAGE](#)

1934-S Dollar, Exceptional MS63 Key to the Series

10909 1934-S MS63 PCGS. CAC. The 1934-S is the key to the Peace dollars series. In addition to its relatively small mintage just exceeding 1 million pieces, many were released into circulation making the 1934-S the rarest issue in Uncirculated grades. The frosty surfaces of the present Select offering have a suggestion of gold on silver-white surfaces, and a dot of crimson toning appears just above the eagle's talons. The design elements exhibit an above-average strike, including the hair over Liberty's ear, an area that is usually flat. Scattered minute marks account for the grade. This specimen displays pleasing eye appeal for the designated grade, appropriately recognized by CAC. NGC ID# 257Z, PCGS# 7377 [1110 STD](#)

COMMEMORATIVE SILVER

10910 1893 Isabella Quarter MS65 PCGS. Each side offers rich watermelon and sapphire peripheral toning. The obverse shows similar, lighter colors at the center, while the reverse is silver-gray in that zone with deeper shadings at the margins compared to the other side. *Ex: Baltimore Signature (Heritage, 3/2009), lot 1673.* NGC ID# 28HR, PCGS# 9220 [25003 NOIMAGE](#)

1893 Isabella Quarter, An Amazing MS68

10911 1893 Isabella Quarter MS68 PCGS. CAC. The Isabella quarter dollar traces its conception to a Mrs. Potter Palmer, a Chicago socialite, patron of the arts, and *grande dame* of the World's Columbian Exposition. She suggested to the Appropriations Committee of the House of Representatives that \$10,000 of the money earmarked for the Board of Lady Managers of the Exposition be given in the form of a special issue of "souvenir" quarter dollars. This Board had been formed at the insistence of women's rights advocate Susan B. Anthony, who was determined that women should be adequately represented in the administration of the Exposition. The Board of Lady Managers took charge of the quarter dollar project and stated that the coins were to have female motifs. Queen Isabella of Spain, sponsor of Columbus's voyages to the New World, was chosen as the primary image on the coin. A kneeling woman with distaff was put on the reverse.

A law approved March 3, 1893 authorized the production of 40,000 Isabella quarters. The number minted (including 23 assay coins) came to 40,023, of which 15,809 were eventually melted, leaving a net distribution of 24,214 pieces.

Isabella quarters are available through near-Gem, and Gem and Premium Gems can be located with patience and searching; MS67s are scarce. PCGS and NGC have graded a total of 14 MS68 coins, two of which PCGS has graded as MS68+ (1/14).

Intense luster emanates from both sides, each of which displays a medley of soft cobalt-blue, lavender, gold, and gray toning. The design elements exhibit razor-sharp definition, and close examination reveals no marks on the immaculately preserved surfaces. This amazing example is simply beautiful to behold. Housed in a first generation holder. NGC ID# 28HR, PCGS# 9220

1182 FP

**1900 Lafayette Dollar, MS65
Subtle Rainbow Rim Toning**

10912 1900 Lafayette Dollar MS65 PCGS. DuVall 2-C. This lovely Gem example of this popular one-off commemorative will appeal to any collectors save for the “brilliant is best” crowd. Bands of original patina encircle each side in subtle rainbow shades, and the jugate portraits of Washington and Lafayette are free of all save the tiniest marks. A great topper for a fine commemorative set, this piece would also make a fine acquisition for collectors who dabble in crown-sized coins or the many American dollar types. NGC ID# 28N8, PCGS# 9222 [1529 STD](#)

**1921 Alabama Half Dollar, MS66
Strong Mint Luster**

10913 1921 Alabama MS66 PCGS. Strong mint luster is the main selling point for the Alabama half dollar. This example certainly displays that element. Additionally, the silver-blue surfaces show just a hint of golden peripheral color around the obverse. Only a few tiny marks appear on the conjoined portraits. NGC ID# 28HT, PCGS# 9224 [28004 STD](#)

10914 1921 Alabama 2x2 MS66 PCGS. The Alabama centennial half dollar marks the first instance where a living person (Governor, Thomas Kilby) appeared on an official United States coin. The present example is lightly toned with pale lavender, champagne, and ice-blue hues tinting both sides. Satiny luster reveals nicely preserved surfaces, giving this piece attractive eye appeal. NGC ID# 28HS, PCGS# 9225 [40054 NOIMAGE](#)

10915 1936-S Arkansas MS67 PCGS. CAC. A Superb Gem, this coin boasts strong visual appeal due to pleasing luster and areas of attractive toning. Both sides reveal frosty light green color, primarily at the outer edges, along with orange and pale gold shades. Population: 17 in 67 (2 in 67+), 0 finer (2/14). NGC ID# 28J3, PCGS# 9239 [1035 NOIMAGE](#)

10916 1939-S Arkansas MS66 PCGS. CAC. The last year in the Arkansas centennial half dollar production run, 1939 also saw the lowest mintages from all three mints. This well-preserved San Francisco example displays satiny luster with just a tint of light golden tone overall. Only 10 examples have graded numerically finer at PCGS (2/14). NGC ID# 28JC, PCGS# 9251 [1347 NOIMAGE](#)

10917 1934 Boone MS67 PCGS. CAC. Strong luster and attractive toning add to the appeal of this Superb Gem representative. The toning covers large portions of the obverse and smaller areas of the reverse. The colors include hues of yellow, orange, and lavender. Population: 40 in 67 (3 in 67+), 1 finer (2/14). NGC ID# 28JE, PCGS# 9257 [1060 NOIMAGE](#)

**1935 Boone Half Dollar, MS67+
Stunning, Conditionally Rare Example**

10918 1935 Boone MS67+ PCGS. CAC. The 1935 Boone half dollar saw a net distribution of around 10,000 pieces, yet of the 57 Superb Gems graded of this issue at PCGS only six have attained the Plus grade and none are finer (2/14). This coin shows flowing luster amid pale mint-green centers rimmed with copper-gold and charcoal iridescence. A stunning example of the type. NGC ID# 28JE, PCGS# 9258 [60144 STD](#)

10919 1925-S California MS65 PCGS Secure. CAC. Vivid shades of burnt-orange, green, and violet toning enhance the lightly marked surfaces of this impressive Gem. Vibrant mint luster and sharply detailed design elements add to the incredible eye appeal. NGC ID# 28JY, PCGS# 9281 [32002 NOIMAGE](#)

10920 1925-S California MS67 NGC. Strong gold-to-orange toning washes over most of this immensely lustrous Superb Gem, while the borders show additional turquoise elements. Fantastic all-around eye appeal for an issue seldom found finer. NGC ID# 28JY, PCGS# 9281 [14009 NOIMAGE](#)

10921 1936-D Cincinnati MS66 NGC. CAC. As was the case with the Old Spanish Trail commemoratives that were the brainchild of Hoffecker, the Cincinnati pieces conceived by numismatist Thomas G. Melish were solely designed with profit in mind. The 50th anniversary the coins purported to celebrate was bogus. However, the depiction of Stephen Foster, the “father of American music,” arguably adds to the appeal of these coins for many collectors. Among the attributes of this desirable Premium Gem representative are lovely light toning and very few abrasions, all minuscule. NGC ID# 28K2, PCGS# 9284 [1314 NOIMAGE](#)

10922 1936-D Cincinnati MS66+ PCGS. CAC. Composer Stephen Foster is depicted on the obverse of this high-end Premium Gem specimen. Foster’s composition, “Old Folks at Home,” also known as “Swanee River,” is the official state song of Florida. This coin reveals lovely satin luster and tiny splashes of wonderful toning at the outer edges of both sides. Among the colors present are yellow, red, red-orange, and teal. Population: 15 in 66+, 44 finer (2/14). NGC ID# 28K2, PCGS# 9284 [28038 NOIMAGE](#)

**1928 Hawaiian Sesquicentennial Half, MS64
Lustrous and Attractive**

10923 1928 Hawaiian MS64 NGC. This type had a low mintage of 9,958 pieces and many collectors consider it to be a key issue in the early silver commemorative series. This near-Gem Hawaiian has a pleasing satiny sheen and light, attractive toning. Surface marks are difficult to detect, making this example seem conservatively graded. NGC ID# 28KE, PCGS# 9309 [1231 STD](#)

10924 1935 Hudson MS65 NGC. Silver-to-blue and violet-pink across most of the centers with more gold-influenced toning along the margins. A pleasing Gem example of this semikey silver commemorative issue. NGC ID# 28KF, PCGS# 9312 [1389 NOIMAGE](#)

10925 1935 Hudson MS65 PCGS. CAC. Portions of the obverse reveal subtle hints of gold on this Gem, while the reverse exhibits scattered freckles of green-brown color near the rim, primarily at left. Attractive satin luster is present. A tiny spot appears near the trident. NGC ID# 28KF, PCGS# 9312 [28039 NOIMAGE](#)

1935 Hudson Half, MS67 Pristine and Sharply Struck

10926 1935 Hudson MS67 NGC. Pleasing shades of champagne-gold and lavender-gray toning enliven the pristine surfaces of this sharply detailed Hudson half dollar. From a small distribution of 10,008 pieces, this popular commemorative is seldom encountered at the Superb Gem level. Census: 29 in 67 (3 in 67 ★), 0 finer (2/14). NGC ID# 28KF, PCGS# 9312 [62002 STD](#)

10927 1936 Lynchburg MS67 PCGS. The tab-toned obverse displays iridescent sea-green and pink-red shades. The reverse has similar but more comprehensive patina. A lustrous and nearly immaculate Superb Gem of this lower mintage silver type. NGC ID# 28KM, PCGS# 9324 [1361 NOIMAGE](#)

1920 Maine Commemorative Half Dollar, MS67 Exceptional Quality and Aesthetic Appeal

10928 1920 Maine MS67 NGC. The Maine half dollar commemorated the 100th anniversary of the admission of the state of Maine to the Union. The majority of pieces that were distributed were handled carelessly by the public. Consequently, examples in the better Mint State levels are much more elusive than the fairly generous mintage of 50,028 pieces might indicate.

The silver-gray surfaces of this Superb Gem offering display impressive luster and exhibit sharply struck design elements. Both sides are impeccably preserved. This coin has great technical quality and aesthetic appeal, and as such will be the hall mark of a high-grade commemorative collection. Census: 33 in 67 (4 in 67 ★), 1 finer (2/14). NGC ID# 28KN, PCGS# 9326 [1228 STD](#)

10929 1923-S Monroe MS65 PCGS. CAC. The 1923-S Monroe half dollar is an available date in lower Mint State grades, but the issue becomes scarce above the Gem level. This well-detailed Gem displays vibrant mint luster under shades of greenish-gold and lavender patina. NGC ID# 28KT, PCGS# 9333 [28023 NOIMAGE](#)

10930 1938 Oregon PDS Set MS66 to MS67 NGC. All three coins are from the same NGC submission. The set includes: **1938 MS66 NGC**, satiny and virtually pristine, well struck, lightly toned lime-green, a deep gray area near the left end of the longbow; **1938-D MS67 NGC**, delicate gold and aqua toning, minor incompleteness of strike on the back of the wagon; and a **1938-S MS66 NGC**, fully struck, pastel gold and powder-blue patina, one tick on the wagon. (Total: 3 coins) PCGS# 9351 [27010 NOIMAGE](#)

10931 1939-D Oregon MS67 PCGS. CAC. Broad silver luster with a faint antique-gold overtone. Struck in the last year of a commemorative design that debuted in 1926, this Denver coin has a mintage of just 3,000 pieces plus assay coins. NGC ID# 28LA, PCGS# 9353 [1386 NOIMAGE](#)

10932 1939-D Oregon MS67 PCGS. CAC. A well-preserved and eye-appealing final-year example of this popular commemorative. A blush of pale ice-blue complements a sharp strike with a few light golden tints on the obverse. NGC ID# 28LA, PCGS# 9353 [28012 NOIMAGE](#)

10933 1915-S Panama-Pacific MS64 PCGS. Green-gray and gold patina covers portions of this near-Gem. The coin reveals few marks aside from a small rim tick near 3 o'clock on the obverse. The coins were struck to celebrate the opening of the Panama Canal and the recovery of San Francisco after the 1906 earthquake. NGC ID# 26H7, PCGS# 9357 [1058 NOIMAGE](#)

10934 1915-S Panama-Pacific MS64 PCGS. CAC. FS-502. The mintmark is lightly repunched north, as often seen on this conditionally scarce issue. Lovely lavender-gray toning blankets the coruscating and nicely struck surfaces. Post-strike abrasions are absent, though the high points retain a couple of faint planchet marks. NGC ID# 26H7, PCGS# 9357 [1001 NOIMAGE](#)

10935 1915-S Panama-Pacific MS64 PCGS. CAC. FS-502. The mintmark is faintly repunched north. Blended wheat-gold and dove-gray toning graces satiny, sharply struck, and unabraded surfaces. Among the conditionally scarcer classic silver types. NGC ID# 26H7, PCGS# 9357 [1240 NOIMAGE](#)

10936 1915-S Panama-Pacific MS65 ★ NGC. Splendid arcs of aquamarine, plum-red, and autumn-brown endow the margins of this lustrous and crisply struck Gem. Devoid of consequential contact, and rarely encountered with a Star designation.
Ex: Long Beach Signature (Heritage, 10/2000), lot 6547; Long Beach Signature (Heritage, 6/2007), lot 1874; Tampa FUN Signature (Heritage, 1/2011), lot 6355. NGC ID# 26H7, PCGS# 9357 [14008 NOIMAGE](#)

10937 1915-S Panama-Pacific MS65 PCGS. CAC. Rich toning is present on both sides of this Gem. The surfaces display hues of gold overall, with splashes of faint green and red also appearing. Attractive luster further enhances the eye appeal of this piece. NGC ID# 26H7, PCGS# 9357 [1004 NOIMAGE](#)

10938 1936-S Rhode Island MS67 PCGS. Rich toning provides this Superb Gem with exceptional eye appeal, with the obverse arguably being the more attractive side. The colors include hues of yellow, orange, red, and several shades of green. Neither PCGS nor NGC has awarded a higher numeric grade to a single example (2/14). NGC ID# 28LG, PCGS# 9365 [1005 NOIMAGE](#)

10939 1936-S Rhode Island MS67 PCGS. CAC. Subtle violet and tan elements at the margins along with shades of fiery orange, red, and red-brown yield to silver-white in the centers of this S-mint Superb Gem. The piece is well struck with the soft, finely textured luster peculiar to the Rhode Island design. Both sides are devoid of evident marks, a fortuitous circumstance as even minute ticks are disturbing on this issue. Excellent eye appeal, appropriately recognized by CAC. Population: 26 in 67 (6 in 67+), 0 finer (2/14).
Ex: Long Beach Signature (Heritage, 9/2008), lot 1201. NGC ID# 28LG, PCGS# 9365 [1516 NOIMAGE](#)

10940 1936 Robinson MS67 PCGS. Rich satin luster provides this lightly toned piece with lovely visual appeal. Joseph T. Robinson, an Arkansas politician, is depicted on the obverse. He was alive at the time of issue, but passed away shortly thereafter in 1937. Population: 67 in 67 (1 in 67+), 2 finer (2/14). NGC ID# 28LJ, PCGS# 9369 [1020 NOIMAGE](#)

10941 1936-D San Diego MS67 PCGS. CAC. Both sides of this Superb Gem representative exhibit light toning. The colors include hues of rose-gold, yellow-gold, and lavender. Attractive satin luster enhances the eye appeal. PCGS has not awarded a higher numeric grade to a single example (2/14). NGC ID# 28LL, PCGS# 9372 [1056 NOIMAGE](#)

10942 1926 Sesquicentennial MS65 PCGS. The 1926 Sesquicentennial half dollar is conditionally rare in grades above the Gem level. This well-detailed Gem exhibits satiny mint luster and delicate shades of pale gold and lavender toning. PCGS has graded eight numerically finer examples (2/14). NGC ID# 28LM, PCGS# 9374 [28024 NOIMAGE](#)

10943 1935 Spanish Trail MS67 NGC. This coin is exceptionally abrasion-free for a design that includes such extensive field area. The finish is fully intact, and both sides are overlaid in soft apricot-gray patina that yields to dappled olive shadings in select peripheral areas. Conditionally scarce at this lofty grade level. NGC has graded seven numerically finer examples (2/14).
Ex: Long Beach Signature (Heritage, 6/2004), lot 10174; Central States Signature (Heritage, 4/2009), lot 3408. NGC ID# 28LN, PCGS# 9376 [14010 NOIMAGE](#)

10944 1935 Texas MS67+ NGC. CAC. A high-end Superb Gem representative, this piece has a superlative appearance. Lustrous, untuned surfaces add to the appeal of this well-struck example. Close examination reveals only a few tiny marks, all minuscule. NGC ID# 28LR, PCGS# 9382 [60056 NOIMAGE](#)

1935 Texas Half Dollar, MS68 Peripheral Peach Patina

10945 1935 Texas MS68 NGC. Partial bands of peach-gold toning adorns this lustrous and nearly pristine Texas half dollar. The strike is sharp, even on the knee of the Winged Victory. Minor die ejection flatness (as struck) is noted on the eagle's lower right (facing) wing.
Ex: Long Beach Signature (Heritage, 2/2010), lot 844. NGC ID# 28LR, PCGS# 9382 [62001 STD](#)

1935-D Texas Half, MS68 Pristine and Sharply Struck

10946 1935-D Texas MS68 NGC. This NGC-certified example is tied for numeric finest of this low-mintage Texas issue at both NGC and PCGS. It offers satin-textured silvery surfaces with glints of cinnamon and charcoal sprinkled near the rims. The strike is impeccably sharp. Census: 7 in 68 (3 in 68 ★), 0 finer (2/14). NGC ID# 28LS, PCGS# 9383 [1434 STD](#)

10947 1935-S Texas MS67+ NGC. CAC. Attractive toning rings the outer edges of this high-end Superb Gem displaying silver centers. The obverse toning includes scattered splashes of color in shades of golden-orange, denim-blue, turquoise, and wine. The reverse reveals swaths of orange, yellow, lavender, and light blue-green. Census: 85 in 67 (2 in 67+, 1 in 67 ★), 2 finer (2/14). NGC ID# 28LT, PCGS# 9384 [60123 NOIMAGE](#)

1936-D Texas Commemorative, MS68 Impressive High-Grade Example

10948 1936-D Texas MS68 PCGS. CAC. An attractive frosty representative with nearly pristine surfaces. The obverse has a vibrant splash of orange and amber toning on the top half, while the reverse is mostly untuned save for hints of ice-blue around the perimeter. This impressive example is tied with several others as second-finest certified by PCGS, where only a single MS68+ coin is rated even finer. Encapsulated in an early-generation PCGS holder with a light-green label. Population: 14 in 68 (1 in 68+), 0 finer (2/14). NGC ID# 28LV, PCGS# 9387 [62004 STD](#)

1936-S Texas Commemorative Half Dollar, MS67+ Immaculately Preserved Surfaces

10949 1936-S Texas MS67+ PCGS. CAC. The design of the Texas commemorative half dollar is considered by many numismatists to be highly attractive, and ready demand exists for nicely preserved specimens. The present high-end Superb Gem is an excellent fit to this profile. A few hints of gold toning accent the obverse, while the reverse shows more highlights of reddish-gold. The design elements are sharply struck. Perhaps most significant, the lustrous surfaces have been immaculately preserved. This is particularly significant for the obverse that shows broad, wide open fields and openness on the eagle's breast and background star, where even minuscule contact marks would be severely distracting. Population: 84 in 67 (11 in 67+), 2 finer (2/14). NGC ID# 28LW, PCGS# 9388 [62003 STD](#)

10950 1927 Vermont MS66+ PCGS. CAC. This high-end Premium Gem exhibits sharply detailed design elements and vibrant mint luster throughout, with delicate shades of greenish-gold and lavender toning. Eye appeal is terrific. NGC ID# 28M6, PCGS# 9401 [60149 NOIMAGE](#)

**1927 Vermont Half, MS67
High-Relief Design, Deep Strike**

10951 1927 Vermont MS67 PCGS. A well-produced representative of the “classic” era of commemorative coins, the Vermont half is almost always boldly struck, leaving the high points of the design vulnerable to abrasions. This deeply struck piece is an exception, with a clean cheek on Ira Allen and no marks on the catamount’s shoulder. Lemon-yellow toning merges with a lilac overtones. This is an extremely attractive Vermont, fully struck and unmarked. PCGS has seen none numerically finer. Population: 28 in 67 (3 in 67+), 0 finer (2/14). NGC ID# 28M6, PCGS# 9401 [40031 STD](#)

10952 1946-D Booker T. Washington MS67 PCGS. CAC. Potent luster and areas of light, attractive toning provide this Superb Gem with strong visual appeal. The toning includes shades of orange, yellow-gold, rich pink, and violet. A few minor marks, including a couple on the portrait, do not pose a distraction on this appealing representative. Population: 42 in 67 (4 in 67+), 0 finer (2/14). NGC ID# 28M8, PCGS# 9405 [1408 NOIMAGE](#)

10953 1949-D Booker T. Washington MS67 PCGS. CAC. With a mintage of only 6,004 coins, the 1949-D is among the scarcer dates in the Booker T. Washington Memorial half dollar production run. The present example displays brilliant, fully original luster with sharply impressed design elements. Population: 27 in 67 (2 in 67+), 0 finer (2/14). NGC ID# 28MH, PCGS# 9417 [40010 NOIMAGE](#)

10954 1951-S Booker T. Washington MS67 PCGS. With a mintage of only 7,004 coins, the 1951-S is one of the lesser-seen Booker T. Washington half dollars. This piece displays mainly brilliant luster with a thin ribbon of green, rose, and champagne toning surrounding the periphery on both sides. Only a few minimal abrasions are present. Population: 43 in 67 (1 in 67+), 0 finer (2/14). NGC ID# 28MR, PCGS# 9426 [1402 NOIMAGE](#)

10955 1952-D Washington-Carver MS66 PCGS. From a low distribution of 8,006 pieces, this delightful Premium Gem displays vibrant mint luster and sharply detailed design elements, with a few hints of pale gold and pink toning. Population: 42 in 66, 0 finer (2/14). NGC ID# 28MW, PCGS# 9435 [1403 NOIMAGE](#)

COMMEMORATIVE GOLD

10956 1903 Louisiana Purchase/Jefferson MS65 PCGS. Vibrant mint luster and vivid shades of lilac and orange-gold patina are the calling cards of this attractive Gem, with well-detailed design elements and few signs of contact. NGC ID# 26HA, PCGS# 7443 [51011 NOIMAGE](#)

10957 1903 Louisiana Purchase/McKinley MS65 NGC. From a distribution of 17,500 pieces this attractive Gem displays well-detailed design elements and vibrant mint luster and the pleasing yellow-gold surfaces show a few highlights of orange. NGC ID# 26HB, PCGS# 7444 [15032 NOIMAGE](#)

10958 1904 Lewis and Clark MS64 PCGS. Produced in conjunction with the Lewis and Clark Centennial Exposition in Portland, Oregon in 1904 and 1905. This flashy near-Gem exhibits original luster with no noteworthy abrasions. Sharply struck devices are further enhanced by semiprooflike fields, delivering a healthy dose of eye appeal. NGC ID# 26HC, PCGS# 7447 [28015 NOIMAGE](#)

**1915-S Two and a Half, MS66
Panama-Pacific Exposition**

10959 1915-S Panama-Pacific Quarter Eagle MS66 PCGS. Beautiful peach-gold toning adorns this fully struck and mark-free Premium Gem. Pristine aside from a few minuscule specks of debris near 1 o'clock on the reverse. Though the designs of Barber and Morgan were out of favor by 1915, the two elderly Mint engravers were called upon for the P.P.I.E. quarter eagle, and provided memorable motifs. The obverse motif was inspired by the vaccination for Yellow Fever, and the reverse resurrects Morgan’s defiant eagle from his pattern Schoolgirl silver dollar. NGC ID# 26HK, PCGS# 7450 [70002 STD](#)

1915-S Panama-Pacific Quarter Eagle, MS66

10960 1915-S Panama-Pacific Quarter Eagle MS66 NGC. A beautifully preserved caramel-gold representative of the scarcest readily collectible Panama-Pacific issue. The caramel-gold surfaces are satiny and undisturbed. Chief Engraver Charles Barber was typically known for staid designs, but his imaginative obverse motif provides an exception. NGC ID# 26HK, PCGS# 7450 [70004 STD](#)

10961 1916 McKinley MS66 PCGS. CAC. This CAC-approved Premium Gem displays frosty orange-gold luster beneath well-preserved surfaces. A lovely example of this two-year type, struck from slightly rotated dies. NGC ID# 26HF, PCGS# 7454 [28011 NOIMAGE](#)

10962 1916 McKinley MS66+ PCGS. CAC. Pale butter-gold color and nice luster are among the attributes this high-end Premium Gem representative possesses. An extremely tiny alloy spot appears near the top of the L in MCKINLEY and a small as-made strike-through is present to the upper right of the 6 in the date. NGC ID# 26HF, PCGS# 7454 [1467 NOIMAGE](#)

1916 McKinley Gold Dollar, MS67
Virtually Unobtainable Any Finer

10963 1916 McKinley MS67 PCGS. The 1916 McKinley commemorative gold dollar is readily available through Premium Gem. The population drops significantly in MS67, and higher-grade examples are virtually unobtainable. Soft yellow-gold patina displays hints of apricot, and both sides show modest field-motif contrast, more so on the reverse. This is a well-struck, nicely preserved specimen. Population: 79 in 67, 0 finer (2/14). NGC ID# 26HF, PCGS# 7454 **1135 STD**

10964 1917 McKinley MS66 PCGS. A golden tribute to the gold-standard champion and assassinated president, this example comes from the second of two years of the Birthplace Memorial design. Rich sun-gold color invigorates the highly lustrous and minimally marked surfaces.
Ex: Long Beach Signature (Heritage, 2/2009), lot 2214. NGC ID# 26HG, PCGS# 7455 **1088 NOIMAGE**

10965 1917 McKinley MS66 PCGS. An immaculate representative bathed in exquisite ruby-red and lime-green patina. The strike is slightly shy of complete, but the eye appeal is imposing. Certified in a green label holder. NGC ID# 26HG, PCGS# 7455 **1422 NOIMAGE**

10966 1922 Grant No Star AU58 PCGS. The vivid lemon-yellow surfaces of this attractive near-Mint example display vibrant mint luster, and the strongly impressed design elements show just the slightest trace of wear. NGC ID# 26HJ, PCGS# 7458 **1406 NOIMAGE**

1922 Grant No Star Gold Dollar, MS67
Great Eye Appeal

10967 1922 Grant No Star MS67 PCGS. CAC. The Grant No Star gold commemorative dollar can be located with relatively little trouble through Superb Gem. Higher-grade pieces, however, are very elusive; PCGS has graded none, and NGC a mere five (2/14). Shimmering luster emanates from both sides of this MS67 offering and the strike is strong throughout. There are no marks of significance. Great eye appeal, aptly affirmed by CAC. NGC ID# 26HJ, PCGS# 7458 **1143 STD**

10968 1922 Grant With Star MS65 NGC. A small mintage of 5,000 Grant With Star commemorative gold dollars was distributed in 1922, to celebrate the 100th anniversary of Grant's birth. The coins were sold for \$3.50 a piece and the entire mintage sold out. The present coin is a charming specimen, with good original color, a sharp strike, and pristine surfaces. This example exhibits vibrant mint luster, an important feature as this issue sometimes comes with dull surfaces.
Ex: Houston US Coin Auction (Heritage, 12/2009), lot 1389. NGC ID# 26HH, PCGS# 7459 **25002 NOIMAGE**

10969 1926 Sesquicentennial MS64 PCGS. Full mint bloom radiates off this coin, revealing no significant abrasions. Boldly struck despite the low relief with which these pieces were produced. A fantastic near-Gem. NGC ID# 26HL, PCGS# 7466 **1352 NOIMAGE**

10970 1926 Sesquicentennial MS65 PCGS. Sharply struck with a soft orange-gold tint overall. Well-preserved surfaces display an excellent cartwheel effect when rotated under a light, with frosty luster providing fantastic eye appeal. NGC ID# 26HL, PCGS# 7466 **70001 NOIMAGE**

10971 1926 Sesquicentennial MS65 NGC. This patriotic quarter eagle incorporates depictions of Liberty, freedom, the Declaration of Independence, and Independence Hall in Philadelphia. Warm orange-gold and deeper green-gold luster blends together on this well-preserved Gem. NGC ID# 26HL, PCGS# 7466 **70003 NOIMAGE**

10972 1926 Sesquicentennial MS65 PCGS. CAC. Shimmering butter-gold surfaces with hints of orange and green provide this Gem with nice eye appeal. A couple of tiny alloy spots are present along with a minuscule dark spot near 9 o'clock on the obverse. NGC ID# 26HL, PCGS# 7466 **1460 NOIMAGE**

PROOF COMMEMORATIVE GOLD

1903 McKinley Gold Dollar, PR64 Only 100 Pieces Struck

10973 1903 Louisiana Purchase/McKinley PR64 PCGS. CAC. To commemorate the centennial anniversary of the Louisiana Purchase, two gold dollar designs were struck, one with a portrait of Thomas Jefferson on the obverse and the other with a bust of William McKinley. Both coins had a large authorized mintage, but only about 17,500 pieces of each design were actually distributed in business-strike format. Another 100 examples of each design were struck in proof. The proofs were mostly distributed to government insiders and officials of the Louisiana Purchase Exposition, rather than collectors. Proofs are seldom encountered today, as many were mishandled or spent by their non-numismatic owners.

The present coin is a sharply detailed Choice example, with frosty devices and deeply reflective fields. The pleasing yellow-gold surfaces show a few minor hairlines and contact marks, none worthy of individual mention. Eye appeal is outstanding. Population: 10 in 64, 17 finer (2/14). PCGS# 7483 [1441 OP](#)

MODERN BULLION COINS

10974 1987 Silver Eagle MS70 NGC. Awarded technically perfect status by NGC, this coin indeed reveals no surface abrasions under close examination. Brilliant surfaces and satiny luster blanket this early American Silver Eagle. NGC ID# 26J6, PCGS# 9808 [53011 NOIMAGE](#)

10975 1988 Silver Eagle MS70 NGC. The 1988 American Silver Eagle is many times more available in MS69 than in MS70. The present example is fully brilliant with satiny luster and a sharp strike. No surface imperfections are discernable upon close examination. NGC ID# 26J8, PCGS# 9816 [53010 NOIMAGE](#)

10976 1993-P Silver Eagle PR70 Deep Cameo PCGS. A desirable example of one of the keys to the series, this technically perfect piece displays strong eye appeal. The richly frosted devices contrast beautifully against the deeply mirrored fields. NGC ID# 26JK, PCGS# 9867 [1105 NOIMAGE](#)

10977 1994-P Silver Eagle PR70 Ultra Cameo NGC. An outstanding coin, perfect in both strike and preservation. Phenomenal black-and-white contrast between the frosted devices and the deeply mirrored fields displays pristine surfaces on this fully brilliant coin. NGC ID# 26JM, PCGS# 9877 [52014 NOIMAGE](#)

10978 1994 Quarter-Ounce Gold Eagle MS70 NGC. Attractive almond-gold color adds to the eye appeal of this technically perfect specimen. Strong luster, a sharp strike, and pristine surfaces are among the attributes this piece possesses. NGC ID# 26MA, PCGS# 9880 [1275 NOIMAGE](#)

1996 Silver Eagle, MS70 Lowest Mintage Among 1990s Issues

10979 1996 Silver Eagle MS70 NGC. Even though 3.6 million examples of the 1996 American Silver Eagle were produced, that represents a low point for the regular nonmintmarked series, as the flanking 1995 and 1997 issues were each well over 4 million coins. This piece is every bit as nice as the grade demands, frosty and flawless silver-white throughout both sides. NGC ID# 26JR, PCGS# 9900 [53012 STD](#)

10980 1996 One-Half Ounce Gold American Eagle MS70 NGC. A technically perfect specimen of this popular bullion issue, with fully struck design elements and lustrous yellow-gold surfaces that show no visible distractions. Census: 75 in 70 (2/14). NGC ID# 26NH, PCGS# 9906 [1421 NOIMAGE](#)

10981 1999 Quarter-Ounce Gold Eagle MS70 NGC. Rich luster and almond-gold color provide this beautifully struck piece with strong eye appeal. These coins are minted with gold mined in the United States. A minuscule planchet flake appears in the upper obverse field. NGC ID# 26MF, PCGS# 9941 [1274 NOIMAGE](#)

10982 1999 Quarter-Ounce Gold Eagle MS70 NGC. Vivid luster and appealing color add to the attractiveness of this representative. This technically perfect example exhibits pristine surfaces and exacting design definition. A lovely example from this issue. NGC ID# 26MF, PCGS# 9941 [1321 NOIMAGE](#)

10983 2009 One-Ounce Gold Ultra High Relief Twenty Dollar MS69 PCGS. A virtually perfect example of this modern Ultra High Relief double eagle. Struck in 24-karat gold and of a smaller diameter than the original double eagles. NGC ID# 26S4, PCGS# 407404 [1400 NOIMAGE](#)

**Five-Ounce Gold '1876' \$100 Union
Ultra Cameo Gem Proof**

- 10984 (2005) "1876" \$100 Gold Union Ultra Cameo Gem Proof NGC.** Made from five ounces of pure gold, per the NGC insert. This issue was struck by the private New York Mint with the Smithsonian Institute receiving a portion of the sales revenue. The designs are based on a drawing by U.S. Mint engraver George T. Morgan that was never struck as a pattern. **1325 STD**

COINS OF HAWAII

- 10985 1847 Hawaii Cent AU53 PCGS. M. 2CC-5. Plain 4. 13 berries.** A well defined example of this early and scarce Hawaiian type. Mostly chocolate-brown, though the reverse displays occasional forest-green verdigris, and the obverse is moderately granular between 8 o'clock and the left (facing) shoulder. PCGS# 10965 **28016 NOIMAGE**
- 10986 1847 Hawaii Cent MS63 Red and Brown PCGS. CAC. M. 2CC-2. Crosslet 4, 15 berries.** The reverse is principally orange-gold, though steel-blue toning on the obverse field denies a full Red designation. The minimally abraded surfaces are boldly struck and satiny. PCGS# 10966 **1002 NOIMAGE**

**1883 Hawaii Dollar, MS65
Gem Example of the Series Key**

- 10987 1883 Hawaii Dollar MS65 PCGS.** The reverse of this Gem Hawaii dollar is arguably the more attractive side, with highly lustrous surfaces revealing lighter centers. Areas of faint gold and orange toning are present, with darker shades of golden-orange, teal, and plum appearing at the outer edges. The obverse exhibits intermingled shades of teal and gold. Scattered marks are largely confined to that side, including a couple of hair thin marks. The dollar coins are the scarcest of the various 1883 denominations. Hundreds of thousands of these pieces were melted, leaving a net distribution of 46,348 pieces. Population: 11 in 65 (1 in 65+), 5 finer (2/14). PCGS# 10995 **1171 QP**

GSA DOLLARS

1880-CC GSA Dollar, MS66 Third Reverse

10988 1880-CC MS66 NGC. A stone-white Premium Gem whose vibrant cartwheel luster and exemplary preservation combine to ensure imposing eye appeal. The centers display minor incompleteness of strike. The GSA certificate and black cardboard box accompany the lot. NGC GSA Census: 94 in 66 (3 in 66+, 2 in 66 ★), 1 finer (2/14). PCGS# 407100 [1324 STD](#)

10989 1884-CC MS66 NGC. Wisps of golden patina adorn this thoroughly lustrous and sharply struck Premium Gem. The cheek is smooth and only unimportant grazes are evident. Scarce in the present quality in a GSA holder. PCGS# 407152 [1322 NOIMAGE](#)

10990 1884-CC MS66 NGC. VAM-2. The 1 in the date is clearly repunched, as is the first C in the mintmark. Well struck and essentially brilliant. Contact is minor and limited to the field above the eagle's head and on the portrait near Liberty's eye. PCGS# 407152 [1323 NOIMAGE](#)

10991 1891-CC MS62 NGC. Lightly toned and thoroughly lustrous with clean fields and moderate facial contact. A popular GSA Carson City issue. The GSA box and certificate accompany the lot. PCGS# 407206 [58005 NOIMAGE](#)

REDFIELD DOLLAR

10992 1888-S MS64+ NGC (MS65 Paramount). Still housed in its early-1980s red insert Paramount holder, but without any pedigree to the Redfield Collection. A small NGC grading certificate is attached to the back of the holder. Rich autumn-gold and jade-green patina endows the borders of this well preserved and typically struck near-Gem. NGC ID# 2557, PCGS# 7186 [60068 NOIMAGE](#)

ERRORS

1859 Cent Obverse Die Cap, MS66 Eagle Eye Photo Seal

10993 1859 Indian Cent — Obverse Die Cap — MS66 PCGS. Eagle Eye Photo Seal. Eagle Eye Photo Seal, card included. Few errors are so visually arresting as a well-preserved die cap. When a coin sticks to a die used to strike it rather than being ejected from the coining press, it will be struck again and again until it falls off or is removed. With enough impressions, the coin's metal will spread away from the central striking area and deform up around the die steel, creating a shape like a thimble or bottle cap (hence the name). In addition to showing all the classic aspects of an obverse die cap, including tall walls, a hyper-detailed obverse impression, and a strongly distorted reverse, at the MS66 grade this is one of the best-preserved 1859 cents out there, die cap or not, with the 1859 cent's status as a one-year type adding to the coin's importance. PCGS has graded 21 examples of the issue as MS66, 1 in MS66+, and none numerically finer (2/14). [66015 QP](#)

1941 Nickel on a Copper Cent
Double Denomination, VF20 Brown

10994 1941 Jefferson Nickel — Struck on a Lincoln Cent, Double Denomination — VF20 Brown NGC. Lincoln's profile, from the nose down to the bowtie, is evident on Jefferson's portrait between the cheek and the top of the collar. Traces of the right wheat ear are near E PLURIBUS UNUM. A glossy example with vivid lavender-red, sea-green, and cobalt-blue toning. [1394 STD](#)

1962-D Half Dollar, MS62
on a Silver Quarter Planchet

10995 1962-D Franklin Half Dollar — Struck on a Silver Quarter Planchet — MS62 NGC. 6.2 gm. A wrong planchet error with ideal centering. Franklin, the Liberty Bell, and the tiny eagle are all intact, as is the date and mintmark. However, LIBERTY is off the flan, as is, appropriately enough, nearly all of the denomination. Lustrous and well preserved with delicate almond-gold and ice-blue toning. [53009 STD](#)

End of Auction

Terms and Conditions of Auction

Auctioneer and Auction:

1. This Auction is presented by Heritage Auctions, a d/b/a/ of Heritage Auctioneers & Galleries, Inc., or Heritage Auctions, Inc., or Heritage Numismatic Auctions, Inc., or Heritage Vintage Sports Auctions, Inc., or Currency Auctions of America, Inc., as identified with the applicable licensing information on the title page of the catalog or on the HA.com Internet site (the "Auctioneer"). The Auction is conducted under these Terms and Conditions of Auction and applicable state and local law. Announcements and corrections from the podium and those made through the Terms and Conditions of Auctions appearing on the Internet at HA.com supersede those in the printed catalog.

Buyer's Premium:

2. All bids are subject to a Buyer's Premium which is in addition to the placed successful bid:
- Seventeen and one-half percent (17.5%) on Currency, US Coin, and World & Ancient Coin Auction lots, except for Gallery Auction lots as noted below;
- Nineteen and one-half percent (19.5%) on Comic, Movie Poster, Sports Collectibles, and Gallery Auction (sealed bid auctions of mostly bulk numismatic material) lots;
- Twenty-two percent (22%) on Wine Auction lots;
- For lots in all other categories not listed above, the Buyer's Premium per lot is twenty-five percent (25%) on the first \$100,000 (minimum \$14), plus twenty percent (20%) of any amount between \$100,000 and \$1,000,000, plus twelve percent (12%) of any amount over \$1,000,000..

Auction Venues:

3. The following Auctions are conducted solely on the Internet: Heritage Weekly Internet Auctions (Coin, Currency, Comics, Rare Books, Jewelry & Watches, Guitars & Musical Instruments, and Vintage Movie Posters); Heritage Monthly Internet Auctions (Sports, World Coins and Rare Wine). Signature® Auctions and Grand Format Auctions accept bids from the Internet, telephone, fax, or mail first, followed by a floor bidding session; HeritageLive! and real-time telephone bidding are available to registered clients during these auctions.

Bidders:

4. Any person participating or registering for the Auction agrees to be bound by and accepts these Terms and Conditions of Auction ("Bidder(s)").
5. All Bidders must meet Auctioneer's qualifications to bid. Any Bidder who is not a client in good standing of the Auctioneer may be disqualified at Auctioneer's sole option and will not be awarded lots. Such determination may be made by Auctioneer in its sole and unlimited discretion, at any time prior to, during, or even after the close of the Auction. Auctioneer reserves the right to exclude any person from the auction.
6. If an entity places a bid, then the person executing the bid on behalf of the entity agrees to personally guarantee payment for any successful bid.

Credit:

7. In order to place bids, Bidders who have not established credit with the Auctioneer must either furnish satisfactory credit information (including two collectibles-related business references) or supply valid credit card information along with a social security number, well in advance of the Auction. Bids placed through our Interactive Internet program will only be accepted from pre-registered Bidders. Bidders who are not members of HA.com or affiliates should preregister at least 48 hours before the start of the first session (exclusive of holidays or weekends) to allow adequate time to contact references. Credit will be granted at the discretion of Auctioneer. Additionally Bidders who have not previously established credit or who wish to bid in excess of their established credit history may be required to provide their social security number or the last four digits thereof so a credit check may be performed prior to Auctioneer's acceptance of a bid. Check writing privileges and immediate delivery of merchandise may also be determined by pre-approval of credit based on a combination of criteria: HA.com history, related industry references, bank verification, a credit bureau report and/or a personal guarantee for a corporate or partnership entity in advance of the auction venue.

Bidding Options:

8. Bids in Signature, Auctions or Grand Format Auctions may be placed as set forth in the printed catalog section entitled "Choose your bidding method." For auctions held solely on the Internet, see the alternatives on HA.com. Review at HA.com/common/howtobid.php.
9. Presentment of Bids: Non-Internet bids (including but not limited to podium, fax, phone and mail bids) are treated similar to floor bids in that they must be on-increment or at a half increment (called a cut bid). Any podium, fax, phone, or mail bids that do not conform to a full or half increment will be rounded up or down to the nearest full or half increment and this revised amount will be considered your high bid.
10. Auctioneer's Execution of Certain Bids. Auctioneer cannot be responsible for your errors in bidding, so carefully check that every bid is entered correctly. When identical mail or FAX bids are submitted, preference is given to the first received. To ensure the greatest accuracy, your written bids should be entered on the standard printed bid sheet and be received at Auctioneer's place of business at least two business days before the Auction start. Auctioneer is not responsible for executing mail bids or FAX bids received on or after the day the first lot is sold, nor Internet bids submitted after the published closing time; nor is Auctioneer responsible for proper execution of bids submitted by telephone, mail, FAX, e-mail, Internet, or in person once the Auction begins. Bids placed electronically via the internet may not be withdrawn until your written request is received and acknowledged by Auctioneer (FAX: 214-443-8425); such requests must state the reason, and may constitute grounds for withdrawal of bidding privileges. Lots won by mail Bidders will not be delivered at the Auction unless prearranged.
11. Caveat as to Bid Increments. Bid increments (over the current bid level) determine the lowest amount you may bid on a particular lot. Bids greater than one increment over the current bid can be any whole dollar amount. It is possible under several circumstances for winning bids to be between increments, sometimes only \$1 above the previous increment. Please see: "How can I lose by less than an increment?" on our website. Bids will be accepted in whole dollar amounts only. No "buy" or "unlimited" bids will be accepted.

The following chart governs current bidding increments for Signature auctions; Internet-only auction bidding increments are approximately half of these amounts (see HA.com/c/ref/web-tips.zx#guidelines-increments).

Current Bid	Bid Increment
< - \$10	\$1
\$10 - \$29	\$2
\$30 - \$49	\$3
\$50 - \$99	\$5
\$100 - \$199	\$10
\$200 - \$299	\$20
\$300 - \$499	\$25
\$500 - \$999	\$50
\$1,000 - \$1,999	\$100
\$2,000 - \$2,999	\$200
\$3,000 - \$4,999	\$250
\$5,000 - \$9,999	\$500

Current Bid	Bid Increment
\$10,000 - \$19,999	\$1,000
\$20,000 - \$29,999	\$2,000
\$30,000 - \$49,999	\$2,500
\$50,000 - \$99,999	\$5,000
\$100,000 - \$199,999	\$10,000
\$200,000 - \$299,999	\$20,000

\$500,000 - \$999,999	\$50,000
\$1,000,000 - \$4,999,999	\$100,000
\$5,000,000 - \$9,999,999	\$250,000
>\$10,000,000	\$500,000

12. If Auctioneer calls for a full increment, a bidder may request Auctioneer to accept a bid at half of the increment ("Cut Bid") only once per lot. After offering a Cut Bid, bidders may continue to participate only at full increments. Off-increment bids may be accepted by the Auctioneer at Signature® Auctions and Grand Format Auctions. If the Auctioneer solicits bids other than the expected increment, these bids will not be considered Cut Bids.

Conducting the Auction:

13. Notice of the consignor's liberty to place bids on his lots in the Auction is hereby made in accordance with Article 2 of the Texas Business and Commercial Code. A "Minimum Bid" is

an amount below which the lot will not sell. THE CONSIGNOR OF PROPERTY MAY PLACE WRITTEN "Minimum Bids" ON HIS LOTS IN ADVANCE OF THE AUCTION; ON SUCH LOTS, IF THE HAMMER PRICE DOES NOT MEET THE "Minimum Bid", THE CONSIGNOR MAY PAY A REDUCED COMMISSION ON THOSE LOTS. "Minimum Bids" are generally posted online several days prior to the Auction closing. For any successful bid placed by a consignor on his Property on the Auction floor, or by any means during the live session, or after the "Minimum Bid" for an Auction have been posted, we will require the consignor to pay full Buyer's Premium and Seller's Commissions on such lot.

14. The highest qualified Bidder recognized by the Auctioneer shall be the Buyer. In the event of a tie bid, the earliest bid received or recognized wins. In the event of any dispute between any Bidders at an Auction, Auctioneer may at his sole discretion reoffer the lot. Auctioneer's decision and declaration of the winning Bidder shall be final and binding upon all Bidders. Bids properly offered, whether by floor Bidder or other means of bidding, may on occasion be missed or go unrecognized; in such cases, the Auctioneer may declare the recognized bid accepted as the winning bid, regardless of whether a competing bid may have been higher. Auctioneer reserves the right after the hammer fall to accept bids and reopen bidding for bids placed through the Internet or otherwise.
15. Auctioneer reserves the right to refuse to honor any bid or to limit the amount of any bid, in its sole discretion. A bid is considered not made in "Good Faith" when made by an insolvent or irresponsible person, a person under the age of eighteen, or is not supported by satisfactory credit, collectibles references, or otherwise. Regardless of the disclosure of his identity, any bid by a consignor or his agent on a lot consigned by him is deemed to be made in "Good Faith." Any person apparently appearing on the OFAC list is not eligible to bid.
16. Nominal Bids. The Auctioneer in its sole discretion may reject nominal bids, small opening bids, or very nominal advances. If a lot bearing estimates fails to open for 40-60% of the low estimate, the Auctioneer may pass the item or may place a protective bid on behalf of the consignor.
17. Lots bearing bidding estimates shall open at Auctioneer's discretion (approximately 50%-60% of the low estimate). In the event that no bid meets or exceeds that opening amount, the lot shall pass as unsold.
18. All items are to be purchased per lot as numerically indicated and no lots will be broken. Auctioneer reserves the right to withdraw, prior to the close, any lots from the Auction.
19. Auctioneer reserves the right to rescind the sale in the event of nonpayment, breach of a warranty, disputed ownership, auctioneer's clerical error or omission in exercising bids and reserves, or for any other reason and in Auctioneer's sole discretion. In cases of nonpayment, Auctioneer's election to void a sale does not relieve the Bidder from their obligation to pay Auctioneer its fees (seller's and buyer's premium) and any other damages or expenses pertaining to the lot.
20. Auctioneer occasionally experiences Internet and/or Server service outages, and Auctioneer periodically schedules system downtime for maintenance and other purposes, during which Bidders cannot participate or place bids. If such outages occur, we may at our discretion extend bidding for the Auction. Bidders unable to place their Bids through the Internet are directed to contact Client Services at 877-HERITAGE (437-4824).
21. The Auctioneer, its affiliates, or their employees consign items to be sold in the Auction, and may bid on those lots or any other lots. Auctioneer or affiliates expressly reserve the right to modify any such bids at any time prior to the hammer based upon data made known to the Auctioneer or its affiliates. The Auctioneer may extend advances, guarantees, or loans to certain consignors.
22. The Auctioneer has the right to sell certain unsold items after the close of the Auction. Such lots shall be considered sold during the Auction and all these Terms and Conditions shall apply to such sales including but not limited to the Buyer's Premium, return rights, and disclaimers.

Payment:

23. All sales are strictly for cash in United States dollars (including U.S. currency, bank wire, cashier checks, travelers checks, eChecks, and bank money orders, and are subject to all reporting requirements). All deliveries are subject to good funds; funds being received in Auctioneer's account before delivery of the Purchases; and all payments are subject to a clearing period. Auctioneer reserves the right to determine if a check constitutes "good funds": checks drawn on a U.S. bank are subject to a ten business day hold, and thirty days when drawn on an international bank. Clients with pre-arranged credit status may receive immediate credit for payments via eCheck, personal or corporate checks. All others will be subject to a hold of 5 days, or more, for the funds to clear prior to releasing merchandise. (ref. T&C item 7 Credit for additional information.) Payments can be made 24-48 hours post auction from the My Orders page of the HA.com website.
24. Payment is due upon closing of the Auction session, or upon presentment of an invoice. Auctioneer reserves the right to void an invoice if payment in full is not received within 7 days after the close of the Auction. In cases of nonpayment, Auctioneer's election to void a sale does not relieve the Bidder from their obligation to pay Auctioneer its fees (seller's and buyer's premium) on the lot and any other damages pertaining to the lot.
25. Lots delivered to you, or your representative in the States of Texas, California, New York, or other states where the Auction may be held, are subject to all applicable state and local taxes, unless appropriate permits are on file with Auctioneer. (Note: Coins are only subject to sales tax in California on invoices under \$1500 and there is no sales tax on coins in Texas) Bidder agrees to pay Auctioneer the actual amount of tax due in the event that sales tax is not properly collected due to: 1) an expired, inaccurate, inappropriate tax certificate or declaration, 2) an incorrect interpretation of the applicable statute, 3) or any other reason. The appropriate form or certificate must be on file at and verified by Auctioneer five days prior to Auction or tax must be paid; only if such form or certificate is received by Auctioneer within 4 days after the Auction can a refund of tax paid be made. Lots from different Auctions may not be aggregated for sales tax purposes..
26. In the event that a Bidder's payment is dishonored upon presentment(s), Bidder shall pay the maximum statutory processing fee set by applicable state law. If you attempt to pay via eCheck and your financial institution denies this transfer from your bank account, or the payment cannot be completed using the selected funding source, you agree to complete payment using your credit card on file.
27. If any Auction invoice submitted by Auctioneer is not paid in full when due, the unpaid balance will bear interest at the highest rate permitted by law from the date of invoice until paid. Any invoice not paid when due will bear a three percent (3%) late fee on the invoice amount or three percent (3%) of any installment that is past due. If the Auctioneer refers any invoice to an attorney for collection, the buyer agrees to pay attorney's fees, court costs, and other collection costs incurred by Auctioneer. If Auctioneer assigns collection to its in-house legal staff, such attorney's time expended on the matter shall be compensated at a rate comparable to the hourly rate of independent attorneys.
28. In the event a successful Bidder fails to pay any amounts due, Auctioneer reserves the right to sell the lot(s) securing the invoice to any underbidders in the Auction that the lot(s) appeared, or at subsequent private or public sale, or relist the lot(s) in a future auction conducted by Auctioneer. A defaulting Bidder agrees to pay for the reasonable costs of resale (including a 10% seller's commission, if assigned to an auction conducted by Auctioneer). The defaulting Bidder is liable to pay any difference between his total original invoice for the lot(s), plus any applicable interest, and the net proceeds for the lot(s) if sold at private sale or the subsequent hammer price of the lot(s) less the 10% seller's commissions, if sold at an Auctioneer's auction.
29. Auctioneer reserves the right to require payment in full in good funds before delivery of the merchandise.
30. Auctioneer shall have a lien against the merchandise purchased by the buyer to secure payment of the Auction invoice. Auctioneer is further granted a lien and the right to retain possession of any other property of the buyer then held by the Auctioneer or its affiliates to secure payment of any Auction invoice or any other amounts due the Auctioneer or affiliates from the buyer. With respect to these lien rights, Auctioneer shall have all the rights of a secured creditor

Terms and Conditions of Auction

- under Article 9 of the Texas Uniform Commercial Code, including but not limited to the right of sale. In addition, with respect to payment of the Auction invoice(s), the buyer waives any and all rights of offset he might otherwise have against the Auctioneer and the consignor of the merchandise included on the invoice. If a Bidder owes Auctioneer or its affiliates on any account, Auctioneer and its affiliates shall have the right to offset such unpaid account by any credit balance due Bidder, and it may secure by possessory lien any unpaid amount by any of the Bidder's property in their possession.
31. Title shall not pass to the successful Bidder until all invoices are paid in full. It is the responsibility of the buyer to provide adequate insurance coverage for the items once they have been delivered to a common carrier or third-party shipper.

Delivery; Shipping; and Handling Charges:

32. Buyer is liable for shipping and handling. Please refer to Auctioneer's website www.HA.com/common/shipping.php for the latest charges or call Auctioneer. Auctioneer is unable to combine purchases from other auctions or affiliates into one package for shipping purposes. Lots won will be shipped in a commercially reasonable time after payment in good funds for the merchandise and the shipping fees is received or credit extended, except when third-party shipment occurs. Buyer agrees that Service and Handling charges related to shipping items which are not pre-paid may be charged to the credit card on file with Auctioneer.
33. Successful international Bidders shall provide written shipping instructions, including specified customs declarations, to the Auctioneer for any lots to be delivered outside of the United States. NOTE: Declaration value shall be the item(s) hammer price together with its buyer's premium and Auctioneer shall use the correct harmonized code for the lot. Domestic Buyers on lots designated for third-party shipment must designate the common carrier, accept risk of loss, and prepay shipping costs.
34. All shipping charges will be borne by the successful Bidder. On all domestic shipments, any risk of loss during shipment will be borne by Heritage until the shipping carrier's confirmation of delivery to the address of record in Auctioneer's file (carrier's confirmation is conclusive to prove delivery to Bidder; if the client has a Signature release on file with the carrier, the package is considered delivered without Signature) or delivery by Heritage to Bidder's selected third-party shipper. On all foreign shipments, any risk of loss during shipment will be borne by the Bidder following Auctioneer's delivery to the Bidder's designated common carrier or third-party shipper.
35. Due to the nature of some items sold, it shall be the responsibility for the successful Bidder to arrange pick-up and shipping through third-parties; as to such items Auctioneer shall have no liability. Failure to pick-up or arrange shipping in a timely fashion (within ten days) shall subject Lots to storage and moving charges, including a \$100 administration fee plus \$10 daily storage for larger items and \$5.00 daily for smaller items (storage fee per item) after 35 days. In the event the Lot is not removed within ninety days, the Lot may be offered for sale to recover any past due storage or moving fees, including a 10% Seller's Commission.
- 36A. The laws of various countries regulate the import or export of certain plant and animal properties, including (but not limited to) items made of (or including) ivory, whalebone, turtle shell, coral, crocodile, or other wildlife. Transport of such lots may require special licenses for export, import, or both. Bidder is responsible for: 1) obtaining all information on such restricted items for both export and import; 2) obtaining all such licenses and/or permits. Delay or failure to obtain any such license or permit does not relieve the buyer of timely compliance with standard payment terms. For further information, please contact Ron Brackemyre at 800- 872-6467 ext. 1312.
- 36B. Auctioneer shall not be liable for any loss caused by or resulting from:
- a. Seizure or destruction under quarantine or Customs regulation, or confiscation by order of any Government or public authority, or risks of contraband or illegal transportation of trade, or
 - b. Breakage of statuary, marble, glassware, bric-a-brac, porcelains, jewelry, and similar fragile articles
37. Any request for shipping verification for undelivered packages must be made within 30 days of shipment by Auctioneer.

Cataloging, Warranties and Disclaimers:

38. NO WARRANTY, WHETHER EXPRESSED OR IMPLIED, IS MADE WITH RESPECT TO ANY DESCRIPTION CONTAINED IN THIS AUCTION OR ANY SECOND OPINE. Any description of the items or second opine contained in this Auction is for the sole purpose of identifying the items for those Bidders who do not have the opportunity to view the lots prior to bidding, and no description of items has been made part of the basis of the bargain or has created any express warranty that the goods would conform to any description made by Auctioneer. Color variations can be expected in any electronic or printed imaging, and are not grounds for the return of any lot. NOTE: Auctioneer, in specified auction venues, for example, Fine Art, may have express written warranties and you are referred to those specific terms and conditions. .
39. Auctioneer is selling only such right or title to the items being sold as Auctioneer may have by virtue of consignment agreements on the date of auction and disclaims any warranty of title to the Property. Auctioneer disclaims any warranty of merchantability or fitness for any particular purposes. All images, descriptions, sales data, and archival records are the exclusive property of Auctioneer, and may be used by Auctioneer for advertising, promotion, archival records, and any other uses deemed appropriate.
40. Translations of foreign language documents may be provided as a convenience to interested parties. Auctioneer makes no representation as to the accuracy of those translations and will not be held responsible for errors in bidding arising from inaccuracies in translation.
41. Auctioneer disclaims all liability for damages, consequential or otherwise, arising out of or in connection with the sale of any Property by Auctioneer to Bidder. No third party may rely on any benefit of these Terms and Conditions and any rights, if any, established hereunder are personal to the Bidder and may not be assigned. Any statement made by the Auctioneer is an opinion and does not constitute a warranty or representation. No employee of Auctioneer may alter these Terms and Conditions, and, unless signed by a principal of Auctioneer, any such alteration is null and void.
42. Auctioneer shall not be liable for breakage of glass or damage to frames (patent or latent); such defects, in any event, shall not be a basis for any claim for return or reduction in purchase price.

Release:

43. In consideration of participation in the Auction and the placing of a bid, Bidder expressly releases Auctioneer, its officers, directors and employees, its affiliates, and its outside experts that provide second opinions, from any and all claims, cause of action, chose of action, whether at law or equity or any arbitration or mediation rights existing under the rules of any professional society or affiliation based upon the assigned description, or a derivative theory, breach of warranty express or implied, representation or other matter set forth within these Terms and Conditions of Auction or otherwise. In the event of a claim, Bidder agrees that such rights and privileges conferred therein are strictly construed as specifically declared herein; e.g., authenticity, typographical error, etc. and are the exclusive remedy. Bidder, by non-compliance to these express terms of a granted remedy, shall waive any claim against Auctioneer.
44. Notice: Some Property sold by Auctioneer are inherently dangerous e.g. firearms, cannons, and small items that may be swallowed or ingested or may have latent defects all of which may cause harm to a person. Purchaser accepts all risk of loss or damage from its purchase of these items and Auctioneer disclaims any liability whether under contract or tort for damages and losses, direct or consequential, and expressly disclaims any warranty as to safety or usage of any lot sold.

Dispute Resolution and Arbitration Provision:

45. By placing a bid or otherwise participating in the auction, Bidder accepts these Terms and Conditions of Auction, and specifically agrees to the dispute resolution provided herein. Consumer disputes shall be resolved through court litigation which has an exclusive Dallas, Texas venue clause and jury waiver. Non-consumer dispute shall be determined in binding arbitration which arbitration replaces the right to go to court, including the right to a jury trial.

46. Auctioneer in no event shall be responsible for consequential damages, incidental damages, compensatory damages, or any other damages arising or claimed to be arising from the auction of any lot. In the event that Auctioneer cannot deliver the lot or subsequently it is established that the lot lacks title, or other transfer or condition issue is claimed, in such cases the sole remedy shall be limited to rescission of sale and refund of the amount paid by Bidder; in no case shall Auctioneer's maximum liability exceed the high bid on that lot, which bid shall be deemed for all purposes the value of the lot. After one year has elapsed, Auctioneer's maximum liability shall be limited to any commissions and fees Auctioneer earned on that lot.
47. In the event of an attribution error, Auctioneer may at its sole discretion, correct the error on the Internet, or, if discovered at a later date, to refund the buyer's purchase price without further obligation.
48. Exclusive Dispute Resolution Process: All claims, disputes, or controversies in connection with, relating to and /or arising out of your Participation in the Auction or purchase of any lot, any interpretation of the Terms and Conditions of Sale or any amendments thereto, any description of any lot or condition report, any damage to any lot, any alleged verbal modification of any term of sale or condition report or description and/or any purported settlement whether asserted in contract, tort, under Federal or State statute or regulation or any claim made by you of a lot or your Participation in the auction involving the auction or a specific lot involving a warranty or representation of a consignor or other person or entity including Auctioneer { which claim you consent to be made a party} (collectively, "Claim") shall be exclusively heard by, and the claimant (or respondent as the case may be) and Heritage each consent to the Claim being presented in a confidential binding arbitration before a single arbitrator administrated by and conducted under the rules of, the American Arbitration Association. The locale for all such arbitrations shall be Dallas, Texas. The arbitrator's award may be enforced in any court of competent jurisdiction. If a Claim involves a consumer, exclusive subject matter jurisdiction for the Claim is in the State District Courts of Dallas County, Texas and the consumer consents to subject matter and in personam jurisdiction; further CONSUMER EXPRESSLY WAIVES ANY RIGHT TO TRIAL BY JURY. A consumer may elect arbitration as specified above. Any claim involving the purchase or sale of numismatic or related items may be submitted through binding PNG arbitration. Any Claim must be brought within two (2) years of the alleged breach, default or misrepresentation or the Claim is waived. Exemplary or punitive damages are not permitted and are waived. A Claim is not subject to class certification. Nothing herein shall be construed to extend the time of return or conditions and restrictions for return. This Agreement and any Claim shall be determined and construed under Texas law. The prevailing party (a party that is awarded substantial and material relief on its damage claim based on damages sought vs. awarded or the successful defense of a Claim based on damages sought vs. awarded) may be awarded its reasonable attorneys' fees and costs.
49. No claims of any kind can be considered after the settlements have been made with the consignors. Any dispute after the settlement date is strictly between the Bidder and consignor without involvement or responsibility of the Auctioneer.
50. In consideration of their participation in or application for the Auction, a person or entity (whether the successful Bidder, a Bidder, a purchaser and/or other Auction participant or registrant) agrees that all disputes in any way relating to, arising under, connected with, or incidental to these Terms and Conditions and purchases, or default in payment thereof, shall be arbitrated pursuant to the arbitration provision. In the event that any matter including actions to compel arbitration, construe the agreement, actions in aid or arbitration or otherwise needs to be litigated, such litigation shall be exclusively in the Courts of the State of Texas, in Dallas County, Texas, and if necessary the corresponding appellate courts. For such actions, the successful Bidder, purchaser, or Auction participant also expressly submits himself to the personal jurisdiction of the State of Texas.
51. These Terms & Conditions provide specific remedies for occurrences in the auction and delivery process. Where such remedies are afforded, they shall be interpreted strictly. Bidder agrees that any claim shall utilize such remedies; Bidder making a claim in excess of those remedies provided in these Terms and Conditions agrees that in no case whatsoever shall Auctioneer's maximum liability exceed the high bid on that lot, which bid shall be deemed for all purposes the value of the lot.

Miscellaneous:

52. Agreements between Bidders and consignors to effectuate a non-sale of an item at Auction, inhibit bidding on a consigned item to enter into a private sale agreement for said item, or to utilize the Auctioneer's Auction to obtain sales for non-selling consigned items subsequent to the Auction, are strictly prohibited. If a subsequent sale of a previously consigned item occurs in violation of this provision, Auctioneer reserves the right to charge Bidder the applicable Buyer's Premium and consignor a Seller's Commission as determined for each auction venue and by the terms of the seller's agreement.
53. Acceptance of these Terms and Conditions qualifies Bidder as a client who has consented to be contacted by Heritage in the future. In conformity with "do-not-call" regulations promulgated by the Federal or State regulatory agencies, participation by the Bidder is affirmative consent to being contacted at the phone number shown in his application and this consent shall remain in effect until it is revoked in writing. Heritage may from time to time contact Bidder concerning sale, purchase, and auction opportunities available through Heritage and its affiliates and subsidiaries.
54. Rules of Construction: Auctioneer presents properties in a number of collectible fields, and as such, specific venues have promulgated supplemental Terms and Conditions. Nothing herein shall be construed to waive the general Terms and Conditions of Auction by these additional rules and shall be construed to give force and effect to the rules in their entirety.

State Notices:

Notice as to an Auction in California. Auctioneer has in compliance with Title 2.95 of the California Civil Code as amended October 11, 1993 Sec. 1812.600, posted with the California Secretary of State its bonds for it and its employees, and the auction is being conducted in compliance with Sec. 2338 of the Commercial Code and Sec. 535 of the Penal Code.

Notice as to an Auction in New York City. These Terms and Conditions of Sale are designed to conform to the applicable sections of the New York City Department of Consumer Affairs Rules and Regulations as Amended. This sale is a Public Auction Sale conducted by Heritage Auctioneers & Galleries, Inc. # 41513036. The New York City licensed auctioneers are: Sam Foose, #095260; Kathleen Guzman, #0762165; Nicholas Dawes, #1304724; Ed Beardsley, #1183220; Scott Peterson, #1306933; Andrea Voss, #1320558, who will conduct the Sale on behalf of itself and Heritage Numismatic Auctions, Inc. (for Coins) and Currency Auctions of America, Inc. (for currency). All lots are subject to: the consignor's rights to bid thereon in accord with these Terms and Conditions of Sale, consignor's option to receive advances on their consignments, and Auctioneer, in its sole discretion, may offer limited extended financing to registered bidders, in accord with Auctioneer's internal credit standards. A registered bidder may inquire whether a lot is subject to an advance or a reserve. Auctioneer has made advances to various consignors in this sale. On lots bearing an estimate, the term refers to a value range placed on an item by the Auctioneer in its sole opinion but the final price is determined by the bidders.

Notice as to an Auction in Texas. In compliance with TDLR rule 67.100(c)(1), notice is hereby provided that this auction is covered by a Recovery Fund administered by the Texas Department of Licensing and Regulation, P.O. Box 12157, Austin, Texas 78711 (512) 463-6599. Any complaints may be directed to the same address.

Notice as to an Auction in Ohio: Auction firm and Auctioneer are licensed by the Dept. of Agriculture, and either the licensee is bonded in favor of the state or an aggrieved person may initiate a claim against the auction recovery fund created in Section 4707.25 of the Revised Code as a result of the licensee's actions, whichever is applicable.

Terms and Conditions of Auction

Additional Terms & Conditions:

COINS & CURRENCY

COINS and CURRENCY TERM A: Signature. Auctions are not on approval. No certified material may be returned because of possible differences of opinion with respect to the grade offered by any third-party organization, dealer, or service. No guarantee of grade is offered for uncertified Property sold and subsequently submitted to a third-party grading service. There are absolutely no exceptions to this policy. Under extremely limited circumstances, (e.g. gross cataloging error) a purchaser, who did not bid from the floor, may request Auctioneer to evaluate voiding a sale: such request must be made in writing detailing the alleged gross error; submission of the lot to the Auctioneer must be pre-approved by the Auctioneer; and bidder must notify Ron Brackemyre (1-800-8726467 Ext. 1312) in writing of such request within three (3) days of the non-floor bidder's receipt of the lot. Any lot that is to be evaluated must be in our offices within 30 days after Auction. Grading or method of manufacture do not qualify for this evaluation process nor do such complaints constitute a basis to challenge the authenticity of a lot. **AFTER THAT 30-DAY PERIOD, NO LOTS MAY BE RETURNED FOR REASONS OTHER THAN AUTHENTICITY.** Lots returned must be housed intact in their original holder. No lots purchased by floor Bidders may be returned (including those Bidders acting as agents for others) except for authenticity. Late remittance for purchases may be considered just cause to revoke all return privileges.

COINS and CURRENCY TERM B: Auctions conducted solely on the Internet **THREE (3) DAY RETURN POLICY:** Certified Coin and Uncertified and Certified Currency lots paid for within seven days of the Auction closing are sold with a three (3) day return privilege unless otherwise noted in the description as "Sold As Is, No Return Lot". You may return lots under the following conditions: Within three days of receipt of the lot, you must first notify Auctioneer by contacting Client Service by phone (877-HERITAGE (437-4824)) or e-mail (Bid@HA.com), and immediately ship the lot(s) fully insured to the attention of Returns, Heritage, 3500 Maple Avenue, 17th Floor, Dallas TX 75219-3941. Lots must be housed intact in their original holder and condition. You are responsible for the insured, safe delivery of any lots. A non-negotiable return fee of 5% of the purchase price (\$10 per lot minimum) will be deducted from the refund for each returned lot or billed directly. Postage and handling fees are not refunded. After the three-day period (from receipt), no items may be returned for any reason. Late remittance for purchases revokes these Return privileges.

COINS and CURRENCY TERM C: Bidders who have inspected the lots prior to any Auction, or attended the Auction, or bid through an Agent, will not be granted any return privileges, except for reasons of authenticity.

COINS and CURRENCY TERM D: Coins sold referencing a third-party grading service are sold "as is" without any express or implied warranty, except for a guarantee by Auctioneer that they are genuine. Certain warranties may be available from the grading services and the Bidder is referred to them for further details: Numismatic Guaranty Corporation (NGC), P.O. Box 4776, Sarasota, FL 34230, <http://www.ngccoin.com/services/writtenguarantee.asp>; Professional Coin Grading Service (PCGS), PO Box 9458, Newport Beach, CA 92658, <http://www.pcgsc.com/guarantee.html>; ANACS, 6555 S. Kenton St. Ste. 303, Englewood, CO 80111; and Independent Coin Grading Co. (ICG), 7901 East Bellevue Ave., Suite 50, Englewood, CO 80111.

COINS and CURRENCY TERM E: Notes sold referencing a third-party grading service are sold "as is" without any express or implied warranty, except for guarantee by Auctioneer that they are genuine. Grading, condition or other attributes of any lot may have a material effect on its value, and the opinion of others, including third-party grading services such as PCGS Currency, PMG, and CGA may differ with that of Auctioneer. Auctioneer shall not be bound by any prior or subsequent opinion, determination, or certification by any grading service. Bidder specifically waives any claim to right of return of any item because of the opinion, determination, or certification, or lack thereof, by any grading service. Certain warranties may be available from the grading services and the Bidder is referred to them for further details: Paper Money Guaranty (PMG), PO Box 4711, Sarasota FL 34230; PCGS Currency, PO Box 9458, Newport Beach, CA 92658; Currency Grading & Authentication (CGA), PO Box 418, Three Bridges, NJ 08887. Third party graded notes are not returnable for any reason whatsoever.

COINS and CURRENCY TERM F: Since we cannot examine encapsulated coins or notes, they are sold "as is" without our grading opinion, and may not be returned for any reason. Auctioneer shall not be liable for any patent or latent defect or controversy pertaining to or arising from any encapsulated collectible. In any such instance, purchaser's remedy, if any, shall be solely against the service certifying the collectible.

COINS and CURRENCY TERM G: Due to changing grading standards over time, differing interpretations, and to possible mishandling of items by subsequent owners, Auctioneer reserves the right to grade items differently than shown on certificates from any grading service that accompany the items. Auctioneer also reserves the right to grade items differently than the grades shown in the prior catalog should such items be reconsigned to any future auction.

COINS and CURRENCY TERM H: Although consensus grading is employed by most grading services, it should be noted as aforesaid that grading is not an exact science. In fact, it is entirely possible that if a lot is broken out of a plastic holder and resubmitted to another grading service or even to the same service, the lot could come back with a different grade assigned.

COINS and CURRENCY TERM I: Certification does not guarantee protection against the normal risks associated with potentially volatile markets. The degree of liquidity for certified coins and collectibles will vary according to general market conditions and the particular lot involved. For some lots there may be no active market at all at certain points in time.

COINS and CURRENCY TERM J: All non-certified coins and currency are guaranteed genuine, but are not guaranteed as to grade, since grading is a matter of opinion, an art and not a science, and therefore the opinion rendered by the Auctioneer or any third party grading service may not agree with the opinion of others (including trained experts), and the same expert may not grade the same item with the same grade at two different times. Auctioneer has graded the non-certified numismatic items, in the Auctioneer's opinion, to their current interpretation of the American Numismatic Association's standards as of the date the catalog was prepared. There is no guarantee or warranty implied or expressed that the grading standards utilized by the Auctioneer will meet the standards of any grading service at any time in the future.

COINS and CURRENCY TERM K: Storage of purchased coins and currency: Purchasers are advised that certain types of plastic may react with a coin's metal or transfer plasticizer to notes and may cause damage. Caution should be used to avoid storage in materials that are not inert.

COINS and CURRENCY TERM L: NOTE: Purchasers of rare coins or currency through Heritage have available the option of arbitration by the Professional Numismatists Guild (PNG); if an election is not made within ten (10) days of an unresolved dispute, Auctioneer may elect either PNG or A.A.A. Arbitration.

COINS and CURRENCY TERM M: For more information regarding Canadian lots attributed to the Charlton reference guides, please contact: Charlton International, PO Box 820, Station Willowdale B, North York, Ontario M2K 2R1 Canada.

COINS and CURRENCY TERM N: Some of the lots offered herein have been assigned to 1031 Services, Inc. for the purpose of consignor's tax deferred exchange.

For wiring instructions call the Credit department at 877-HERITAGE (437-4824) or e-mail: CreditDept@HA.com

New York State Auctions Only

Notice as to an Auction in New York City. These Terms and Conditions of Sale are designed to conform to the applicable sections of the New York City Department of Consumer Affairs Rules and Regulations as Amended. This sale is a Public Auction Sale conducted by Heritage Auctioneers & Galleries, Inc. # 41513036. The New York City licensed auctioneers are: Sam Foose, #095260; Kathleen Guzman, #0762165; Nicholas Dawes, #1304724; Ed Beardsley, #1183220; Scott Peterson, #1306933; Andrea Voss, #1320558, Michael J. Sadler, # 1304630, who will conduct the Sale on behalf of itself and Heritage Numismatic Auctions, Inc. (for Coins) and Currency Auctions of America, Inc. (for currency). All lots are subject to: the consignor's rights to bid thereon in accord with these Terms and Conditions of Sale, consignor's option to receive advances on their consignments, and Auctioneer, in its sole discretion, may offer limited extended financing to registered bidders, in accord with Auctioneer's internal credit standards. A registered bidder may inquire whether a lot is subject to an advance or a reserve. Auctioneer has made advances to various consignors in this sale. On lots bearing an estimate, the term refers to a value range placed on an item by the Auctioneer in its sole opinion but the final price is determined by the bidders. Rev 11-19-12

DOMAIN NAMES & INTELLECTUAL PROPERTY AUCTION

NOW ACCEPTING CONSIGNMENTS

HAVE YOU PURCHASED ATTRACTIVE DOMAIN NAMES BUT NEVER USED THEM?

The domain resale market is hotter than ever

WHAT MAKES A DOMAIN NAME VALUABLE?

Top domain word combinations have been registered for years however the growth of commerce across the internet has fueled a large and lucrative secondary market. Each year tens of thousands of domain transactions take place and dozens of these names fetch six or seven figures privately and at auction. In fact, the top 150 publicly-disclosed domain sales each realized more than \$500,000 with 11 prices exceeding \$5 million.

The most valuable domains are generally assigned to three categories: **One or two word domains** pertaining to a product or service (Tablets.com, Animation.com); **Generic domains** suitable for branding purposes (Hemisphere.com, Gazelle.com); and **shorter, two- and three-letter acronyms** perfect for abbreviating large corporate names or tech terms (QR.com, AIE.com).

Heritage Auctions has buyers and clients actively seeking names that match up with the above requirements. Contact Aron Meystedt to get started.

Highlights from our Inaugural \$1.6+ Million November 2013 auction:

QR.com \$230,000

XZ.com \$138,000

Animation.com \$112,125

Hemisphere.com \$34,500

AIE.com \$23,000

BusinessPhones.com \$23,000
